(O) a detailed description of weapons and levels of munitions that may be required as support for the proposed sale; and

A certification transmitted pursuant to this subsection shall be unclassified, except that the information specified in clause (ii) and the details of the description specified in clause (iii) of subsection (a) may be classified if the public dis-

closure thereof would be clearly detrimental to the security of the United States, in which case the information shall be accompanied by a description of the damage to the national security that could be expected to result from public disclosure of the information. The letter of offer shall not be issued, with respect to a proposed sale to the North Atlantic Treaty Organization, any member country of such Organization, Japan, Australia, the Republic of Korea, Israel, or New Zealand, if the Congress, within fifteen calendar days after receiving such certification, or with respect to a proposed sale to any other country or organization, if the Congress within thirty calendar days after receiving such certification, enacts a joint resolution prohibiting the proposed sale, unless the President states in his certification that an emergency exists which requires such sale in the national security interests of the United States. If the President states in his certification that an emergency exists which requires the proposed sale in the national security interest of the United States, thus waiving the congressional review requirements of this subsection, he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the letter of offer and a discussion of the national security interests involved.

(2) Any such joint resolution shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976, except that for purposes of consideration of any joint resolution with respect to the North Atlantic Treaty Organization, any member country of such Organization, Japan, Australia, the Republic of Korea, Israel, or New Zealand, it shall be in order in the Senate to move to discharge a committee to which such joint resolution was referred if such committee has not reported such joint resolution at the end of five calendar days after its introduction.

(3) For the purpose of expediting the consideration and enactment of joint resolutions under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(4) In addition to the other information required to be contained in a certification submitted to the Congress under this subsection, each such certification shall cite any quarterly report submitted pursuant to section 2768¹ of this title which listed a price and availability estimate, or a request for the issuance of a letter of offer, which was a basis for the proposed sale which is the subject of such certification.

(5)(A) If, before the delivery of any major defense article or major defense equipment, or the furnishing of any defense service or design and construction service, sold pursuant to a letter of offer described in paragraph (1), the sensitivity of technology or the capability of the article, equipment, or service is enhanced or upgraded from the level of sensitivity or capability described in the numbered certification with respect to an offer to sell such article, equipment,

or service, then, at least 45 days before the delivery of such article or equipment or the furnishing of such service, the President shall prepare and transmit to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report—

(i) describing the manner in which the technology or capability has been enhanced or upgraded and describing the significance of such enhancement or upgrade; and

(ii) setting forth a detailed justification for such enhancement or upgrade.

(B) The provisions of subparagraph (A) apply to an article or equipment delivered, or a service furnished, within ten years after the transmittal to the Congress of a numbered certification with respect to the sale of such article, equipment, or service.

(C) Subject to paragraph (6), if the enhancement or upgrade in the sensitivity of technology or the capability of major defense equipment, defense articles, defense services, or design and construction services described in a numbered certification submitted under this subsection costs \$14,000,000 or more in the case of any major defense equipment, \$50,000,000 or more in the case of defense articles or defense services, or \$200,000,000 or more in the case of design or construction services, then the President shall submit to the Speaker of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and the chairman of the Committee on Foreign Relations of the Senate a new numbered certification which relates to such enhancement or upgrade and which shall be considered for purposes of this subsection as if it were a separate letter of offer to sell defense equipment, articles, or services, subject to all of the requirements, restrictions, and conditions set forth in this subsection. For purposes of this subparagraph, references in this subsection to sales shall be deemed to be references to enhancements or upgrades in the sensitivity of technology or the capability of major defense equipment, articles, or services, as the case may be.

(D) For the purposes of subparagraph (A), the term "major defense article" shall be construed to include electronic devices, which if upgraded, would enhance the mission capability of a weapon system.

(6) The limitation in paragraph (1) and the requirement in paragraph (5)(C) shall apply in the case of a letter of offer to sell to a member country of the North Atlantic Treaty Organization (NATO) or Australia, Japan, the Republic of Korea, Israel, or New Zealand that does not authorize a new sales territory that includes any country other than such countries only if the letter of offer involves—

(A) the sale of major defense equipment under this chapter for, or the enhancement or upgrade of major defense equipment at a cost of, \$25,000,000 or more, as the case may be; and

(B) the sale of defense articles or services for, or the enhancement or upgrade of defense articles or services at a cost of, \$100,000,000 or more, as the case may be; or

(C) the sale of design and construction services for, or the enhancement or upgrade of de-

sign and construction services at a cost of, \$300,000,000 or more, as the case may be.

