Title: Transit COVID–19 Response Program.

OMB Control Number: 2132–0581.

Background: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Federal Transit Administration (FTA) is requesting a three-year approval without change of an existing information collection from the Office of Management and Budget (OMB). Although the Public Health Emergency for the COVID–19 pandemic ended in May 2023 and the FTA discontinued COVID–19 reporting requirements in September 2022, the FTA is seeking to renew this information collection to ensure that an existing framework can be readily updated to address future health emergencies. This renewal would allow the FTA to respond more swiftly to future public health emergencies by gathering data on their impact on the transit industry.

FTA began collecting monthly data in April 2021 related to impacts from the

coronavirus disease 2019 (COVID–19) on public transportation agencies, including transit workforce counts; transit service levels; counts of COVID–19 positives, fatalities, recoveries, and unvaccinated employees; whether or not a transit agency has implemented the U.S. Centers for Disease Control and Prevention (CDC) Order and Transportation Security Administration (TSA) Security Directive requiring workers and passengers to wear masks; and whether or not the agency used FTA funds to support vaccine access services. FTA used this data to inform FTA’s COVID–19 response and recovery actions, including monitoring of safety measures and impacts, development of technical assistance and safety advisories, monitoring use of FTA grant funds to address COVID–19 considerations, and monitoring compliance with Federal requirements.

Current Action: Extension without change of a currently approved collection.

Respondents: Recipients and sub-recipients of FTA funds under the Urbanized Area Formula Funding program or the Formula Grants for Rural Areas program that operate transit systems or pass-through funds to sub-recipients that operate transit systems. Recipients of FTA funds under the Enhanced Mobility of Seniors and Individuals with Disabilities program were requested to provide this information on a voluntary basis.

Estimated Total Annual Respondents: 2,390.

Estimated Annual Total Responses: 28,680.

Estimated Annual Burden Hours on Respondents: 10,356.

Frequency: As needed.

Kusum Dhyani,

Director, Office of Management Planning.
