

process for entering low-value shipments, allowing CBP to target high-risk shipments more effectively. The proposed rule would also revise the current process for entering low-value shipments to require additional data elements that would assist CBP in verifying eligibility for duty- and tax-free entry of low-value shipments and bona-fide gift. Second, this NPRM is not part of a larger action. Third, this NPRM presents no extraordinary circumstances creating the potential for significant environmental effects. Therefore, a more detailed NEPA review is not necessary. DHS seeks any comments or information that may lead to the discovery of any significant environmental effects from this NPRM.
