

117TH CONGRESS  
1ST SESSION

# S. 1276

To designate certain National Forest System land and certain public land under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes.

---

## IN THE SENATE OF THE UNITED STATES

APRIL 21, 2021

Mr. WHITEHOUSE (for himself, Mr. BOOKER, Mr. BLUMENTHAL, Mr. DURBIN, Ms. HASSAN, Mrs. SHAHEEN, Mr. MARKEY, Mr. BROWN, Ms. WARREN, and Ms. HIRONO) introduced the following bill; which was read twice and referred to the Committee on Energy and Natural Resources

---

## A BILL

To designate certain National Forest System land and certain public land under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

### 3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
5 “Northern Rockies Ecosystem Protection Act”.

- 1 (b) TABLE OF CONTENTS.—The table of contents of  
 2 this Act is as follows:

- Sec. 1. Short title; table of contents.  
 Sec. 2. Findings.  
 Sec. 3. Purposes.  
 Sec. 4. Definitions.

#### TITLE I—DESIGNATION OF WILDERNESS

- Sec. 101. Purpose.  
 Sec. 102. Greater Glacier/Northern Continental Divide ecosystem.  
 Sec. 103. Greater Yellowstone ecosystem.  
 Sec. 104. Greater Salmon/Selway ecosystem.  
 Sec. 105. Greater Cabinet/Yaak/Selkirk ecosystem.  
 Sec. 106. Greater Hells Canyon ecosystem.  
 Sec. 107. Islands in the Sky wilderness.  
 Sec. 108. Wilderness in biological connecting corridors.  
 Sec. 109. Administration.  
 Sec. 110. Water.  
 Sec. 111. Donation of grazing permits and leases.

#### TITLE II—BIOLOGICAL CONNECTING CORRIDORS

- Sec. 201. Findings.  
 Sec. 202. Designation of biological connecting corridors.  
 Sec. 203. Treatment of biological connecting corridors.  
 Sec. 204. Applicability of title.  
 Sec. 205. Cooperative agreements and land trades and acquisitions.  
 Sec. 206. Exemption of certain roads and highways.

#### TITLE III—WILD AND SCENIC RIVERS DESIGNATIONS

- Sec. 301. Designation of wild and scenic rivers in Idaho, Montana, and Wyoming.

#### TITLE IV—WILDLAND RESTORATION AND RECOVERY

- Sec. 401. Definitions.  
 Sec. 402. Restoration and recovery.  
 Sec. 403. Management.

#### TITLE V—IMPLEMENTATION AND MONITORING

- Sec. 501. Implementation report.  
 Sec. 502. Interagency team.  
 Sec. 503. Roadless land evaluation.

#### TITLE VI—EFFECT OF ACT ON INDIAN TRIBES

- Sec. 601. Rights of Indian Tribes.  
 Sec. 602. Federal trust responsibility.  
 Sec. 603. Exemption from Freedom of Information Act.  
 Sec. 604. Application of Indian Self-Determination and Education Assistance Act.  
 Sec. 605. Tribal use of protected areas.

## TITLE VII—EFFECT OF ACT ON WATER RIGHTS

Sec. 701. Water rights.

**1 SEC. 2. FINDINGS.****2** Congress finds that—

**3** (1) many areas of undeveloped National Forest  
**4** System land, National Park System land, and public  
**5** land administered by the Bureau of Land Manage-  
**6** ment in the States of Idaho, Montana, Oregon,  
**7** Washington, and Wyoming (referred to in this sec-  
**8** tion as “public land”)—

**9** (A) possess outstanding natural character-  
**10** istics that give the areas value as wildernesses,  
**11** parks, or wild and scenic rivers; and

**12** (B) if properly preserved, will be an endur-  
**13** ing resource as wildernesses and wildland areas  
**14** and of biodiversity for the benefit of the people  
**15** of the United States;

**16** (2) the Northern Rockies Bioregion—

**17** (A) contains the most diverse array of  
**18** wildland that remains in the United States  
**19** south of Canada;

**20** (B) provides a sanctuary for species listed  
**21** as threatened or endangered under the Endan-  
**22** gered Species Act of 1973 (16 U.S.C. 1531 et  
**23** seq.);

1 (C) is national interest public land that is  
2 among the most popular wildland in the United  
3 States; and

4 (D) embraces greater ecosystems and na-  
5 tional treasures such as the Greater Yellow-  
6 stone, Greater Glacier/Northern Continental Di-  
7 vide, Greater Hells Canyon/Wallowa, Greater  
8 Salmon/Selway, and Greater Cabinet/Yaak/Sel-  
9 kirk ecosystems;

10 (3) the natural ecosystems in the Northern  
11 Rockies Bioregion are largely dependent on—

12 (A) public land; and

13 (B) the ecological productivity and diver-  
14 sity of resources on public land;

15 (4) conservation of roadless areas on public  
16 land—

17 (A) produces clean water;

18 (B) protects native fisheries and native  
19 flora and fauna;

20 (C) provides scenic and recreational quali-  
21 ties; and

22 (D) preserves options for sustainable eco-  
23 nomics through activities such as hunting, fish-  
24 ing, and wilderness-based recreation;

1           (5) the headwaters of several major river sys-  
2           tems, including the Columbia, Snake, Green, Mis-  
3           souri, and Saskatchewan Rivers, are in the Northern  
4           Rockies Bioregion, and the water of those rivers—

5                   (A) flows to 3 oceans;

6                   (B) is of economic importance to farming  
7           and ranching operations, municipal water sup-  
8           plies, and water-based recreation, including  
9           fishing and boating; and

10                  (C) if protected, will enhance the uses de-  
11           scribed in subparagraph (B), reduce costs for  
12           water treatment and irrigation, and increase  
13           native fish populations;

14           (6) the wildlife treasures of the Northern Rock-  
15           ies Bioregion are of international significance and  
16           contain intact, large mammalian fauna and rare and  
17           unique plant life;

18           (7) wildlife habitat fragmentation due to road  
19           building, timber harvesting, mining, oil and gas ex-  
20           ploration, lack of interagency cooperation, and other  
21           activities has severe effects on—

22                   (A) the wildlife populations of the North-  
23           ern Rockies Bioregion (including populations of  
24           species listed as threatened or endangered  
25           under the Endangered Species Act of 1973 (16