(c) Application for export license; submission of numbered Presidential certification and statement to Congress; contents; emergency circumstances; joint resolution; exception; notification of upgrades

(1) Subject to paragraph (5), in the case of an application by a person (other than with regard to a sale under section 2761 or section 2762 of this title) for a license for the export of any major defense equipment sold under a contract in the amount of \$14,000,000 or more or of defense articles or defense services sold under a contract in the amount of \$50,000,000 or more (or, in the case of a defense article that is a firearm controlled under category I of the United States Munitions List, \$1,000,000 or more), before issuing such license the President shall transmit to the Speaker of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and to the chairman of the Committee on Foreign Relations of the Senate an unclassified numbered certification with respect to such application specifying (A) the foreign country or international organization to which such export will be made, (B) the dollar amount of the items to be exported, and (C) a description of the items to be exported. Each such numbered certification shall also contain an item indicating whether any offset agreement is proposed to be entered into in connection with such export and a description of any such offset agreement. In addition, the President shall, upon the request of such committee or the Committee on Foreign Affairs of the House of Representatives, transmit promptly to both such committees a statement setting forth, to the extent specified in such request, a description of the capabilities of the items to be exported, an estimate of the total number of United States personnel expected to be needed in the foreign country concerned in connection with the items to be exported and an analysis of the arms control impact pertinent to such application, prepared in consultation with the Secretary of Defense and a description from the person who has submitted the license application of any offset agreement proposed to be entered into in connection with such export (if known on the date of transmittal of such statement). In a case in which such articles or services are listed on the Missile Technology Control Regime Annex and are intended to support the design, development, or production of a Category I space launch vehicle system (as defined in section 2797c of this title), such report shall include a description of the proposed export and rationale for approving such export, including the consistency of such export with United States missile nonproliferation policy. A certification transmitted pursuant to this subsection shall be unclassified, except that the information specified in clause (B) and the details of the description specified in clause (C) may be classified if the public disclosure thereof would be clearly detrimental to the security of the United States, in which case the information shall be accompanied by a description of the damage to the national security that could be expected to result from public disclosure of the information.

(2) Unless the President states in his certification that an emergency exists which requires the proposed export in the national security interests of the United States, a license for export described in paragraph (1)—

(A) in the case of a license for an export to the North Atlantic Treaty Organization, any member country of that Organization or Australia, Japan, the Republic of Korea, Israel, or New Zealand, shall not be issued until at least 15 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 15-day period, enacts a joint resolution prohibiting the proposed export;

(B) in the case of a license for an export of a commercial communications satellite for launch from, and by nationals of, the Russian Federation, Ukraine, or Kazakhstan, shall not be issued until at least 15 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 15-day period, enacts a joint resolution prohibiting the proposed export; and

(C) in the case of any other license, shall not be issued until at least 30 calendar days after the Congress receives such certification, and shall not be issued then if the Congress, within that 30-day period, enacts a joint resolution prohibiting the proposed export.

If the President states in his certification that an emergency exists which requires the proposed export in the national security interests of the United States, thus waiving the requirements of subparagraphs (A) and (B) of this paragraph, he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the export license and a discussion of the national security interests involved.

(3)(A) Any joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(B) For the purpose of expediting the consideration and enactment of joint resolutions under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(4) The provisions of subsection (b)(5) shall apply to any equipment, article, or service for which a numbered certification has been transmitted to Congress pursuant to paragraph (1) in the same manner and to the same extent as that subsection applies to any equipment, article, or service for which a numbered certification has been transmitted to Congress pursuant to subsection (b)(1). For purposes of such application, any reference in subsection (b)(5) to “a letter of offer” or “an offer” shall be deemed to be a reference to “a contract”.

(5) In the case of an application by a person (other than with regard to a sale under section 2761 or 2762 of this title) for a license for the export to a member country of the North Atlantic Treaty Organization (NATO) or Australia, Japan, the Republic of Korea, Israel, or New

Zealand that does not authorize a new sales territory that includes any country other than such countries, the limitations on the issuance of the license set forth in paragraph (1) shall apply only if the license is for export of—

(A) major defense equipment sold under a contract in the amount of \$25,000,000 or more; or

(B) defense articles or defense services sold under a contract in the amount of \$100,000,000 or more.

(6) The President shall notify the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate at least 15 days prior to an export pursuant to a treaty referred to in section 2778(j)(1)(C)(i) of this title to which the provisions of paragraph (1) of this subsection would apply absent an exemption granted under section 2778(j)(1) of this title, for which purpose such notification shall contain information comparable to that specified in paragraph (1) of this subsection.

(d) Commercial technical assistance or manufacturing licensing agreements with non-North Atlantic Treaty Organization member countries; submission of Presidential certification; contents

(1) In the case of an approval under section 2778 of this title of a United States commercial technical assistance or manufacturing licensing agreement which involves the manufacture abroad of any item of significant combat equipment on the United States Munitions List, before such approval is given, the President shall submit a certification with respect to such proposed commercial agreement in a manner similar to the certification required under subsection (c)(1) containing comparable information, except that the last sentence of such subsection shall not apply to certifications submitted pursuant to this subsection.

(2) A certification under this subsection shall be submitted—

(A) at least 15 days before approval is given in the case of an agreement for or in a country which is a member of the North Atlantic Treaty Organization or Australia, Japan, the Republic of Korea, Israel, or New Zealand; and

(B) at least 30 days before approval is given in the case of an agreement for or in any other country;

unless the President states in his certification that an emergency exists which requires the immediate approval of the agreement in the national security interests of the United States.

(3) If the President states in his certification that an emergency exists which requires the immediate approval of the agreement in the national security interests of the United States, thus waiving the requirements of paragraph (4), he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate approval of the agreement and a discussion of the national security interests involved.

