SUPPLEMENTARY INFORMATION:

Background

On October 10, 2023, Commerce published the preliminary results of this administrative review, and we invited interested parties to comment.¹ On November 9, 2023, the Florida Tomato Exchange (FTE), a member of the U.S. petitioning industry, filed a case brief.² On November 16, 2023, Ceuta and VALHPAC filed a joint rebuttal brief.³ Commerce extended the date for the publication of the final results until December 16, 2024.⁴ On December 9, 2024, Commerce tolled the deadlines for all preliminary and final determinations by 90 days.⁵

Scope of 2019 Agreement

The merchandise subject to this 2019 Agreement is all fresh or chilled tomatoes (fresh tomatoes) which have Mexico as their origin, except for those tomatoes which are for processing. For purposes of this 2019 Agreement, processing is defined to include preserving by any commercial process, such as canning, dehydrating, drying, or the addition of chemical substances, or converting the tomato product into juices, sauces, or purees. In Appendix F of this 2019 Agreement, Commerce has outlined the procedure that Signatories must follow for selling subject merchandise for processing. Fresh tomatoes that are imported for cutting up, not further processing (e.g., tomatoes used in the preparation of fresh salsa or salad bars), are covered by this 2019 Agreement. Commercially grown tomatoes, both for the fresh market and for processing, are classified as *Lycopersicon esculentum*. Important commercial varieties of fresh tomatoes include common round, cherry, grape,

plum, greenhouse, and pear tomatoes, all of which are covered by this 2019 Agreement. Tomatoes imported from Mexico covered by this 2019 Agreement are classified under the following subheading of the Harmonized Tariff Schedules of the United States (HTSUS), according to the season of importation: 0702. Although this HTSUS number is provided for convenience and customs purposes, the written description of the scope of this Agreement is dispositive.

A full description of the scope of the 2019 Agreement is also contained in the Issues and Decision Memorandum.

Analysis

Commerce continues to find, based on record evidence, that the selected respondents, Ceuta and VALHPAC, were in compliance with the terms of the 2019 Agreement during the POR, with the exception of certain inconsequential or inadvertent non-compliance. Overall, Commerce finds that there have been no material or consequential violations of the 2019 Agreement by the selected respondents during the POR. We also determine that the 2019 Agreement is meeting the applicable statutory requirements for a suspension agreement, e.g., preventing price suppression or undercutting, and effective monitoring is practicable.

The issues raised in the case and rebuttal briefs are addressed in the accompanying Issues and Decision Memorandum. The issues are identified in the appendix to this notice. the record to address those comments, we made changes to the preliminary weighted-average dumping margin calculations for Oman Fasteners, as detailed in the Issues and Decision Memorandum.⁶

Final Results of Review

As a result of this review, we determine the following weighted-average dumping margin exists for the POR:

Exporter or producer	Weighted-average dumping margin (percent)
Oman Fasteners, LLC	0.00

Disclosure

Commerce intends to disclose the calculations performed for these final results within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Assessment Rates

Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with these final results of review.⁷ Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. Where the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Commerce's "automatic assessment" practice will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise it sold to the intermediary (*e.g.*, a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.⁸
