

the Individual Health Advocate of the Year by the American Lung Association of Genesee Valley. He is truly deserving of this honor.●

#### DELAWARE'S MOTHER OF THE YEAR

● Mr. BIDEN. Mr. President, I rise today to honor Mrs. Mary Jane DeMatteis, Delaware's Mother of the Year 2000.

The story of Mrs. DeMatteis is one of strength and devotion. After her loving husband of twenty years passed away, she was left to raise their six children alone. Mrs. DeMatteis used her faith and her love for her children to persevere through the most difficult of times. While maintaining a job in the Delaware court system, she was able to find the time and energy to care for her children and teach them the importance of family and love.

I have had the opportunity to witness the product of Mrs. DeMatteis' many years of commitment to her children. Claire, her daughter, is one of my most senior advisors and her intellect and strength of character is certainly a reflection of the profound influence her mother has had on her life. Today the legacy of Mary Jane DeMatteis continues as her ten grandchildren are graced with the success and love that Mrs. DeMatteis infused into the lives of her children. I am sure that her impact will be felt for countless generations to come.

We all know that being a parent is the most important job in the world. I am extremely proud to recognize this wonderful honor that Mrs. DeMatteis so well deserves.●

#### THE AMERICAN LUNG ASSOCIATION OF MICHIGAN-GENESEE VALLEY REGION HONORS MOTT COMMUNITY COLLEGE

● Mr. ABRAHAM. Mr. President, I rise today to recognize Mott Community College, which on April 13, 2000, will be honored by the American Lung Association of Michigan-Genesee Valley Region as its 1999 Corporate Health Advocate of the Year. Mott Community College is being awarded for promoting lung health in the workplace, for encouraging its employees to participate in local non-profit organizations, for demonstrating financial support to these organizations, and for exhibiting an overall dedication to improving the quality of life of residents in the Genesee Valley area.

Mott Community College has a definitive plan to promote lung health in the workplace consistent with the mission of the American Lung Association of Michigan. There is a ban on smoking in all college buildings, the college's health insurance providers offer various educational programs to support employees who want to quit smoking, and smoking cessation material and counseling is available at the annual Mott Community College Health Fair.

The college also has a program of assistance available to all students and staff who are disabled or suffering from disease, and has expended millions of dollars to make its campus fully accessible to the whole community.

Mott Community College is by its very nature a community service, but the college works hard to provide more to Genesee County than educational opportunity. Within its educational programs, and particularly in the health sciences, there is an interactive community component: senior nursing students work with area schools to provide health education classes, along with basic health screening, for students; faculty and staff work with the Genesee County Health Department to train teams, working through area churches, to provide citizens with health information; and the community has access to diverse facilities and programs on campus, programs which are all aimed at improving the health of the community.

Mott Community College also hosts many important events where health education is the theme. The annual Mott Community College Health Fair is a popular event which brings health professionals and the community together. The college holds national mental health town meetings, including a recent public forum which Ms. Tipper Gore chaired. On February 5, 2000, the college hosted the first annual "Family Asthma Day," in which three asthma specialists presented informal sessions on the management of asthma. The event also included interactive sessions for adults and children.

Mr. President, for over seventy-five years, Mott Community College has worked to improve the quality of life of residents in the Genesee Valley area. On behalf of the entire United States Senate, I congratulate Mott Community College on being named the Corporate Health Advocate of the Year by the American Lung Association of Michigan-Genesee Valley Region. This award is the representation of the hard work of many people who truly care about the Genesee County community.●

#### NATIONAL TELECOMMUNICATOR'S WEEK

● Mr. BURNS. Mr. President, I rise today to bring recognition to a very special group of people in our Nation, our public safety communicators. These people are the ones who, hour after hour, stand by ready to dispatch emergency assistance to Americans in times of crisis and often tragedy. In 1992, President George Bush set aside the week of April 9th through the 15th to bring special recognition to all of those who dispatch emergency aid across this great country. Everyday Americans reach for the telephone to dial the numbers 9-1-1, seeking a voice that will bring them the help they so desperately require. A parent holding a child who has suffered a life threat-

ening injury, an elderly person who has no one else to turn to, or a family who has awakened to a home filled with smoke; they are all calling this number just waiting for the voice that will bring them much needed assistance. The men and women who answer the 9-1-1 call are the ones who often make the difference between life and death for thousands of people in this country every single day. Our 9-1-1 dispatchers are on call 365 days a year, 24 hours a day, always there with that calm reassuring voice that puts hope back in the hearts of those in need. It is a great honor for me to bring recognition to these unsung heroes of our country and I hope that you will join me in offering your praise and thanks.●

