referred to in Annex 4.1 of the Agreement, except for goods to which paragraph (4) applies, shall be calculated by the importer, exporter, or producer of the good, on the basis of the build-down method described in paragraph (2) or the build-up method described in paragraph (3).

(2) BUILD-DOWN METHOD.—

(A) IN GENERAL.—The regional value-content of a good may be calculated on the basis of the following build-down method:

(ii) RVC.—The term “RVC” means the regional value-content of the good, expressed as a percentage.

$$RVC = \frac{NC - VNM}{NC} 100$$

(B) DEFINITIONS.—In subparagraph (A):

(i) AUTOMOTIVE GOOD.—The term “automotive good” means a good provided for in any of subheadings 8407.31 through 8407.34, subheading 8408.20, heading 8409, or any of headings 8701 through 8708.

(ii) RVC.—The term “RVC” means the regional value-content of the automotive good, expressed as a percentage.

(iii) NC.—The term “NC” means the net cost of the automotive good.

(iv) VNM.—The term “VNM” means the value of nonoriginating materials that are acquired and used by the producer in the production of the automotive good, but does not include the value of a material that is self-produced.

(C) MOTOR VEHICLES.—

(i) BASIS OF CALCULATION.—For purposes of determining the regional value-content under subparagraph (A) for an automotive good that is a motor vehicle provided for in any of headings 8701 through 8705, an importer, exporter, or producer may average the amounts calculated under the formula contained in subparagraph (A), over the producer’s fiscal year—

(I) with respect to all motor vehicles in any one of the categories described in clause (ii); or

(II) with respect to all motor vehicles in any such category that are exported to the territory of the United States or Colombia.

(ii) CATEGORIES.—A category is described in this clause if it—

(I) is the same model line of motor vehicles, is in the same class of motor vehicles, and is produced in the same plant in the territory of Colombia or the United States, as the good described in clause (i) for which regional value-content is being calculated;

(II) is the same class of motor vehicles, and is produced in the same plant in the territory of Colombia or the United States, as the good described in clause (i) for which regional value-content is being calculated; or

(III) is the same model line of motor vehicles produced in the territory of Colombia or the United States as the good described in clause (i) for which regional value-content is being calculated.

(D) OTHER AUTOMOTIVE GOODS.—For purposes of determining the regional value-content under subparagraph (A) for automotive materials provided for in any of subheadings 8407.31 through 8407.34, in subheading 8408.20, or in heading 8409, 8706, 8707, or 8708, that are produced in the same plant, an importer, exporter, or producer may—

(i) average the amounts calculated under the formula contained in subparagraph (A) over—

(I) the fiscal year of the motor vehicle producer to whom the automotive goods are sold,

(II) any quarter or month, or

(III) the fiscal year of the producer of such goods,

if the goods were produced during the fiscal year, quarter, or month that is the basis for the calculation;

(ii) determine the average referred to in clause (i) separately for such goods sold to 1 or more motor vehicle producers; or

(iii) make a separate determination under clause (i) or (ii) for such goods that are exported to the territory of Colombia or the United States.

(E) CALCULATING NET COST.—The importer, exporter, or producer of an automotive good shall, consistent with the provisions regarding allocation of costs provided for in generally accepted accounting principles, determine the net cost of the automotive good under subparagraph (B) by—

(i) calculating the total cost incurred with respect to all goods produced by the producer of the automotive good, subtracting any sales promotion, marketing, and after-sales service costs, royalties, shipping and packing costs, and nonallowable interest costs that are included in the total cost of all such goods, and then reasonably allocating the resulting net cost of those goods to the automotive good;

(ii) calculating the total cost incurred with respect to all goods produced by that producer, reasonably allocating the total cost to the automotive good, and then subtracting any sales promotion, marketing, and after-sales service costs, royalties, shipping and packing costs, and nonallowable interest costs that are included in the portion of the total cost allocated to the automotive good; or

(iii) reasonably allocating each cost that forms part of the total cost incurred with respect to the automotive good so that the aggregate of these costs does not include any sales promotion, marketing, and after-sales service costs, royalties, shipping and packing costs, or nonallowable interest costs.