(4) Approval for an agreement subject to paragraph (1) may not be given under section 2778 of

this title if the Congress, within the 15-day or 30-day period specified in paragraph (2)(A) or (B), as the case may be, enacts a joint resolution prohibiting such approval.

(5)(A) Any joint resolution under paragraph (4) shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(B) For the purpose of expediting the consideration and enactment of joint resolutions under paragraph (4), a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

(6) The President shall notify the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate at least 15 days prior to an export pursuant to a treaty referred to in section 2778(j)(1)(C)(i) of this title to which the provisions of paragraph (1) of this subsection would apply absent an exemption granted under section 2778(j)(1) of this title, for which purpose such notification shall contain information comparable to that specified in paragraph (1) of this subsection.

§ 2778. Control of arms exports and imports

(a) Presidential control of exports and imports of defense articles and services, guidance of policy, etc.; designation of United States Munitions List; issuance of export licenses; negotiations information

(1) In furtherance of world peace and the security and foreign policy of the United States, the President is authorized to control the import and the export of defense articles and defense services and to provide foreign policy guidance to persons of the United States involved in the export and import of such articles and services. The President is authorized to designate those items which shall be considered as defense articles and defense services for the purposes of this section and to promulgate regulations for the import and export of such articles and services. The items so designated shall constitute the United States Munitions List.

(2) Decisions on issuing export licenses under this section shall take into account whether the export of an article would contribute to an arms race, aid in the development of weapons of mass destruction, support international terrorism, increase the possibility of outbreak or escalation of conflict, or prejudice the development of bilateral or multilateral arms control or non-proliferation agreements or other arrangements.

(3) In exercising the authorities conferred by this section, the President may require that any defense article or defense service be sold under this chapter as a condition of its eligibility for export, and may require that persons engaged in the negotiation for the export of defense articles and services keep the President fully and currently informed of the progress and future prospects of such negotiations.

(b) Registration and licensing requirements for manufacturers, exporters, or importers of designated defense articles and defense services

(1)(A)(i) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in an official capacity) who engages in the business of manufacturing, exporting, or importing any defense articles or defense services designated by the President under subsection (a)(1) shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations. Such regulations shall prohibit the return to the United States for sale in the United States (other than for the Armed Forces of the United States and its allies or for any State or local law enforcement agency) of any military firearms or ammunition of United States manufacture furnished to foreign governments by the United States under this chapter or any other foreign assistance or sales program of the United States, whether or not enhanced in value or improved in condition in a foreign country. This prohibition shall not extend to similar firearms that have been so substantially transformed as to become, in effect, articles of foreign manufacture.

(ii)(I) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in official capacity) who engages in the business of brokering activities with respect to the manufacture, export, import, or transfer of any defense article or defense service designated by the President under subsection (a)(1), or in the business of brokering activities with respect to the manufacture, export, import, or transfer of any foreign defense article or defense service (as defined in subclause (IV)), shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations.

(II) Such brokering activities shall include the financing, transportation, freight forwarding, or taking of any other action that facilitates the manufacture, export, or import of a defense article or defense service.

(III) No person may engage in the business of brokering activities described in subclause (I) without a license, issued in accordance with this chapter, except that no license shall be required for such activities undertaken by or for an agency of the United States Government—

(aa) for use by an agency of the United States Government; or

(bb) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(IV) For purposes of this clause, the term “foreign defense article or defense service” includes any non-United States defense article or defense service of a nature described on the United States Munitions List regardless of whether such article or service is of United States origin or whether such article or service contains United States origin components.

(B) The prohibition under such regulations required by the second sentence of subparagraph (A) shall not extend to any military firearms (or ammunition, components, parts, accessories, and attachments for such firearms) of United States manufacture furnished to any foreign government by the United States under this chapter or any other foreign assistance or sales program of the United States if—

(i) such firearms are among those firearms that the Secretary of the Treasury is, or was at any time, required to authorize the importation of by reason of the provisions of section 925(e) of title 18 (including the requirement for the listing of such firearms as curios or relics under section 921(a)(13) of that title); and

(ii) such foreign government certifies to the United States Government that such firearms are owned by such foreign government.

(C) A copy of each registration made under this paragraph shall be transmitted to the Secretary of the Treasury for review regarding law enforcement concerns. The Secretary shall report to the President regarding such concerns as necessary.

(2) Except as otherwise specifically provided in regulations issued under subsection (a)(1), no defense articles or defense services designated by the President under subsection (a)(1) may be exported or imported without a license for such export or import, issued in accordance with this chapter and regulations issued under this chapter, except that no license shall be required for exports or imports made by or for an agency of the United States Government (A) for official use by a department or agency of the United States Government, or (B) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(3)(A) For each of the fiscal years 1988 and 1989, \$250,000 of registration fees collected pursuant to paragraph (1) shall be credited to a Department of State account, to be available without fiscal year limitation. Fees credited to that account shall be available only for the payment of expenses incurred for—

(i) contract personnel to assist in the evaluation of munitions control license applications, reduce processing time for license applications, and improve monitoring of compliance with the terms of licenses; and

(ii) the automation of munitions control functions and the processing of munitions control license applications, including the development, procurement, and utilization of computer equipment and related software.