#### DR. JAMES BROWN AND THE TENTH ANNIVERSARY OF THE INTERNATIONAL ARMS CONTROL CONFERENCE

● Mr. DOMENICI. Mr. President, I rise today to acknowledge the upcoming Tenth Annual Arms Control Conference taking place in Albuquerque, New Mexico. In recognition of this Tenth Anniversary, I wish to emphasize the tireless efforts of this conference's founder, coordinator, and inspiration, Dr. James Brown.

Dr. Brown's career has long emphasized arms control. Not only has Jim Brown devoted himself to this conference for the past decade, but he has also been a practitioner. He served in several different capacities at the Arms Control and Disarmament Agency, where he helped develop verification regimes for implementation of the UN Security Council Resolution to eliminate Iraq's weapons of mass destruction. He also worked in the Pentagon as a special assistant to the Deputy Undersecretary for Planning and Resources.

His academic résumé is also impressive. Jim was a professor at Southern Methodist University, and a visiting professor at Air University. He was a founding director of the John Tower Center for Political Studies and co-taught courses with Senator Tower for eight years. Jim Brown was also selected as a senior Fulbright Scholar at the University of Ankara. Most notably, he has authored and edited nine volumes of scholarly work and 35 articles on Arms Control.

Dr. James Brown has dedicated many years of his professional life in pursuit of international understanding as a fundamental prerequisite to progress on arms control and disarmament. Every year this conference reflects the culmination of his personal commitment. It is important to acknowledge the unique contribution that this conference has made and continues to make toward achievement of global peace and stability.

The disarmament and non-proliferation work of Sandia National Laboratories and the Cooperative Monitoring Center are greatly enhanced and supported by the annual Arms Control

Conference. This event should serve to underscore Sandia Laboratories' staunch commitment to a safe and stable international security environment.

The success of this annual event owes itself to Jim's reputation, his integrity, his personal relationships with a broad range of policy makers throughout the global arms control community and their trust in him. Jim's diligence has enabled the Albuquerque conference to grow even more in stature each year bringing credit on Sandia, the Department of Energy and the State of New Mexico.

Mr. President, New Mexico is fortunate to have Dr. Brown as a citizen.●

**RECOGNITION OF MR. DARVIN ECKLUND, FOUNDER OF THE CEDAR HEIGHTS ENVIRONMENTAL RESOURCES LEARNING CENTER**

● Mr. GORTON. Mr. President, in a continuing effort to recognize excellence in education I would like to award Darvin Ecklund of the Cedar Heights Environmental Resources Learning Center in Port Orchard, Washington with an 'Innovation in Education' Award. Two years ago, Mr. Ecklund, a Natural Resources teacher at Cedar Heights Junior High, created an after school center that focuses on environmental activities and teaches students the importance of rehabilitating our local natural resources. I think Mr. Ecklund's concept is a remarkable after school option for junior high students as an alternative, safe environment where they can learn and have fun at the same time.

The focus of the Cedar Heights Environmental Resources Learning Center aims to stimulate kids toward saving the environment around them. Recently, the Center renovated local ponds and developed plant life to be used in future rehabilitation projects. Children learn to identify common and scientific names of plants and wildlife. To date, over six hundred salmon have been raised in this Center! This is a truly remarkable way to integrate science into children's lives with a hands on approach.

We all know that we live in a busy world where sometimes kids end up waiting for their parents to return from work. I cannot think of a better way to see kids spend a few hours after-school, as well as getting parents involved in their children's after-school activities. Currently, there are over one hundred kids participating in this program. High school students are also part of Mr. Ecklund's staff and help organize activities and provide assistance as well.

