

and ever have everybody in one piece by dinner time. And America is one of the countries—still—votes on a work day. It's a real hassle for them.

A lot of them depend on mass transit to get back and forth to work, and the voting place is not on the same bus line or the same subway route. It's a hassle. Just remember, everybody that doesn't show can't gripe Wednesday morning. And everybody that does show is then a part of every good thing that flows from their decision if they're in the majority.

I want you to think about how you want to feel Wednesday morning. And I want you to think about it. If you felt good during the Middle East peace process, if you felt good when John Glenn went up into space, if you felt good when I was able to tell you we were going to get 100,000 new teachers, if you felt good when I talked about those 54 Federal judges, if you believe in your heart that you have been a part of my Presidency—and I tell you you have; I wouldn't be here without you—then I ask you this one thing: Realize that this, too, is an important election, that it is not an ordinary time; it is, therefore, not an ordinary election; that what happens, all these people who will win races on Tuesday, will be a direct result, not only of how you vote but even more importantly, whether you vote.

You will come in contact with thousands of people between now and then. And when the Scripture said that, we are all admonished to render unto Caesar those things which are Caesar's, well I'm not Caesar, and we're not a dictatorship or an empire, but you know what the Bible means. It's more today. When that Scripture was written all that meant was, pay your taxes. Nobody had a vote. Nobody had a vote.

Today you've got the vote. You can actually be in the driver's seat. There is no Caesar without you—[laughter]—unless you sit it out. Our adversaries, they think a whole bunch of you will stay home. They know it's going to be a hassle. They know it will be an effort.

But you just remember every good thing that you've felt good about in the last 6 years. And you think about how you want to feel Wednesday morning. We need to reelect

Carl McCall and all America needs to know about Carl McCall, not just New York. All America needs to know about Carl.

We need to send Chuck Schumer to the Senate because all America, and not just New York, needs that. We need to get that balance back in our Congress so we can do some of these things that we can't get done now. But it all depends on you. It all depends on you.

I am more grateful than you will ever know for the friendship and the support of the people of New York, to me, to my wife, to my Vice President, to our administration; for the friendship and support of the African-American community, and especially the clergy. But the thing about this kind of work is, you never get to stop. You never get to stop.

In the last week we've had a lot to celebrate. You had your hand on John Glenn's shoulder. You had your prayers answered about the continued process of peace. You can think about your children's future with 100,000 more teachers. But there are huge fights out there left to fight—huge. And we need you.

Thank you, and God bless you.

NOTE: The President spoke at 4:45 p.m. in Ballrooms B and C at the Ramada Plaza Hotel. In his remarks, he referred to human rights activist Rev. Wyatt Tee Walker, Canaan Baptist Church of Christ; James Forbes, pastor, Riverside Church; Carl McCall, New York State comptroller and U.S. Senate candidate; Bishop Norman Quick, pastor, Childs Memorial Temple, Church of God in Christ; civil rights activist Rev. Al Sharpton; Prime Minister Binyamin Netanyahu of Israel; and Chairman Yasser Arafat of the Palestinian Authority. This item was not received in time for publication in the appropriate issue.

Statement on Signing the Technology Administration Act of 1998

October 30, 1998

Today I am signing into law H.R. 1274, the "Technology Administration Act of 1998." The Act strengthens the technology programs of the Department of Commerce to meet the challenges of the 21st century.

The Act will enable the Commerce Department's National Institute of Standards and Technology (NIST) to better serve the

Nation's more than 380,000 smaller manufacturers by eliminating the 6-year sunset provision for Federal co-funding of NIST Manufacturing Extension Partnership centers.

The Act also authorizes NIST to establish a program to help elementary and secondary school teachers to convey to their students important lessons in measurements, manufacturing, technology transfer, and other areas in which NIST researchers possess world-class expertise.

I am especially pleased to sign this legislation because it includes an initiative that I have sought for the past 2 years: expansion of the Malcolm Baldrige National Quality Award to include education and health care organizations. The Foundation for the Malcolm Baldrige National Quality Award deserves special credit for its work to endow this expansion, as does NIST, which manages the program in close cooperation with the private sector. Now the Federal Government can do its share to foster performance excellence in schools, health care, and business.

The Act also officially establishes within the Department of Commerce an Office of Space Commercialization and the Experimental Program to Stimulate Competitive Technology. These programs address two important components of our overall competitiveness strategy: our wise use of commercial space capabilities, consistent with public safety and national security requirements, and enhancement of technological opportunities for the States.

This Act furthers my Administration's commitment to ensure that technology remains the engine of economic growth. We have more work to do. My Administration will work with the 106th Congress on legislation to reauthorize the Commerce Department's Technology Administration and other NIST programs.

William J. Clinton

The White House,
October 30, 1998.

NOTE: H.R. 1274, approved October 30, was assigned Public Law No. 105-309. This item was not received in time for publication in the appropriate issue.

Statement on Signing Wildlife and Wetlands Legislation

October 30, 1998

Today I am signing into law H.R. 2807, an omnibus measure that includes many provisions I supported to enhance fish and wildlife protection.

The Act reauthorizes the Rhinoceros and Tiger Conservation Act through FY 2002 and prohibits the sale, importation, and exportation of products labeled or advertised as derived from rhinoceroses or tigers. This will substantially eliminate the demand for products made from these endangered species. The Act also reauthorizes, through FY 2003, the North American Wetlands Conservation Act and the Partnerships for Wildlife Act, two of the most popular, cost-effective, and productive environmental conservation programs.

I note that section 304 of the Act amends the criteria for appointing individuals to the North American Wetlands Conservation Council. Specifically, this provision purportedly designates an officeholder of a named private organization as a Council member. This raises two issues. First, the Council is involved in the implementation of Federal wetlands conservation programs and, therefore, its members are considered officers of the United States. Pursuant to the Appointments Clause of the Constitution, the Congress may not appoint Federal officers. Consequently, I will instruct the Secretary of the Interior merely to consider the designated individual along with other appropriate candidates for appointment to the Council.

Second, if the Secretary ultimately selects the individual designated by the Act, that individual will be subject to executive branch standards of conduct and criminal conflict-of-interest statutes. The individual's ability to act fully as a Council member therefore may be somewhat curtailed by his or her affiliation with a private organization.

On balance, the Act provides a considerable benefit to the conservation of fish and wildlife, and I am pleased to sign it into law.

William J. Clinton