(B) The authority of this paragraph may be exercised only to such extent or in such amounts as are provided in advance in appropriation Acts.

(c) Criminal violations; punishment

Any person who willfully violates any provision of this section, section 2779 of this title, a treaty referred to in subsection (j)(1)(C)(i), or any rule or regulation issued under this section or section 2779 of this title, including any rule or regulation issued to implement or enforce a treaty referred to in subsection (j)(1)(C)(i) or an

implementing arrangement pursuant to such treaty, or who willfully, in a registration or license application or required report, makes any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading, shall upon conviction be fined for each violation not more than \$1,000,000 or imprisoned not more than 20 years, or both.

(d) Repealed. Pub. L. 96-70, title III, § 3303(a)(4), Sept. 27, 1979, 93 Stat. 499

(e) Enforcement powers of President

In carrying out functions under this section with respect to the export of defense articles and defense services, including defense articles and defense services exported or imported pursuant to a treaty referred to in subsection (j)(1)(C)(i), the President is authorized to exercise the same powers concerning violations and enforcement which are conferred upon departments, agencies and officials by subsections (c) and (d) of section 1760 of the Export Control Reform Act of 2018 (50 U.S.C. 4819), and by subsections (a)(1), (a)(2), (a)(3), (a)(4), (a)(7), (c), and (h) of section 1761 of such Act (50 U.S.C. 4820), subject to the same terms and conditions as are applicable to such powers under such Act, except that section 1760(c)(2) of such Act (50 U.S.C. 4819(c)(2)) shall not apply, and instead, as prescribed in regulations issued under this section, the Secretary of State may assess civil penalties for violations of this chapter and regulations prescribed thereunder and further may commence a civil action to recover such civil penalties, and except further that the names of the countries and the types and quantities of defense articles for which licenses are issued under this section shall not be withheld from public disclosure unless the President determines that the release of such information would be contrary to the national interest. Nothing in this subsection shall be construed as authorizing the withholding of information from the Congress. Notwithstanding section section¹ 1760(c) of the Export Control Reform Act of 2018 (50 U.S.C. 4819(c)), the civil penalty for each violation involving controls imposed on the export of defense articles and defense services under this section may not exceed the greater of \$1,200,000 or the amount that is twice the value of the transaction that is the basis of the violation with respect to which the penalty is imposed.¹

(f) Periodic review of items on Munitions List; exemptions

(1) The President shall periodically review the items on the United States Munitions List to determine what items, if any, no longer warrant export controls under this section. The results of such reviews shall be reported to the Speaker of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and to the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate. The President may not remove any item from the Munitions List until 30 days after the date on which the President has provided notice of the proposed re-

moval to the Committee on International Relations of the House of Representatives and to the Committee on Foreign Relations of the Senate in accordance with the procedures applicable to reprogramming notifications under section 2394-1(a) of this title. Such notice shall describe the nature of any controls to be imposed on that item under any other provision of law.

(2) The President may not authorize an exemption for a foreign country from the licensing requirements of this chapter for the export of defense items under subsection (j) or any other provision of this chapter until 30 days after the date on which the President has transmitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a notification that includes—

(A) a description of the scope of the exemption, including a detailed summary of the defense articles, defense services, and related technical data covered by the exemption; and

(B) a determination by the Attorney General that the bilateral agreement concluded under subsection (j) requires the compilation and maintenance of sufficient documentation relating to the export of United States defense articles, defense services, and related technical data to facilitate law enforcement efforts to detect, prevent, and prosecute criminal violations of any provision of this chapter, including the efforts on the part of countries and factions engaged in international terrorism to illicitly acquire sophisticated United States defense items.

(3) Paragraph (2) shall not apply with respect to an exemption for Canada, the United Kingdom, or Australia from the licensing requirements of this chapter for the export of defense items.

(4) Paragraph (2) shall not apply with respect to an exemption under subsection (j)(1) to give effect to a treaty referred to in subsection (j)(1)(C)(i) (and any implementing arrangements to such treaty), provided that the President promulgates regulations to implement and enforce such treaty under this section and section 2779 of this title.

(5)(A) Except as provided in subparagraph (B), the President shall take such actions as may be necessary to require that, at the time of export or reexport of any major defense equipment listed on the 600 series of the Commerce Control List contained in Supplement No. 1 to part 774 of subtitle B of title 15, Code of Federal Regulations, the major defense equipment will not be subsequently modified so as to transform such major defense equipment into a defense article.

(B) The President may authorize the transformation of any major defense equipment described in subparagraph (A) into a defense article if the President—

(i) determines that such transformation is appropriate and in the national interests of the United States; and

(ii) provides notice of such transformation to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate consistent with the notification requirements of section 2776(b)(5)(A) of this title.