1 U.S.C. 1531 et seq.)) and the habitats of the  
2 wildlife; and

3 (B) the water quality, ancient forests, and  
4 greater ecosystems of the Northern Rockies  
5 Bioregion;

6 (8) the overemphasis on resource extraction  
7 from public land has—

8 (A) compromised ecosystem integrity and  
9 detracted from economic diversification oppor-  
10 tunities; and

11 (B) resulted in economic instability and  
12 high unemployment in rural, resource-depend-  
13 ent communities;

14 (9) the fragmentation and development of the  
15 remaining roadless and essentially roadless eco-  
16 systems and biological connectors of the Northern  
17 Rockies Bioregion would cause a loss to the United  
18 States of—

19 (A) an entire wildland region; and

20 (B) the only remaining area in the United  
21 States south of Canada that can support popu-  
22 lations of caribou, gray wolves, grizzly bears,  
23 anadromous fish, and other rare or endangered  
24 plant or animal life in 1 intact bioregion;

1           (10) since the completion of the 1936 roadless  
2       area inventory by Bob Marshall, millions of acres of  
3       roadless wildland have been developed in the North-  
4       ern Rockies Bioregion;

5           (11) extensive fragmentation of wildland and  
6       wildlife habitat has—

7           (A) resulted in the listing of several species  
8       as threatened or endangered under the Endan-  
9       gered Species Act of 1973 (16 U.S.C. 1531 et  
10      seq.); and

11          (B) reduced the number and range of  
12      other species, including anadromous fish;

13          (12) the natural ecosystems of the Northern  
14      Rockies Bioregion serve as educational and research  
15      centers for onsite studies in biology, geology, astron-  
16      omy, and other sciences;

17          (13) the pristine nature of public land helps  
18      local communities attract new residents and busi-  
19      nesses based on local quality of life;

20          (14) a review of the situation in the Northern  
21      Rockies Bioregion as of the date of enactment of  
22      this Act has revealed the urgent need for an ecologi-  
23      cal reserve system for the Northern Rockies Bio-  
24      region that includes core ecosystem reserve areas  
25      and biological connecting corridors necessary to en-

1       sure wildlife movements and genetic interchange be-  
 2       tween the core reserve areas;

3           (15) wildlife freedom of movement is essential  
 4       to the survival of wildlife species, and a number of  
 5       scientific studies have identified movement corridors  
 6       as necessary for wildlife conservation in a changing  
 7       climate;

8           (16) several foreign governments, including the  
 9       governments of Australia and Scotland, have an-  
 10      nounced plans for corridors that would make wildlife  
 11      movement possible as climate pressures increase;

12          (17) the concept of connective corridors for  
 13      wildlife movement—

14           (A) has been endorsed by the Governors of  
 15      States in the western United States; and

16           (B) is recognized by conservation and sci-  
 17      entific organizations, such as the National  
 18      Academy of Sciences, which, in 2008, described  
 19      freedom of movement for wildlife as basic to the  
 20      emerging new science of movement ecology;

21          (18) freedom of wildlife movement—

22           (A) was a fundamental reason for the de-  
 23      velopment and introduction of this Act; and

24           (B) has become an increasingly high-pro-  
 25      file issue in the climate and biological sciences;

1           (19) the economic value to the United States of  
2       most of the public land, left in its natural state, ex-  
3       ceeds any potential return to the Treasury of the  
4       United States from timber harvest and development;

5           (20) if Federal land management in the North-  
6       ern Rockies Bioregion continues to result in develop-  
7       ment in roadless areas, the Federal Government will  
8       be using tax revenues to fund permanent reductions  
9       in wilderness, water quality, fish and wildlife habi-  
10      tat, species, and biological diversity;

11          (21) this Act—

12                (A) provides opportunities for employment  
13       in outdoor trades by establishing rehabilitation  
14       zones on specific tracts of damaged Federal  
15       land where active restoration work will occur;

16                (B) will provide contracts for local busi-  
17       nesses; and

18                (C) will renew the intrinsic economic, so-  
19       cial, and cultural benefits that result from pro-  
20       ductive land;

21          (22) Federal land rehabilitation projects—

22                (A) have direct benefits to local economies;  
23       and

1 (B) reduce the loss to taxpayers in the  
2 United States caused by below-cost timber sales  
3 and other subsidized resource extraction;

4 (23) a congressional review of roadless areas  
5 within public land identifies—

6 (A) areas that, on the basis of the land  
7 form, ecosystem, associated fish and wildlife,  
8 economic value, and location of the areas, will  
9 help to fulfill the role of the Forest Service, Na-  
10 tional Park Service, and Bureau of Land Man-  
11 agement to ensure a quality National Wilder-  
12 ness Preservation System;

13 (B) areas that may have value as wild and  
14 scenic rivers; and

15 (C) areas that—

16 (i) may not possess wilderness at-  
17 tributes and should not now be designated  
18 as components of the National Wilderness  
19 Preservation System; and

20 (ii) should be studied to determine the  
21 role of the areas in maintaining biological  
22 diversity in the Northern Rockies Bio-  
23 region;

24 (24) many areas of public land—

(A) have been damaged and experienced a reduction in productivity due to unwise development practices, which have also impaired ecosystem function and biological diversity, such as the Island Park area adjacent to Yellowstone National Park, which contains large clear-cut areas that border the park boundary; and

(B) should be returned to the former ecological health and native diversity of the areas through efforts—

(i) to ensure that vital ecosystem components are restored, especially in areas in which wildlife travel corridors and native fish and wildlife populations have been damaged or eliminated; and

(ii) to ensure and maintain genetic interchange, biological diversity, and restoration of native species diversity throughout the Northern Rockies Bioregion;

(25) backcountry areas of the National Park System have been damaged by inappropriate management, despite policies that require that recommended wilderness be administered as wilderness;

(26) an emphasis on structures and motorized equipment, and in some instances developed

1 backcountry campsites, in backcountry areas of the  
2 National Park System has detracted from and de-  
3 graded the wilderness character of those  
4 backcountry areas;

5 (27) Federal agencies entrusted with managing  
6 the natural resources of the Northern Rockies Bio-  
7 region—

8 (A) operate under contradictory congres-  
9 sional mandates; and

10 (B) are in dissension over management  
11 policies that involve common resources and  
12 greater ecosystems;

13 (28) Federal agency structures and regulatory  
14 mechanisms as of the date of enactment of this Act  
15 have proven unsatisfactory for the responsible man-  
16 agement of nationally important ecosystems on pub-  
17 lic land;

18 (29) Federal laws and regulations as of the  
19 date of enactment of this Act have not been suffi-  
20 cient to establish and maintain the accountability of  
21 Federal agencies for public resources; and

22 (30) this Act does not affect private existing  
23 rights.

