Common abbreviations for names of States and months are also used.

H. or S. followed by a number stands for House bill or Senate bill, respectively.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 61st Congress, 2d session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.**, are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{2}$ c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

Beginning with July, 1910, the Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1911. That is, the September number of the Index will be an index to the Monthly catalogue for July, August, and September, the December number will be an index to the Monthly catalogue for October to December, the March number will be an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1911. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, uncertified checks, defaced or smooth coins will positively not be accepted.

No charge is made for postage on documents forwarded to points in the United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

House document 956, 61st Congress, 2d session, Tariff negotiations between the United States and foreign Governments, issued by the State Department, is a report of 155 pages on the negotiations made necessary by the maximum and minimum provisions of the new tariff, which directed the imposition of increased duties upon imports from countries which might refuse to allow to American imports minimum customs rates. Very happily, the negotiations have revealed the fact that there are no such countries. It has therefore not been found necessary for this country to impose duties increased beyond the regular rate in a single instance. There were, however, before the enactment of the present tariff, some countries which did not have the United States on the "most favored nation" list. The history of the negotiations on this subject is a document which will necessarily find a place in all important collections of economic literature.

List of Chinese family names is the title of an odd-looking publication just issued by the Immigration and Naturalization Bureau. It is from the presses of the Government Printing Office, whose linguistic resources seem to be inexhaustible. The list contains 1,940 Chinese surnames, with their equivalents in English and in several Chinese dialects. This number is said to be greater by several hundred than can be found in any native Chinese compilation. No similar list exists. It is for the use of the Immigration Service, which encounters many puzzling questions in dealing with Chinese immigration and exclusion.

Report, Jan. 8, 1910, on regulation of Lake Erie is the title of an important report from the International Waterways Commission, published as House document 779, 61st Congress, 2d session. This Commission is distinct from the Inland Waterways Commission appointed by President Roosevelt and also from the National Waterways Commission created by Congress. The International Waterways Commission is a Canadian as well as a United States official body, its members being chosen by the Governments of the two countries. The problem upon which it now reports is one long under discussion in the Lake country, namely, the project of placing a dam between Lake Erie and Niagara River for the purpose of increasing the depth of the water in that lake and in all the Great Lakes. The Commission does not approve the plan, but offers an alternative. The report, with its appendixes and plates, makes a large volume and embodies much expert information.

Foreign relations for 1907, in 2 volumes, issued by the State Department, is among this month's publications.

Volume 2, Hearings held before the select committee of the Senate relative to wages and prices of commodities, has been published. This is Senator Lodge's committee.

The Labor Bureau has adopted the method, long followed by some other bureaus, of printing "separates," that is, chapters from its bulletins, issued in separate small pamphlets. The titles of some of those from Bulletin 88 are: Trend of wages in Germany, 1898 to 1907; Wages and hours of labor in Austria, 1906 and 1907; Wages and hours of labor in German woodworking industries in 1906.

The Civil Service Commission has published its Manual of examinations for the fall of 1910. This is supplied free to all applicants by the Commission.

Experiment Stations Office Bulletin 218, Irrigation in Colorado, is likely to be much inquired for, Colorado being one of the States which believes in irrigation and practices it. Sold by the Superintendent of Documents for 15c.

Bulletin 2, series of 1910, Education Bureau, entitled State school systems, is the third bulletin in which have been digested State legislation and judicial decisions relating to school systems. The two former numbers are Bulletin 3, 1906, and Bulletin 7, 1908. Each of the three covers a two-year period. The Commissioner of Education hopes hereafter to make an annual issue of this kind.

The two great problems of road construction at the present time are preservation of the road bed and prevention of dust. Both are discussed in Public Roads Office Circular 92. Sold by the Superintendent of Documents for 5c.

A new list of the members of the diplomatic and consular service of the United States has been issued under date of July 5, 1910. This list does not contain the previous official records of the members of the foreign service, as some former lists have done, but it still carries a great amount of information.

The Army horseshoer is a handy manual put up in imitation leather and sold by the Superintendent of Documents at 35c. It was prepared at the Training School for Army Farriers and Horseshoers, Fort Riley, Kans., and is fully illustrated.

Bulletin 132, Chemistry Bureau, which was listed in the Monthly catalogue for June, 1910, page 755, is the Report of the proceedings of the 26th annual convention of official agricultural chemists. Extracts from it have been separately printed under the following titles: Report on headache mixtures, Report on distilled spirits; Report on assaying of alkaloidal drugs. The extracts are sold at 5c. each, the complete bulletin at 25c.

June 3, 1910, at the Winston-Salem convention of the Carolina Municipal Association, Dr. L. L. Lumsden of the Public Health and Marine-Hospital Service read a paper on the very practical and suggestive theme, What the Mayor and the City Council can do in preventing typhoid fever. The paper was printed in Public health reports, June 24, 1910 (v. 25, no. 24), and has been now reprinted in a separate pamphlet.