(6) The President shall ensure that any major defense equipment that is listed on the 600 series of the Commerce Control List contained in Supplement No. 1 to part 774 of subtitle B of title 15, Code of Federal Regulations, shall continue to be subject to the notification and reporting requirements of the following provisions of law:

LANDMINE EXPORT MORATORIUM

Pub. L. 102-484, div. A, title XIII, §1365, Oct. 23, 1992, 106 Stat. 2561, as amended by Pub. L. 103-160, div. A, title XI, §1182(c)(3), title XIV, §1423(c), Nov. 30, 1993, 107 Stat. 1772, 1832; Pub. B, §1000(a)(2) [title V, §553], Nov. 29, 1999, 113 Stat. 1535, 1501A-99; Pub. L. 107-115, title V, §548, Jan. 10, 2002, 115 Stat. 2156; Pub. L. 110-161, div. J, title VI, §634(j), Dec. 26, 2007, 121 Stat. 2329, provided that:

“(a) FINDINGS.—The Congress makes the following findings:

“(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

“(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines

during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

“(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at \$980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at \$841,145.

“(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

“(5) When it signed the Convention, the United States stated: ‘We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.’

“(6) The President should submit the Convention to the Senate for its advice and consent to ratification, and the President should actively negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. Such an agreement or modification would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

“(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

“(b) STATEMENT OF POLICY.—(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer, or export, and further limiting the use, production, possession, and deployment of anti-personnel landmines.

“(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer, or export of anti-personnel landmines.

“(c) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—During the 22 year period beginning on October 23, 1992—

“(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act [22 U.S.C. 2751 et seq.], with respect to any anti-personnel landmine; and

“(2) no assistance may be provided under the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], with respect to the provision of any anti-personnel landmine.

“(d) DEFINITION.—For purposes of this section, the term ‘anti-personnel landmine’ means—

“(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

“(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

“(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.”

[Section 634(j) of title VI of div. J of Pub. L. 110-161, which directed the amendment of section 1365(c) of Pub. L. 102-484, set out above, by substituting “During the 22 year period beginning on October 23, 1992” for “During the 16 year period beginning on October 23, 1992” before the period at the end, was executed by making the substitution in the introductory provisions, to reflect the probable intent of Congress.]

[Section 1000(a)(2) [title V, §553] of div. B of Pub. L. 106-113, which directed the amendment of section 1365(c) of Pub. L. 102-484, set out above, by substituting “During the 11-year” for “During the five-year”, was executed by making the substitution for “During the eight-year”.]

ARMS TRANSFERS RESTRAINT POLICY FOR MIDDLE EAST AND PERSIAN GULF REGION

Pub. L. 102-138, title IV, Oct. 28, 1991, 105 Stat. 718, as amended by Pub. L. 114-323, title VII, §715(a)(2), Dec. 16, 2016, 130 Stat. 1946, provided that:

“SEC. 401. FINDINGS.

“The Congress finds that—

“(1) nations in the Middle East and Persian Gulf region, which accounted for over 40 percent of the international trade in weapons and related equipment and services during the decade of the 1980’s, are the principal market for the worldwide arms trade;

“(2) regional instability, large financial resources, and the desire of arms-supplying governments to gain influence in the Middle East and Persian Gulf region, contribute to a regional arms race;

“(3) the continued proliferation of weapons and related equipment and services contribute further to a regional arms race in the Middle East and Persian Gulf region that is politically, economically, and militarily destabilizing;

“(4) the continued proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons, poses an urgent threat to security and stability in the Middle East and Persian Gulf region;

“(5) the continued proliferation of ballistic missile technologies and ballistic missile systems that are capable of delivering conventional, nuclear, biological, or chemical warheads undermines security and stability in the Middle East and Persian Gulf region;

“(6) future security and stability in the Middle East and Persian Gulf region would be enhanced by establishing a stable military balance among regional powers by restraining and reducing both conventional and unconventional weapons;

“(7) security, stability, peace, and prosperity in the Middle East and Persian Gulf region are important to the welfare of the international economy and to the national security interests of the United States;

“(8) future security and stability in the Middle East and Persian Gulf region would be enhanced through the development of a multilateral arms transfer and control regime similar to those of the Nuclear Suppliers’ Group, the Missile Technology Control Regime, and the Australia Chemical Weapons Suppliers Group;

“(9) such a regime should be developed, implemented, and agreed to through multilateral negotiations, including under the auspices of the 5 permanent members of the United Nations Security Council;

“(10) confidence-building arms control measures such as the establishment of a centralized arms trade registry at the United Nations, greater multinational transparency on the transfer of defense articles and services prior to agreement or transfer, cooperative verification measures, advanced notification of military exercises, information exchanges, on-site inspections, and creation of a Middle East and Persian Gulf Conflict Prevention Center, are important to implement an effective multilateral arms transfer and control regime;

“(11) as an interim step, the United States should consider introducing, during the ongoing negotia-

tions on confidence security-building measures at the Conference on Security and Cooperation in Europe (CSCE) [now the Organization for Security and Cooperation in Europe], a proposal regarding the international exchange of information, on an annual basis, on the sale and transfer of major military equipment, particularly to the Middle East and Persian Gulf region; and

“(12) such a regime should be applied to other regions with the ultimate objective of achieving an effective global arms transfer and control regime, implemented and enforced through the United Nations Security Council, that—

“(A) includes a linkage of humanitarian and developmental objectives with security objectives in Third World countries, particularly the poorest of the poor countries; and

“(B) encourages countries selling military equipment and services to consider the following factors before making conventional arms sales: the security needs of the purchasing countries, the level of defense expenditures by the purchasing countries, and the level of indigenous production of the purchasing countries.

