**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

Louisiana Energy Services, LLC (LES), dba Urenco USA (UUSA), at the National Enrichment Facility, located five miles east of Eunice, New Mexico, submitted a license amendment request (LAR) to amend License No. SNM-2010 by letter dated September 1, 2023. The NRC staff issued a request for supplemental information (RSI) on the LAR to LES, dated November 28, 2023. LES responded to the RSI by letter and supplemented its LAR with Enclosure 1: UUSA License Amendment Request LAR 23-07 Amended Environmental Considerations Section, dated January 25, 2024. The National Enrichment Facility is a gas centrifuge uranium enrichment facility authorized to possess, use, and store SNM, source material, and byproduct material under Materials License SNM-2010 granted June 30, 2005. The LAR proposes deletion of License Condition 14, which prohibits the licensee from shipping depleted uranium hexafluoride to a deconversion facility that uses a deconversion process involving the production of anhydrous hydrogen fluoride (AHF). The removal of the license condition would permit the transportation of the depleted uranium
