1 **SEC. 2. FINDINGS.**

2 The Congress finds that in order for a comprehensive
3 and effective literacy program to address the needs of chil-
4 dren it is critical to address the following:

5 (1) Literacy development is an ongoing process
6 that requires a sustained engagement and invest-
7 ment beginning in early childhood and continuing
8 through secondary school.

9 (2) Developing literacy skills begins at birth as
10 infants and toddlers associate sounds, gestures, and
11 marks on paper with consequences and meaning.
12 Many teachers and staff in early learning programs
13 are not provided with high-quality professional devel-
14 opment in how to support children's language and
15 literacy development. Such high-quality professional
16 learning and preparation, that is job-embedded and
17 ongoing, promotes strong early language and literacy
18 for all children's readiness for school.

1 (3) Research shows that writing leads to im-
2 proved reading achievement, reading leads to better
3 writing performance, and combined instruction leads
4 to improvements in both areas. Students in kinder-
5 garten through grade 12 need to be engaged in com-
6 bined reading and writing experiences that lead to a
7 higher level of thinking than when either process is
8 taught alone.

9 (4) Teachers and early childhood educators
10 need professional development to improve the read-
11 ing and writing abilities of children who are at risk
12 for developmental delays or are reading and writing
13 several years below grade level. Middle school and
14 secondary school teachers in core academic subjects
15 must have the tools and skills to teach reading and
16 writing for subject area understanding and to dif-
17 ferentiate and provide instruction for students with
18 varying literacy skills.

19 (5) Approximately 70 percent of 4th graders
20 and 8th graders read below the proficient level on
21 the 2007 National Assessment of Educational
22 Progress.

23 (6) Between 1971 and 2008, the reading levels
24 of 17-year-olds in the United States showed little to
25 no improvement. The ability of secondary school stu-

1 dents to read complex texts is strongly predictive of
2 their performance in postsecondary mathematics and
3 science courses.

4 (7) Only one-third of secondary school students
5 who enter 9th grade each year can expect to grad-
6 uate in 4 years with the skills needed to succeed in
7 higher education and the workplace.

8 (8) The 25 fastest growing professions have
9 higher than average literacy demands and approxi-
10 mately half of all job growth between 2004 and
11 2014 will require high-level literacy skills.

12 (9) The intellectual and linguistic skills nec-
13 essary for reading and writing must be developed
14 through explicit, intentional, and systematic lan-
15 guage activities, to which many low-income and mi-
16 nority students do not have access.

17 (10) Only 73.9 percent of secondary school stu-
18 dents graduate on time with a diploma, meaning
19 that every year 1,230,000 students fail to graduate
20 from secondary school in the United States. These
21 1,230,000 nongraduates cost the United States more
22 than \$300,000,000,000 in lost wages, taxes, and
23 productivity over their lifetimes.

24 (11) Meaningful engagement of families in their
25 children's early learning supports school readiness

1 and later academic success. Parental literacy habits
2 are positively associated with parental reading be-
3 liefs, parent-child literacy and language activities in
4 the home, children's print knowledge, and interest in
5 reading and writing.

6 **SEC. 3. PURPOSES.**

7 The purposes of this Act are—

8 (1) to improve reading, writing, and academic
9 achievement for children and students by providing
10 Federal support to State educational agencies, in
11 collaboration with State agencies that oversee child
12 care programs, to develop, coordinate, and imple-
13 ment comprehensive State literacy plans that ensure
14 high-quality instruction and effective practices in
15 early language and literacy in early learning pro-
16 grams (serving children from birth through kinder-
17 garten entry) and in reading and writing in kinder-
18 garten through grade 12; and

19 (2) to assist State educational agencies and
20 State agencies that oversee child care and other
21 early childhood programs in achieving the purposes
22 described in paragraph (1) by—

23 (A) supporting the development and imple-
24 mentation of early learning through grade 12
25 literacy programs that are based on scientif-

1 ically valid research, to ensure that every stu-
2 dent can read and write at grade level or above;

3 (B) providing children attending early
4 learning programs that serve children from
5 birth through kindergarten entry, including pro-
6 grams, such as child care, Early Head Start,
7 Head Start, State-funded preschool, public li-
8 brary programs, and other early childhood edu-
9 cation settings, with high-quality, language-rich,
10 literature-rich, informational text-rich, cul-
11 turally relevant, developmentally appropriate
12 environments, so that such children develop the
13 fundamental knowledge and skills necessary for
14 literacy engagement, development, and achieve-
15 ment in kindergarten and beyond;

16 (C) educating parents in the ways they can
17 support their child's communication and lit-

4 based instruction and practices;

5 (F) improving student achievement by es-
6 tablishing literacy initiatives that provide ex-
7 plicit and systematic instruction in oral lan-
8 guage, reading, and writing development across
9 the curriculum;

10 (G) identifying and supporting students
11 who are reading and writing below grade level
12 by providing evidence-based intensive interven-
13 tions, including extended learning time, to help
14 such students acquire the language and literacy
15 skills they need to graduate from secondary
16 school;

17 (H) providing assistance to eligible entities
18 in order to provide educators with high-quality
19 professional development in the essential com-
20 ponents of early literacy instruction and the es-
21 sential components of reading and writing in-
22 struction;

23 (I) supporting State educational agencies
24 and local educational agencies in using age- and
25 developmentally appropriate instructional mate-

1 rials and strategies, including those consistent
2 with universal design for learning, that assist
3 teachers as they work with students to develop
4 reading and writing competencies appropriate
5 to the student’s grade and skill levels;

6 (J) supporting State educational agencies
7 and eligible entities in improving reading, writ-
8 ing, and academic achievement for children and
9 students, especially those that are low-income,
10 limited English proficient, migratory, Indian or
11 Alaskan Native, neglected or delinquent, home-
12 less, in the custody of the child welfare system,
13 those that have disabilities, or those who have
14 dropped out of school; and

15 (K) strengthening coordination among
16 schools, early learning programs, early literacy
17 programs, family literacy programs, juvenile
18 justice programs, public libraries, and outside-
19 of-school programs that provide children and
20 youth with strategies, curricula, interventions,
21 and assessments designed to advance early and
22 continuing language and literacy development in
23 ways appropriate for each context.