24 **SEC. 3. PURPOSES.**

25 (a) IN GENERAL.—The purposes of this Act are—

1           (1) to designate certain National Forest System  
2       land, certain National Park System land, and cer-  
3       tain public land administered by the Bureau of Land  
4       Management in the States of Idaho, Montana, Or-  
5       egon, Washington, and Wyoming as components of  
6       the National Wilderness Preservation System;

7           (2) to designate certain National Forest System  
8       land, certain public land administered by the Bureau  
9       of Land Management, and watercourses on that Na-  
10      tional Forest System land and public land in the  
11      States of Montana, Idaho, and Wyoming as compo-  
12      nents of the National Wild and Scenic Rivers Sys-  
13      tem;

14          (3) to prioritize areas for wildland recovery to  
15      help restore biological diversity and native species;  
16      and

17          (4) to establish a system of biological con-  
18      necting corridors between the core ecosystems in the  
19      Northern Rockies Bioregion and to ecologically sig-  
20      nificant wild land to the south of the Northern  
21      Rockies Bioregion.

22      (b) PURPOSE OF DESIGNATIONS.—The designations  
23   of land made by this Act are made—

24          (1) to promote, perpetuate, and preserve the  
25      wilderness character of the designated land;

1           (2) to protect water quality, watersheds, and  
2       wildlife habitats, including the habitats of species  
3       listed as threatened or endangered under the Endan-  
4       gered Species Act of 1973 (16 U.S.C. 1531 et seq.);

5           (3) to protect the ecological integrity and con-  
6       tinguity of major wildland ecosystems and the inter-  
7       connecting corridors of the ecosystems identified by  
8       the Director of the United States Fish and Wildlife  
9       Service or another official;

10          (4) to protect and maintain biological and na-  
11       tive species diversity and dispersal throughout the  
12       Northern Rockies Bioregion;

13          (5) to promote and ensure interagency coopera-  
14       tion in the implementation of integrated, holistic  
15       ecosystem management and protection of the eco-  
16       systems and corridors covered by this Act based on  
17       principles from conservation biology;

18          (6) to preserve scenic, historic, and cultural re-  
19       sources;

20          (7) to promote scientific research, primitive  
21       recreation, solitude, physical and mental challenges,  
22       and inspiration for the benefit of the people of the  
23       United States;

24          (8) to avoid the misinvestment of scarce capital  
25       in land of marginal timber value; and

1           (9) to promote ecologically and economically  
2       sustainable management in the Northern Rockies  
3       Bioregion.

4 **SEC. 4. DEFINITIONS.**

5       In this Act:

6           (1) CORRIDOR.—The term “corridor” means an  
7       area that provides connectivity of habitat or poten-  
8       tial habitat, and that facilitates the ability of terres-  
9       trial, estuarine, and freshwater fish, or wildlife, to  
10      move within a landscape—

11           (A) as needed for migration, gene flow, or  
12      dispersal; or

13           (B) in response to the impacts of climate  
14      change or other impacts.

15           (2) DEVELOPMENT.—

16           (A) IN GENERAL.—The term “develop-  
17      ment” means an activity that eliminates the  
18      roadless and wilderness characteristics of the  
19      land on which the activity takes place.

20           (B) INCLUSIONS.—The term “develop-  
21      ment” includes the construction or operation of  
22      a ski resort facility, road building, timber har-  
23      vesting, mining, and oil and gas drilling.

24           (3) GREATER ECOSYSTEM.—The term “greater  
25      ecosystem”, when used in conjunction with a specific

1 ecosystem described in this Act, means an ecological  
2 land unit—

3 (A)(i) of sufficient scale to support and  
4 maintain populations of large vertebrate species  
5 and the other native plant and animal species  
6 of the unit; and

7 (ii) comprised of land that is similar in to-  
8 pography, climate, and plant and animal species  
9 on the land; or

10 (B) contiguous with the habitat of a wild-  
11 life indicator species listed as threatened or en-  
12 dangered under the Endangered Species Act of  
13 1973 (16 U.S.C. 1531 et seq.), including the  
14 grizzly bear, lynx, or caribou, as depicted on  
15 habitat maps of Federal agencies.

16 (4) HABITAT.—The term “habitat” means the  
17 physical, chemical, and biological properties that are  
18 used by fish, wildlife, or plants for growth, reproduc-  
19 tion, survival, food, water, and cover on a tract of  
20 land, in a body of water, or in an area or region.

21 (5) INDIAN TRIBE.—The term “Indian Tribe”  
22 has the meaning given the term in section 4 of the  
23 Indian Self-Determination and Education Assistance  
24 Act (25 U.S.C. 5304).

1           (6) NORTHERN ROCKIES BIOREGION.—The  
 2       term “Northern Rockies Bioregion” means the por-  
 3       tion of the Northern Rocky Mountains in the States  
 4       of Montana, Idaho, Wyoming, Oregon, and Wash-  
 5       ington, as depicted on maps referred to in this Act.

6           (7) PUBLIC LAND.—The term “public land”  
 7       has the meaning given the term “public lands” in  
 8       section 103 of the Federal Land Policy and Manage-  
 9       ment Act of 1976 (43 U.S.C. 1702).

10          (8) SECRETARY CONCERNED.—The term “Sec-  
 11       retary concerned” means—

12                (A) the Secretary of Agriculture, with re-  
 13       spect to National Forest System land; and

14                (B) the Secretary of the Interior, with re-  
 15       spect to National Park System land and public  
 16       land.

## 17           **TITLE I—DESIGNATION OF** 18           **WILDERNESS**

### 19   **SEC. 101. PURPOSE.**

20       The purpose of this title is to designate certain Na-  
 21       tional Forest System land, National Park System land,  
 22       and public land administered by the Bureau of Land Man-  
 23       agement in the States of Idaho, Montana, Oregon, Wash-  
 24       ington, and Wyoming as wilderness and as components of  
 25       the National Wilderness Preservation System in further-

1   ance of the purposes of the Wilderness Act (16 U.S.C.  
2   1131 et seq.).

