

112TH CONGRESS
1ST SESSION

H. R. 2098

To support Promise Neighborhoods.

IN THE HOUSE OF REPRESENTATIVES

JUNE 2, 2011

Mr. PAYNE (for himself, Mr. HONDA, and Mr. SCOTT of Virginia) introduced the following bill; which was referred to the Committee on Education and the Workforce

A BILL

To support Promise Neighborhoods.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Promise Neighbor-
5 hoods Act of 2011”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) Between 2007 and 2009, the number of
9 children in the United States living in poverty in-
10 creased by 2,200,000, to 15,500,000 children.

1 (2) According to the National Center for Chil-
2 dren in Poverty, the number of poor children under
3 age 6 increased by 24 percent between 2000 and
4 2007. The Center also found that, in Iowa, 20 per-
5 cent of children under age 6 live in poor families.

6 (3) According to the Organisation for Economic
7 Co-operation and Development (OECD), in 2008,
8 the United States had a child poverty rate of 20.6
9 percent, making the United States the OECD nation
10 with the fourth worst level of child poverty. Of the
11 4 most developed countries in the world, the United
12 States has the highest rate of child poverty.

13 (4) According to the National Center for Chil-
14 dren in Poverty, at age 4, children who live below
15 the poverty line are 18 months below normal learn-
16 ing and achievement for their age group, and by age
17 10 that gap is still present. For children living in
18 the poorest families, the gap is even larger.

19 (5) Children from low-income families are more
20 likely to have low levels of school engagement, to be
21 chronically absent from school, to have emotional
22 and behavioral problems, and to live in stressful
23 home environments.

1 (6) By age 3, children in low-income homes will
2 have heard one-third as many words as children in
3 middle-income and high-income homes.

4 (7) Studies show that children who attend high-
5 quality early childhood education programs are less
6 likely to repeat grades, less likely to be assigned to
7 special education, and more likely to perform better
8 on standardized tests, experience reduced rates of
9 teenage pregnancy, and graduate from high school.
10 Additionally, such children are less likely to engage
11 in criminal behavior and more likely to obtain em-
12 ployment at higher wages. Economically disadvan-
13 taged children gain even larger benefits from such
14 high-quality programs.

15 (8) Compared with children in kindergarten
16 from low-income families, children in kindergarten
17 from high-income families live in homes with 3 times
18 the number of books and such children are 4 times
19 as likely to have a computer at home. Children from
20 high-income families also watch far less television
21 and are more likely to visit museums or libraries.

22 (9) By the time children from low-income fami-
23 lies enter kindergarten, they are already 3 months
24 behind the national average in reading and mathe-

1 matics skills, a gap that persists through high
2 school.

3 (10) A child from a middle-income family typi-
4 cally enters first grade with about 1,000 hours of
5 one-on-one picture book reading time with parents,
6 other relatives, or teachers, but a child from a low-
7 income family averages less than 100 hours of such
8 reading time.

9 (11) The percentage of households with chil-
10 dren reporting food insecurity (limited or uncertain
11 access to nutritious, safe foods) increased by 25 per-
12 cent between 2007 and 2008. Poor nutrition is
13 linked to behavioral problems, lower educational per-
14 formance, and delayed socio-emotional development.

15 (12) Twenty-nine percent of high-achieving 8th
16 graders from low-income families complete college.
17 This is the same rate of college completion as low-
18 achieving 8th graders from high-income families.

19 (13) About one-fourth of all students who start
20 9th grade will not graduate 4 years later. For Afri-
21 can-American and Latino students, that figure in-
22 creases to 40 percent. A 16- to 24-year-old coming
23 from a high-income family is about 7 times as likely
24 to have completed high school as a 16- to 24-year-
25 old coming from a low-income family.

1 (14) The average annual cost to incarcerate a
2 youth in the United States is approximately
3 \$88,000, while per pupil annual spending for a stu-
4 dent in kindergarten through grade 12 is \$10,000.

5 **SEC. 3. PURPOSE.**

6 The purpose of this Act is to significantly improve
7 academic outcomes, including school readiness, high school
8 graduation, and college entry and success of children liv-
9 ing in our Nation’s most distressed neighborhoods, by
10 using data-driven decisionmaking and existing external re-
11 sources to provide children in such neighborhoods with ac-
12 cess to a community-based continuum of high-quality pipe-
13 line services that include access to early learning opportu-
14 nities, high-quality schools, and evidence-based practices
15 that address the needs of such children from birth through