(d) VALUE OF MATERIALS.—

(1) IN GENERAL.—For the purpose of calculating the regional value-content of a good under subsection (c), and for purposes of applying the de minimis rules under subsection (f), the value of a material is—

(A) in the case of a material that is imported by the producer of the good, the adjusted value of the material;

(B) in the case of a material acquired in the territory in which the good is produced, the value, determined in accordance with Articles 1 through 8, Article 15, and the corresponding interpretive notes, of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994 referred to in section 101(d)(8) of the Uruguay Round Agreements Act (19 U.S.C. 3511(d)(8)), as set forth in regulations promulgated by the Secretary of the Treasury providing for the application of such Articles in the absence of an importation by the producer; or

(C) in the case of a material that is self-produced, the sum of—

(i) all expenses incurred in the production of the material, including general expenses; and

(ii) an amount for profit equivalent to the profit added in the normal course of trade.

(2) FURTHER ADJUSTMENTS TO THE VALUE OF MATERIALS.—

(A) ORIGINATING MATERIAL.—The following expenses, if not included in the value of an originating material calculated under paragraph (1), may be added to the value of the originating material:

(B) NONORIGINATING MATERIAL.—The following expenses, if included in the value of a nonoriginating material calculated under paragraph (1), may be deducted from the value of the nonoriginating material:

(i) The costs of freight, insurance, packing, and all other costs incurred in transporting the material within or between the territory of Colombia, the United States, or both, to the location of the producer.

(ii) Duties, taxes, and customs brokerage fees on the material paid in the territory of Colombia, the United States, or both, other than duties or taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable.

(iii) The cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or byproducts.

(iv) The cost of originating materials used in the production of the nonoriginating material in the territory of Colombia, the United States, or both.

(e) ACCUMULATION.—

(1) ORIGINATING MATERIALS USED IN PRODUCTION OF GOODS OF ANOTHER COUNTRY.—Originating materials from the territory of Colombia or the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.

(2) MULTIPLE PRODUCERS.—A good that is produced in the territory of Colombia, the United States, or both, by 1 or more producers, is an originating good if the good satisfies the requirements of subsection (b) and all other applicable requirements of this section.

(f) DE MINIMIS AMOUNTS OF NONORIGINATING MATERIALS.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), a good that does not undergo a change in tariff classification pursuant to Annex 4.1 of the Agreement is an originating good if—

(A)(i) the value of all nonoriginating materials that—

(I) are used in the production of the good, and

(II) do not undergo the applicable change in tariff classification (set forth in Annex 4.1 of the Agreement),

does not exceed 10 percent of the adjusted value of the good;

By Mr. DORGAN (for himself and Mr. INOUE):

S. 2831. A bill to reauthorize the Federal Trade Commission, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. DORGAN. Mr. President, today I am introducing the Federal Trade Commission Reauthorization Act of 2008. I am joined by Senator INOUE. We seek with this reauthorization to give the Federal Trade Commission, FTC, what it needs to protect consumers from unfair or deceptive practices and unfair methods of competi-

The agency has a very important mission, but needs more resources and authority. The number of FTC employees has been greatly reduced from its pre-1980 high of 1,746, and the agency currently has approximately 1,102 employees. We need to make sure that they have the manpower and the technology to protect consumers.

I'd like to take a second to highlight one of the areas where the FTC needs authority most. The subprime loan market was an orgy of greed from a large number of lenders who knowingly put borrowers in mortgage loans that they could not afford—while at the same time loading up these loans with provisions that trigger large fees and penalties.

The mortgage brokers ran ads from coast to coast—you have seen them: “Do you have bad credit? Do you have trouble getting a loan? Have you been missing payments on your home loan? Have you filed for bankruptcy? It doesn't matter. Come to us; we will give you a loan.”

