STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. MCCAIN (for himself and Mr. BURNS):

S. 303. A bill to amend the Communications Act of 1934 to enhance the ability of direct broadcast satellite and other multichannel video providers to compete effectively with cable television systems, and for other purposes; to the Committee on Commerce, Science, and Transportation.

THE SATELLITE TELEVISION ACT OF 1999

● Mr. MCCAIN. Mr. President, over the past several years some satellite TV companies routinely broke the law by selling customers distant network stations when they weren't authorized to.

These customers bought the service in good faith. For many, especially those in rural areas, these distant network stations are the only source of decent network TV reception. For others, they provide a window on life in a distant city.

Despite the fact that these satellite TV customers had no intention of breaking the law, and despite the fact that many welcome the added diversity these distant network stations provide, and despite the fact that the law prevents satellite TV companies from transmitting local network stations, many of these customers—perhaps as many as two million of them—are within weeks of losing their distant network stations, thanks to a court order secured by local TV stations, and TV network broadcasters. And the way the law is written, there's not much the FCC or anybody else can do to stop it—unless we change the law.

Mr. President, that's what I propose to do. Today, with the cosponsorship of Senator CONRAD BURNS, I am introducing the Satellite Television Act of 1999. Together with legislation introduced earlier this week by myself and Senators HATCH, LEAHY, DEWINE, KOHL,
