TELECOMMUNICATIONS ACT OF  
1996

**HON. DIANA DeGETTE**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 10, 2000*

Ms. DeGETTE. Mr. Speaker, four years ago this week, the Congress approved the Telecommunications Act of 1996. While I was not a Member of Congress at that time, I was working on these issues while I was in the Colorado state legislature. On the anniversary of the Act, I would like to both herald the progress that has been made and comment on what challenges remain.

One of the main goals of the 1996 Act was to allow more competitors into local phone markets in order to spur competition and provide better opportunities for consumers. The introduction of competition into the local markets has been much slower than anticipated and, at this time, over 90% of Americans have very little choice of local telephone providers.

The ultimate goal of course is greater competition in all markets, which will result in more choices and better prices for consumers. Many new companies, many of which are located in my home state of Colorado, have sprung up in the past few years and have gained a significant foothold in the exploding business of e-commerce. Nearly a billion dollars are being invested by new entrant telecommunications companies in facilities and services every month.

Today, more than ninety-nine percent of Americans can reach an Internet Service Provider (ISP) with a local phone call. Forty-six states have 100 or more ISPs and more than half of the states have over 200 ISPs to choose from. These ISPs connect into back-

bone providers which have also grown from fourteen at that time the Act was passed, to forty-three today.

This growth has been remarkable and has benefited consumers enormously. It is important that the pro-competitive provisions of the 1996 Act are kept in place so that we can keep moving towards a fully integrated and competitive market.

I am strongly in favor of increased competition in all areas of telecommunications, which will mean better service and lower prices for customers. The sooner there is more competition in both local and long-distance telephone markets and the Internet industry, the better it will be for all consumers. I look forward to the day when my constituents have a multitude of choices in all areas of telecommunications, whether it be voice or high-speed data services.

PHARMACEUTICAL ACT OF 2000

**HON. RON PAUL**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 10, 2000*

Mr. PAUL. Mr. Speaker, I rise to introduce the Pharmaceutical Freedom Act of 2000. This legislation ensures that millions of Americans, including seniors, have access to affordable pharmaceutical products. My bill makes pharmaceuticals more affordable to seniors by reducing their taxes. It also removes needless government barriers to importing pharmaceuticals and it protects Internet pharmacies, which are making affordable prescription drugs available to millions of Americans, from being strangled by federal regulation.

The first provision of my legislation provides seniors a tax credit equal to 80 percent of their prescription drug costs. As many of my colleagues have pointed out, our nation's seniors are struggling to afford the prescription drugs they need in order to maintain an active and healthy lifestyle. Yet, the Federal Government continues to impose taxes on Social Security benefits and limits senior citizens' ability to earn additional income by reducing Social Security benefits if a senior exceeds the "earnings limitation." Meanwhile, Congress continually raids the Social Security trust fund to finance unconstitutional programs! It is long past time for Congress to choose between helping seniors afford medicine or using the Social Security trust fund as a slush fund for big government and pork-barrel spending.

Mr. Speaker, I do wish to clarify that this tax credit is intended to supplement the efforts to reform and strengthen the Medicare system to ensure seniors have the ability to use Medicare funds to purchase prescription drugs. I am a strong supporter of strengthening the Medicare system to allow for more choice and consumer control, including structural reforms that will allow seniors to use Medicare funds to cover the costs of prescription drugs.

In addition to making prescription medications more affordable for seniors, my bill lowers the price for prescription medicines by reducing barriers to the importation of FDA-approved pharmaceuticals. Under my bill, anyone wishing to import a drug simply submits an application to the FDA, which then must approve the drug unless the FDA finds the drug is either not approved for use in the U.S.

or is adulterated or misbranded. This process will make safe and affordable imported medicines affordable to millions of Americans. Mr. Speaker, letting the free market work is the best means of lowering the cost of prescription drugs.

The Pharmaceutical Freedom Act also protects consumers' access to affordable prescription drugs by forbidding the Federal Government from regulating any Internet sales of FDA-approved pharmaceuticals by state-licensed pharmacists. As I am sure my colleagues are aware, the Internet makes pharmaceuticals and other products more affordable and accessible for millions of Americans. However, the Federal Government has threatened to destroy this option by imposing unnecessary and unconstitutional regulations on web sites which sell pharmaceuticals. Any federal regulations would inevitably drive up prices of pharmaceuticals, thus depriving many consumers of access to affordable prescription medications.

In conclusion, Mr. Speaker, I urge my colleagues to make pharmaceuticals more affordable and accessible by lowering taxes on senior citizens, removing barriers to the importation of pharmaceuticals and protecting legitimate Internet pharmacies from needless regulation by cosponsoring the Pharmaceutical Freedom Act of 2000.

#### IN SUPPORT OF HOUSE CONCURRENT RESOLUTION 247 HONORING NATIONAL DONOR DAY

### HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, February 10, 2000*

Mr. STARK. Mr. Speaker, today I join my colleague and good friend, Representative KAREN THURMAN, in support of House Concurrent Resolution 247, to honor National Donor Day and recognize the importance of organ, tissue, bone marrow & blood donation.

With more than ten people dying every day and approximately 70,000 Americans currently awaiting organs, it is clear that our nation is facing a crisis. This resolution will help raise awareness and increase donations nationwide—it is a meaningful step toward bringing an end to our nation's current predicament.

A number of businesses, foundations, health organizations, and the Department of Health and Human Services have previously designated February 12th as National Donor Day. The first two National Donor Days succeeded in raising a total of almost 17,000 units of blood, adding over 2,400 potential donors to the National Marrow Donor Program Registry, and included mass distribution of organ and tissue pledge cards. This Concurrent Resolution supports National Donor Day, encourages Americans to learn about and openly discuss donation, and calls on the President to issue a proclamation to demonstrate support for organ, tissue, blood and bone marrow donation.

Research points to a clear need for public education and incentive programs to increase organ donation. This Congress, I also introduced legislation, H.R. 941, the "Gift of Life Congressional Medal Act of 1999," to create a commemorative medal that honors organ donors and their families. This Act is intended to draw attention to this life-saving issue and to send a clear message that donating one's organs is a selfless act worth the profound respect of our Nation. I hope Members would also consider this effort to increase donations.

This problem is clear—there are not enough organs to meet the needs of patients nationwide. Let's support initiatives such as H.R. 941, to create an organ donor medal, and H. Con. Res. 247, to honor National Donor Day and recognize the importance of organ, tissue, bone marrow & blood donation. Such initiatives will help raise awareness, increase donations nationwide, and both are meaningful steps toward bringing an end to the lack of available organs nationwide.
