In subsection (a), the last sentence is substituted for 5 U.S.C. 171a(a) (proviso).

In subsection (b), the words “this title and section 401 of title 50” are substituted for 5 U.S.C. 171a(b) (13th through 30th words of last sentence), since those words

merely described the coverage of this title and section 401 of title 50.

In subsection (c), the words “during the period covered by the report” are inserted for clarity. The following substitutions are made: “under section 125 of this title” for “pursuant to the provisions of this Act” since 125 of this title relates to the duty of the Secretary of Defense to take action to save public funds and to eliminate duplication in the Department of Defense; and the last 22 words of clause (3) for 5 U.S.C. 171a-1 (last 13 words).

In subsection (d), section 5 of 1953 Reorganization Plan No. 6 is omitted as covered by 5 U.S.C. 171a(f).

1988 ACT

Subsection (k) is based on Pub. L. 100-202, § 101(b) [title VIII, § 8042], 101 Stat. 1329-69.

Section 8042 of the FY88 Defense Appropriations Act (Public Law 100-202) established a requirement for the Secretary of Defense to submit an annual report on the cost of stationing United States forces overseas. Under that section, the annual report is to be sent to the Committees on Appropriations of the two Houses. In codifying that section as section 113(k) of title 10, the committee added the two Armed Services Committees as committees to be sent the annual report. This minor change from the source law does not change the nature of the report to be submitted.

The committee notes that the source section does not specify the period of time to be covered by the report. In the absence of statutory language specifying the period to be covered by the report, it would seem reasonable to conclude that the report should cover the previous fiscal year. The committee notes, however, that the report of the Senate Appropriations Committee on its FY88 defense appropriations bill (S. Rpt. 100-235) states that this new annual report “should cover the budget years and the 2 previous fiscal years” (page 54). The committee believes that such a requirement may be unnecessarily burdensome and in any case, if such a requirement is intended, should be stated in the statute. In the absence of clear intent, the provision is proposed to be codified without specifying the period of time to be covered by the annual report.

In codifying this provision, the committee also changed the term “United States troops” in the source law to “United States forces” for consistency in usage in title 10 and as being preferable usage. No change in meaning is intended. The committee also changed “overseas” to “outside the United States” and defined “United States” for this purpose to include the territories and possessions of the United States. The committee was concerned that the term “overseas” read literally could include Hawaii or Guam, an interpretation clearly not intended in enacting section 8042. The committee notes that the Senate report referred to above states “For the purposes of this report [meaning the new DOD annual report], U.S. forces stationed overseas are considered to be those outside of the United States and its territories.” The committee extrapolates from this statement that provisions in the report requirement relating to expenditures “overseas” and costs incurred “overseas” are also to be construed as relating to matters outside the United States and its territories and has prepared the codified provision accordingly.

ANNUAL REPORT ON MORATORIUM ON USE BY ARMED
FORCES OF ANTIPERSONNEL LANDMINES

Pub. L. 105-85, div. A, title XIII, §1309, Nov. 18, 1997, 111 Stat. 1956, provided that:

"(a) FINDINGS.—Congress makes the following findings:

"(1) The United States has stated its support for a ban on antipersonnel landmines that is global in scope and verifiable.

"(2) On May 16, 1996, the President announced that the United States, as a matter of policy, would eliminate its stockpile of non-self-destructing antipersonnel landmines, except those used for training purposes and in Korea, and that the United States would reserve the right to use self-destructing antipersonnel landmines in the event of conflict.

"(3) On May 16, 1996, the President also announced that the United States would lead an effort to nego-

tiating an international treaty permanently banning the use of all antipersonnel landmines.

“(4) The United States is currently participating at the United Nations Conference on Disarmament in negotiations aimed at achieving a global ban on the use of antipersonnel landmines.

“(5) On August 18, 1997, the administration agreed to participate in international negotiations sponsored by Canada (the so-called ‘Ottawa process’) designed to achieve a treaty that would outlaw the production, use, and sale of antipersonnel landmines.

“(6) On September 17, 1997, the President announced that the United States would not sign the antipersonnel landmine treaty concluded in Oslo, Norway, by participants in the Ottawa process because the treaty would not provide a geographic exception to allow the United States to stockpile and use antipersonnel landmines in Korea or an exemption that would preserve the ability of the United States to use mixed antitank mine systems which could be used to deter an armored assault against United States forces.

“(7) The President also announced a change in United States policy whereby the United States—

“(A) would no longer deploy antipersonnel landmines, including self-destructing antipersonnel landmines, by 2003, except in Korea;

“(B) would seek to field alternatives by that date, or by 2006 in the case of Korea;

“(C) would undertake a new initiative in the United Nations Conference on Disarmament to establish a global ban on the transfer of antipersonnel landmines; and

“(D) would increase its current humanitarian demining activities around the world.

