

GEORGE E. BROWN, JR. UNITED STATES COURTHOUSE

SPEECH OF

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. UDALL of Colorado. Mr. Speaker, I want to take this opportunity to add a few words to those of my colleagues in support of this bill to designate the U.S. Courthouse on 12th Street in Riverside, California, as the "George E. Brown, Jr., United States Courthouse." I think this is a worthy honor for a man who brought so much to his constituents in California, to colleagues in Congress, and to the citizens of this country.

The death of George Brown, Jr. last year deprived this Congress and this country of a great champion of science and technology. While I worked with him for only a brief time, I felt as though I had known him for years because he had been a colleague and friend of my father and because his reputation was so well known.

George Brown was a man of courage and vision and ideological consistency. In his 34 years of distinguished service in the House, he worked to advance energy and resource conservation, sustainable agriculture, advanced technology development, space exploration, international scientific cooperation, and the integration of technology in education.

With or without a Courthouse in his name, George Brown will be remembered. But I'm sure if he were with us here today, George would appreciate this gesture on the part of his colleagues and the country to ensure his legacy lasts beyond our own lifetimes.

HONORING ABDUL CONTEH

HON. TONY P. HALL

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 18, 2000

Mr. HALL of Ohio. Mr. Speaker, on Sunday Major League Soccer honored Abdul Conteh, a star of the San Jose Earthquakes, by presenting the inaugural New York Life Humanitarian of the Year Award to him.

I want to add my voice to those honoring Mr. Conteh, and I want to commend Major League Soccer and New York Life for drawing attention to the world's humanitarian crises and to those working to do something to ease suffering.

Abdul Conteh was born in Freetown, the capital of Sierra Leone. His family moved to the United States when he was a teenager, but he has not forgotten his people and his country and he is using his hard-won fame to champion their needs. In conjunction with the Santa Clara Valley chapter of the American Red Cross, Mr. Conteh recently launched an initiative to raise funds to alleviate the suffering of a people who have experienced gruesome atrocities, death, and destruction during nine years of war.

His hope is to fund a school and other projects that can help his people reclaim their

lives. As he works toward this goal he is doing something else too: he is raising the awareness of soccer fans and others who otherwise wouldn't think about Sierra Leone—Americans who can do something to help the people of a nation founded by former slaves, people who have been trapped by fighting over the lucrative diamond trade for nine long years.

Rebel forces—funded by stealing Sierra Leone's diamonds and assisted by Liberia's president, Charles Taylor—have brutalized innocent men, women and children throughout Sierra Leone. They have driven hundreds of thousands from their homes and killed tens of thousands more. Some 20,000 of these suffered forced amputations of their hands, ears, or legs by machete; most of these victims died. Untold numbers of girls and women have been raped, many of them left infected with AIDS as a result. The country, which should be one of the richest in Africa, consistently ranks as the poorest in the world and the most miserable by every measure.

I have been to Sierra Leone and I have seen first-hand the results of these rebels. Last December, Congressman FRANK WOLF and I visited camps for the survivors of the rebels' attacks. We met thousands of people who are lucky to be alive, who did not bleed to death as they struggled to flee the rebels who had just cut off their arms, legs, or ears. Few were spared rebels' grotesque and evil acts. Infants' arms and legs were cut off. Young men in the prime of their life suddenly had half of a leg, or no hands. Women were raped by rebels and then had their arms amputated—only to give birth several months later as a result of the rape they suffered.

Mr. Conteh knows first-hand what I have just described; more than 20 of his family members have been killed in the bloodshed. The horrible images we all have seen and the stories we have heard about the atrocities in Sierra Leone touch Mr. Conteh and others personally. It is the survivors who are left with the empty beds, the missing generations, and the questions from the children as to why their friends, uncles, cousins, siblings, or parents are no longer here.

Through his initiative, Mr. Conteh will make a difference in people's lives in Sierra Leone. I commend Mr. Conteh for his efforts on behalf of the people of Sierra Leone, I congratulate him for receiving this prestigious humanitarian award, and I wish him and others doing lifesaving work in Sierra Leone all the best.

BLASTING STERLING PRIVATE FEE-FOR-SERVICE M+C PLAN FOR RISK AVOIDANCE

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 18, 2000

Mr. STARK. Mr. Speaker, I am outraged that the Sterling Life Insurance Company, which operates the only approved private fee-for-service Medicare+Choice (M+C) plan, has established a benefit package for 2001 that is designed to enroll healthier patients and avoid sicker patients. For 2001, Sterling will require 50 percent copayments for home health services and durable medical equipment.

What Sterling is doing is an unconscionable rip-off of sicker beneficiaries and the Medicare program itself. Home health and DME are services that are associated with sicker patients, who are also more costly, so Sterling is deliberately avoiding sicker, more costly patients.