Mr. Ecklund has also found a way for kids at the Cedar Heights Environmental Resources Learning Center to develop a relationship with the retirement community across the street. The Center offers retirees an educational as well as relaxing place to come and

share time with the students. The Center has made the paths around the Environmental Center wheel-chair accessible. After hearing this, I was encouraged that this community has found a way to connect young people not only to the environment, but to their elders. I applaud Mr. Ecklund for creating such an innovative program that connects older and younger students to helping the environment and spending time with seniors.

Ms. Pat Green, Principal of Cedar Heights Junior High, said the following about Mr. Ecklund: "He is passionate about the environment and teaching kids how to raise fish as a sustainable resource. The kids are learning hands-on science in action!"

Mr. Pat Oster, Assistant Principal of Cedar Heights Junior High commends Mr. Ecklund's efforts, describing him as, "a very caring and energetic person who devotes generous time to the many students he interacts with on a daily basis."

I have been a long supporter of preserving the environment. I am impressed by the originality of this program and hope other after-school centers will follow in the footsteps of the Cedar Heights Environmental Resources Learning Center. This is truly science in action!●

**MRS. KATHERINE G. HEIDEMAN'S 90TH BIRTHDAY**

● Mr. ABRAHAM. Mr. President, I rise to recognize Mrs. Katherine Grayson Graham Heideman, resident of Hancock, MI, who today is celebrating her 90th birthday. It is my pleasure to honor her not only for having reached this landmark birthday, which is quite an accomplishment in itself, but also, and I think more importantly, for having lived her life in a manner truly worthy of commendation.

Mrs. Heideman was born in Audubon, Iowa, the daughter of Katherine Grayson Brown and James Melville Graham. She was the youngest of six daughters. After attending high school in Audubon, she headed out west to continue her education, first receiving a B.A. from the University of California-Los Angeles in 1931, and then in 1934 earning an M.A. from the University of Southern California. For the next twenty years, Mrs. Heideman taught English literature classes to intermediate students in four different states: California, Michigan, Illinois, and the District of Columbia.

On July 6, 1934, Katherine married Bert Heideman. The couple remained together until in 1991, when Mr. Heideman passed away. They had three children together, Eric, Bert, and Eric. The eldest child unfortunately died just six months after he was born, and Mr. and Mrs. Heideman named their third child in his honor and memory.

In 1958, Mrs. Heideman became the first woman to be named Houghton County, Michigan, Superintendent of Schools. She served in this capacity for

four years, then spent twelve years as Superintendent of the Copper Country Intermediate School System, which includes Houghton, Baraga, and Keweenaw counties. During these years, Mrs. Heideman was a pioneer in developing special education initiatives. All of her efforts culminated in 1974, when the Heideman Bill, HB5013, was passed into law in the State of Michigan. This law made it possible for an intermediate school district to own and operate a school for handicapped children.

In 1982, Mrs. Heideman was elected to the Hancock City Council, and there she has continued to fight not only for the rights of disabled individuals, but also for the environment and the historic preservation of Houghton county. She is the author of a resolution forbidding any nuclear or toxic waste to be transported through the city of Hancock, and of a resolution condemning the dumping of iron ore tailings into Lake Superior. Mrs. Heideman was a charter member of the Hancock Historic Preservation Commission, and continues to be a strong voice in the efforts to retain the city's old world charm. She has played an instrumental role in the attempt to get the city of Hancock recognized as being the Finnish American culture center of the United States. And, due to her efforts, a sister city relationship was formed with the citizens of Porvoo, Finland. A candidate seven times, she now begins her eighteenth year representing the first ward.

Mr. President, I applaud Mrs. Heideman for her selfless dedication to improving the quality of life for individuals not only in the city of Hancock, but the entire State of Michigan. She is a remarkable woman and a true role model. On behalf of the entire United States Senate, I wish Mrs. Heideman a happy ninetieth birthday, and best of luck in the future.●

**MESSAGES FROM THE PRESIDENT**

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

**EXECUTIVE MESSAGES REFERRED**

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

**MESSAGE FROM THE HOUSE**

At 10:31 a.m., a message from the House of Representatives, delivered from Ms. Niland, one of its reading clerks, announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:
