

114TH CONGRESS  
2D SESSION

# S. 3179

To amend the Internal Revenue Code of 1986 to improve and extend the credit for carbon dioxide sequestration.

---

## IN THE SENATE OF THE UNITED STATES

JULY 13, 2016

Ms. HEITKAMP (for herself, Mr. WHITEHOUSE, Mr. TESTER, Mr. SCHATZ, Mr. BOOKER, and Mr. KAINEN) introduced the following bill; which was read twice and referred to the Committee on Finance

---

## A BILL

To amend the Internal Revenue Code of 1986 to improve and extend the credit for carbon dioxide sequestration.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “Carbon Capture Utili-  
5       zation and Storage Act”.

6       **SEC. 2. EXTENSION OF ENHANCED CARBON DIOXIDE SE-**  
7       **QUESTRATION CREDIT.**

8       (a) IN GENERAL.—Section 45Q of the Internal Rev-  
9       enue Code of 1986 is amended to read as follows:

1     **“SEC. 45Q. CREDIT FOR CARBON DIOXIDE SEQUESTRATION.**

2         “(a) GENERAL RULE.—For purposes of section 38,  
3     the carbon dioxide sequestration credit for any taxable  
4     year is an amount equal to the sum of—

5             “(1) \$20 per metric ton of qualified carbon di-  
6     oxide which is—

7                 “(A) captured by the taxpayer using quali-  
8     fied carbon capture equipment which is origi-  
9     nally placed in service at a qualified facility be-  
10    fore the date of the enactment of the Carbon  
11    Capture Utilization and Storage Act, and

12                 “(B) disposed of by the taxpayer in secure  
13    geological storage and not used by the taxpayer  
14    as described in paragraph (2)(B),

15             “(2) \$10 per metric ton of qualified carbon di-  
16     oxide which is—

17                 “(A) captured by the taxpayer using quali-  
18     fied carbon capture equipment which is origi-  
19     nally placed in service at a qualified facility be-  
20    fore the date of the enactment of the Carbon  
21    Capture Utilization and Storage Act, and

22                 “(B)(i) used by the taxpayer as a tertiary  
23    injectant in a qualified enhanced oil or natural  
24    gas recovery project and disposed of by the tax-  
25    payer in secure geological storage, or

1                 “(ii) utilized by the taxpayer in a manner  
2                 described in subsection (e)(7),

3                 “(3) the applicable dollar amount (as deter-  
4                 mined under subsection (b)(1)) per metric ton of  
5                 qualified carbon dioxide which is—

6                 “(A) captured by the taxpayer using qualifi-  
7                 fied carbon capture equipment which is origi-  
8                 nally placed in service at a qualified facility on  
9                 or after the date of the enactment of the Car-  
10                 bon Capture Utilization and Storage Act, dur-  
11                 ing the 12-year period beginning on the date  
12                 the equipment was originally placed in service,  
13                 and

14                 “(B) disposed of by the taxpayer in secure  
15                 geological storage and not used by the taxpayer  
16                 as described in paragraph (4)(B), and

17                 “(4) the applicable dollar amount (as deter-  
18                 mined under subsection (b)(1)) per metric ton of  
19                 qualified carbon dioxide which is—

20                 “(A) captured by the taxpayer using qualifi-  
21                 fied carbon capture equipment which is origi-  
22                 nally placed in service at a qualified facility on  
23                 or after the date of the enactment of the Car-  
24                 bon Capture Utilization and Storage Act, dur-  
25                 ing the 12-year period beginning on the date

1           the equipment was originally placed in service,  
2           and

3           “(B)(i) used by the taxpayer as a tertiary  
4           injectant in a qualified enhanced oil or natural  
5           gas recovery project and disposed of by the tax-  
6           payer in secure geological storage, or

7           “(ii) utilized by the taxpayer in a manner  
8           described in subsection (e)(7).

9        “(b) APPLICABLE DOLLAR AMOUNT; ADDITIONAL  
10 EQUIPMENT; ELECTION.—

11       “(1) APPLICABLE DOLLAR AMOUNT.—

12       “(A) IN GENERAL.—The applicable dollar  
13           amount shall be an amount equal to—

14           “(i) for any taxable year beginning in  
15           a calendar year after 2015 and ending be-  
16           fore 2026—

17           “(I) for purposes of paragraph  
18           (3) of subsection (a), the dollar  
19           amount established by linear inter-  
20           polation between \$22.66 and \$50 for  
21           each calendar year during such pe-  
22           riod, and

