BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP24–20–001]

Wyoming Interstate Company, L.L.C.; Notice of Request for Extension of Time

Take notice that on December 16, 2024, Wyoming Interstate Company,

L.L.C. (WIC) requested that the Commission grant an extension of time, until June 1, 2025, to complete construction and place into service the Cheyenne to Piceance Expansion Project (Project) located in Sweetwater County, Wyoming. On December 6, 2023, the Commission issued a Notice of Request Under Blanket Authorization, which established a 60-day comment period, ending on February 5, 2024, to file protests. No protests were filed during the comment period, and accordingly the project self-implemented on February 5, 2024. By Rule, the Project should have been constructed and place into service by February 5, 2025.

WIC states that it has encountered delays due to contractor-related issues that pushed construction from the second quarter of 2024 to August 21, 2024, resulting in winter-related slowdowns, and industry-wide delivery delays for key equipment like axial check valves and valve actuators, with actuators not available until April 2025. These challenges have significantly impacted the construction timeline and required an updated schedule.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on WIC's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,¹ the Commission will aim to issue an order acting on the request within 45 days.² The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.³ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience

¹ Contested proceedings are those where an intervenor disputes any material issue of the filing. 18 CFR 385.2201(c)(1).

and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁴ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁵ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.