Special agents series 38 is Part 1 of a series of publications on Industrial conditions in Europe. This first part considers the conditions in England

and France, dealing with rates of wages, cost of living, housing conditions, and the number of unemployed in the principal industries in the Paris, London, Sheffield, Nottingham, Manchester, and Birmingham districts. Sold by the Superintendent of Documents at 5c.

Special agents series 37, Shoe and leather trade in Argentina, Chile, Peru, and Uruguay, is sold for 10c.

Part 2 of the Report of the Commissioner of Corporations on Taxation of corporations describes the systems of taxing manufacturing, mercantile, transportation, and transmission corporations in the States of New York, New Jersey, Pennsylvania, Delaware, and Maryland, and in the District of Columbia. It is in these regions that the greatest number of corporations is found and the greatest percentage of public revenue derived from them. The pamphlet is sold for 15c.

Senate document 642, 61st Congress, 2d session, entered under Senate is a reprint of a Senatorial discussion, and one quite outside the ordinary line of Congressional debate—perhaps all the more interesting for that. In a speech on conservation, one Senator, to illustrate his point that scientists are fallible, repeated the somewhat familiar statement that the first steamship which crossed the ocean brought a copy of a book published to demonstrate that such a voyage was impossible. Before the discussion ended it was shown that this statement is mythical, but it was on another point that a second Senator picked up the remark and precipitated the discussion since reprinted as Senate document 642. The implication that the first ocean voyage of a steamship was from Europe to America was challenged by the statement that the first such voyage was made from Savannah to Liverpool in 1819 by the American steamship *City of Savannah*. Many conflicting statements, based on recollection only, followed, and no conclusion was then reached, but the next day, after an opportunity to look up the authorities, the subject was again taken up, and the result is a lively and informing compend on the beginnings of ocean steam navigation, with a picture of the barque *City of Savannah* under combined sail and steam power. It is sold by the Superintendent of Documents for 5c.

The paper in the Yearbook of the Agriculture Department for 1909, on Tuberculosis of hogs and how to control it, has been reprinted in a separate pamphlet, sold at 5c.

Forest Service Bulletin 81, The forests of Alaska, price 25c., is a manual of information for which many have been looking. It is illustrated by several full-page plates.

Manual for Indian schools, published and signed by the Commissioner of Indian Affairs, is a little pamphlet intended mainly for the admonition of teachers in those schools, but it makes at least one point of general interest, namely, that the courses of study in the Indian schools should conform to the courses adopted by the State or county in which any such school may be situated. As there are 26 such States, this might mean considerable variations, but the end sought is to convince the Indians that their schools do not suffer by comparison with the neighboring schools for white children.

That public document always welcome in the libraries, the Annual report of the American Historical Association, has been issued for 1908.

A very striking feature of vol. 1 is the papers on the Wilderness campaign, Grant's conduct of it being discussed by Gen. Alexander, a Confederate officer, and Lee's conduct by Col. Livermore, a Union officer, both having been participants in the campaign. This volume in cloth is sold by the Superintendent of Documents at 55c., in paper, at 40c.

Public health bulletin 31 was to have been the first one bearing a printed number. Unfortunately, it was printed without a number, and must therefore be noted by librarians as the last one issued unnumbered. Its title is Transactions of the Seventh Annual Conference of State and Territorial Health Officers with the United States Public Health and Marine-Hospital Service. Public health bulletin 32 is the latest treatise on Hookworm disease, its nature, treatment, and prevention. A new alternative name assigned to this strange and destructive disease is ground-itch anemia. Public health bulletin 36 is a most important publication. It tells in brief compass and in simple language the nature of tuberculosis (consumption) and the means of prevention, which any affected person may adopt without cost or inconvenience. Sold by the Superintendent of Documents for 5c.

The Superintendent of Documents not only catalogues, and distributes to libraries, and sells the publications of other branches of the Government, but also publishes a few himself. His publications during July, besides the June Monthly catalogue, were a 3d edition of Price list 20, Lands, 40 pages; a 1st edition of Price list 31, Education, 74 pages; a 4th edition of Leaflet 10, Public documents, official information as to their sale, 3 pages; a 2d edition of Leaflet 11, Forest wall maps, showing on a large scale the national forests and wooded areas, 1 page; and a 2d edition of Leaflet 12, Appalachians, forests, rivers, and mountains of the southern Appalachian region, 2 pages. New lists and new editions are constantly under way in the course of the continuous and sometimes rather discouraging effort to keep pace with the flood of official literature poured out by the Government Printing Office.

The German imperial banking laws, 61st Congress, 2d session, Senate document 574, is the document of latest issue in the National Monetary Commission series. Sold by the Superintendent of Documents for 35c.

