SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Continuum of Care (CoC) Program Homeless Assistance Grant Application.

OMB Approval Number: 2506-0112.

Type of Request: Extension of currently approved collection.

Description of the need for the information and proposed use: This submission is to request an extension of an existing collection in use with OMB Control Number 2506-0112, for the Recordkeeping for HUD's Continuum of Care Program grant application.

The CoC Consolidated Application has three parts: the CoC Application, CoC Priority Listing that lists all project applications with a rank number determined by CoCs in their local competition process, and Project Applications. HUD requires the submission of CoC applications from Collaborative Applicants to capture information related to the CoC's overall performance toward addressing homelessness (e.g., reducing the number of homelessness, increasing income), coordination with other federal and non-federal partners, planning process (e.g., reducing homelessness, length of time homeless), and other criteria required by the statute and current Administration policies. The information provided in CoC applications is reviewed and scored by HUD to determine the order in which HUD will select projects based on the ranking communicated in the CoC Priority Listing. The CoC Priority Listing collection notifies HUD if CoCs are reallocating current projects to create new projects and most importantly, to rank project applications with a unique number for funding consideration by HUD and determines the order in which projects are selected in order of each CoC. Project applications collect information for eligibility and quality threshold review to determine suitability for funding consideration. Successful project applications selected