3   **SEC. 102. GREATER GLACIER/NORTHERN CONTINENTAL DI-**  
4                   **VIDE ECOSYSTEM.**

5           (a) DEFINITION OF MAP.—In this section, the term  
6   “Map” means the map entitled “Northern Continental Di-  
7   vide” and dated April 28, 2016.

8           (b) DESIGNATIONS.—To protect the unique eco-  
9   system of the greater Glacier/Northern Continental Divide  
10  ecosystem, the following land is designated as wilderness:

11                   (1) BOB MARSHALL WILDERNESS ADDITIONS.—

12           The following land is incorporated in, and shall be  
13           administered as part of, the Bob Marshall Wilder-  
14           ness:

15                           (A) CHOTEAU MOUNTAIN/TETON HIGH  
16                           PEAKS/DEEP CREEK ADDITION.—Certain Fed-  
17                           eral land within the Lewis and Clark National  
18                           Forest and land administered by the Lewistown  
19                           Field Office of the Bureau of Land Manage-  
20                           ment comprising approximately 73,000 acres,  
21                           identified as “Choteau Mountain/Teton High  
22                           Peaks/Deep Creek Addition” on the Map.

23                           (B) RENSHAW ADDITION.—Certain Fed-  
24                           eral land within the Lewis and Clark National  
25                           Forest and land administered by the Lewistown

1 Field Office of the Bureau of Land Manage-  
2 ment comprising approximately 30,000 acres,  
3 identified as “Renshaw Addition” on the Map.

4 (C) SWAN FRONT ADDITION.—Certain  
5 Federal land within the Flathead National For-  
6 est and Lolo National Forest comprising ap-  
7 proximately 169,000 acres, identified as “Swan  
8 Front Addition” on the Map.

9 (D) HUNGRY HORSE RESERVOIR WEST.—  
10 Certain Federal land within the Flathead Na-  
11 tional Forest comprising approximately 179,000  
12 acres, identified as “Hungry Horse Reservoir  
13 West” on the Map.

14 (E) BOB NORTH ADDITION.—Certain Fed-  
15 eral land within the Flathead National Forest  
16 comprising approximately 88,000 acres, identi-  
17 fied as “Bob North Addition” on the Map.

18 (F) MONTURE CREEK ADDITION.—Certain  
19 Federal land within the Lolo National Forest  
20 comprising approximately 99,000 acres, identi-  
21 fied as “Monture Creek Addition” on the Map.

22 (2) GREAT BEAR WILDERNESS ADDITIONS.—  
23 The following land is incorporated in, and shall be  
24 administered as part of, the Great Bear Wilderness:

1 (A) HUNGRY HORSE RESERVOIR EAST AD-  
 2 DITION.—Certain Federal land within the Flat-  
 3 head National Forest comprising approximately  
 4 37,000 acres, identified as “Hungry Horse Res-  
 5 ervoir East Addition” on the Map.

6 (B) MIDDLE FORK ADDITIONS.—Certain  
 7 Federal land within the Flathead National For-  
 8 est comprising approximately 53,000 acres,  
 9 identified as “Middle Fork Additions” on the  
 10 Map.

11 (3) SCAPEGOAT WILDERNESS ADDITIONS.—The  
 12 following land, consisting of a total of approximately  
 13 125,000 acres, is incorporated in, and shall be ad-  
 14 ministered as part of, the Scapegoat Wilderness:

15 (A) STONEWALL MOUNTAIN ADDITION.—  
 16 Certain Federal land within the Helena Na-  
 17 tional Forest comprising approximately 55,000

22 RANGE CORRIDOR.—Each of the following areas of  
23 land in Boulder/White Clouds/Lost River Range Cor-  
24 ridor is designated as a component of the National  
25 Wilderness Preservation System:

1 (A) CORRAL-HORSE BASIN WILDERNESS.—

2 Certain Federal land administered by the  
3 Challis Field Office of the Bureau of Land  
4 Management comprising approximately 47,000  
5 acres, identified as “Corral-Horse Basin Wil-  
6 derness” on the map entitled “Greater Salmon  
7 Selway” and dated April 28, 2016, which shall  
8 be known as the “Corral-Horse Basin Wilder-  
9 ness”.

10 (B) APPENDICITIS HILL WILDERNESS.—

11 Certain Federal land administered by the  
12 Upper Snake Field Office of the Bureau of  
13 Land Management comprising approximately  
14 22,000 acres, identified as “Appendicitis Hill  
15 Wilderness” on the map entitled “Greater  
16 Salmon Selway” and dated April 28, 2016,  
17 which shall be known as the “Appendicitis Hill  
18 Wilderness”.

19 (C) WHITE-KNOB MOUNTAINS WILDER-

20 NESS.—Certain Federal land administered by  
21 the Upper Snake Field Office of the Bureau of  
22 Land Management comprising approximately  
23 10,000 acres, identified as “White-Knob Moun-  
24 tains Wilderness” on the map entitled “Greater  
25 Salmon Selway” and dated April 28, 2016,

1           which shall be known as the “White-Knob  
2           Mountains Wilderness”.

3           (12) GREATER GLACIER/GREATER YELLOW-  
4           STONE CORRIDOR.—The following land in Greater  
5           Glacier/Greater Yellowstone Corridor is designated  
6           as wilderness:

7                   (A) GATES OF THE MOUNTAIN WILDER-  
8           NESS ADDITION.—Certain Federal land within  
9           the Helena National Forest comprising approxi-  
10          mately 20,000 acres, identified as “Gates of the  
11          Mountain Wilderness Addition” on the Map is  
12          incorporated in, and shall be administered as  
13          part of, the Gates of the Mountain Wilderness.

14                  (B) NEW NATIONAL WILDERNESS PRESER-  
15          VATION SYSTEM COMPONENTS.—Each of the  
16          following areas of land is designated as a com-  
17          ponent of the National Wilderness Preservation  
18          System:

19                          (i) TENDERFOOT WILDERNESS.—Cer-  
20          tain Federal land within the Lewis and  
21          Clark National Forest comprising approxi-

derness” on the Map, which shall be known as the “Irish Gulch Wilderness”.