“(8) The President’s decision would allow the continued use by United States forces of self-destructing antipersonnel landmines that are used as part of a mixed antitank mine system.

“(9) Under existing law (as provided in section 580 of Public Law 104–107; 110 Stat. 751), on February 12, 1999, the United States will implement a one-year moratorium on the use of antipersonnel landmines by United States forces except along internationally recognized national borders or in demilitarized zones within a perimeter marked area that is monitored by military personnel and protected by adequate means to ensure the exclusion of civilians.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) the United States should not implement a moratorium on the use of antipersonnel landmines by United States Armed Forces in a manner that would endanger United States personnel or undermine the military effectiveness of United States Armed Forces in executing their missions; and

“(2) the United States should pursue the development of alternatives to self-destructing antipersonnel landmines.

“(c) ANNUAL REPORT.—Not later than December 31 each year, the Secretary of Defense shall submit to the congressional defense committees [Committees on Armed Services and Appropriations of the Senate and the House of Representatives] a report concerning antipersonnel landmines. Each such report shall include the Secretary’s description of the following:

“(1) The military utility of the continued deployment and use by the United States of antipersonnel landmines.

“(2) The effect of a moratorium on the production, stockpiling, and use of antipersonnel landmines on the ability of United States forces to deter and defend against attack on land by hostile forces, including on the Korean peninsula.

“(3) Progress in developing and fielding systems that are effective substitutes for antipersonnel landmines, including an identification and description of the types of systems that are being developed and fielded, the costs associated with those systems, and the estimated timetable for developing and fielding those systems.

“(4) The effect of a moratorium on the use of antipersonnel landmines on the military effectiveness of current antitank mine systems.

“(5) The number and type of pure antipersonnel landmines that remain in the United States inventory and that are subject to elimination under the President’s September 17, 1997, declaration on United States antipersonnel landmine policy.

“(6) The number and type of mixed antitank mine systems that are in the United States inventory, the locations where they are deployed, and their effect on the deterrence and warfighting ability of United States Armed Forces.

“(7) The effect of the elimination of pure antipersonnel landmines on the warfighting effectiveness of the United States Armed Forces.

“(8) The costs already incurred and anticipated of eliminating antipersonnel landmines from the United States inventory in accordance with the policy enunciated by the President on September 17, 1997.

“(9) The benefits that would result to United States military and civilian personnel from an international treaty banning the production, use, transfer, and stockpiling of antipersonnel landmines.”

COMMEMORATION OF THE 50TH ANNIVERSARY OF THE
VIETNAM WAR

Proc. No. 8829, May 25, 2012, 77 F.R. 32875, provided:
As we observe the 50th anniversary of the Vietnam War, we reflect with solemn reverence upon the valor of a generation that served with honor. We pay tribute to the more than 3 million servicemen and women who left their families to serve bravely, a world away from everything they knew and everyone they loved. From Ia Drang to Khe Sanh, from Hue to Saigon and countless villages in between, they pushed through jungles and rice paddies, heat and monsoon, fighting heroically to protect the ideals we hold dear as Americans. Through more than a decade of combat, over air, land, and sea, these proud Americans upheld the highest traditions of our Armed Forces.

As a grateful Nation, we honor more than 58,000 patriots—their names etched in black granite—who sacrificed all they had and all they would ever know. We draw inspiration from the heroes who suffered unspeakably as prisoners of war, yet who returned home with their heads held high. We pledge to keep faith with those who were wounded and still carry the scars of war, seen and unseen. With more than 1,600 of our service members still among the missing, we pledge as a Nation to do everything in our power to bring these patriots home. In the reflection of The Wall, we see the military family members and veterans who carry a pain that may never fade. May they find peace in knowing their loved ones endure, not only in medals and memories, but in the hearts of all Americans, who are forever grateful for their service, valor, and sacrifice.

In recognition of a chapter in our Nation's history that must never be forgotten, let us renew our sacred commitment to those who answered our country's call in Vietnam and those who awaited their safe return. Beginning on Memorial Day 2012, the Federal Government will partner with local governments, private organizations, and communities across America to participate in the Commemoration of the 50th Anniversary of the Vietnam War—a 13-year program to honor and give thanks to a generation of proud Americans who saw our country through one of the most challenging missions we have ever faced. While no words will ever be fully worthy of their service, nor any honor truly befitting their sacrifice, let us remember that it is never too late to pay tribute to the men and women who answered the call of duty with courage and valor. Let us renew our commitment to the fullest possible accounting for those who have not returned. Throughout this Commemoration, let us strive to live up to their example by showing our Vietnam veterans, their families, and all who have served the fullest respect and support of a grateful Nation.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim May 28, 2012, through November 11, 2025, as the Commemoration of the 50th Anniversary of the Vietnam War. I call upon Federal, State, and local officials to honor our Vietnam veterans, our fallen, our wounded, those unaccounted for, our former prisoners of war, their families, and all who served with appropriate programs, ceremonies, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of May, in the year of our Lord two thousand twelve, and of the Independence of the United States of America the two hundred and thirty-sixth.