“SEC. 402. MULTILATERAL ARMS TRANSFER AND CONTROL REGIME.

“(a) IMPLEMENTATION OF THE REGIME.—

“(1) CONTINUING NEGOTIATIONS.—The President shall continue negotiations among the 5 permanent members of the United Nations Security Council and commit the United States to a multilateral arms transfer and control regime for the Middle East and Persian Gulf region.

“(2) PROPOSING A TEMPORARY MORATORIUM DURING NEGOTIATIONS.—In the context of these negotiations, the President should propose to the 5 permanent members of the United Nations Security Council a temporary moratorium on the sale and transfer of major military equipment to nations in the Middle East and Persian Gulf region until such time as the 5 permanent members agree to a multilateral arms transfer and control regime.

“(b) PURPOSE OF THE REGIME.—The purpose of the multilateral arms transfer and control regime should be—

“(1) to slow and limit the proliferation of conventional weapons in the Middle East and Persian Gulf region with the aim of preventing destabilizing transfers by—

“(A) controlling the transfer of conventional major military equipment;

“(B) achieving transparency among arms suppliers nations through advanced notification of agreement to, or transfer of, conventional major military equipment; and

“(C) developing and adopting common and comprehensive control guidelines on the sale and transfer of conventional major military equipment to the region;

“(2) to halt the proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons and the technologies necessary to produce or assemble such weapons;

“(3) to limit and halt the proliferation of ballistic missile technologies and ballistic missile systems that are capable of delivering conventional, nuclear, biological, or chemical warheads;

“(4) to maintain the military balance in the Middle East and Persian Gulf region through reductions of conventional weapons and the elimination of unconventional weapons; and

“(5) to promote regional arms control in the Middle East and Persian Gulf region.

“(c) ACHIEVING THE PURPOSES OF THE REGIME.—

“(1) CONTROLLING PROLIFERATION OF CONVENTIONAL WEAPONS.—In order to achieve the purposes described in subsection (b)(1), the United States should pursue the development of a multilateral arms transfer and control regime which includes—

“(A) greater information-sharing practices among supplier nations regarding potential arms sales to all nations of the Middle East and Persian Gulf region;

“(B) applying, for the control of conventional major military equipment, procedures already developed by the International Atomic Energy Agency, the Multilateral Coordinating Committee on Export Controls (COCOM), and the Missile Technology Control Regime (MTCR); and

“(C) other strict controls on the proliferation of conventional major military equipment to the Middle East and Persian Gulf region.

“(2) HALTING PROLIFERATION OF UNCONVENTIONAL WEAPONS.—In order to achieve the purposes described in subsections (b)(2) and (3), the United States should build on existing and future agreements among supplier nations by pursuing the development of a multilateral arms transfer and control regime which includes—

“(A) limitations and controls contained in the Enhanced Proliferation Control Initiative;

“(B) limitations and controls contained in the Missile Technology Control Regime (MTCR);

“(C) guidelines followed by the Australia Group on chemical and biological arms proliferation;

“(D) guidelines adopted by the Nuclear Suppliers Group (the London Group); and

“(E) other appropriate controls that serve to halt the flow of unconditional [unconventional] weapons to the Middle East and Persian Gulf region.

“(3) PROMOTION OF REGIONAL ARMS CONTROL AGREEMENTS.—In order to achieve the purposes described in subsections (b)(4) and (5), the United States should pursue with nations in the Middle East and Persian Gulf region—

“(A) the maintenance of the military balance within the region, while eliminating nuclear, biological, and chemical weapons and associated delivery systems, and ballistic missiles;

“(B) the implementation of confidence-building and security-building measures, including advance notification of certain ground and aerial military exercises in the Middle East and the Persian Gulf; and

“(C) other useful arms control measures.

“(d) MAJOR MILITARY EQUIPMENT.—As used in this title, the term ‘major military equipment’ means—

“(1) air-to-air, air-to-surface, and surface-to-surface missiles and rockets;

“(2) turbine-powered military aircraft;

“(3) attack helicopters;

“(4) main battle tanks;

“(5) submarines and major naval surface combatants;

“(6) nuclear, biological, and chemical weapons; and

“(7) such other defense articles and defense services as the President may determine.

“SEC. 403. LIMITATION ON UNITED STATES ARMS SALES TO THE REGION.

“Beginning 60 days after the date of enactment of the International Cooperation Act of 1991 [probably means H.R. 2508, which had not been enacted into law by the end of the first session of the 102d Congress] or the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 [Oct. 28, 1991], whichever is enacted first, no sale of any defense article or defense service may be made to any nation in the Middle East and Persian Gulf region, and no license may be issued for the export of any defense article or defense service to any nation in the Middle East and Persian Gulf region, unless the President—

“(1) certifies in writing to the relevant congressional committees that the President has undertaken good faith efforts to convene a conference for the establishment of an arms suppliers regime having elements described in section 402; and

“(2) submits to the relevant congressional committees a report setting forth a United States plan for

leading the world community in establishing such a multilateral regime to restrict transfers of advanced conventional and unconventional arms to the Middle East and Persian Gulf region.

“As used in this title, the term ‘relevant congressional committees’ means the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.”

