

118TH CONGRESS
1ST SESSION

H. RES. 127

Expressing the sense of the House of Representatives that the United States should support the safe and responsible development of its energy resources via drilling, in an effort to maintain a robust energy supply chain which promotes national security, safeguards against energy scarcity, and reduces energy poverty for all Americans.

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 14, 2023

Mr. MOORE of Alabama (for himself, Mr. BOST, Mr. DONALDS, Mr. NEWHOUSE, and Mr. STEUBE) submitted the following resolution; which was referred to the Committee on Natural Resources, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

RESOLUTION

Expressing the sense of the House of Representatives that the United States should support the safe and responsible development of its energy resources via drilling, in an effort to maintain a robust energy supply chain which promotes national security, safeguards against energy scarcity, and reduces energy poverty for all Americans.

Whereas it is in the national security interests of the United States to maintain a strong domestic energy supply;

Whereas the timely delivery of affordable energy domestically and internationally requires an advanced and robust domestic energy supply;

Whereas energy workers and businesses require clear and supportive Federal policy to adequately maintain and develop the domestic energy supply chain to meet growing energy needs;

Whereas recent technological advances in energy resource exploration, drilling, completion, and production have led to unprecedented levels of efficiency and emissions reductions; and

Whereas increased production and use of American natural gas have helped the United States reduce its greenhouse gas emissions: Now, therefore, be it

1 *Resolved*, That it is the sense of the House of Rep-
 2 resentatives that the United States should support the
 3 safe and responsible development of its energy resources
 4 via drilling, including by—

5 (1) repealing administrative precedent that lim-
 6 its the exploration, drilling, and production of do-
 7 mestic natural resources on Federal lands, both on-
 8 shore and offshore;

9 (2) clearly defining the relationship drilling has
 10 to future production and delivery of energy re-
 11 sources; and

12 (3) incentivizing workforce development in the
 13 domestic energy industry of the United States.