Street and electric railways, 1907, is one of the special census reports of which quinquennial issues are required by law, the first issue having carried the street and electric railway statistics and general information for the year 1902. The new report, very recently off the press, makes interesting comparisons with the 1902 report, showing the rapid growth of electric traction, and is attractively published, with excellent illustrations, copious statistical information, etc. In cloth binding, it is sold at \$1.10 a copy.

Tuberculosis in the United States is a new statistical report from the Census Bureau.

Building operations for 1909 is an advance print of a chapter from Mineral resources, 1909, giving building statistics of 128 American cities, specifying the "fire-resisting" structures, and deducing statistics as to average cost of buildings of the different classes in various localities and other particulars of much interest.

TREASURY DECISIONS

Volume 19 of this weekly periodical did not close with no. 26, the last one in June, as hitherto has been the case, but issued the July numbers as vol. 19, nos. 27-30. This means that instead of the usual two volumes there will be in 1910 but one volume of 52 numbers instead of two volumes of 26 numbers each.

COURT OF CUSTOMS APPEALS

This new and important court, located at 15th street and New York avenue, Washington, D. C., handed down its first decisions June 22, 1910, and they were published in the weekly number of Treasury decisions dated Thursday, July 14, 1910 (vol. 19, no. 28). The potency of the court may be inferred from the fact that its very first case in which a written opinion was published was decided against the Government, reversing both the circuit court for the southern district of New York and the Board of General Appraisers.

SALES OF PUBLIC DOCUMENTS

The selling of United States public documents by the Superintendent of Documents is a growing business. The totals for the fiscal year ended June 30, 1909, were: Documents sold, 377,025; cash receipts, \$70,919.17; average price per document, 19c. For the fiscal year ended June 30, 1910: Documents sold, 529,436; cash receipts, \$79,232.53; average price per document, 15c.

The reduction in average price is due to a large increase in the sales of slip laws, Farmers' bulletins, unbound Congressional documents, and daily numbers of the Congressional record, all low-priced publications, never before made so readily available to the public as during the year just closed.

CONSULAR REPORTS

Few if any public documents of the United States have been more highly regarded in public libraries or more extensively used than the monthly series of Consular reports published in both Departmental and Congressional editions for about 30 years. This is especially true of the numbers issued on the plan adopted at the outset by the State Department and adhered to for more than 20 years. Under this plan the reports from each consul were not subdivided by topics, but were treated as units and published with the date of writing at the beginning and the name of the writer at the end. This method was better suited to library use than that of subdividing the reports and printing them in paragraphs under various topical headings as has been the custom in recent years.

As the series has now been discontinued, the time seems opportune for a sketch of the ins and outs of a set which in more or less complete condition may be found in almost every library in the country. Though it has always been numbered, and part of the time volumed, it has had several titles and some half numbers, and it is not altogether easy to determine the completeness of a set.

No. 1 was issued under date of October, 1880, by the State Department, with the title "Commercial relations of the United States; Reports from the consuls of the United States on the commerce, manufactures, etc., of their consular districts." The authority for the publication is found in the Sundry civil act of June 16, 1880, by which \$7,000 was appropriated "for printing and distributing more frequently the publications by the Department of State of the consular and other reports," which previously had been published only in the annual volumes of Commercial relations, and then only in part. An appropriation of \$7,300 was also made for the pay of those employed in compiling and writing the reports. That this total appropriation of \$14,300 was speedily found to be inadequate is shown by the fact that early the next spring, March 3, 1881, the Department secured a deficiency appropriation of \$6,713 for this work. The appropriation for many years thereafter was uniform at \$20,000.

Nos. 1 and 2, October and November, 1880, were paged continuously as volume 1. There was no issue for December, 1880, and nos. 3-8, January-June, 1881, were paged continuously as volume 2. As the number of pages in volume 2 was over 900, this was evidently thought too large a volume, and volume 3 has but three numbers, 9-11, July-September, 1881, and volume 4 the same number, 12-14, October-December, 1881. These volumes, however, were apparently found too small, and volume 5 was made up of four numbers, 15-18, January-April, 1882, on the plan of three volumes a year instead of two as at first intended or four according to the second plan. Though the Consular reports were planned to be collected in volumes, and were paged continuously through each volume, no volume numbers appeared on the title-pages or elsewhere in the publications, nor were any volume title-pages or contents or indexes provided. Each monthly number had contents and indexes of its own. There was no way whatever to determine the ending of a volume, and the only way to determine the beginning of the next one was by the pagination. When a number began with page 1 the conclusion could be drawn that it was meant to be the first number of a new volume. The early methods of the Consular reports afford one of the most striking of the numerous evidences of the need of a central editorial office in which Government publications may have critical examination and supervision before good white paper has been spoiled in publishing them wrong. The idea that knowledge of book-making or book-editing comes by nature and is possessed by everybody has been tried out in the Consular reports and many other Government publications with doubtful results. The Government employs thousands of experts, but it has never established a bureau of experts in the art of book-editing. It is an art that needs to be learned. It is distinct both from authorship and from printing. It comes between these two and aids both to realize their best conceptions.