Under the Medicare law, M+C plans must provide all standard Medicare benefits, but are permitted to modify the cost sharing amounts for those services as long as the total actuarial value of the cost sharing does not exceed the total actuarial amount of the cost sharing in the traditional Medicare program. The Health Care Financing Administration (HCFA) must approve the actuarial value of the cost sharing, but has no authority under the statute to prevent M+C plans from tailoring their cost sharing amounts as they choose.

I will introduce legislation to require HCFA to approve all cost sharing amounts of M+C plans and prohibit M+C plans from manipulating cost sharing amounts to avoid sicker patients. Sterling is saying that they are trying to avoid fraud, but clearly, they are deliberately seeking to enroll only healthier, more profitable patients, while avoiding sicker, more costly patients. Since the Republicans have slowed the implementation of risk-adjustment of payments to M+C plans, Sterling will be overpaid for the patients that it enrolls. This practice is an obscene rip off of Medicare and the taxpayers, and I will try to stop it. When the new Congress convenes in January, I will introduce legislation to give HCFA authority to approve all cost sharing amounts to prevent such blatant risk avoidance.

REGARDING H.R. 4838

HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 18, 2000

Ms. SANCHEZ. Mr. Speaker, I'd like to take this opportunity to commend the House of Representatives for the successful passage of H.R. 4838, which waives the oath of allegiance requirement for people with disabilities that seek citizenship in our great nation.

The need for such a bill is best exemplified in the case of Vijai Rajan of Anaheim, California. Twenty-five-year-old Vijai was born in India and has been residing in the U.S. since she was four months old. Ms. Rajan has several disabilities including cerebral palsy, muscular dystrophy, and Crohn's disease which prevents her from raising her hand or memorizing and understanding the oath. Doctors say her comprehension is that of a baby or toddler.

This piece of legislation is significant in expressing our nation's view of acceptance and welcoming of new citizens. These people cannot be denied citizenship when they have played by all the rules and have waited for so long.

Her parents' four year battle with the INS is nearly over and Vijai as well as the other 1,100 disabilities waiver applicants are closer to becoming citizens of the United States. I am certain that these family members enjoy peace of mind and inner satisfaction knowing that their loved ones are part of America.

AUTHORIZING FUNDS FOR ILLINOIS/MICHIGAN CANAL COMMISSION

SPEECH OF

HON. JERRY WELLER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 17, 2000

Mr. WELLER. Mr. Speaker, I rise today to support H.R. 3926, bipartisan legislation I introduced with Representatives LIPINSKI, BIGGERT, and GUTIERREZ. H.R. 3926 will increase the authorization cap of the Illinois and Michigan Canal Heritage Corridor from \$250,000 to \$1,000,000.

The Illinois and Michigan Canal Heritage Corridor was the first park of its kind, established by Congress in 1984. Created for the historical and cultural importance of the Illinois and Michigan Canal, it was a "partnership park" which involved local decision making and input combined with federal designation and support. The corridor is special for many reasons; it includes valuable natural resources, state and local parks, transportation networks, cities and towns, rural and industrial uses, wildlife preserves and nature activities such as hiking, fishing, canoeing and camping. The heritage corridor has been critical to preserving historic sites that played a critical role in the history of Illinois and the nation.

The I&M Canal was the first of the man-made waterways that established the corridor as a nationally significant transportation network. Much of the canal still exists along with the towns and cities and farms surrounding it. In fact, the canal encompasses five counties stretching from Chicago to LaSalle-Peru.

Among the first visionaries of the Canal was Louis Joliet who conceptualized a system for bringing together the Great Lakes and the Mississippi as early as 1673. Plans and funding were developed in 1827 and the route of the canal was settled upon. Twenty-one years later, the canal was opened for traffic for the first time—but this was only a beginning. The canal would grow substantially over the coming decades as it was influenced by enormous economic growth. In turn, the canal spurred its own economic growth and became the economic center of the region. The 97-mile canal was dug by hand, largely from immigrant Irish labor out of rock and was a minimum of 6 feet deep and 60 feet wide.

The Canal helped to build Chicago and was the center of not only industrial growth but also agricultural growth. Mining industries grew along the canal and plants to process farm products were built. The canal also fostered the growth of the wallpaper and watch industry. Towns developed around the rapidly growing canal area and tolls on products shipped on the canal generated \$1 million for the state.

Shipping on the Canal peaked in 1882 then began a gradual decline due to rail and other forms of traffic. The I&M Canal closed in 1933 after the development of the Illinois Waterway, but in that same year the Civilian Conservation Corps began work that created many of the parks and trails that line the canal today. In 1974, the 60 mile section from Joliet to LaSalle was designated the Illinois & Michigan

Canal State Trial under the stewardship of the Illinois Department of Conservation.

Now as the Illinois and Michigan Canal National Heritage Corridor, the canal continues to provide unparalleled cultural and recreational opportunities for residents and visitors. A partnership exists between The Illinois and Michigan Canal National Heritage Corridor Commission, the Canal Corridor Association, the Heritage Corridor Convention and Visitors Bureau and the Illinois Department of Natural Resources which ensures the continuing development of the canal and its resources.

