

118TH CONGRESS
1ST SESSION

S. RES. 149

Designating the first week of April 2023 as “National Asbestos Awareness Week”.

IN THE SENATE OF THE UNITED STATES

MARCH 30, 2023

Mr. TESTER (for himself, Mr. DAINES, Mr. MERKLEY, Mr. CARPER, Mr. DURBIN, Mr. MARKEY, Mr. PADILLA, Ms. WARREN, and Mr. WHITEHOUSE) submitted the following resolution; which was considered and agreed to

RESOLUTION

Designating the first week of April 2023 as “National Asbestos Awareness Week”.

Whereas dangerous asbestos fibers are invisible and cannot be smelled or tasted;

Whereas the inhalation of airborne asbestos fibers can cause significant damage;

Whereas asbestos fibers can cause cancer, such as mesothelioma, asbestosis, and other health problems;

Whereas symptoms of asbestos-related diseases can take between 10 and 50 years to present themselves;

Whereas the projected life expectancy for an individual diagnosed with mesothelioma is between 6 and 24 months;

Whereas little is known about late-stage treatment of asbestos-related diseases, and there is no cure for those diseases;

Whereas early detection of asbestos-related diseases might give some patients increased treatment options and might improve the prognoses of those patients;

Whereas, although the consumption of asbestos within the United States has been substantially reduced, the United States continues to consume tons of the fibrous mineral each year for use in certain products;

Whereas thousands of people in the United States have died from asbestos-related diseases, and thousands more die every year from those diseases;

Whereas, although individuals continue to be exposed to asbestos, safety measures relating to, and the prevention of, asbestos exposure have significantly reduced the incidence of asbestos-related diseases and can further reduce the incidence of those diseases;

Whereas thousands of workers in the United States face significant asbestos exposure, which has been a cause of occupational cancer;

Whereas a significant percentage of all victims of asbestos-related diseases were exposed to asbestos on naval ships and in shipyards;

Whereas asbestos was used in the construction of a significant number of office buildings and public facilities built before 1975;

Whereas people in the small community of Libby, Montana, suffer from asbestos-related diseases, including mesothelioma, at a significantly higher rate than people in the United States as a whole; and

Whereas the designation of a “National Asbestos Awareness Week” will raise public awareness about the prevalence of asbestos-related diseases and the dangers of asbestos exposure: Now, therefore, be it

1 *Resolved*, That the Senate—

2 (1) designates the first week of April 2023 as
3 “National Asbestos Awareness Week”;

4 (2) urges the Surgeon General to warn and
5 educate people about the public health issue of as-
6 bestos exposure, which may be hazardous to their
7 health; and

8 (3) respectfully requests that the Secretary of
9 the Senate transmit a copy of this resolution to the
10 Office of the Surgeon General.
