Pub. L. 110-432, div. B, title IV, §406, Oct. 16, 2008, 122 Stat. 4958, provided that:

“(a) PLAN.—Not later than 1 year after the date of the enactment of this Act [Oct. 16, 2008], Amtrak shall, in consultation with the Secretary [of Transportation], the Secretary of Homeland Security, the Washington State Department of Transportation, and the owners of the relevant railroad infrastructure—

“(1) develop a strategic plan to facilitate expanded passenger rail service across the international border between the United States and Canada during the 2010 Olympic Games on the Amtrak passenger rail route between Vancouver, British Columbia, Canada, and Eugene, Oregon (commonly known as ‘Amtrak Cascades’);

“(2) develop recommendations for the Department of Homeland Security to process efficiently rail passengers traveling on Amtrak Cascades across such international border during the 2010 Olympic Games; and

“(3) submit to Congress a report containing the strategic plan described in paragraph (1) and the recommendations described in paragraph (2).

“(b) TRAVEL FACILITATION.—Using existing authority or agreements, or upon reaching additional agreements with Canada, the Secretary [of Transportation] and other Federal agencies, as appropriate, are authorized to establish facilities and procedures to conduct preclearance of passengers traveling on Amtrak trains from Canada to the United States. The Secretary shall seek to establish such facilities and procedures—

“(1) in Vancouver, Canada, no later than June 1, 2009; and

“(2) in other areas as determined appropriate by the Secretary.”

§ 24710. Long-distance routes

(a) ANNUAL EVALUATION.—Using the financial and performance metrics developed under section 207 of the Passenger Rail Investment and Improvement Act of 2008, Amtrak shall—

(1) evaluate annually the financial and operating performance of each long-distance passenger rail route operated by Amtrak; and

(2) rank the overall performance of such routes for 2008 and identify each long-distance passenger rail route operated by Amtrak in 2008 according to its overall performance as belonging to the best performing third of such routes, the second best performing third of such routes, or the worst performing third of such routes.

(b) PERFORMANCE IMPROVEMENT PLAN.—Amtrak shall develop and post on its website a performance improvement plan for its long-distance passenger rail routes to achieve financial and operating improvements based on the data collected through the application of the financial and performance metrics developed under section 207 of that Act. The plan shall address—

(1) on-time performance;

(2) scheduling, frequency, routes, and stops;

(3) the feasibility of restructuring service into connected corridor service;

(4) performance-related equipment changes and capital improvements;

(5) on-board amenities and service, including food, first class, and sleeping car service;

(6) State or other non-Federal financial contributions;

(7) improving financial performance;

(8) anticipated Federal funding of operating and capital costs; and

(9) other aspects of Amtrak’s long-distance passenger rail routes that affect the financial, competitive, and functional performance of service on Amtrak’s long-distance passenger rail routes.

Administration determines that Amtrak is not making reasonable progress in implementing its performance improvement plan or, after the performance improvement plan is implemented under subsection (c)(1) in accordance with the terms of that plan, Amtrak has not achieved the outcomes it has established for such routes, under the plan for any calendar year, the Federal Railroad Administration—

(1) shall notify Amtrak, the Inspector General of the Department of Transportation, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate of its determination under this subsection;

(2) shall provide Amtrak with an opportunity for a hearing with respect to that determination; and

(ii) establish a deadline, of not more than 120 days after the notice of receipt is published in the Federal Register under

clause (i), by which both the petitioner and Amtrak, if Amtrak chooses to do so, would be required to submit a complete bid to provide intercity rail passenger transportation over the applicable route; and

(iii) upon selecting a winning bid, publish in the Federal Register the identity of the winning bidder, the long distance route that the bidder will operate, a detailed justification of the reasons why the Secretary selected the bid, and any other information the Secretary determines appropriate for public comment for a reasonable period of time not to exceed 30 days after the date on which the Secretary selects the bid;

(ii) be made available by the winning bidder to the public after the bid award with any appropriate redactions for confidential or proprietary information;

(D) for a route that receives funding from a State or States, require that for each bid received from a petitioner described in paragraph (3), other than such State or States, the Secretary have the concurrence of the State or States that provide funding for that route; and

(ii) an operating subsidy, as determined by the Secretary, for—

(I) the first year at a level that does not exceed 90 percent of the level in effect for that specific route during the fiscal year preceding the fiscal year in which the petition was received, adjusted for inflation; and

(II) any subsequent years at the level calculated under subclause (I), adjusted for inflation.

(2) **LIMITATION.**—The requirements under paragraph (1)(E), including the amounts of operating subsidies in the first and any subsequent years under paragraph (1)(E)(ii), shall not apply to a winning bidder that is or includes Amtrak.

(3) **ELIGIBLE PETITIONERS.**—The following parties are eligible to submit petitions under paragraph (1):

§ 24902. Goals and requirements

(a) MANAGING COSTS AND REVENUES.—Amtrak shall manage its operating costs, pricing policies, and other factors with the goal of having revenues derived each fiscal year from providing intercity rail passenger transportation over the Northeast Corridor route between the District of Columbia and Boston, Massachusetts, equal at least the operating costs of providing that transportation in that fiscal year.

(b) PRIORITIES IN SELECTING AND SCHEDULING PROJECTS.—When selecting and scheduling specific projects, Amtrak shall apply the following considerations, in the following order of priority:

(1) Safety-related items should be completed before other items because the safety of the passengers and users of the Northeast Corridor is paramount.

(2) Activities that benefit the greatest number of passengers should be completed before activities involving fewer passengers.

(3) Reliability of intercity rail passenger transportation must be emphasized.

(4) Trip-time requirements of this section must be achieved to the extent compatible with the priorities referred to in paragraphs (1)–(3) of this subsection.

(5) Improvements that will pay for the investment by achieving lower operating or maintenance costs should be carried out before other improvements.

(6) Construction operations should be scheduled so that the fewest possible passengers are inconvenienced, transportation is maintained,