The publication plan of three volumes a year was continued in general with the Consular reports for many years, but with so many breaks and departures that it is impossible by the numbers alone to determine whether a set is or is not complete. As early as volume 7 the half number appeared, an obtrusion which defeats all attempts to keep track of a set, because one might have an apparently complete set of numbers and

still be short all the half numbers. Both volumes 7 and 8 have half numbers and but $2\frac{1}{2}$ numbers each instead of the usual four. Volume 7 contains numbers 23-24 $\frac{1}{2}$, volume 8, 25-26 $\frac{1}{2}$. A list of the half numbers will be useful to librarians who are in doubt as to the completeness of their sets. They are 24 $\frac{1}{2}$, 26 $\frac{1}{2}$, 41 $\frac{1}{2}$, 68 $\frac{1}{2}$, 107 $\frac{1}{2}$.

Another confusing element was the publication for several years of the quarterly pamphlet, Exports declared, as supplements to certain numbers of the Consular reports.

With no. 32 (August, 1883), which is the second number in volume 10, the first line on the title-page, "Commercial relations of the United States," was dropped and the line "United States consular reports" was substituted. With volume 17 a volume index appeared, and with volume 19 a volume title-page, "Reports from the consuls of the United States."

When the volume title-pages and indexes appeared the monthly indexes disappeared. The volume plan was adhered to so long as the publication was issued by the State Department, that is to July 1, 1903.

Monthly numbers 101 and 102, for January and February, 1889, were not issued. In their stead were issued for those months N. S. no. 1 and N. S. no. 2. This attempt to start a new series was soon abandoned, the number for March, 1889, being published as no. 103 and the volume title-page describing the contents of volume 29 as nos. 101, 102, 103, and 104, ignoring N. S. no. 1 and N. S. no. 2, which really appear in the volume in place of nos. 101 and 102.

With monthly number 156, September, 1893, a new heading for the first page was adopted, and in it for the first time appeared the number of the volume in which the monthly number was to be bound, in this case volume XLIII. This form of first-page heading was thereafter retained until voluming was discontinued with no. 285, June, 1904.

In the State Department a bureau was created having for its chief duty the publication of the Consular reports. At first it was called the Statistics Bureau, but July 1, 1897, its title was changed to Foreign Commerce Bureau. By this bureau the Monthly consular reports were compiled till July 1, 1903, when the publication was transferred to the Statistics Bureau, Commerce and Labor Department.

The State Department series closed with volume 71, containing numbers 268-271, January-April, 1903. The State Department had also compiled and published monthly numbers 272 and 273, May and June, 1903, but as the transfer of the publication, July 1, 1903, to the Commerce and Labor Department prevented the State Department from issuing the two remaining numbers of volume 72, the numbers for May and June were turned over to the Commerce and Labor Department, by which the completed volume was issued in due course. Volume 73 was also issued by the Statistics Bureau, Commerce and Labor Department, on the former plan of four monthly numbers to the volume and three volumes a year. Then volumes 74 and 75 were issued, containing three numbers each. Then the volume plan was dropped altogether.

Beginning with July, 1904, each monthly number has had its own contents and index, separate paging, and no volume number, thus

returning in all but paging to the original plan of the 80's. This plan continued to the close of the series.

July 1, 1905, the publication of the Consular reports was shifted from the Statistics Bureau, Commerce and Labor Department, to the Manufactures Bureau of the same Department. The new publisher immediately changed the title to "Monthly consular and trade reports," this title first appearing on no. 298, July, 1905, and being retained to the end.

There had been complications in beginning the publication back in 1880, and there were difficulties in stopping it in 1910. The legislation on the subject came so late in the session that the number for July, 1910, had been already prepared. It was not desirable, however, to have a single number of this series carried over into the new fiscal year and also made a document of the 3d session of the 61st Congress. The material prepared for the July number has therefore been published as Part 2 of the June number, thus closing the long series with two nos. 357, June, 1910, and June, 1910, part 2.

The Consular reports series has had a number of side issues of more or less importance. The first was the action of Congress in ordering a large edition (50,000) of nos. 1-3 printed in one volume. As the Department edition had included only nos. 1 and 2 (October and November, 1880) in volume 1 (no December number being issued), and had thus begun volume 2 with the calendar year (no. 3, January, 1881), the publication and wide distribution of another book, in which nos. 1, 2, and 3 were run together in one pagination, created confusion and made it difficult for librarians or anybody else to determine the contents of volumes 1 and 2. The Congressional print is, however, a different book from nos. 1, 2, and 3 as published by the State Department. Though the matter is the same, it is differently arranged, and a consolidated index for the volume is provided instead of the three number indexes.

