

facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities:

Beryllium rocket motor fuel firing test sites.

Respondent's obligation to respond: Mandatory (40 CFR part 61, subpart D).

Estimated number of respondents: One (total).

Frequency of response: Initially, monthly.

Total estimated burden: Nine hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,450 (per year). There are no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Information Engagement Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2020-0624; FRL-12569-01-OMS]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite, and Stand-Alone Semicheical Pulp Mills (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Natural Gas Transmission and Storage (EPA ICR Number 1805.12, OMB Control Number 2060-0377) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2025. Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before February 18, 2025.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2020-0624, to EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment

period (88 FR 31749). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <https://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 63, subpart MM were proposed on April 15, 1999; promulgated on January 12, 2001; and amended on April 20, 2006, October 11, 2017, November 5, 2020, and November 19, 2020. These regulations apply to new and existing chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills, for which the chemical recovery combustion sources emit greater than or equal to 10 tons per year (tpy) of any one hazardous air pollutant (HAP) or greater than or equal to 25 tpy of any combination of HAPs. New affected facilities include those that commenced construction or reconstruction after the April 15, 1998 proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart MM. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Respondents/affected entities: Chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart MM).

Estimated number of respondents: 96 (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 108,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$14,300,000 (per year), includes \$608,000 annualized

capital or operation & maintenance costs.

Changes in the estimates: The decrease in burden from the most recently approved ICR is due to an adjustment(s). The adjustment decrease in burden from the most recently approved ICR is due to a decrease in the number of sources. The number of facilities has decreased from 104 to 96. The decrease in respondents also results in a decrease in capital/startup costs.

Courtney Kerwin,

Director, Information Engagement Division.

Clean Air Act Operating Permit Program; Order on Petition for Objection to State Operating Permit for Suncor Energy (U.S.A.), Inc., Commerce City Refinery Plant 1 (West) & Plant 3 (Asphalt Unit)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an order dated December 30, 2024, granting in part and denying in part a petition dated September 6, 2024, from the Center for Biological Diversity and Sierra Club. The petition requested that the EPA object to the renewal of a Clean Air Act (CAA) operating permit issued by the Colorado Department of Public Health and Environment (CDPHE) to Suncor Energy (U.S.A.), Inc. for its Commerce City Refinery, Plant 1 (West) & Plant 3 (Asphalt Unit) located in Adams County, Colorado.

FOR FURTHER INFORMATION CONTACT: Julie Merkel, Environmental Protection Agency, EPA Region 8, telephone number: (406) 457-5042, email address: merkel.julie@epa.gov; or Donald Law, EPA Region 8, telephone number: (303) 312-7015, email address: law.donald@epa.gov. The final order and petition are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

SUPPLEMENTARY INFORMATION: The EPA received a petition from the Center for Biological Diversity and Sierra Club dated September 6, 2024, requesting that the EPA object to the issuance of operating permit no. 96OPAD120, issued by CDPHE to Suncor Energy (U.S.A.), Inc., Commerce City Refinery, Plant 1 (West) & Plant 3 (Asphalt Unit)

in Adams County, Colorado. On December 30, 2024, the EPA Administrator issued an order granting in part and denying in part the petition. The order itself explains the basis for the EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than March 18, 2025.

KC Becker,

Regional Administrator, Region 8.

Revised Designation Decision and Record of Decision in Response to a Petition by Amigos Bravos for a Determination That Stormwater Discharges in Los Alamos County Contribute to Water Quality Standards Violations and Require Clean Water Act Permit Coverage

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Region 6 is providing notice of a Revised Designation Decision that storm water discharges from the Los Alamos Urban Area (as defined by the latest decennial Census) and Los Alamos National Laboratory (LANL) property in Los Alamos County and Santa Fe County, New Mexico are contributing to violations of New Mexico Water Quality Standards (WQS) and require National Pollutant Discharge Elimination System (NPDES) permit coverage under the Clean Water Act (CWA). This action is in response to a June 30, 2014, petition filed with EPA by Amigos Bravos entitled "A Petition by Amigos Bravos for a Determination that Storm Water Discharges in Los Alamos County Contribute to Water Quality Standards Violations and Require a Clean Water Act Permit," and revises the Agency's prior December 16, 2019, designation decision, which was remanded to EPA for reconsideration by the United States Court of Appeals for the Tenth Circuit.

DATES: The "Revised Designation Decision and Record of Decision in Response to A Petition by Amigos

Bravos for a Determination that Stormwater Discharges in Los Alamos County Contribute to Water Quality Standards Violations and Require Clean Water Act Permit Coverage" was signed on December 9, 2024. Please refer to the **SUPPLEMENTARY INFORMATION** section for additional information.

ADDRESSES: For further information contact Ms. Evelyn Rosborough via email: rosborough.evelyn@epa.gov, or by mail at Ms. Evelyn Rosborough, Environmental Protection Agency, Region 6, Water Division (6WQ-NP), 1201 Elm Street, Suite 500, Dallas, TX 75270.

SUPPLEMENTARY INFORMATION:

General Information

A. Does this action apply to me?

Small Municipal Separate Storm Sewer Systems (MS4s) operated by the County of Los Alamos, the New Mexico Department of Transportation (NMDOT), and Los Alamos National Laboratory (LANL), including Triad National Security, LLC and the U.S. Department of Energy's National Nuclear Security Administration, will be regulated as a result of this action. To determine whether your entity is affected by this action, you should also review the description of EPA's action in Section II.B of this notice and the Revised Designation Decision document available in Docket ID No. EPA-R06-OW-2023-0566 at the Federal eRulemaking Portal: <https://www.regulations.gov/> or online via the EPA Residual Designation web page at: <https://www.epa.gov/npdes/epas-residual-designation-authority>. If you have questions regarding the applicability of this action to a particular entity, consult the person listed in **ADDRESSES** section.

B. Summary and Availability of Revised Designation Documents

The Regional Administrator of EPA Region 6 has made a revised designation of stormwater discharges from certain MS4s for regulation under the NPDES permitting program pursuant to Section 402(p)(2)(E) and (6) of the CWA and EPA's implementing regulations at 40 CFR 122.26(a)(9)(i)(C)-(D). Those provisions authorize the Agency to designate for regulation stormwater discharges that contribute to a WQS violation or that are a significant contributor of pollutants to waters of the United States, or where controls are needed based on wasteload allocations that are part of total maximum daily loads. This authority is often referred to as "residual designation authority" or RDA. EPA is providing notice of its
