

telephone: 202-493-6276, email: brian.gillera@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated January 14, 2025, LIRR petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings. The relevant Docket Number is FRA-2008-0045.

Specifically, LIRR seeks an extension of relief from § 222.21(a), *When must a locomotive horn be used?*, which requires that a railroad sound its locomotive horn in a specific manner (two long, one short, and one long blast) as it approaches and enters public highway-rail grade crossings. LIRR seeks to continue sounding one short blast when departing from 22 train stations.¹ In its petition, LIRR states that “there have been no material changed circumstances” since the inception of the waiver.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by April 2, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA's dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these

comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of www.regulations.gov.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2010-0039]

South Florida Regional Transportation Authority's Request To Amend Its Positive Train Control System

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on February 3, 2025, South Florida Regional Transportation Authority (SFRTA) submitted a request for amendment (RFA) to its FRA-certified positive train control (PTC) system. FRA is publishing this notice and inviting public comment on the railroad's RFA to its PTC system.

DATES: FRA will consider comments received by March 24, 2025. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES:

Comments: Comments may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA-2010-0039. For convenience, all active PTC dockets are hyperlinked on FRA's website at <https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets>. All comments received will be posted without change to <https://www.regulations.gov>;

this includes any personal information.

FOR FURTHER INFORMATION CONTACT: Gabe Neal, Staff Director, Train Control, and Crossings Division, telephone: 816-516-7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTC Safety Plan (PTCSP), a host railroad must submit, and obtain FRA's approval of, an RFA under 49 CFR 236.1021(m).

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that, on February 3, 2025, SFRTA submitted an RFA to its Interoperable Electronic Train Management System (I-ETMS), which seeks FRA's approval for SFRTA to disable its PTC system temporarily while it performs a wayside signal cutover of Control Point Tompkins, enabling SFRTA to upgrade end-of-life wayside signal operating equipment. That RFA is available in Docket No. FRA-2010-0039.

Interested parties are invited to comment on SFRTA's RFA by submitting written comments or data. During FRA's review of this railroad's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA at FRA's sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See <https://www.regulations.gov>;

¹ In its initial February 6, 2008, petition, LIRR sought a waiver for 24 stations (FRA-2008-0045-0001). FRA granted the waiver for 23 of those stations (FRA-2008-0045-0004). Because one of those 23 stations was later included in a designated quiet zone, FRA's February 19, 2020, letter, extended the waiver for 22 stations.

privacy-notice for the privacy notice of *regulations.gov*. To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2013-0077]

Notice of Petition for Extension of Waiver of Compliance

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This document provides the public notice that by letter dated December 26, 2024, the Association of American Railroads (AAR) petitioned FRA for an extension of relief from certain regulations concerning rail cars equipped with end of car cushioning units.

DATES: FRA must receive comments on the petition by April 2, 2025. FRA will consider comments received after that date to the extent practicable.

ADDRESSES:

Comments: Comments related to this docket may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information. Please see the Privacy Act heading in the **SUPPLEMENTARY INFORMATION** section of this document for Privacy Act information related to any submitted comments or materials.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT: Leith Al-Nazer, Railroad Safety

Specialist, FRA Motive Power & Equipment Division, telephone: 202-493-6128, email: leith.al-nazer@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated December 26, 2024, AAR petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 215, Railroad Freight Car Safety Standards. The relevant Docket Number is FRA-2013-0077.

Specifically, AAR seeks an extension of relief from § 215.127(c)(1), *Defective draft arrangement*, which specifies that a railroad may not place or continue in service a car if an end of car cushioning unit is leaking clearly formed droplets. AAR proposes to keep a car in service “if the unit is equipped with a [unit condition indicator] that indicates that the cushioning unit is functioning.”

In support of its request, AAR states that the waiver has protected railroad employees “from needless exposure to switching hazards related to jacking freight cars and removing and replacing heavy cushion units because railroads have been able to leave fully functioning cushioning units in place.” Further, AAR notes that the relief has “allowed the industry to avoid unnecessary repairs” due to the current regulatory requirements. The petition also included data from AAR’s performance assessments of units identified as defective by a unit condition indicator.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by April 2, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA’s dockets by the name of the individual submitting the comment (or

signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2020-0010; Notice 2]

Mercedes-Benz USA, LLC, Grant of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Grant of petition.

SUMMARY: Mercedes-Benz AG (MBAG) and Mercedes-Benz USA, LLC (MBUSA) (collectively, “Mercedes-Benz”) has determined that certain model year (MY) 2019–2020 Mercedes-Benz CLA-Class, A-Class, GLA-Class, and GLB-Class motor vehicles do not fully comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 135, *Light Vehicle Brake Systems*. Mercedes-Benz filed a noncompliance report dated January 27, 2020, and subsequently petitioned NHTSA on February 10, 2020, for a decision that the subject noncompliance is inconsequential as it relates to motor vehicle safety. This notice announces the grant of Mercedes-Benz’s petition.

FOR FURTHER INFORMATION CONTACT: Vince Williams, Office of Vehicle Safety Compliance, the National Highway Traffic Safety Administration (NHTSA), telephone (202) 366-2319.

SUPPLEMENTARY INFORMATION:

I. Overview: Mercedes-Benz has determined that certain MY 2019–2020 Mercedes-Benz CLA-Class, A-Class, GLA-Class, and GLB-Class motor vehicles do not fully comply with the requirements of paragraph S5.5.5 of