General indexes to the Monthly consular reports were issued as follows: To nos. 1-26½ (v. 1-8), published May, 1883; to nos. 1-59 (v. 1-17), 1887; to nos. 60-111 (v. 18-31), 1890; to nos. 112-151 (v. 32-41), 1894; to nos. 152-203 (v. 42-54), September 1, 1897; to nos. 204-239 (v. 55-63), 1901.

The Statistics Bureau, State Department, Mar. 16, 1888, published no. 1 of a set of United States Consular reports having the series title Special issue, with this explanatory note: "In order to obviate the delay in publishing a full number of the Consular reports, it is proposed to issue from time to time 'special issues', in this form, for the use of the press only. This will not supersede the regular publication, but is merely an advance issue." No. 2 was issued Apr. 4, no. 3, Apr. 11, no. 4, Apr. 14, others followed, at irregular intervals, the series closing with no. 64, Feb. 16, 1889. Usually the numbers were of 16 pages only, but no. 64 contained 64 pages. Though intended "for the use of the press only," they were at first consecutively paged, up to 512. After that the paging was irregular. They were not conveniently published for the use of the press, being printed on both sides of the paper.

Jan. 3, 1898, appeared no. 1 of the daily series Advance sheets of consular reports. It was continued in this form as long as the issue remained in charge of the State Department. It was a real "press" issue, being

printed on only one side of the paper. Annual indexes were issued for the years 1898-1902.

July 1, 1903, the Advance sheets, with the other issues of the Consular Bureau, were transferred to the Statistics Bureau, Commerce and Labor Department. The new publisher continued the old form for the daily issue till Sept. 12, 1903, when the title was changed to Daily consular reports.