BARACK OBAMA.

EX. ORD. NO. 12765. DELEGATION OF CERTAIN DEFENSE RELATED AUTHORITIES OF PRESIDENT TO SECRETARY OF DEFENSE

By the authority vested in me as President by the Constitution and the laws of the United States of America, including section 301 of title 3 of the United States Code, and my authority as Commander in Chief of the Armed Forces of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Defense is hereby designated and empowered, without the approval, ratification, or other action by the President, to exercise the authority vested in the President by section 749 of title 10 of the United States Code to assign the command without regard to rank in grade to any commissioned officer otherwise eligible to command when two or more commissioned officers of the same grade or corresponding grades are assigned to the same area, field command, or organization.

SEC. 2. The Secretary of Defense is hereby designated and empowered, without the approval, ratification, or other action by the President, to exercise the authority vested in the President by section 7299a(a) of title 10 of the United States Code to direct that combatant vessels and escort vessels be constructed in a Navy or private yard, as the case may be, if the requirement of the Act of March 27, 1934 (ch. 95, 48 Stat. 503) that the first and each succeeding alternate vessel of the same class be constructed in a Navy yard is inconsistent with the public interest.

SEC. 3. For vessels, and for any major component of the hull or superstructure of vessels to be constructed or repaired for any of the armed forces, the Secretary of Defense is hereby designated and empowered, without the approval, ratification, or other action by the President, to exercise the authority vested in the President by section 7309(b) of title 10 of the United States Code to authorize exceptions to the prohibition in section 7309(a) of title 10 of the United States Code. The Secretary of Defense shall transmit notice of any such determination to the Congress, as required by section 7309(b).

SEC. 4. The Secretary of Defense may redelegate the authority delegated to him by this order, in accordance with applicable law.

SEC. 5. This order shall be effective immediately.

WAIVER OF LIMITATION WITH RESPECT TO END STRENGTH LEVEL OF U.S. ARMED FORCES IN JAPAN FOR FISCAL YEAR 1991

Memorandum of the President of the United States, May 14, 1991, 56 F.R. 23991, provided:

Memorandum for the Secretary of Defense
Consistent with section 8105(d)(2) of the Department of Defense Appropriation Act, 1991 (Public Law 101-511; 104 Stat. 1856) [set out above], I hereby waive the limitation in section 8105(b) which states that the end strength level for each fiscal year of all personnel of the Armed Forces of the United States stationed in Japan may not exceed the number that is 5,000 less than such end strength level for the preceding fiscal year, and declare that it is in the national interest to do so.

You are authorized and directed to inform the Congress of this waiver and of the reasons for the waiver contained in the attached justification, and to publish this memorandum in the Federal Register.

GEORGE BUSH.

Justification Pursuant to Section 8105(d)(2) of the Department of Defense Appropriations Act, 1991 (Public Law No. 101-511; 104 Stat. 1856)

In January of this year the Department of Defense signed a new Host Nation Support Agreement with the Government of Japan in which that government agreed to pay all utility and Japanese labor costs incrementally over the next five years (worth \$1.7 billion). Because United States forward deployed forces stationed in Japan have regional missions in addition to the de-

fense of Japan, we did not seek to have the Government of Japan offset all of the direct costs incurred by the United States related to the presence of all United States military personnel in Japan (excluding military personnel title costs).

§ 113a. Transmission of annual defense authorization request

(a) TIME FOR TRANSMITTAL.—The Secretary of Defense shall transmit to Congress the annual defense authorization request for a fiscal year during the first 30 days after the date on which the President transmits to Congress the budget for that fiscal year pursuant to section 1105 of title 31.

(b) DEFENSE AUTHORIZATION REQUEST DEFINED.—In this section, the term “defense authorization request”, with respect to a fiscal year, means a legislative proposal submitted to Congress for the enactment of the following:

- (1) Authorizations of appropriations for that fiscal year, as required by section 114 of this title.
- (2) Personnel strengths for that fiscal year, as required by section 115 of this title.
- (3) Authority to carry out military construction projects, as required by section 2802 of this title.
- (4) Any other matter that is proposed by the Secretary of Defense to be enacted as part of the annual defense authorization bill for that fiscal year.

(Added Pub. L. 107-314, div. A, title X, §1061(a), Dec. 2, 2002, 116 Stat. 2649; amended Pub. L. 108-136, div. A, title X, §1044(a), Nov. 24, 2003, 117 Stat. 1612.)
