

that notice and comment rulemaking procedures are impracticable, unnecessary or contrary to the public interest (5 U.S.C. 808(2)). The EPA has made a good cause finding for this rule as discussed in the **SUPPLEMENTARY INFORMATION** section. The EPA has determined that there is good cause for making this correction final without prior proposal. In this instance, notice and opportunity for comment is unnecessary because this action implements a minor, non-substantive technical correction that conforms the regulatory text to the rule's preamble.

List of Subjects in 40 CFR Part 50

Environmental protection, Air pollution control, Ozone.

Joseph Goffman,

Assistant Administrator, Office of Air and Radiation.

Accordingly, the EPA corrects FR Doc. 2023–22531 and 40 CFR part 50 as follows:

Federal Register Correction

In FR Doc. 2023–22531, at 88 FR 70595 in the **Federal Register** of October 12, 2023, on page 70597, in the first column, the second, third and fourth sentences of the last paragraph are corrected to read as follows:

“The absorption cross-section value stated in this appendix ($304.39 \text{ atm}^{-1} \text{ cm}^{-1} \pm 0.94 \text{ atm}^{-1} \text{ cm}^{-1}$) will be used in all U.S. Standard Reference Photometers (SRPs) beginning January 1, 2025. It is expected that implementation across all other ozone transfer standards and ozone monitors in the field will be completed by December 31, 2026.”

PART 50—NATIONAL PRIMARY AND SECONDARY AMBIENT AIR QUALITY STANDARDS

■ 1. The authority citation for part 50 continues to read as follows:

Authority: 42 U.S.C. 7401, *et seq.*

* * * * *

■ 2. Amend Appendix D to Part 50 by revising section 2.2 to read as follows:

Appendix D to Part 50—Reference Measurement Principle and Calibration Procedure for the Measurement of Ozone in the Atmosphere (Chemiluminescence Method)

* * * * *

2.2 The measurement system is calibrated by referencing the instrumental chemiluminescence measurements to certified O₃ standard concentrations generated in a dynamic flow system and assayed by ultraviolet (UV) photometry to be traceable to a National Institute of Standards and Technology (NIST) standard reference

photometer for O₃ (see Section 4, Calibration Procedure, below) with a specified ozone absorption cross-section value. The absorption cross-section value stated in section 4.1 and section 4.5.3.10 of this appendix ($304.39 \text{ atm}^{-1} \text{ cm}^{-1} \pm 0.94 \text{ atm}^{-1} \text{ cm}^{-1}$) will begin use in all U.S. Standard Reference Photometers (SRPs) on January 1, 2025. It is expected that implementation across all other ozone transfer standards and ozone monitors in the field will be completed by December 31, 2026.

Clean Air Act Operating Permit Program; Notice of Issuance of Title V Federal Operating Permit to Deseret Generation and Transmission Co-operative

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of final action.

SUMMARY: The Environmental Protection Agency (EPA) issued a final permit decision under title V of the Clean Air Act (CAA) to Deseret Bonanza and Transmission Co-operative (Deseret) for the operation of Deseret's Uintah County, Utah, Bonanza Power Plant (Bonanza).

DATES: EPA issued title V Permit to Operate No. V–UO–000004–2019.00 to Deseret on December 4, 2023, under 40 CFR part 71. This permit was appealed to the Environmental Appeals Board by the Ute Tribe of Utah. The Board denied review of the permit on September 10, 2024, and EPA issued the final permit decision on December 17, 2024. Pursuant to section 307(b)(1) of the CAA, judicial review of EPA's final permit decision, to the extent it is available, may be sought by filing a petition for review in the United States Court of Appeals for the Tenth Circuit by March 17, 2025.

FOR FURTHER INFORMATION CONTACT: Suman Kunwar, Air and Radiation Division, EPA, Region 8, Mailcode 8ARD–AP–P, 1595 Wynkoop Street, Denver, Colorado, 80202–1129, telephone number: (303) 312–6095, email address: kunwar.suman@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document wherever “we,” “us,” or “our” is used, we mean the EPA. This **SUPPLEMENTARY INFORMATION** is arranged as follows:

I. How can I get copies of this document and other related information?

EPA has established a docket for this action under Docket ID No. EPA–R08–OAR–2019–0350. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Environmental Protection Agency, Region 8, Air and Radiation Division, 1595 Wynkoop Street, Denver, Colorado 80202. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Suman Kunwar, Environmental Engineer, at (303) 312–6095 with any questions about reviewing the docket material before visiting the Region 8 office.

II. Background

The 1990 amendments to the CAA established a comprehensive air quality permit program under the authority of Title V of the CAA. Title V requires certain facilities that emit large amounts of air pollution, or that meet other specified criteria, to obtain an operating permit, known as a title V permit, after the source has begun to operate. This permit is an enforceable compilation of all enforceable terms, conditions, and limitations applicable to the source, and is designed to improve compliance by clarifying what facilities must do to control air pollution. EPA regulations implementing title V are codified at 40 CFR part 71 for permits issued by EPA or its delegates, and at 40 CFR part 70 for permits issued by states and local agencies pursuant to approved programs. A title V permit is valid for no more than five years and may be renewed in five-year-increments.