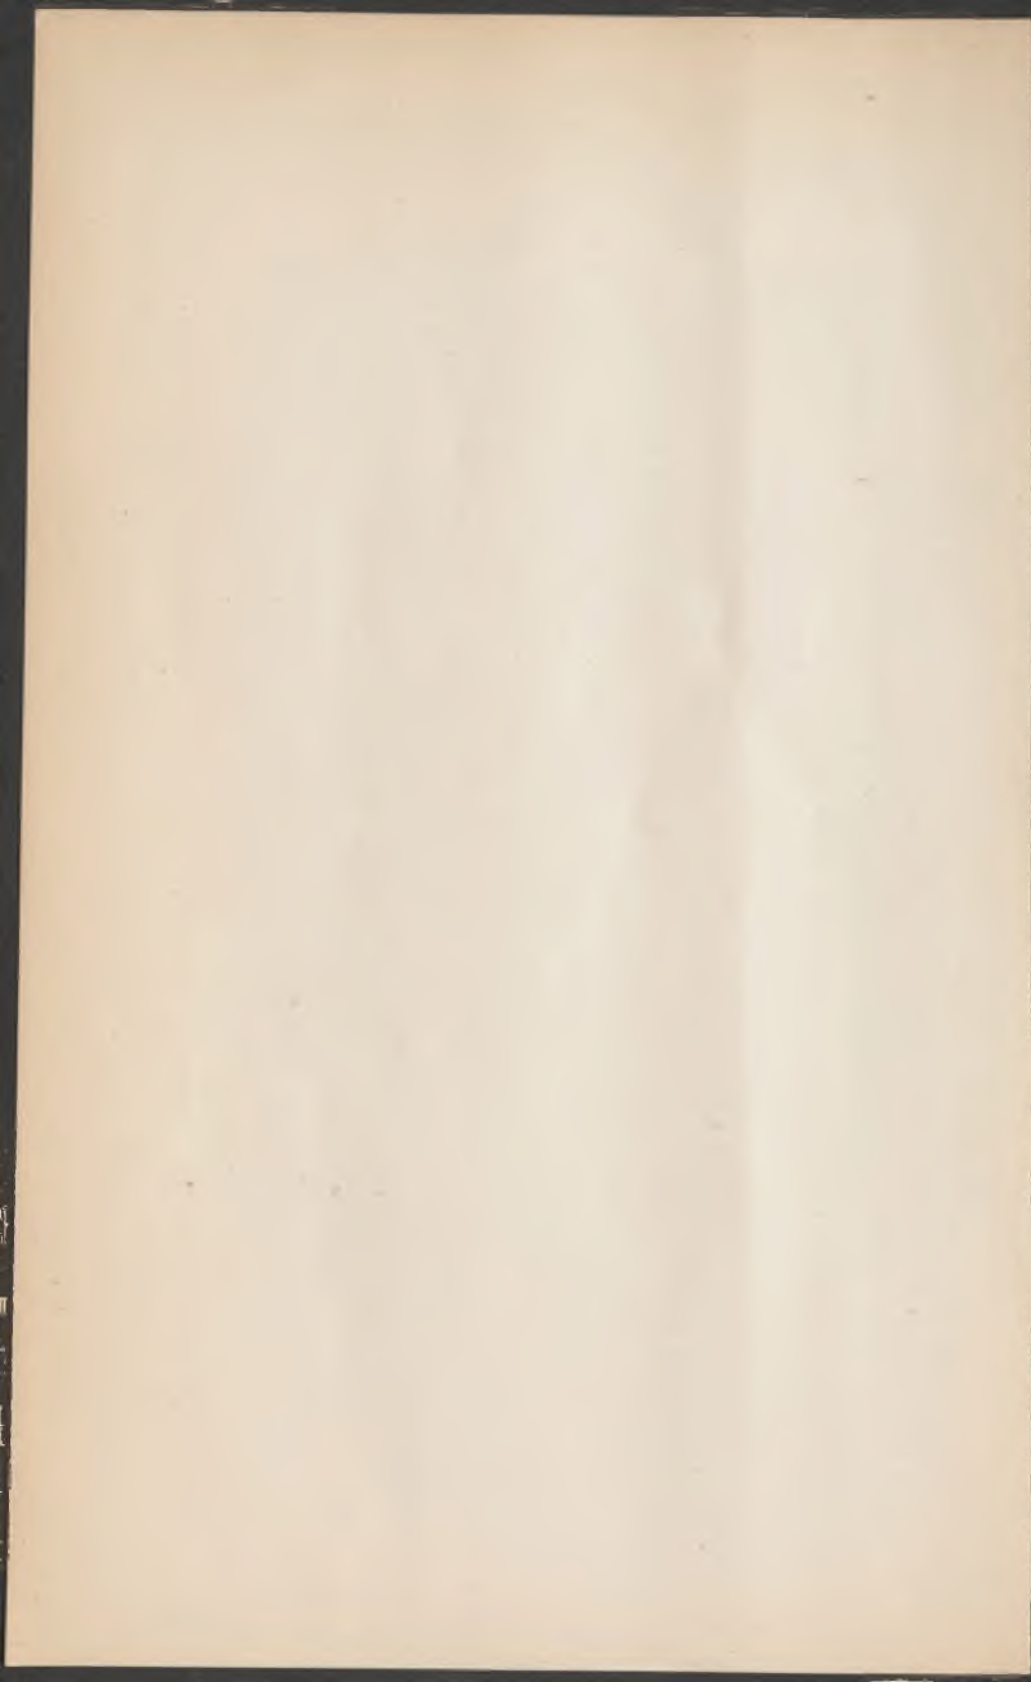

July 1, 1905, the daily and other consular reports were transferred from the Statistics Bureau to the Manufactures Bureau, both in the Commerce and Labor Department. The form of the daily issues remained as before till July 17, 1905, when the title was changed to Daily consular and trade reports and the printing on one side of the paper only in "press" style was dropped. The daily issues have since been printed on both sides like any ordinary publication. No annual indexes to the daily reports have been published by the Commerce and Labor Department.

The daily reports were regularly issued till Feb. 28, 1910, no. 3722, when it was found that the appropriation was not sufficient for their continuance. The series was therefore suspended and a weekly edition was substituted. The first weekly issue appeared Mar. 5, 1910, as volume 1, no. 1, serial no. 1. The final issue was volume 1, no. 18, serial no. 18, June 30, 1910. The weekly issues were similar to the dailies, except that the number of pages in each number was increased to 48, and the 18 numbers were continuously paged, making a total of 864 pages.

By a law of the 61st Congress, 2d session (Public 270), approved on the last day of the session, June 25, 1910, provision is made for an edition of 20,000 copies of the Daily consular and trade reports, and the sections of law which had provided for the publication of the Monthly consular reports were repealed. The Daily consular and trade reports is therefore the only periodical of its class now authorized as a Government document.

The first number of the daily issue authorized by Public 270 appeared Tuesday, July 5, 1910, as Daily consular and trade reports, new series, volume 1, no. 1, serial no. 1, and has since been regularly issued, each daily number containing 16 pages and the paging being continuous through the volume. It is supposed there will be four or more volumes a year, each one being provided with an index. The Government will bind only a few volumes, for official use, and will make no distribution of bound volumes. Extra copies of the indexes will, however, be sold by the Superintendent of Documents, enabling those who preserve their daily numbers to bind the volumes in usable form. The law prohibits the printing of the "usual number" of the new series of daily consular reports. They will not, therefore, be printed as numbered Congressional documents. They will, however, be regularly mailed to the depository libraries by the Superintendent of Documents.

