II. Judicial Review

Section 307(b)(1) of the CAA indicates which Federal Courts of Appeal have venue for petitions of review of final actions by the EPA. This section provides, in part, that “a petition for review of action of the Administrator in promulgating . . . any standard of performance or requirement under section [111] of [the CAA],” or any other “nationally applicable” final action, “may be filed only in the United States Court of Appeals for the District of Columbia.” The EPA has determined that its action denying the petition for reconsideration is nationally applicable for purposes of CAA section 307(b)(1) because the action directly relates to the Risk Management Program regulations promulgated under CAA section 112(r), which are nationally applicable requirements. Thus, any petition for review of the final letter denying the petition for reconsideration must be filed in the Court of Appeals for the District of Columbia Circuit on or before February 28, 2025.

Michael S. Regan,
Administrator.