DELEGATION OF FUNCTIONS

Functions of President under this section delegated to Secretary of State by Memorandum of President of the United States, July 26, 1994, 59 F.R. 40205, set out as a note under section 2370a of this title.

§ 2780. Transactions with countries supporting acts of international terrorism**(a) Prohibited transactions by United States Government**

The following transactions by the United States Government are prohibited:

(1) Exporting or otherwise providing (by sale, lease or loan, grant, or other means), directly or indirectly, any munitions item to a country described in subsection (d) under the authority of this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or any other law (except as provided in subsection (h)). In implementing this paragraph, the United States Government—

(A) shall suspend delivery to such country of any such item pursuant to any such transaction which has not been completed at the time the Secretary of State makes the determination described in subsection (d), and

(B) shall terminate any lease or loan to such country of any such item which is in effect at the time the Secretary of State makes that determination.

(2) Providing credits, guarantees, or other financial assistance under the authority of this chapter, the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], or any other law (except as

provided in subsection (h)), with respect to the acquisition of any munitions item by a country described in subsection (d). In implementing this paragraph, the United States Government shall suspend expenditures pursuant to any such assistance obligated before the Secretary of State makes the determination described in subsection (d). The President may authorize expenditures otherwise required to be suspended pursuant to the preceding sentence if the President has determined, and reported to the Congress, that suspension of those expenditures causes undue financial hardship to a supplier, shipper, or similar person and allowing the expenditure will not result in any munitions item being made available for use by such country.

(3) Consenting under section 2753(a) of this title, under section 505(a) of the Foreign Assistance Act of 1961 [22 U.S.C. 2314(a)], under the regulations issued to carry out section 2778 of this title, or under any other law (except as provided in subsection (h)), to any transfer of any munitions item to a country described in subsection (d). In implementing this paragraph, the United States Government shall withdraw any such consent which is in effect at the time the Secretary of State makes the determination described in subsection (d), except that this sentence does not apply with respect to any item that has already been transferred to such country.

(4) Providing any license or other approval under section 2778 of this title for any export or other transfer (including by means of a technical assistance agreement, manufacturing licensing agreement, or coproduction agreement) of any munitions item to a country described in subsection (d). In implementing this paragraph, the United States Government shall suspend any such license or other approval which is in effect at the time the Secretary of State makes the determination described in subsection (d), except that this sentence does not apply with respect to any item that has already been exported or otherwise transferred to such country.

(5) Otherwise facilitating the acquisition of any munitions item by a country described in subsection (d). This paragraph applies with respect to activities undertaken—

(A) by any department, agency, or other instrumentality of the Government,

(B) by any officer or employee of the Government (including members of the United States Armed Forces), or

(C) by any other person at the request or on behalf of the Government.

The Secretary of State may waive the requirements of the second sentence of paragraph (1), the second sentence of paragraph (3), and the second sentence of paragraph (4) to the extent that the Secretary determines, after consultation with the Congress, that unusual and compelling circumstances require that the United States Government not take the actions specified in that sentence.

(b) Prohibited transactions by United States persons**(1) In general**

A United States person may not take any of the following actions:

(A) Exporting any munitions item to any country described in subsection (d).

(B) Selling, leasing, loaning, granting, or otherwise providing any munitions item to any country described in subsection (d).

(C) Selling, leasing, loaning, granting, or otherwise providing any munitions item to any recipient which is not the government of or a person in a country described in subsection (d) if the United States person has reason to know that the munitions item will be made available to any country described in subsection (d).

(D) Taking any other action which would facilitate the acquisition, directly or indirectly, of any munitions item by the government of any country described in subsection (d), or any person acting on behalf of that government, if the United States person has reason to know that that action will facilitate the acquisition of that item by such a government or person.

(2) Liability for actions of foreign subsidiaries, etc.

A United States person violates this subsection if a corporation or other person that is controlled in fact by that United States person (as determined under regulations, which the President shall issue) takes an action described in paragraph (1) outside the United States.

(3) Applicability to actions outside the United States

Paragraph (1) applies with respect to actions described in that paragraph which are taken either within or outside the United States by a United States person described in subsection (1)(3)(A) or (B). To the extent provided in regulations issued under subsection (1)(3)(D), paragraph (1) applies with respect to actions described in that paragraph which are taken outside the United States by a person designated as a United States person in those regulations.

(c) Transfers to governments and persons covered

This section applies with respect to—

(1) the acquisition of munitions items by the government of a country described in subsection (d); and

(2) the acquisition of munitions items by any individual, group, or other person within a country described in subsection (d), except to the extent that subparagraph (D) of subsection (b)(1) provides otherwise.

(d) Countries covered by prohibition

The prohibitions contained in this section apply with respect to a country if the Secretary of State determines that the government of that country has repeatedly provided support for acts of international terrorism. For purposes of this subsection, such acts shall include all activities that the Secretary determines willfully aid or abet the international proliferation of nuclear

explosive devices to individuals or groups, willfully aid or abet an individual or groups in acquiring unsafeguarded special nuclear material, or willfully aid or abet the efforts of an individual or group to use, develop, produce, stockpile, or otherwise acquire chemical, biological, or radiological weapons.