Deseret operates a facility, Bonanza, in Uintah County, Utah. Bonanza is a coal-fired power plant located on the Uintah and Ouray Reservation. Coal is delivered to the Facility by train and is crushed and pulverized before being fed into the main boiler. The boiler produces steam, which powers a turbine to generate electricity. On December 5, 2014, EPA Region 8 issued an initial title V Permit to Deseret for Bonanza pursuant to 40 CFR part 71.

On December 4, 2023, EPA Region 8 renewed Deseret's Title V permit for a new five-year term. See title V Permit to Operate No. V–UO–000004–2019.00, Docket ID: EPA–R08–OAR–2019–0350. On January 3, 2024, the Ute Indian Tribe filed an appeal of the title V permit for Bonanza with the Environmental Appeals Board. The Tribe did not petition to review certain terms and conditions of the renewed title V permit but contended that the Region failed to

address the Tribe’s concerns about the health and environmental impacts of the Bonanza plant and acted contrary to Executive Orders and EPA policies regarding environmental justice and Tribal consultation, and contrary to the Federal trust responsibility to federally-recognized Indian Tribes. In addition, the Tribe asserted that EPA abused its discretion and violated the Federal trust responsibility by not providing the results of an investigation identifying potential non-compliance with coal combustion residual requirements under the Resource Conservation and Recovery Act (“RCRA”) until after the CAA title V permit was issued. Consequently, under 40 CFR 71.11(i)(2)(ii), the effective date of the permit was delayed.

III. Effect of this Action

On September 10, 2024, the EAB denied the petition for review. See *In re Deseret Generation and Transmission Co-operative Bonanza Power Plant*, Permit No. V–UO–000004–2019.00, CAA Appeal No. 24–01 (EAB, September 10, 2024) (Order Denying Review). The Tribe requested that the EAB reconsider its Order Denying Review and on November 8, 2024, the EAB denied the Tribe’s Motion for Reconsideration. Following the EAB’s action, pursuant to 40 CFR 124.19(l)(2)(i), the EPA issued a final permit decision on December 17, 2024. The final title V permit is effective immediately and will expire on December 17, 2029.

Authority: 42 U.S.C. 7401 *et seq.*

KC Becker,

Regional Administrator, Region 8.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R09–OAR–2022–0607; FRL–10024–03–R9]

Air Plan Approval; Arizona; Maricopa County Air Quality Department

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the Maricopa County Air Quality Department (MCAQD or “County”) portions of the Arizona State Implementation Plan (SIP). These revisions concern the County’s reasonably available control technology (RACT) demonstration for the aerospace coating category and negative declarations for the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS or “standards”) in the portion of the Phoenix-Mesa ozone nonattainment area regulated by the MCAQD, as well as a rule covering emissions of volatile organic compounds (VOCs) from surface coatings and industrial adhesives. We are also approving a local rule that regulates these emission sources under the Clean Air Act (CAA or “the Act”).

DATES: This rule is effective February 18, 2025.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R09–OAR–2022–0607. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as

copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information. If you need assistance in a language other than English or if you are a person with a disability who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Nicole Law, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105. By phone: (415) 947–4126 or by email at Law.Nicole@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.

Table of Contents

- I. Proposed Action and Interim Final Determination
- II. Public Comments and EPA Responses
- III. EPA Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Proposed Action and Interim Final Determination

On August 4, 2022 (87 FR 47663), the EPA proposed to approve a RACT certification for Aerospace Manufacturing and Rework Operations, Rule 336 “Surface Coating Operations and Industrial Adhesive Application Processes,” and negative declarations for the 2008 8-hour ozone NAAQS. The following table lists the documents that were submitted by the Arizona Department of Environmental Quality (ADEQ) for incorporation into the Arizona SIP and were the subject of our August 4, 2022 proposed rulemaking action.

Local agency	Document	Adopted	Submitted
MCAQD	Maricopa County Reasonably Available Control Technology (RACT) Certification for Volatile Organic Compound (VOC) Emissions from Aerospace Manufacturing and Rework Operations In Maricopa County June 2021.	06/23/21	06/30/21
MCAQD	Rule 336 Surface Coating Operations and Industrial Adhesive Application Processes.	09/01/21	09/17/21
MCAQD	Negative Declarations for Three Coating Categories Listed in the 2008 Control Techniques Guidelines for Miscellaneous Metal and Plastic Parts Coatings.	09/01/21	09/17/21

We proposed to approve the RACT certification, rule, and negative declarations because we determined that they comply with the relevant CAA requirements. Our proposed action contains more information on the RACT certification, rule, negative declarations,

and our evaluation. On the same day, we also made an interim final determination (87 FR 47630) that the submittal from the ADEQ corrected SIP deficiencies from a previous submittal, allowing us to defer the imposition of sanctions resulting from our previous

disapproval action concerning ozone nonattainment requirements.
