SUPPLEMENTARY INFORMATION: Congress established the Cybersecurity and Infrastructure Security Agency (CISA) in the Cybersecurity and Infrastructure Security Act of 2018, Public Law 115-278 (2018). As part of CISA's responsibilities, Congress authorized CISA to provide analyses, expertise, and other assistance to critical infrastructure owners and operators upon request. 6 U.S.C. 652(c)(5).

CISA serves as Sector Risk Management Agency (SRMA) for the Chemical Sector. CISA has established ChemLock, which is voluntary program for facilities that possess dangerous chemicals. This ICR consolidates and clarifies CISA collection of information in support of ChemLock. While some ChemLock services are currently available leveraging other approved information collections, this ICR when approved, will allow for an additional ChemLock service.

CISA proposes three instruments within this information collection: (1) ChemLock Request for Services; (2) ChemLock Service Registration and Preparation; and (3) ChemLock Service Feedback.

ChemLock Program Request for Services

This instrument collects basic contact information from individuals requesting a ChemLock service such as: (a) security consultations; (b) technical consultations, (c) onsite assessments and assistance, (d) exercises and drills, (e) training courses, (f) access to other

tailored resources, and (g) risk assessments. In addition, the instrument will collect facility identifying information, facility description information, and information about the chemicals present at the facility.

ChemLock Service Registration and Preparation

This instrument collected information to enable the ChemLock services which need additional information to be performed. The ChemLock services which need additional information to be performed are security consultations, onsite assessments and assistance, and risk assessments.

ChemLock Service Feedback Collection

This instrument will collect information related to feedback about ChemLock related services such as: which ChemLock service was provided and when, program outcomes, satisfaction, and performance of the staff involved in providing the ChemLock service.