The I&M Canal needs to be able to access additional funds for many worthwhile projects including heritage tourism projects, heritage education, and preservation and conservation. An increase in the authorization cap will allow the possibility of increased funding, providing the development and improvement of parks and museums across the canal. Teachers will be able to be trained and student resources will be developed and enhanced. Vital historic resources such as the I&M Canal, architecture, landscapes and Native American archaeological sites will be preserved and revitalized.

Mr. Speaker, 16 heritage corridors have been created since the Illinois and Michigan Canal Heritage Corridor, and all but three have received \$1,000,000 authorization caps. It is time to bring the Illinois and Michigan Canal in line with these other heritage areas and provide it the opportunity for additional funding. I thank Chairmen YOUNG and HANSEN for allowing this bill to come to the floor today and I thank all cosponsors of this legislation and urge its passage.

LAKE BARCROFT: PAYING TRIBUTE TO A COMMUNITY CELEBRATING 50 YEARS

HON. THOMAS M. DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 18, 2000

Mr. DAVIS of Virginia. Mr. Speaker, today I rise to pay honor to the community of Lake Barcroft, in Falls Church, Virginia, which will be celebrating its 50th anniversary this coming Wednesday, October 18, 2000. Driving or walking through the community, the natural beauty of Lake Barcroft may be taken for granted. It is easy to overlook the obvious and never think to question why or how the present evolved. Trees and bushes planted 35 years ago turned mud flats into gardens. Street signs unique to Lake Barcroft grace the landscape. Curbs and gutters prevent flooding and erosion, and the lake itself is a glittering gem.

The Barcroft community was named in memory of Dr. John Barcroft, who built both a home and a mill on a tract of land that came to be known as Barcroft Hill. The surrounding land, known as Munson Hill Farm, was a large tract of land between what is now Bailey's Crossroads and Seven Corners. During the Civil War, both Munson Hill Farm and Bailey's Crossroads were scenes of military action. Dr. Barcroft's home and mill were overrun by the retreating Union Army after the Battle of Bull Run. Bailey's Crossroads became a Union encampment while the Confederates occupied

positions in both Annandale and Fairfax County. Later, the Federals constructed Fort Buffalo at the present site of Seven Corners. Fort Buffalo become one of the ring of forts protecting the District of Columbia during the war.

Almost 90 years later, on February 23, 1954, the residents of Lake Barcroft officially launched the Lake Barcroft Community Association (LABARCA). The residents had come together informally over the prior 18 months to build a new life in a new community and, most importantly, to save the lake. Like most Washingtonians, they came from other places. This created a common bond and a reliance on each other. Their varied backgrounds and individual talents resolved numerous problems from water sedimentation to litigation. Much was accomplished by the few people who first formed the community association.

In the summer of 1952, almost two years after the start of development, 15 families had completed homes in Lake Barcroft. Of these, eleven families present at the first meeting of the homeowners association formed the Executive Committee. The Committee took a strong stand against mass, speculative housing development in the area. Other civic actions provided voter information concerning registration and local elections. The association coordinated mail delivery to roadside mailboxes with the U.S. Post Office. Unique, wooden road signs were designed and installed. Landscaping and a sign with lighting enhanced "Entrance One." Beautification and the installation of storm drains at the beach commenced.

Lake Barcroft achieved up-scale status at the beginning of the sixties. Over just a few years, the number of families living at Lake Barcroft increased substantially: from 368 in 1956, to 650 in 1958, 783 in 1960. By mid-1960, Lake Barcroft Community Association membership reached a record high; of the 783 families in Lake Barcroft, 78 percent were members.

The first competitive race for president in LABARCA history took place in late 1959. The election featured two candidates, each highly qualified and dedicated to the community. Ralph Spencer, an official at the Department of Agriculture, had been asked to run in recognition of his work as Chairman of the Planning Committee. Ralph promoted the community center despite pessimistic arguments against a "dance hall" on the lake.

A faction in favor of dredging the lake convinced Stuart Finley to enter the election based on his knowledge of sediment and erosion; he had produced a fifty-part television series, *Our Beautiful Potomac*. Funding for slit removal had been approved by Fairfax County, so association pressure mounted to resolve a festering sore, the gradual decay of the lake. Stuart won the low-key and friendly election. Ralph Spencer pitched right in and volunteered to take on the task of procuring and maintaining street signs, a responsibility he has held to this day.

Mr. Speaker, today Lake Barcroft is a thriving community of approximately 1,025 homes. The families of Lake Barcroft have formed a tight-knit community featuring annual civic affairs meetings, beach parties, Easter egg hunts, annual Labor Day games, and golf outings. I am proud to represent this tremendous group of citizens, and I am honored today to recognize their rich and storied history.