23           “(II) for purposes of paragraph  
24           (4) of such subsection, the dollar  
25           amount established by linear inter-

polation between \$12.83 and \$35 for each calendar year during such period, and

4                         “(ii) for any taxable year beginning in  
5                         a calendar year after 2025—

“(I) for purposes of paragraph  
(3) of subsection (a), an amount equal  
to the product of \$50 and the infla-  
tion adjustment factor for such cal-  
endar year determined under section  
43(b)(3)(B) for such calendar year,  
determined by substituting ‘2024’ for  
‘1990’, and

“(II) for purposes of paragraph  
(4) of such subsection, an amount  
equal to the product of \$35 and the  
inflation adjustment factor for such  
calendar year determined under sec-  
tion 43(b)(3)(B) for such calendar  
year, determined by substituting  
‘2024’ for ‘1990’.

22                   “(B) ROUNDING.—The applicable dollar  
23                   amount determined under subparagraph (A)  
24                   shall be rounded to the nearest cent.

1           “(2) INSTALLATION OF ADDITIONAL CARBON  
2           CAPTURE EQUIPMENT ON EXISTING QUALIFIED FA-  
3           CILITY.—In the case of a qualified facility placed in  
4           service before the date of the enactment of the Car-  
5           bon Capture Utilization and Storage Act, for which  
6           additional qualified carbon capture equipment is  
7           placed in service on or after the date of the enact-  
8           ment of the Carbon Capture Utilization and Storage  
9           Act, the amount of qualified carbon dioxide which is  
10          captured by the taxpayer shall be equal to—

11           “(A) for purposes of paragraphs (1)(A)  
12          and (2)(A) of subsection (a), the lesser of—

13               “(i) the total amount of qualified car-  
14           bon dioxide captured at such facility for  
15           the taxable year, or

16               “(ii) the total amount of the carbon  
17           dioxide capture capacity of the qualified  
18           carbon capture equipment in service at  
19           such facility on the day before the date of  
20           the enactment of the Carbon Capture Ut-  
21           ilization and Storage Act, and

22           “(B) for purposes of paragraphs (3)(A)  
23          and (4)(A) of such subsection, an amount (not  
24          less than zero) equal to the excess of—

1                         “(i) the amount described in clause (i)  
2                         of subparagraph (A), over  
3                         “(ii) the amount described in clause  
4                         (ii) of such subparagraph.

5                         “(3) ELECTION.—For purposes of determining  
6                         the carbon dioxide sequestration credit under this  
7                         section, a taxpayer may elect to have the dollar  
8                         amounts applicable under paragraph (1) or (2) of  
9                         subsection (a) apply in lieu of the dollar amounts  
10                         applicable under paragraph (3) or (4) of such sub-  
11                         section for each metric ton of qualified carbon diox-  
12                         ide which is captured by the taxpayer using qualified  
13                         carbon capture equipment which is originally placed  
14                         in service at a qualified facility on or after the date  
15                         of the enactment of the Carbon Capture Utilization  
16                         and Storage Act.

17                         “(c) QUALIFIED CARBON DIOXIDE.—For purposes of  
18                         this section—

19                         “(1) IN GENERAL.—The term ‘qualified carbon  
20                         dioxide’ means carbon dioxide captured from an in-  
21                         dustrial source which—

22                         “(A) would otherwise be released into the  
23                         atmosphere as industrial emission of green-  
24                         house gas, and

1               “(B) is measured at the source of capture  
2               and verified at the point of disposal, injection,  
3               or utilization.

4               “(2) RECYCLED CARBON DIOXIDE.—The term  
5               ‘qualified carbon dioxide’ includes the initial deposit  
6               of captured carbon dioxide used as a tertiary  
7               injectant. Such term does not include carbon dioxide  
8               that is recaptured, recycled, and re-injected as part  
9               of the enhanced oil and natural gas recovery process.

10              “(d) QUALIFIED FACILITY AND QUALIFIED CARBON  
11             CAPTURE EQUIPMENT.—

12              “(1) QUALIFIED FACILITY.—For purposes of  
13             this section, the term ‘qualified facility’ means any  
14             industrial facility—

15              “(A)(i) the construction of which begins  
16             before January 1, 2024, and—

17              “(I) the original planning and design  
18             for such facility includes installation of  
19             qualified carbon capture equipment, or

20              “(II) construction of qualified carbon  
21             capture equipment begins before such date,  
22             or

23              “(ii) which is placed in service before Jan-  
24             uary 1, 2024, and includes installation of qual-  
25             fied carbon capture equipment, provided that

1 construction of such carbon capture equipment  
2 begins before such date, and

3 “(B) which captures—

4 “(i) in the case of a facility which  
5 emits not more than 500,000 metric tons  
6 of carbon dioxide into the atmosphere dur-  
7 ing the taxable year, not less than 25,000  
8 metric tons of qualified carbon dioxide dur-  
9 ing the taxable year which is utilized in a  
10 manner described in subsection (e)(7),

11 “(ii) in the case of an electricity gen-  
12 erating facility which is not described in  
13 clause (i), not less than 500,000 metric  
14 tons of qualified carbon dioxide during the  
15 taxable year, or

16 “(iii) in the case of a facility not de-  
17 scribed in clause (i) or (ii), not less than  
18 100,000 metric tons of qualified carbon di-  
19 oxide during the taxable year.

20 “(2) QUALIFIED CARBON CAPTURE EQUIP-  
21 MENT.—For purposes of this section, the term  
22 ‘qualified carbon capture equipment’ means—

23 “(A) carbon capture equipment placed in  
24 service before January 1, 2024, and

1                 “(B) carbon capture equipment the con-  
2                 struction of which begins before such date.

3                 “(e) SPECIAL RULES AND OTHER DEFINITIONS.—

4     For purposes of this section—

5                 “(1) ONLY CARBON DIOXIDE CAPTURED AND  
6                 DISPOSED OF OR USED WITHIN THE UNITED STATES  
7                 TAKEN INTO ACCOUNT.—The credit under this sec-  
8                 tion shall apply only with respect to qualified carbon  
9                 dioxide the capture and disposal, use, or utilization  
10                 of which is within—

11                 “(A) the United States (within the mean-  
12                 ing of section 638(1)), or

13                 “(B) a possession of the United States  
14                 (within the meaning of section 638(2)).

15                 “(2) SECURE GEOLOGICAL STORAGE.—The Sec-  
16                 retary, in consultation with the Administrator of the  
17                 Environmental Protection Agency, the Secretary of  
18                 Energy, and the Secretary of the Interior, shall es-  
19                 tablish regulations for determining adequate security  
20                 measures for the geological storage of carbon dioxide  
21                 under subsection (a) such that the carbon dioxide  
22                 does not escape into the atmosphere. Such term  
23                 shall include storage at deep saline formations, oil  
24                 and gas reservoirs, and unminable coal seams under

1 such conditions as the Secretary may determine  
2 under such regulations.

3       “(3) TERTIARY INJECTANT.—The term ‘ter-  
4 tiary injectant’ has the same meaning as when used  
5 within section 193(b)(1).

6       “(4) QUALIFIED ENHANCED OIL OR NATURAL  
7 GAS RECOVERY PROJECT.—The term ‘qualified en-  
8 hanced oil or natural gas recovery project’ has the  
9 meaning given the term ‘qualified enhanced oil re-  
10 covery project’ by section 43(c)(2), by substituting  
11 ‘crude oil or natural gas’ for ‘crude oil’ in subpara-  
12 graph (A)(i) thereof.

13       “(5) CREDIT ATTRIBUTABLE TO TAXPAYER.—

14           “(A) IN GENERAL.—Except as provided  
15           subparagraph (B) or in any regulations pre-  
16           scribed by the Secretary, any credit under this  
17           section shall be attributable to—

18           “(i) in the case of qualified carbon di-  
19           oxide captured using qualified carbon cap-  
20           ture equipment which is originally placed  
21           in service at a qualified facility before the  
22           date of the enactment of the Carbon Cap-  
23           ture Utilization and Storage Act, the per-  
24           son that captures and physically or con-  
25           tractually ensures the disposal, utilization,

1                   or use as a tertiary injectant of such qualifi-  
2                   ed carbon dioxide, and

3                   “(ii) in the case of qualified carbon di-  
4                   oxide captured using qualified carbon cap-  
5                   ture equipment which is originally placed  
6                   in service at a qualified facility on or after  
7                   the date of the enactment of the Carbon  
8                   Capture Utilization and Storage Act, the  
9                   person that owns the qualified carbon cap-  
10                  ture equipment and physically or contrac-  
11                  tually ensures the capture and disposal,  
12                  utilization, or use as a tertiary injectant of  
13                  such qualified carbon dioxide.

14                  “(B) ELECTION.—If the person described  
15                  in subparagraph (A) makes an election under  
16                  this subparagraph in such time and manner as  
17                  the Secretary may prescribe by regulations, the  
18                  credit under this section—

19                  “(i) shall be allowable to the person  
20                  that disposes of the qualified carbon diox-  
21                  ide, utilizes the qualified carbon dioxide, or  
22                  uses the qualified carbon dioxide as a ter-  
23                  tiary injectant, and

24                  “(ii) shall not be allowable to the per-  
25                  son described in subparagraph (A).