(xxvii) GRASSY MOUNTAIN WILDERNESS.—Certain Federal land within the Helena National Forest comprising approximately 7,000 acres, identified as “Grassy Mountain Wilderness” on the Map, which shall be known as the “Grassy Mountain Wilderness”.

(xxviii) MIDDLEMAN/HEDGES WILDERNESS.—Certain Federal land within the Helena National Forest comprising approximately 34,000 acres, identified as “Middleman/Hedges Wilderness” on the Map, which shall be known as the “Middleman/Hedges Wilderness”.

(xxix) HELLGATE GULCH WILDERNESS.—Certain Federal land within the Helena National Forest comprising approximately 17,000 acres, identified as “Hellgate Gulch Wilderness” on the Map, which shall be known as the “Hellgate Gulch Wilderness”.

(xxx) CAYUSE MOUNTAIN WILDERNESS.—Certain Federal land within the

1 Helena National Forest comprising ap-  
 2 proximately 22,000 acres, identified as  
 3 “Cayuse Mountain Wilderness” on the  
 4 Map, which shall be known as the “Cayuse  
 5 Mountain Wilderness”.

6 (xxxi) ELECTRIC PEAK/LITTLE BLACK-  
 7 FOOT MEADOWS WILDERNESS, BEAVER-  
 8 HEAD-DEERLODGE AND HELENA NATIONAL  
 9 FORESTS.—Certain Federal land within  
 10 the Helena and Beaverhead-Deerlodge Na-  
 11 tional Forests comprising approximately  
 12 53,000 acres, identified as “Electric Peak/  
 13 Little Blackfoot Meadows Wilderness, Bea-  
 14 verhead-Deerlodge” on the Map, which  
 15 shall be known as the “Electric Peak/Little  
 16 Blackfoot Meadows Wilderness”.

17 (xxxii) WHITETAIL-HAYSTACK WIL-  
 18 DERNESS.—Certain Federal land within  
 19 the Beaverhead-Deerlodge National Forest  
 20 comprising approximately 73,000 acres,  
 21 identified as “Whitetail-Haystack Wilder-  
 22 ness” on the Map, which shall be known as  
 23 the “Whitetail-Haystack Wilderness”.

24 (xxxiii) O’NEIL CREEK WILDER-  
 25 NESS.—Certain Federal land within the

1 Beaverhead-Deerlodge National Forest  
 2 comprising approximately 7,000 acres,  
 3 identified as “O’Neil Creek Wilderness” on  
 4 the Map, which shall be known as the  
 5 “O’Neil Creek Wilderness”.

6 (xxxiv) BANGTAIL WILDERNESS.—  
 7 Certain Federal land within the Custer  
 8 Gallatin National Forest comprising ap-  
 9 proximately 51,000 acres, identified as  
 10 “Bangtail Wilderness” on the Map, which  
 11 shall be known as the “Bangtail Wilder-  
 12 ness”.

13 (13) MT. LEIDY HIGHLANDS/WIND RIVER  
 14 RANGE CORRIDOR.—Certain Federal land in Mt.  
 15 Leidy Highlands/Wind River Range Corridor within  
 16 the Shoshone National Forest comprising approxi-  
 17 mately 7,000 acres, identified as “Fish Lake Moun-  
 18 tain Wilderness” on the map entitled “Greater Yel-  
 19 lowstone” and dated April 28, 2016, is designated as  
 20 a component of the National Wilderness Preserva-  
 21 tion System and shall be known as the “Fish Lake  
 22 Mountain Wilderness”.

23 **SEC. 109. ADMINISTRATION.**

24 (a) IN GENERAL.—Subject to valid existing rights,  
 25 land designated as wilderness by this title shall be admin-

1 istered by the Secretary concerned in accordance with the  
2 Wilderness Act (16 U.S.C. 1131 et seq.), except that—

3 (1) any reference in that Act to the effective  
4 date shall be deemed to be a reference to the date  
5 of the enactment of this Act;

6 (2) any reference in that Act to the Secretary  
7 of Agriculture shall be considered to be a reference  
8 to the Secretary concerned; and

9 (3) the Secretary of the Interior and the Sec-  
10 retary of Agriculture shall, to the maximum extent  
11 practicable, coordinate the management of an area  
12 of land designated as wilderness by this title that  
13 contains—

14 (A) land administered by the Secretary of  
15 the Interior; and

16 (B) land administered by the Secretary of  
17 Agriculture.

18 (b) MAPS AND LEGAL DESCRIPTION.—

19 (1) IN GENERAL.—As soon as practicable after  
20 the date of the enactment of this Act, the Secretary  
21 concerned shall submit a map and legal description  
22 of each area of land designated as wilderness by this  
23 title to—

24 (A) the Committee on Energy and Natural  
25 Resources of the Senate; and

1 (B) the Committee on Natural Resources  
2 of the House of Representatives.

3 (2) FORCE AND EFFECT.—Each map and legal  
4 description prepared under paragraph (1) shall have  
5 the same force and effect as if included in this Act,  
6 except that the Secretary concerned may correct  
7 clerical and typographical errors in the map or legal  
8 description.

9 (3) PUBLIC AVAILABILITY.—Each map and  
10 legal description prepared under paragraph (1) shall  
11 be on file and available for public inspection in the  
12 Office of the Chief of the Forest Service, the Office  
13 of the Director of the Bureau of Land Management,  
14 or the Office of the Director of the National Park  
15 Service, as appropriate.

16 **SEC. 110. WATER.**

17 (a) RESERVATION.—

18 (1) IN GENERAL.—With respect to the land  
19 designated as wilderness by this title, rights to a  
20 quantity of water sufficient to fulfill the purposes for  
21 which the land is designated as wilderness are re-  
22 served.

23 (2) PRIORITY DATE.—The priority date of the  
24 rights reserved by paragraph (1) is the date of en-  
25 actment of this Act.