Many borrowers were brought in by teaser rates, interest-only payments, no payments for 12 months, etc. Loans had quick resets to higher and unaffordable interest rates. Loans had prepayment penalties. Marketed loan payment amounts did not include escrowed amounts, taxes, insurance, and other financial obligations. These unfair and deceitful advertisements are still on Web sites for lenders across the country today. The FTC needs the authority to stop this practice and resources to investigate and go after the bad actors.

Let me tell you a bit about what the bill does. The bill provides for a 7-year reauthorization starting in 2009. We set the fiscal year 2009 funding at \$264 million and increase it by 10 percent per year. In addition, we give them an additional \$20 million to be used by the commission to improve technology in support of its competition and consumer protection missions.

We give the FTC independent litigating authority so they won't have to refer their cases to the Department of Justice. We also give the FTC the authority to give preference in the hiring process to administrative law judges who have experience in their issues.

We provide the FTC the authority to commence a civil action to recover civil penalties in a district court for any violation of the FTC Act.

We extend their jurisdiction to allow them to go after nonprofit entities as well, so bad actors cannot hide behind nonprofit status, and we allow them to go after those aiding and abetting an FTC violation.

We also give them the authority, by majority vote of the full commission, to waive their current rulemaking requirements for any rule involving a consumer protection matter.

We require the FTC to conduct a rulemaking under the Administrative Procedures Act, APA, which is faster than their current Magnuson-Moss au-

thority, in the area of subprime loans. The commission has sent 200 warning letters to mortgage advertisers and is conducting several investigations of mortgage advertisers and subprime lenders. In addition, the FTC has brought 21 cases in the last decade. But they haven't had the opportunity to review the bad practices and create a rule preventing their reoccurrence. We give them authority to create a rule preventing unfair or deceptive behavior by lenders and allow the State attorneys general to enforce the rule.

Finally, we repeal the common carrier exemption as the FTC has long been requesting. There are too many problems in the telecommunications world that need to be addressed by the FTC—consumers should not be left unprotected. We also make sure that the State Do Not Call laws are not preempted by Federal regulations.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the Record, as follows:

SENATE RESOLUTION 506—EXPRESSING THE SENSE OF THE SENATE THAT FUNDING PROVIDED BY THE UNITED STATES TO THE GOVERNMENT OF IRAQ IN THE FUTURE FOR RECONSTRUCTION AND TRAINING FOR SECURITY FORCES BE PROVIDED AS A LOAN TO THE GOVERNMENT OF IRAQ

Mr. NELSON of Nebraska submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 506

Whereas the United States has been engaged in Iraq for more than 5 years at a great cost to the United States in both lives and resources;

Whereas March 19, 2008, marked the fifth anniversary of the engagement of the United States in Iraq;

Whereas the United States Government has spent \$600,000,000,000 to fight the war in Iraq and that expenditure has contributed greatly to the Nation’s debt;

Whereas taxpayers in the United States have provided \$45,000,000,000 in funding for reconstruction to the country and the Government of Iraq;

Whereas world oil prices have reached more than \$100 a barrel;

Whereas consumers in the United States are paying record gas prices of approximately \$3.29 a gallon;

Whereas, when the war began, Deputy Secretary of Defense Paul Wolfowitz said, “We’re dealing with a country that can really finance its own reconstruction, and relatively soon.”;

Whereas, due to high oil prices and expanded oil production, it has been predicted that the Government of Iraq is likely to experience an enormous revenue windfall;

Whereas, in January 2008, the Government Accountability Office issued a report stating that, according to Iraq’s official expenditure reports, the Government of Iraq had spent only 4.4 percent of its \$10,100,000,000 investment budget as of August 2007;

Whereas Iraq has not made satisfactory progress toward achieving the political benchmarks established by Congress; and

Whereas the Government of Iraq needs to invest in the future of Iraq by paying a larger share of the costs of reconstruction: Now, therefore, be it

Resolved, That it is the sense of the Senate that any funding provided by the United States to the Government of Iraq for reconstruction and training for security forces after the date on which the Senate agrees to this resolution be provided as a loan to the Government of Iraq.