1                 “(6) RECAPTURE.—The Secretary shall, by reg-  
2         ulations, provide for recapturing the benefit of any  
3         credit allowable under subsection (a) with respect to  
4         any qualified carbon dioxide which ceases to be cap-  
5         tured, disposed of, or used as a tertiary injectant in  
6         a manner consistent with the requirements of this  
7         section.

8                 “(7) UTILIZATION OF QUALIFIED CARBON DI-  
9         OXIDE.—

10                 “(A) IN GENERAL.—For purposes of this  
11         section, utilization of qualified carbon dioxide  
12         means—

13                 “(i) the fixation of such qualified car-  
14         bon dioxide through photosynthesis or  
15         chemosynthesis, such as through the grow-  
16         ing of algae or bacteria,

17                 “(ii) the chemical conversion of such  
18         qualified carbon dioxide to a material or  
19         chemical compound in which such qualified  
20         carbon dioxide is securely stored, or

21                 “(iii) the use of such qualified carbon  
22         dioxide for any other purpose for which a  
23         commercial market exists (with the excep-  
24         tion of use as a tertiary injectant in a  
25         qualified enhanced oil or natural gas recov-

1                 ery project), as determined by the Sec-  
2                 retary.

3                 “(B) MEASUREMENT.—

4                 “(i) IN GENERAL.—For purposes of  
5                 determining the amount of qualified carbon  
6                 dioxide utilized by the taxpayer under  
7                 paragraph (2)(B)(ii) or (4)(B)(ii) of sub-  
8                 section (a), such amount shall be equal to  
9                 the metric tons of carbon dioxide which the  
10                taxpayer demonstrates, based upon an  
11                analysis of lifecycle greenhouse gas emis-  
12                sions and subject to such requirements as  
13                the Secretary, in consultation with the Sec-  
14                retary of Energy and the Administrator of  
15                the Environmental Protection Agency, de-  
16                termines appropriate, were captured and  
17                prevented from escaping into the atmos-  
18                phere through use of a process described in  
19                subparagraph (A).

20                “(ii) LIFECYCLE GREENHOUSE GAS  
21                EMISSIONS.—For purposes of clause (i),  
22                the term ‘lifecycle greenhouse gas emis-  
23                sions’ has the same meaning given such  
24                term under subparagraph (H) of section  
25                211(o)(1) of the Clean Air Act (42 U.S.C.

1                   7545(o)(1)), as in effect on the date of the  
2                   enactment of the Carbon Capture Utiliza-  
3                   tion and Storage Act, except that ‘product’  
4                   shall be substituted for ‘fuel’ each place it  
5                   appears in such subparagraph.

6                 “(8) INFLATION ADJUSTMENT.—In the case of  
7                 any taxable year beginning in a calendar year after  
8                 2009, there shall be substituted for each dollar  
9                 amount contained in paragraphs (1) and (2) of sub-  
10                section (a) an amount equal to the product of—  
11                 “(A) such dollar amount, multiplied by  
12                 “(B) the inflation adjustment factor for  
13                 such calendar year determined under section  
14                 43(b)(3)(B) for such calendar year, determined  
15                 by substituting ‘2008’ for ‘1990’.

16                “(f) APPLICATION OF SECTION FOR CERTAIN CAR-  
17                BON CAPTURE EQUIPMENT.—In the case of any qualified  
18                carbon capture equipment placed in service before the date  
19                of the enactment of the Carbon Capture Utilization and  
20                Storage Act, the credit under this section shall apply with  
21                respect to qualified carbon dioxide captured using such  
22                equipment before the end of the calendar year in which  
23                the Secretary, in consultation with the Administrator of  
24                the Environmental Protection Agency, certifies that  
25                75,000,000 metric tons of qualified carbon dioxide have

1 been taken into account in accordance with paragraphs (1)  
2 and (2) of subsection (a) during the period beginning after  
3 October 3, 2008.

4       “(g) REGULATIONS.—The Secretary may prescribe  
5 such regulations and other guidance as may be necessary  
6 or appropriate to carry out this section, including regula-  
7 tions or other guidance to—

8           “(1) ensure proper allocation under subsection  
9           (a) for qualified carbon dioxide captured by a tax-  
10          payer during the taxable year ending after the date  
11          of the enactment of the Carbon Capture Utilization  
12          and Storage Act, and

13           “(2) determine whether a facility satisfies the  
14          requirements under subsection (d)(1) during such  
15          taxable year.”.

16       (b) EFFECTIVE DATE.—The amendments made by  
17 this section shall take effect on the date of the enactment  
18 of this Act.
