

Indian Country (Gasoline Dispensing Facility General Permit) on September 18, 2024.¹ This approval pertains to the construction and operation of the Viejas Pit Stop (Source), a gasoline dispensing facility, to be located on the Viejas Band of Kumeyaay Indians Reservation, in Alpine, California. The EPA issued the approval pursuant to the provisions of Clean Air Act sections 110(a) and 301(d) and the EPA's Tribal Minor NSR Program at 40 CFR 49.151–49.164. The EPA based its approval on its determination that the Source meets the criteria qualifying it for coverage and that the Source is eligible for coverage under the Gasoline Dispensing Facility General Permit.

The EPA's Clean Air Act approval for the Source is a final agency action for purposes of judicial review only for the issue of whether the Source qualifies for coverage under the Gasoline Dispensing Facility General Permit. 40 CFR 49.156(e)(6).

Dated: January 8, 2025.

Martha Guzman Aceves,

Regional Administrator, Region IX.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Implementation of the 8-Hour National Ambient Air Quality Standards for Ozone (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Implementation of the 8-hour National Ambient Air Quality Standards for Ozone (EPA ICR Number 2347.05, OMB Control Number 2060–0695) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2025.

¹ The Gasoline Dispensing Facility General Permit was issued by the EPA under the Tribal Minor NSR Program on May 1, 2019, and the permit became effective June 12, 2019. 84 FR 20879 (May 13, 2019). This permit is available at <https://www.epa.gov/caa-permitting/air-permits-gas-stations-tribal-lands-california>.

Public comments were previously requested, via the **Federal Register**, on August 15, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before February 18, 2025.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2020–0415, to EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Mr. Francis Oggeri, Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (919) 541–3255; email address: oggeri.francis@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through January 31, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Public comments were previously requested via the **Federal Register** on August 15, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments. Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional

information about EPA's public docket, visit <https://www.epa.gov/dockets>.

Abstract: This ICR that estimates the burden on states for implementation-related activities associated with the 2008 and 2015 ozone NAAQS. States with nonattainment areas for the 2008 and 2015 ozone NAAQS are implementing the NAAQS under the CAA and implementation regulations issued for that NAAQS. The state activities include, but are not limited to, developing and submitting attainment demonstrations, reasonable further progress plans, and reasonably available control technology (RACT) determinations. This ICR renewal estimates the burden for states to meet the ongoing planning requirements that apply to their remaining nonattainment areas for the 2008 and 2015 NAAQS. These requirements primarily affect 2015 ozone nonattainment areas that may fail to attain the NAAQS by their attainment date during this period and be reclassified to a higher classification with new SIP revisions required from the states. In addition, this ICR renewal includes burden estimates for state and EPA activities related to implementing second Maintenance Plans for the 2008 8-hour ozone standard.

The estimates included in this ICR renewal include both the state burden to develop and submit attainment plans to meet the requirements prescribed in CAA sections 110 and Part D, subparts 1 and 2 of Title I as interpreted by EPA's SIP requirements rules. An ozone NAAQS attainment plan contains state rules and other measures designed to improve air quality and achieve the NAAQS by the deadlines established under the CAA. It also must address several additional CAA requirements related to demonstrating timely attainment and contain contingency measures if the nonattainment area does not achieve reasonable further progress throughout the attainment period or if the area does not attain the NAAQS by its attainment date. States that have attained by the applicable attainment date may be eligible to submit a redesignation request and maintenance plan to receive a redesignation from “nonattainment to “attainment”.

Form Numbers: None.

Respondents/affected entities: State and Local Governments.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 67 (total).

Frequency of response: Once per triggering event, e.g., an air agency is required to revise and submit a SIP revision when the area is designated nonattainment or reclassified to a higher

classification or if it is in an OTR member state to determine if RACT is satisfied by the previously approved state SIP. An air agency is also required to submit a second 10-year maintenance plan for maintenance areas or portions of maintenance areas for the 2008 ozone NAAQS.

Total estimated burden: 53,667 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,540,200 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the annual burden of 65,466 hours below the 119,133 hours estimated from the last approved ICR for 8-hour ozone NAAQS implementation. The primary reason for this decrease is that the previous ICR accounted for some respondents continuing to submit information for the 2008 NAAQS, respondents continuing to report on the revoked 1997 NAAQS, and respondents submitting initial information for all 52 nonattainment areas for the 2015 NAAQS. The estimates provided in this supporting statement differ from the prior 2015/2008/1997 combined NAAQS estimate due to decreases resulting from: the total state respondents reduced from 96 NAAs for the 2015/2008/1997 ozone NAAQS to 66 NAAs for the combined 2008 and 2015 ozone NAAQS, removal of the burden estimate for the states in the Ozone Transport Regions to certify the current state SIPs meet CAA section 184(b)(1)(B) RACT requirements; no 1997 8-hour ozone second maintenance plans due during the next three years; no 2008 8-hour ozone NAAQS needing to be reclassified to a higher class.

Courtney Kerwin,

Director, Regulatory Support Division.

Abstract: The U.S. Environmental Protection Agency (EPA) makes competitive financial assistance awards to support projects that tackle environmental, public health, and energy challenges across the country. Historically, these investments have not reached communities and groups who are overburdened by the effects of pollution, environmental hazards, and climate change. To help get resources and funding to underserved and overburdened communities, the Inflation Reduction Act (IRA) created the Environmental and Climate Justice Block Grant Program (ECJP)—the largest investment in environmental and climate justice in U.S. history—when it was signed into law by President Biden on August 16, 2022. The Community Change Grants (CCG) are the final and most comprehensive piece of EPA's implementation of ECJP IRA funding. The CCG program will provide funding to communities and their partners to design, develop, and implement multifaceted, community-driven projects to protect public health and the environment. With this Information Collection Request (ICR), EPA seeks approval to collect performance information from CCG grantees via progress reports and final reports. Collection of this information enables EPA to assess and manage the CCG program, which ensures responsible stewardship of public funds; rigorous evidence-based learning and improvement; and transparent accountability to the American public.

Form Numbers: None.

Respondents/affected entities: Recipients of financial assistance awards

Respondent's obligation to respond: Mandatory for recipients of financial awards to obtain or retain a benefit (2 CFR parts 200 and 1500).

Estimated number of respondents: 105.

Frequency of response: Varies.

Total estimated burden: 9,100 hours (per year). Burden is defined at 5 CFR 1320.03(b).