1 (b) IMPLEMENTATION.—The Secretary of Agri-  
 2 culture, the Secretary of the Interior, and any other rel-  
 3 evant officer of the United States shall, to the maximum  
 4 extent practicable, ensure that the rights reserved by sub-  
 5 section (a) are protected, including by filing in a court  
 6 of the State of Idaho, Montana, Wyoming, Oregon, or  
 7 Washington claims for quantification of those rights in  
 8 any appropriate stream adjudication—

9 (1) occurring on or after the date of enactment  
 10 of this Act; and

11 (2) in which the United States is properly  
 12 joined in accordance with section 208 of the Act of  
 13 July 10, 1952 (43 U.S.C. 666) (commonly referred  
 14 to as the “McCarran Amendment”).

15 **SEC. 111. DONATION OF GRAZING PERMITS AND LEASES.**

16 (a) ACCEPTANCE BY SECRETARY CONCERNED.—

17 (1) IN GENERAL.—The Secretary concerned  
 18 shall accept the donation of any valid existing permit  
 19 or lease authorizing grazing on public land or Na-  
 20 tional Forest System land, all or a portion of which  
 21 is within an area designated under this Act as—

- 22 (A) a wilderness area;
- 23 (B) a recovery area; or
- 24 (C) a biological corridor.

1           (2) PARTIAL DONATION.—A person holding a  
2       valid grazing permit or lease for a grazing allotment  
3       partially in an area described in paragraph (1) may  
4       elect to donate only the portion of the grazing per-  
5       mit or lease that is within the applicable area.

6       (b) TERMINATION.—With respect to each permit or  
7       lease donated under subsection (a), the Secretary con-  
8       cerned shall—

9           (1) terminate the grazing permit or lease or  
10      portion of the permit or lease; and

11          (2) except as provided in subsection (c), ensure  
12      a permanent end to grazing on the land covered by  
13      the permit or lease or portion of the permit or lease.

14      (c) COMMON ALLOTMENTS.—

15          (1) IN GENERAL.—If the land covered by a per-  
16      mit or lease donated under subsection (a) is also  
17      covered by another valid grazing permit or lease that  
18      is not donated under that subsection, the Secretary  
19      concerned shall reduce the authorized level on the  
20      land covered by the permit or lease to reflect the do-  
21      nation of the permit or lease under that subsection.

22          (2) AUTHORIZED LEVEL.—To ensure that there  
23      is a permanent reduction in the level of grazing on  
24      the land covered by the permit or lease donated  
25      under subsection (a), the Secretary concerned shall

1 not allow grazing use on the land to exceed the au-  
2 thorized level established under paragraph (1).

3 (d) PARTIAL DONATION.—If a person holding a valid  
4 grazing permit or lease donates less than the full level of  
5 grazing use authorized under the permit or lease under  
6 subsection (a), the Secretary concerned shall—

7 (1) reduce the authorized grazing level to re-  
8 flect the donation; and

9 (2) modify the permit or lease to reflect the re-  
10 vised level.

## 11 **TITLE II—BIOLOGICAL** 12 **CONNECTING CORRIDORS**

### 13 **SEC. 201. FINDINGS.**

14 The Congress finds that, as of the date of enactment  
15 of this Act—

16 (1) the most recent scientific information on ec-  
17 ological reserve design and function, including recent  
18 scientific information on species dispersal in re-  
19 sponse to a changing climate, points out the critical  
20 need for biological connecting corridors between the  
21 larger core ecosystem areas;

22 (2) while none of the remaining major wild land  
23 ecosystems of the Northern Rockies Bioregion ap-  
24 pears to be of sufficient size to perpetuate the full  
25 complement of self-sustaining viable populations of

1 native wildlife, biological diversity, and full range of  
2 ecological processes on its own, it appears that an  
3 effective reserve system can be achieved if biological  
4 connecting corridors between the ecosystems are  
5 identified and protected;

6 (3) the wild land areas addressed by this title  
7 are located between the major core ecosystems of the  
8 region and are essential for wildlife and plant migra-  
9 tion and genetic interchange; and

10 (4) these areas are some of the most beautiful  
11 and wild mountain ranges in the United States, in-  
12 cluding the Bitterroot, Sapphire, Lost River, Lemhi,  
13 and Bridger mountain ranges.

14 **SEC. 202. DESIGNATION OF BIOLOGICAL CONNECTING COR-**  
15 **RIDORS.**

16 (a) DESIGNATIONS.—

17 (1) IN GENERAL.—To protect the life flow of  
18 the Northern Rockies Bioregion, the areas described  
19 in this section are designated as biological con-  
20 necting corridors.

21 (2) TYPES OF DESIGNATED BIOLOGICAL CON-  
22 NECTING CORRIDORS.—Each designated biological  
23 connecting corridor designated by this section shall  
24 be, as specified in the applicable designating sub-  
25 section—

1 (A) an area designated as a component of  
2 the National Wilderness Preservation System in  
3 title I; or

4 (B) an area subject to the special corridor  
5 management requirements described in section  
6 203.

7 (3) NAME.—Each biological connecting corridor  
8 designated in this section shall be known by the  
9 name given in the subsection establishing the bio-  
10 logical connecting corridor.

11 (4) MAP.—Each map described by this section  
12 shall be on file and available for public inspection in  
13 the Office of the Chief of the Forest Service and the

10 National Forest and Yellowstone National Park  
11 from the southern boundary of Yellowstone National  
12 Park downstream approximately 102 miles to the  
13 mouth of Yankee Jim Canyon, to be administered by  
14 the Secretaries of the Interior and Agriculture.”.

## 15 **TITLE IV—WILDLAND**

## 16 **RESTORATION AND RECOVERY**

### 17 **SEC. 401. DEFINITIONS.**

18 In this title:

19 (1) RECOVERY.—The term “recovery”, with re-  
20 spect to any land damaged by a land management  
21 activity, means the restoration of—

22 (A) the natural, untrammelled condition of  
23 the land; or

24 (B) the undeveloped, roadless character of  
25 the land.

1           (2) RECOVERY AREA.—The term “recovery  
2       area” means any area designated as a wildland re-  
3       covery area by section 402(a).

4           (3) SECRETARY.—The term “Secretary” means  
5       the Secretary of Agriculture.

6   **SEC. 402. RESTORATION AND RECOVERY.**

7       (a) DESIGNATION OF RECOVERY AREAS.—Except as  
8       provided in subsection (b), the following areas, consisting  
9       of a total of approximately 1,023,000 acres, as depicted  
10      on the map dated April 28, 2016, and entitled “Northern  
11      Rockies Ecosystem Protection Act”, are designated as  
12      wildland recovery areas:

13           (1) Skyland area, consisting of approximately  
14      10,000 acres administered by the Flathead National  
15      Forest.