(e) Publication of determinations

Each determination of the Secretary of State under subsection (d) shall be published in the Federal Register.

(f) Rescission

(A) before the proposed rescission would take effect, a report certifying that—

(i) there has been a fundamental change in the leadership and policies of the government of the country concerned;

(B) at least 45 days before the proposed rescission would take effect, a report justifying the rescission and certifying that—

(i) the government concerned has not provided any support for international terrorism during the preceding 6-month period; and

(ii) the government concerned has provided assurances that it will not support acts of international terrorism in the future.

(2)(A) No rescission under paragraph (1)(B) of a determination under subsection (d) may be made if the Congress, within 45 days after receipt of a report under paragraph (1)(B), enacts a joint resolution the matter after the resolving clause of which is as follows: “That the proposed rescission of the determination under section 40(d) of the Arms Export Control Act pursuant to the report submitted to the Congress on _____ is hereby prohibited.”, the blank to be completed with the appropriate date.

(B) A joint resolution described in subparagraph (A) and introduced within the appropriate 45-day period shall be considered in the Senate and the House of Representatives in accordance with paragraphs (3) through (7) of section 8066(c) of the Department of Defense Appropriations Act (as contained in Public Law 98-473), except that references in such paragraphs to the Committees on Appropriations of the House of Representatives and the Senate shall be deemed to be references to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, respectively.

(g) Waiver

The President may waive the prohibitions contained in this section with respect to a specific transaction if—

(1) the President determines that the transaction is essential to the national security interests of the United States; and

(2) not less than 15 days prior to the proposed transaction, the President—

(A) consults with the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate; and

(B) submits to the Speaker of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and the chairman of the Committee on Foreign Relations of the Senate a report containing—

(i) the name of any country involved in the proposed transaction, the identity of any recipient of the items to be provided pursuant to the proposed transaction, and the anticipated use of those items;

(ii) a description of the munitions items involved in the proposed transaction (including their market value) and the actual sale price at each step in the transaction (or if the items are transferred by other than sale, the manner in which they will be provided);

(iii) the reasons why the proposed transaction is essential to the national security interests of the United States and the justification for such proposed transaction;

(iv) the date on which the proposed transaction is expected to occur; and

(v) the name of every United States Government department, agency, or other entity involved in the proposed transaction, every foreign government involved in the proposed transaction, and every private party with significant participation in the proposed transaction.

To the extent possible, the information specified in subparagraph (B) of paragraph (2) shall be provided in unclassified form, with any classified information provided in an addendum to the report.

(h) Exemption for transactions subject to National Security Act reporting requirements

The prohibitions contained in this section do not apply with respect to any transaction subject to reporting requirements under title V of the National Security Act of 1947 [50 U.S.C. 3091 et seq.]; relating to congressional oversight of intelligence activities).

AMENDMENTS

2014—Subsecs. (f)(1), (g)(2)(B). Pub. L. 113-276 substituted “the Speaker of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and” for “the Speaker of the House of Representatives and” in introductory provisions.

2010—Subsec. (j). Pub. L. 111-195 substituted “20 years” for “10 years”.

2002—Subsec. (d). Pub. L. 107-228 substituted “groups,” for “groups or” in second sentence and inserted before period at end “, or willfully aid or abet

the efforts of an individual or group to use, develop, produce, stockpile, or otherwise acquire chemical, biological, or radiological weapons”.

1999—Subsec. (k). Pub. L. 106-113 inserted “section 11(c)(2)(B) of such Act shall not apply, and instead, as prescribed in regulations issued under this section, the Secretary of State may assess civil penalties for violations of this chapter and regulations prescribed thereunder and further may commence a civil action to recover such civil penalties, and except further that” after “except that”.

1994—Subsec. (d). Pub. L. 103-236, § 822(a)(2)(A), inserted at end “For purposes of this subsection, such acts shall include all activities that the Secretary determines willfully aid or abet the international proliferation of nuclear explosive devices to individuals or groups or willfully aid or abet an individual or groups in acquiring unsafeguarded special nuclear material.”

Subsec. (l). Pub. L. 103-236, § 822(a)(2)(B), amended subsec. (l) by striking “and” after the semicolon in par. (2), substituting a semicolon for the period at the end of par. (3), and adding pars. (4) and (5).

1991—Subsec. (f). Pub. L. 102-138, § 321, designated existing provisions as par. (1), redesignated former par. (1) as subpar. (A) and former subpars. (A) to (C) as cls. (i) to (iii), respectively, redesignated former par. (2) as subpar. (B) and former subpars. (A) and (B) as cls. (i) and (ii), respectively, and added par. (2). So much of Pub. L. 102-138, § 321(1), as directed that subpar. (C) of former par. (2) be redesignated cl. (iii) of par. (1)(B), could not be executed because no such subpar. (C) had been enacted.

1989—Pub. L. 101-222 substituted “Transactions with” for “Exports to” in section catchline and amended text generally. Prior to amendment, text read as follows:

“(a) PROHIBITION.—Except as provided in subsection (b) of this section, items on the United States Munitions List may not be exported to any country which the Secretary of State has determined, for purposes of section 6(j)(1)(A) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)(A)), has repeatedly provided support for acts of international terrorism.
