#### § 1512. Transportation, open air testing, and disposal; Presidential determination; report to Congress; notice to Congress and State Governors

None of the funds authorized to be appropriated by this Act or any other Act may be used for the transportation of any lethal chemical or any biological warfare agent to or from any military installation in the United States,

or the open air testing of any such agent within the United States, or the disposal of any such agent within the United States until the following procedures have been implemented:

(1) the Secretary of Defense (hereafter referred to in this chapter as the “Secretary”) has determined that the transportation or testing proposed to be made is necessary in the interests of national security;

(2) the Secretary has brought the particulars of the proposed transportation, testing, or disposal to the attention of the Secretary of Health and Human Services, who in turn may direct the Surgeon General of the Public Health Service and other qualified persons to review such particulars with respect to any hazards to public health and safety which such transportation, testing, or disposal may pose and to recommend what precautionary measures are necessary to protect the public health and safety;

(D) The amount of the incentive payment earned by a contractor for a chemical demilitarization facility under an incentives clause under this subsection shall be based upon a determination by the Secretary on how early in the target incentive range specified in such clause destruction operations or facility closure activities, as the case may be, are completed.

(E) The provisions of any incentives clause under this subsection shall be consistent with the obligation of the Secretary of Defense under subsection (d)(1)(A), to provide for maximum protection for the environment, the general public, and the personnel who are involved in the destruction of the lethal chemical agents and munitions.

(F) In negotiating the inclusion of an incentives clause in a contract under this subsection, the Secretary may include in such clause such additional terms and conditions as the Secretary considers appropriate.

## SENSE OF CONGRESS ON COMPLETION OF DESTRUCTION OF UNITED STATES CHEMICAL WEAPONS STOCKPILE

Pub. L. 110-181, div. A, title IX, § 922, Jan. 28, 2008, 122 Stat. 282, as amended by Pub. L. 111-383, div. A, title XIV, § 1421(b)(10), Jan. 7, 2011, 124 Stat. 4420, provided that:

“(a) FINDINGS.—Congress makes the following findings:

“(1) The Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, done at Paris on January 13, 1993 (commonly referred to as the ‘Chemical Weapons Convention’), requires that destruction of the entire United States chemical weapons stockpile be completed by not later than April 29, 2007.

“(2) In 2006, under the terms of the Chemical Weapons Convention, the United States requested and received a one-time, 5-year extension of its chemical weapons destruction deadline to April 29, 2012.

“(3) On April 10, 2006, the Secretary of Defense notified Congress that the United States would not meet even the extended deadline under the Chemical Weapons Convention for destruction of the United States chemical weapons stockpile, but would ‘continue working diligently to minimize the time to complete destruction without sacrificing safety and security’ and would also ‘continue requesting resources needed to complete destruction as close to April 2012 as practicable’.

“(4) The United States chemical demilitarization program has met its one percent, 20 percent, and extended 45 percent destruction deadlines under the Chemical Weapons Convention.

“(5) Destroying the remaining stockpile of United States chemical weapons is imperative for public safety and homeland security, and doing so by April 2012, in accordance with the current destruction deadline provided under the Chemical Weapons Convention, is required by United States law.

“(6) The elimination of chemical weapons anywhere they exist in the world, and the prevention of their proliferation, is of utmost importance to the national security of the United States.

“(7) Section 921(b)(3) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat. 2359) contained a sense of Congress urging the Secretary of Defense to ensure the elimination of the United States chemical weapons stockpile in the shortest time possible, consistent with the requirement to protect public health, safety, and the environment.

“(8) Section 921(b)(4) of that Act contained a sense of Congress urging the Secretary of Defense to propose a credible treatment and disposal process with the support of affected communities. In this regard, any such process should provide for sufficient communication and consultation between representatives of the Department of Defense and representatives of affected States and communities.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) the United States is, and must remain, committed to making every effort to safely dispose of its entire chemical weapons stockpile by April 2012, the current destruction deadline provided under the Chemical Weapons Convention, or as soon thereafter as possible, and must carry out all of its other obligations under the Convention; and

“(2) the Secretary of Defense should make every effort to plan for, and to request in the annual budget

of the President submitted to Congress adequate funding to complete, the elimination of the United States chemical weapons stockpile in accordance with United States obligations under the Chemical Weapons Convention and in a manner that will protect public health, safety, and the environment, as required by law.

“(A) a single exposure to the agent;

“(B) exposure to the agent concurrently with other dangerous exposures, such as exposures to—

“(i) other potentially toxic substances in the environment, including pesticides, other insect and vermin control agents, and environmental pollutants;

“(A) IN GENERAL.—The President shall establish an interagency task force to determine the feasibility and advisability of establishing a facility that recreates both an urban environment and a suburban environment in such a way as to permit the effective testing, training, and evaluation in such environments of government personnel who are responsible for responding to the use of chemical and biological weapons in the United States.

“(B) DESCRIPTION OF FACILITY.—The facility considered under subparagraph (A) shall include—

“(i) facilities common to urban environments (including a multistory building and an underground rail transit system) and to suburban environments;