The Manufactures Bureau will continue to issue Special consular reports occasionally as material therefor accumulates, continuing the present set of volume numbers, in which the latest issue is volume 43, part 1. The same is true of the Special agents series, of which 38 numbers have been already published.

MONTHLY CATALOGUE

No. 187

JULY

1910

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 167, amendment 1 to rule 2, revision 3, 169, rule 8, revision 2; July 21, 22, 1910. [1910.] [Consist of orders concerning quarantine of cattle, etc.] †

Food inspection decisions 123, 124. July 9, 19, 1910. Each 2 p. †

Notice of judgment 384-391, 411-457, food and drugs act. June 27-July 15, 1910. †

ANIMAL INDUSTRY BUREAU

Field tests with serum for prevention of hog cholera; by W. B. Niles. 1910. iii+177-217 p. il. [From 25th report, 1908.] † Paper; * paper, 5c.

Index-catalogue of medical and veterinary zoology, pt. 27, authors, Schoch-Silvestrini; by Ch. Wardell Stiles and Albert Hassall. July 5, 1910. iv+2077-2168 p. (Bulletin 39 [pt. 27].) * Paper, 15c. Agr 9-1180/5

Same, pt. 28, authors, Sim-von Stenitzer; by Ch. Wardell Stiles and Albert Hassall. July 16, 1910. iv+2169-2250 p. (Bulletin 39 [pt. 28].) * Paper, 10c. Agr 9-1180/5

Same, pt. 29, authors, Stenroos-Szymanski; by Ch. Wardell Stiles and Albert Hassall. July 25, 1910. iv+2251-2326 p. (Bulletin 39 [pt. 29].) * Paper, 10c. Agr 9-1180/5

Service announcements 39; July 15, 1910. [1910.] p. 45-50. [Monthly.] †

Tuberculosis of hogs and how to control it; by John R. Mohler and Henry J. Washburn. 1910. iii+227-238 p. 3 pl. [From Yearbook, 1909.] † Paper; * paper, 5c. Agr 10-751/3

CHEMISTRY BUREAU

Effect of alcohol on invertase; by C. S. Hudson and H. S. Paine. July 30, 1910. 8 p. il. (Circular 58.) † Paper; * paper, 5c. Agr 10-1306/3

- Injury to vegetation and animal life by smelter wastes; by J. K. Haywood. July 7, 1910. 63 p. 8 pl. map. (Bulletin 113 revised.) * Paper, 10c. Agr 8—542/3
- Report on assaying of alkaloidal drugs; by C. E. Parker. 1910. [1]+192-196 p. [From Bulletin 132.] * Paper, 5c. Agr 6—1303/2
- Report on distilled spirits; by L. M. Tolman. 1910. [1]+90-92 p. il. [From Bulletin 132.] * Paper, 5c. Agr 6—1303/2
- Report on headache mixtures; by W. O. Emery. 1910. [1]+196-202 p. il. [From Bulletin 132.] * Paper, 5c. Agr 6—1303/2
- Theory of influence of acids and alkalis on activity of invertase; by C. S. Hudson. [1910.] 3 p. il. (Circular 60.) † Paper; * paper, 5c. Agr 10—1145

ENTOMOLOGY BUREAU

- Papers on cereal and forage insects: Contributions to knowledge of corn root-aphis; by R. A. Vickery. July 12, 1910. iv+97-118 p. il. 1 pl. (Bulletin 85, pt. 6.) * Paper, 5c. Agr 10—1305/2

EXPERIMENT STATIONS OFFICE

- Experiment station record, v. 22, no. 7; June, 1910. 1910. cover-title, x+601-700 p. * Paper, \$1.00 a vol. (6 nos., 2 abstracts, and an index). Agr 9—832/4

NOTE.—Mainly made up of abstracts of reports and publications on agricultural science which have recently appeared in all countries, especially the United States. Extra numbers, called abstract numbers, are issued quarterly, which are made up almost exclusively of abstracts, that is, they contain no editorial notes and only a limited number of current notes.

CONGRESS

NOTE.—The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

Congressional record, 61st Congress, 2d session, v. 45, no. 168; July 12, 1910. [1910.] p. 9745-9822, 4°

NOTE.—The Congressional record, containing the proceedings and debates of Congress, is issued daily when Congress is in session, and indexes thereto are published semimonthly. Congress adjourned June 25; but 5 numbers of the Record, containing speeches, were issued June 27-30, and July 12.

The Record is sold by the Superintendent of Documents on the following terms. Single copy, 3c., if not more than 24 pages, and 1c. more for each additional 8 pages; per month, \$1.50; per short session, \$4.00; per long session, \$8.00. Subscriptions are payable in advance. Prices for the bound volumes of the Record, 61st Congress, 1st session, and prior Congresses, will be furnished on application. Send remittances to the Superintendent of Documents, Washington, D. C. Stamps, personal checks, and foreign money will not be accepted.

