**SUPPLEMENTARY INFORMATION:**

**I. Purpose of this Notice**

Pursuant to 40 CFR 155.50(b), this notice announces the availability of the EPA’s work plans and registration review case dockets for the pesticides shown in table 1 and opens a 60-day public comment period on the work plans and case dockets.

TABLE 1—WORK PLANS BEING MADE AVAILABLE FOR PUBLIC COMMENT

DEET Case Number 0002 .....	EPA-HQ-OPP-2012-0162	Caleb Carr, <a href="mailto:carr.caleb@epa.gov">carr.caleb@epa.gov</a> , (202) 566-0636.

**II. Background**

EPA is conducting its registration review of the chemical as listed in table 1 of unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)).

Pursuant to 40 CFR 155.50, EPA initiates a registration review by establishing a public docket for a pesticide registration review case. Registration review dockets contain information that will assist the public in understanding the types of information and issues that the Agency has consider during registration review. Consistent with 40 CFR 155.50(a), these dockets may include information from the Agency’s files including, but not limited to, an overview of the registration review case status, a list of current product registrations and registrants, any **Federal Register** notices regarding any pending registration actions, any **Federal Register** notices regarding current or pending tolerances, risk

assessments, bibliographies concerning current registrations, summaries of incident data, and any other pertinent data or information. EPA includes in these dockets a Preliminary Work Plan (PWP), and in some cases a continuing work plan (CWP), summarizing information EPA has on the pesticide and the anticipated path forward.

Consistent with 40 CFR 155.50(b), EPA provides for at least a 60-day public comment period on work plans and registration review dockets. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary changes to a pesticide’s workplan. During this public comment period, the Agency is asking that interested persons

identify any additional information they believe the agency should consider during the registration reviews of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

#### SUPPLEMENTARY INFORMATION:

### I. Executive Summary

#### A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

#### B. What is EPA’s authority for taking this action?

FIFRA section 6(f)(1) (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request.

FIFRA section 4(i)(5) (7 U.S.C. 136a–1(i)(5)) requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in effect. This requirement applies to all registrations granted under FIFRA section 3 (7 U.S.C. 136a) as well as those granted under FIFRA section 24(c) (7 U.S.C. 136v(c)) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing. Under FIFRA, the EPA Administrator may reduce or waive maintenance fees for minor agricultural use pesticides when it is determined that the fee would be likely to cause significant impact on the availability of the pesticide for the use.

#### C. What action is the Agency taking?

This cancellation order follows a notice of receipt and opportunity for