16           (2) Hungry Horse area (except Hungry Horse  
17      Dam and Reservoir), consisting of approximately  
18      205,000 acres administered by the Flathead Na-  
19      tional Forest.

20           (3) Lolo Creek area, consisting of approxi-  
21      mately 59,000 acres administered by the Lolo or  
22      Clearwater National Forest.

23           (4) Yellowstone West area, consisting of ap-  
24      proximately 164,000 acres administered by the Car-  
25      ibou-Targhee National Forest.

1           (5) Mt. Leidy area, consisting of approximately  
2       70,000 acres administered by the Bridger-Teton Na-  
3       tional Forest.

4           (6) Cabinet/Yaak area, consisting of approxi-  
5       mately 100,000 acres administered by the Kootenai  
6       National Forest.

7           (7) Lightning Creek area, consisting of approxi-  
8       mately 31,000 acres administered by the Panhandle  
9       National Forest.

10          (8) Coeur d'Alene River area, consisting of ap-  
11       proximately 372,000 acres administered by the Pan-  
12       handle National Forest.

13          (9) Magruder Corridor area, consisting of ap-  
14       proximately 12,000 acres administered by the Nez  
15       Perce or Bitterroot National Forest.

16       (b) EXEMPTIONS.—Subject to subsection (c), the fol-  
17       lowing roads, highways, and facilities are exempted from  
18       this title:

19           (1) Any road that is—

20               (A)(i) a private road; or

21               (ii) owned by the Federal Government, a  
22       State government, or a unit of local government  
23       (including any National Forest System road);  
24       and

1 (B) used to access an existing, authorized  
2 use.

3 (2) Any facility, such as a developed camp-  
4 ground, ranger station, or other facility, that is de-  
5 termined to be essential by the Chief of the Forest  
6 Service.

7 (c) REQUIREMENT.—Notwithstanding subsection (b),  
8 in accordance with the plans developed under section 403,  
9 the Secretary—

10 (1) shall recover and restore the portion of the  
11 Magruder Corridor between Magruder Crossing and  
12 Dry Saddle; and

13 (2) may recover and restore any National For-  
14 est System road or Forest Service development or  
15 facility located in a recovery area.

16 **SEC. 403. MANAGEMENT.**

17 (a) RESTORATION REQUIREMENTS.—

18 (1) IN GENERAL.—The land located within a  
19 recovery area shall be managed in a manner that, to  
20 the maximum extent practicable—

21 (A) restores the native vegetative cover of  
22 the land;

23 (B) reduces or eliminates invasive non-  
24 native species;

1 (C) facilitates native species diversity, sub-  
2 ject to the conditions imposed by climate  
3 change;

4 (D) stabilizes slopes and soils to prevent or  
5 reduce further erosion;

6 (E) recontours slopes to their original con-  
7 tours;

8 (F) removes barriers to natural fish  
9 spawning runs; and

10 (G) generally restores the land to a natural  
11 roadless and wild condition.

12 (2) WATER QUALITY.—In the management of a  
13 recovery area, special consideration shall be given to  
14 restoration of water quality.

15 (b) RECOVERY PLANS.—

16 (1) IN GENERAL.—Not later than 3 years after  
17 the date of enactment of this Act, the Secretary  
18 shall develop a wildland recovery plan for each recov-  
19 ery area.

20 (2) INCLUSIONS.—Each recovery plan under  
21 paragraph (1) shall include a description of the  
22 projects, activities, and funding required to achieve  
23 compliance with the requirements of this section.

1 (c) EVALUATION.—The Secretary shall use measur-  
 2 able criteria to evaluate the success of recovery actions  
 3 carried out pursuant to this section.

## 4 **TITLE V—IMPLEMENTATION** 5 **AND MONITORING**

### 6 **SEC. 501. IMPLEMENTATION REPORT.**

7 Not later than 3 years after the date of enactment  
 8 of this Act, the Secretaries concerned shall jointly submit  
 9 to the Committee on Energy and Natural Resources of  
 10 the Senate and the Committee on Natural Resources of  
 11 the House of Representatives a report that—

12 (1) is prepared by a panel of independent sci-  
 13 entists, to be appointed by the National Academy of  
 14 Sciences, in consultation with the Society for Con-  
 15 servation Biology; and

16 (2) describes—

17 (A) the implementation of this Act during  
 18 the preceding 3-year period; and

19 (B) any additional projects, activities, and  
 20 funding required to achieve the purposes of this  
 21 Act.

### 22 **SEC. 502. INTERAGENCY TEAM.**

23 (a) ESTABLISHMENT.—The Secretaries concerned  
 24 shall jointly establish an interagency team, containing an  
 25 equal number of participants from the public and private

1 sectors, to monitor, evaluate, and make recommendations  
2 to ensure achievement of the long-term results required  
3 by this Act.

4 (b) GEOGRAPHIC INFORMATION SYSTEM.—

5 (1) DEVELOPMENT.—

6 (A) IN GENERAL.—The interagency team  
7 established under subsection (a) shall develop a  
8 geographic information system for monitoring  
9 the Northern Rockies Bioregion.

10 (B) REQUIREMENT.—The geographic in-  
11 formation system under subparagraph (A)  
12 shall—

13 (i) be based on satellite-gathered data;

14 and

15 (ii) include comprehensive maps and  
16 databases to assist in the detection of  
17 changes in the Northern Rockies Bio-  
18 region.

19 (2) TYPES OF INFORMATION.—The maps and  
20 databases included in the geographic information  
21 system under paragraph (1) shall be updated peri-  
22 odically to record the following:

23 (A) Vegetation cover (including a descrip-  
24 tion of species occurrence and densities).

25 (B) Human impacts.

1 (C) Water and air quality.

2 (D) Activities that impact forest husbandry  
3 and restoration.

4 (3) STATUS REPORTS.—The geographic infor-  
5 mation system under paragraph (1) shall include  
6 status reports regarding—

7 (A) the progress of relevant ecosystem pro-  
8 tection, corridor consolidation, and forest recov-  
9 ery efforts; and

10 (B) relevant threatened and endangered  
11 species, which are primary indicators of eco-  
12 system health.

