## A BILL

To assist States in making voluntary high quality universal prekindergarten programs available to 3- to 5-year olds for at least 1 year preceding kindergarten.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Prepare All Kids Act  
5 of 2011”.

6 **SEC. 2. HIGH QUALITY PREKINDERGARTEN PROGRAMS.**

7 Title I of the Elementary and Secondary Education  
8 Act of 1965 (20 U.S.C. 6301 et seq.) is amended—

9 (1) by redesignating part I as part J; and

1 (2) by inserting after part H the following:

2 **“PART I—HIGH QUALITY PREKINDERGARTEN**  
3 **PROGRAMS**

4 **“SEC. 1841. FINDINGS.**

5 “Congress makes the following findings:

6 “(1) Investments in children and early child-  
7 hood development education should be a national  
8 priority.

9 “(2) State-funded preschool is the most rapidly  
10 expanding segment of the United States educational  
11 system, but in many States a lack of stable funding  
12 poses an enormous threat to the provision or con-  
13 tinuation of high quality preschool.

14 “(3) Researchers, educators, and economists  
15 have long noted an achievement gap for low-income  
16 and minority students as compared to their more ad-  
17 vantaged peers that is often already evident when  
18 children enter school for the first time.

19 “(4) One study showed that before entering  
20 kindergarten, the average cognitive scores of pre-  
21 school-age children in the highest socioeconomic  
22 group are 60 percent above the average scores of  
23 children in the lowest socioeconomic group.

24 “(5) For low-income preschoolers, research  
25 shows that high quality early education and develop-

1 ment is vital to closing the achievement gap between  
2 them and their more advantaged peers.

3 “(6) Numerous studies have shown that high  
4 quality preschool programs—

5 “(A) improve a number of specific life out-  
6 comes for children; and

7 “(B) are cost effective.

8 “(7) The provision of high-quality prekindergarten  
9 is a cost-effective investment for children and  
10 for the Nation. Research shows that for every \$1 in-  
11 vested in high quality early childhood programs, tax-  
12 payers save up to \$7 in crime, welfare, remedial and  
13 special education, and other costs.

14 “(8) High-quality early education increases aca-  
15 demic success for schoolchildren who received that  
16 education by—

17 “(A) improving skills in areas such as fol-  
18 lowing directions and problem solving;

19 “(B) improving children’s performance on  
20 standardized tests;

21 “(C) reducing grade repetition;

22 “(D) reducing the number of children  
23 placed in special education; and

24 “(E) increasing secondary school gradua-  
25 tion rates.

1           “(9) High-quality early education promotes re-  
2           sponsible behavior by teens and adults who received  
3           that education by—

4                   “(A) reducing crime, delinquency, and  
5                   unhealthy behaviors such as smoking and drug  
6                   use;

7                   “(B) lowering rates of teen pregnancy;

8                   “(C) leading to greater employment and  
9                   higher wages for adults; and

10                  “(D) contributing to more stable families.

11           “(10) High-quality prekindergarten programs  
12           prepare children to—

13                   “(A) succeed in school;

14                   “(B) achieve higher levels of education;

15                   and

16                   “(C) become citizens who—

17                           “(i) earn more in adulthood;

18                           “(ii) compete in the global economy;

19                   and

20                           “(iii) contribute to our national pros-

21                   perity.