Same, index [including History of bills and resolutions] 14, [to] nos. 158-167, June 20-25, 1910. [1910.] 45+30 p. 4°

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to \$11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least \$5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 29.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are used, 1 : 62,500, 1 : 125,000, and 1 : 250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least \$3.00.

California, Castle quadrangle, lat. $38^{\circ} 38' 07'' 30''$, long. $121^{\circ} 15' - 121^{\circ} 22' 30''$. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Apr. 1910. 17.3×13.7 in. †5c.

California, Pleasant Grove quadrangle, lat. $38^{\circ} 45' - 38^{\circ} 52' 30''$, long. $121^{\circ} 22' 30'' - 121^{\circ} 30'$. Scale 1 : 31,680, contour interval 5 ft. [Washington, Geological Survey] edition of June, 1910. 17.3×13.5 in. †5c.

Colorado, Grand Hogback quadrangle, lat. $39^{\circ} 30' - 40^{\circ}$, long. $107^{\circ} 30' - 108^{\circ}$. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of June, 1910. 17.5×13.6 in. †5c.

Colorado, Rangely quadrangle, lat. $40^{\circ} - 40^{\circ} 30'$, long. $108^{\circ} 30' - 109^{\circ}$. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of June, 1910. 17.5×13.5 in. †5c.

Colorado, White River quadrangle, lat. $40^{\circ} - 40^{\circ} 30'$, long. $108^{\circ} - 108^{\circ} 30'$. Scale 1 : 125,000, contour interval 100 ft. [Washington, Geological Survey] edition of June, 1910. 21.5×13.5 in. †5c.

MINES BUREAU

Publications that may be obtained through bureau. [1910.] 3 p. †

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. Beginning with Jan. 1, 1910, the Superintendent of Documents will sell the monthly volumes at \$5.00 per volume or \$60 per year, and back numbers, prior to 1907, may be had at \$3.00 per volume or \$36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to \$10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at \$1.00 per package, or in books containing 100 coupons at \$5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued on 12th of July, 1910 [with list of inventions]. [1910.] xxvii p. large 8° [From Official gazette, v. 156, no. 2.] † Paper, 5c.; single copy, \$1.00 a yr.

Official gazette, July 5-26, 1910; v. 156, nos. 1-4. 1910. cover-title, 1070-[cvii] p. il. large 8° [Weekly.] * Paper, 10c. single copy, \$5.00 a yr. 4—18256/3

NOTE.—Contains the patents, trade-marks, designs, and labels issued each week; also decisions of the Commissioner of Patents and of United States courts in patent cases.

Same [title-page, errata, index to decisions, etc., to] v. 154. 1910. [3]+ 1417-22 p. large 8° * Paper, 10c. single copy, included in price of Official gazette for subscribers. 4—18256/3

Trade-marks published July 12, 1910. [1910.] 521-531+iii p. il. large 8° [From Official gazette, v. 156, no. 2.] † Paper, 5c. single copy, \$2.00 a yr.

TOPOGRAPHER

Note.—Since February, 1908, the Topographer has been preparing rural-delivery maps of counties in which rural-delivery is completely established. A uniform scale of 1 inch to 1 mile is used. The maps are drawings on tracing linen, and copies are reproduced by the sun-print process. Editions are not issued but sun-print copies may be obtained at 50c. a copy from the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1910, page 351.

PRESIDENT OF UNITED STATES

Alaska. Executive order [modifying Executive order of Apr. 8, 1910, which set aside lands in Alaska for use of War Department for defensive purposes so as to exclude part of said lands from military reservation and place them under control of Navy Department as coaling station]. - Pueblo Reservation, N. Mex. Executive order [setting apart lands in New Mexico as reservation for Pueblo Indians belonging to Pueblo Laguna]. July 1, 1910. 1 p. f° (No. 1221.) †

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The volumes of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for free distribution. Publications should be ordered by the serial number. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

- Earth. Age of the earth; by George F. Becker. Washington, Smithsonian Institution, June, 1910. [2]+28 p. (Publication 1936; Smithsonian miscellaneous collections, v. 56, no. 6.) † Paper, 5c.
- Erosion. Preliminary study of chemical denudation; by Frank Wigglesworth Clarke. Washington, Smithsonian Institution, June, 1910. [2]+19 p. (Publication 1935; Smithsonian miscellaneous collections, v. 56, no. 5.) † Paper, 5c.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Supplement 3 [1910], corrections and additions to bulletin 19; to supplement information given upon charts of Great Lakes. U. S. Lake Survey Office, Detroit, Mich., [July 18] 1910. p. 1-3+1. 4-13+[2] p. map, 4° †