13 (c) WILDLIFE MOVEMENTS.—

14 (1) IN GENERAL.—The interagency team estab-  
15 lished under subsection (a) shall assess the potential  
16 for facilitating wildlife movement across or under  
17 major highways and rail lines within the biological  
18 corridors established under title II.

19 (2) REQUIREMENT.—The assessment under  
20 paragraph (1) shall include an identification of  
21 major crossing points and practicable management  
22 actions to enhance the suitability of the crossing  
23 points as movement corridors, including under-  
24 passes, overpasses, and other methods for reducing

1 the danger to native wildlife while facilitating move-  
2 ments within the Northern Rockies Bioregion.

3 **SEC. 503. ROADLESS LAND EVALUATION.**

4 (a) DEFINITION OF ROADLESS LAND.—In this sec-  
5 tion, the term “roadless land” means land that is—

6 (1) greater than 1,000 acres in area;

7 (2) located within the National Forest System  
8 in the Wild Rockies Bioregion in the State of Idaho,  
9 Montana, Oregon, Washington, or Wyoming; and

10 (3) not designated as a component of the Na-  
11 tional Wilderness Preservation System under this  
12 Act or any other provision of law.

13 (b) EVALUATION.—

14 (1) IN GENERAL.—The panel of independent  
15 scientists described in section 501(1) shall—

16 (A) subject to paragraph (2), identify and  
17 evaluate roadless land;

18 (B) study the role of roadless land—

19 (i) in maintaining biological diversity  
20 in the Northern Rockies; and

21 (ii) as part of the overall Forest Re-  
22 serve System; and

23 (C) include in the report under section 501  
24 recommendations regarding the management of  
25 roadless land.

1           (2) SOURCES OF INFORMATION.—In identifying  
2           and evaluating roadless land under paragraph  
3           (1)(A), the panel shall use, in addition to other in-  
4           formation sources, existing satellite information and  
5           geographic information system data developed by—

6                       (A) the Forest Service;

7                       (B) the Bureau of Land Management; and

8                       (C) the United States Fish and Wildlife  
9           Service.

10          (c) PROHIBITION.—Effective beginning on the date  
11          of completion of the evaluation under subsection (b), there  
12          is prohibited on roadless land—

13               (1) any construction or reconstruction of a new  
14          or existing road;

15               (2) any timber harvesting (except firewood  
16          gathering); and

17               (3) subject to valid existing rights, any oil or  
18          gas leasing, mining, or other development that im-  
19          pairs the natural and roadless qualities of roadless  
20          land.

## 21       **TITLE VI—EFFECT OF ACT ON** 22       **INDIAN TRIBES**

### 23       **SEC. 601. RIGHTS OF INDIAN TRIBES.**

24          Nothing in this Act affects or modifies any treaty or  
25          other right of an Indian Tribe.

1 **SEC. 602. FEDERAL TRUST RESPONSIBILITY.**

2       Nothing in this Act amends, alters, or gives priority  
3 over the Federal trust responsibility to Indian Tribes.

4 **SEC. 603. EXEMPTION FROM FREEDOM OF INFORMATION**  
5 **ACT.**

6       If a Federal department or agency receives any infor-  
7 mation relating to a sacred site or cultural activity identi-  
8 fied by an Indian Tribe as confidential, the information  
9 shall be exempt from disclosure under section 552 of title  
10 5, United States Code (commonly known as the “Freedom  
11 of Information Act”).

12 **SEC. 604. APPLICATION OF INDIAN SELF-DETERMINATION**  
13 **AND EDUCATION ASSISTANCE ACT.**

14       The Secretary of the Interior may apply the Indian  
15 Self-Determination and Education Assistance Act (25  
16 U.S.C. 5301 et seq.) as the Secretary determines to be  
17 appropriate in carrying out this Act.

18 **SEC. 605. TRIBAL USE OF PROTECTED AREAS.**

19       (a) DEFINITION OF PROTECTED AREA.—In this sec-  
20 tion, the term “protected area” means land designated  
21 under this Act as—

- 22               (1) a wilderness area;
- 23               (2) a recovery area;
- 24               (3) a wild or scenic river; or
- 25               (4) a biological corridor.

26       (b) ACCESS TO PROTECTED AREAS.—

1           (1) IN GENERAL.—In recognition of the past  
2       use of portions of protected areas by Indians for tra-  
3       ditional cultural and religious purposes, the Secre-  
4       taries concerned shall ensure nonexclusive access by  
5       Indians to any applicable protected area for such a  
6       traditional cultural or religious purpose.

7           (2) CONSISTENCY WITH APPLICABLE LAW.—  
8       The access under paragraph (1) shall be consistent  
9       with the purposes and intent of—

10           (A) Public Law 95–341 (commonly known  
11       as the “American Indian Religious Freedom  
12       Act”) (42 U.S.C. 1996); and

13           (B) in the case of any protected area des-  
14       ignated as wilderness under this Act, the Wil-  
15       derness Act (16 U.S.C. 1131 et seq.).

16           (3) CLOSING TO PUBLIC.—The Secretaries con-  
17       cerned, in accordance with the provisions of law re-  
18       ferred to in paragraph (2) and on receipt of a re-  
19       quest from an Indian Tribe, from time to time may  
20       temporarily close to the general public one or more  
21       specific portions of a protected area to protect the  
22       privacy of a religious activity or cultural use by an  
23       Indian.

24           (4) RECOMMENDATIONS FROM INDIAN  
25       TRIBES.—In preparing a management plan for a

1       protected area, the Secretaries concerned shall re-  
2       quest that the head of each applicable Tribal govern-  
3       ment submit to the Secretaries concerned rec-  
4       ommendations with respect to—

5               (A) ensuring access by Indians to impor-  
6       tant sites;

7               (B) enhancing the privacy of Indian tradi-  
8       tional cultural and religious activities; and

9               (C) protecting Indian cultural and religious  
10      sites.

## 11       **TITLE VII—EFFECT OF ACT ON** 12       **WATER RIGHTS**

### 13   **SEC. 701. WATER RIGHTS.**

14       Nothing in this Act relinquishes or reduces any water  
15   right reserved, appropriated, or otherwise secured by the  
16   United States in the State of Idaho, Montana, Oregon,  
17   Washington, or Wyoming on or before the date of enact-  
18   ment of this Act.
