RULING ON ENTITLEMENT¹

On January 8, 2021, Grace Wang filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). On May 9, 2023, Petitioner filed an amended petition. Petitioner alleges that she suffered a right shoulder injury related to vaccine administration (“SIRVA”) resulting from the adverse effects of a Tetanus diphtheria (“Td”) vaccine received on August 9, 2020. Amended Petition at 1. Petitioner further alleges that she received the vaccine in the United States, she suffered the residual effects of her injury for more than

six months, and neither Petitioner nor any other party has ever received compensation in the form of an award or settlement for her vaccine-related injury. Amended Petition at ¶¶ 1, 10, 11. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On April 20, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI") for SIRVA." *Id.* at 5. Respondent further agrees that "the records show that petitioner timely filed her case, that she received the Td vaccination in the United States, and that she satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
