

moves. And so, Ann, thank you for your example.

I've tried to do the same thing myself. Earlier this year, to detect whether or not I could be infected with colorectal cancer, I had a screening. Turns out everything the President does is in the public view. *[Laughter]*

Screenings can save lives, and that's important. None of us are immune. All of us can be wise about how we take advantage of technologies. I want not only to make Americans aware of screenings, but scientists are now actively investigating new ways to make screenings better, so we can detect cancer earlier.

For example, again Andy's outfit, the National Cancer Institute, is launching a new clinical trial to study the most effective ways to detect lung cancer. Scientists have also developed promising new tests that analyses a single drop of blood to detect ovarian cancer in its earliest stages, even before symptoms develop. Many women are diagnosed with ovarian cancer too late, because the symptoms can easily be mistaken for other conditions. This new discovery brings great hope, great hope, for overcoming this disease.

There are still many high medical hurdles that we're going to have to clear here in America. But for the first time in human history, we can say with certainty, the war on cancer is winnable. And this Nation will not quit until our victory is complete.

And now it's my pleasure to introduce a man who doesn't know the meaning of the word "quit." Just a few years ago, he was diagnosed with cancer. He was weakened by chemotherapy treatments and told he had a 50-50 chance of surviving. But he's done more than survive. As anybody who knows anything about sports knows, he's triumphed. His story, from cancer diagnosis to his fourth straight victory in the Tour de France, is one of the great human dramas in sports history.

And today—he asked me not to say it, so I'm going to say it anyway—*[laughter]*—is his 31st birthday. And now, it's my honor to present to you a son of Texas, a great American, a wonderful champ, Lance Armstrong.

[At this point, Lance Armstrong made brief remarks.]

The President. Appreciate you, Lance.

Again, thank you all for coming. We'll all be celebrating Lance's birthday in the State Dining Room here at the end of the hall. He made a little cake for you. He looks forward to you singing "Happy Birthday" to him. *[Laughter]*

In the meantime, many in this room are involved in this war. I want to thank you for your efforts, thank you for your love for your fellow Americans.

May God bless you all, and may God bless America. Thank you.

NOTE: The President spoke at 11:15 a.m. in the East Room at the White House. The transcript released by the Office of the Press Secretary also included the remarks of Mr. Armstrong. The Office of the Press Secretary also released a Spanish language transcript of these remarks.

Statement on Signing the John F. Kennedy Center Plaza Authorization Act of 2002

September 18, 2002

Today I have signed into law H.R. 5012, an Act to amend the John F. Kennedy Center Act, authorizing a construction project to improve, among other things, pedestrian, vehicular, and bicycle access to the Kennedy Center.

As added by H.R. 5012, however, section 12(b)(5) purports to make the Secretary of Transportation's (Secretary) entry into contracts "[s]ubject to the approval of the Board." Because the membership of the Board of Trustees of the Kennedy Center (Board) by law includes Members of Congress, the Board cannot constitutionally exercise executive power, such as the power to approve the exercise of contracting authority by the head of an executive department. The exercise of such power by Members of Congress would violate the separation of powers embodied in our Constitution.

It is not evident that the Congress would have withheld contracting authority from the Secretary absent the invalid Board approval requirement. Therefore the executive branch shall treat the Board approval requirement as severable from the remainder of section 12(b)(5), leaving fully operative the contracting authority granted to the Secretary.

As a matter of comity, the Secretary shall consult the Board as appropriate in relation to the Secretary's exercise of the authority to enter into contracts under section 12(b)(5).

George W. Bush

The White House,
September 18, 2002.

NOTE: H.R. 5012, approved September 18, was assigned Public Law No. 107-224.

**Executive Order 13274—
Environmental Stewardship and
Transportation Infrastructure
Project Reviews**
September 18, 2002

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to enhance environmental stewardship and streamline the environmental review and development of transportation infrastructure projects, it is hereby ordered as follows:

Section 1. Policy. The development and implementation of transportation infrastructure projects in an efficient and environmentally sound manner is essential to the well-being of the American people and a strong American economy. Executive departments and agencies (agencies) shall take appropriate actions, to the extent consistent with applicable law and available resources, to promote environmental stewardship in the Nation's transportation system and expedite environmental reviews of high-priority transportation infrastructure projects.

Sec. 2. Actions. (a) For transportation infrastructure projects, agencies shall, in support of the Department of Transportation, formulate and implement administrative, policy, and procedural mechanisms that enable each agency required by law to conduct environmental reviews (reviews) with respect to such projects to ensure completion of such reviews in a timely and environmentally responsible manner.

(b) In furtherance of the policy set forth in section 1 of this order, the Secretary of Transportation, in coordination with agencies as appropriate, shall advance environmental

stewardship through cooperative actions with project sponsors to promote protection and enhancement of the natural and human environment in the planning, development, operation, and maintenance of transportation facilities and services.

(c) The Secretary of Transportation shall designate for the purposes of this order a list of high-priority transportation infrastructure projects that should receive expedited agency reviews and shall amend such list from time to time as the Secretary deems appropriate. For projects on the Secretary's list, agencies shall to the maximum extent practicable expedite their reviews for relevant permits or other approvals, and take related actions as necessary, consistent with available resources and applicable laws, including those relating to safety, public health, and environmental protection.

Sec. 3. Interagency Task Force. (a) *Establishment.* There is established, within the Department of Transportation for administrative purposes, the interagency "Transportation Infrastructure Streamlining Task Force" (Task Force) to: (i) monitor and assist agencies in their efforts to expedite a review of transportation infrastructure projects and issue permits or similar actions, as necessary; (ii) review projects, at least quarterly, on the list of priority projects pursuant to section 2(c) of this order; and (iii) identify and promote policies that can effectively streamline the process required to provide approvals for transportation infrastructure projects, in compliance with applicable law, while maintaining safety, public health, and environmental protection.

(b) *Membership and Operation.* The Task Force shall promote interagency cooperation and the establishment of appropriate mechanisms to coordinate Federal, State, tribal, and local agency consultation, review, approval, and permitting of transportation infrastructure projects. The Task Force shall consist exclusively of the following officers of the United States: the Secretary of Agriculture, Secretary of Commerce, Secretary of Transportation (who shall chair the Task Force), Secretary of the Interior, Secretary of Defense, Administrator of the Environmental Protection Agency, Chairman of the Advisory Council on Historic Preservation,
