CELEBRATING THE CITY OF
 ERBENDORF, GERMANY'S 900TH
 BIRTHDAY

HON. MICHAEL E. McMAHON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. McMAHON. Madam Speaker, I rise today to commemorate and honor the city of Erbdorf in the Oberpfalz region in the State of Bavaria in Germany as it celebrates its 900th Birthday.

Nine hundred years ago, this village was first mentioned as "Herbendorf" in the Establishment and Protection letters of Pope Paschalis II as he wrote to the monastery Weissenhohe in Oberfranken. Although it appears that location is today what is known as Altstadt, it is clear that the city we know today has enjoyed an existence for more than 900 years. And since history does not stand still, we are sure that someday an even earlier mention of this city will be found.

In its more than 900 year history, the city of Erbdorf has certainly changed and developed. Through the middle ages and modern times it has been beset by war, hunger, pestilence, and siege. However, this has given the city its inner strength and it has now grown into a beloved city with a wonderful quality of life, enviable infrastructure, and a strong economy.

Certainly some of its most prominent citizens include Buergermeister Hans Donko, Axel Baron von Stromberg, and Hilde and Fritz Kohr, who recently celebrated their 50th Wedding Anniversary and continue to operate one of the city's most beloved businesses, Konditorei Kohr. In addition the city was the birthplace of two of its most favorite daughters, Maria Schrebs Trottmann, who emigrated to Neustadt/Waldnaab, and my mother Meta Baronin von Stromberg McMahon, who emigrated to the United States where she had seven children who to this day consider themselves part of the Erbdorf family. For many years, her brother Doctor Nils Baron von Stromberg and his wife Charlotte served the city as family doctors.

Madam Speaker, the city of Erbdorf has had a front row seat to the turbulent course of European history. For nearly a millennium, her citizens have borne witness to the countless events—from the epic to the mundane which unfolded to shape the Europe and the world of today. I am proud to be a son of the city of Erbdorf and offer my congratulations on its 900th anniversary.

EARMARK DECLARATION

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BILBRAY. Madam Speaker, I submit the following:

Bill Number: H.R. 2647—National Defense Authorization Act for Fiscal Year 2010

Account: OPAF, Line 12

Legal Name of Requesting Entity: California National Guard

Address of Requesting Entity: 9800 Goethe Road, Box 42, Sacramento, CA 95826

Description of Request: I received an earmark of \$4 million to upgrade the Eagle Vision III system which is operated by the 147th Combat Communications Squadron, in San Diego, California. In October of 2007, San Diego suffered through one of the worst wild-fire disasters in California history. With thousands of homes lost and hundreds of thousands of lives changed, the California National Guard requested upgrades to Eagle Vision, the San Diego based system that has already proven itself as an asset for the Federal Emergency Management Agency, CAL Fires/OES, and the Army Strategic Command. The Eagle Vision III system directly and indirectly supported the 2008 Midwest Flooding, Hurricanes Fay, Gustav, and Ike and has participated in numerous military exercises. To augment the current system, this request seeks to provide resources for an increased imaging system that will provide higher resolution images, with more frequent access to images for first responders, while at the same time allowing for image data collection through clouds, haze and smoke. These capabilities are essential for the military and will be critical to the San Diego region for combating natural disasters such as wildfires, floods and hurricanes.

THANKING LILLIAN BETHEA FOR
HER SERVICE TO THE HOUSE

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2009

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of her retirement on December 31, 2008, we rise to thank Mrs. Lillian Bethea for twelve years of distinguished service to the United States House of Representatives and 36 years of service in the United States Government. Lillian has served this great institution as a valuable employee of

House Information Resources, in the Office of the Chief Administrative Officer.

Lillian began her tenure with the United States House of Representatives in 1996 as a Systems Analyst working in the Member Information Network (MIN) Group and later for the Quality Assurance Team. Lillian specialized in the support and maintenance of in-House applications including but not limited to Federal Funds Reports, Grants and Contracts and Bulletin Board services. She became a Federal Funds Trainer based on her extensive knowledge and attention to detail on the project. Lillian has played an important role in many information technology projects including Quality Assurance and Integrated Services and Information Systems (ISIS) testing. During the Y2K remediation efforts, she played an instrumental role in quality assurance and data testing of systems resulting in the successful transfer of services from the mainframe to their new platforms.

Since 2004, Lillian has been a Team Leader for the Web Solutions Call Center. Her attention to detail and quality assurance experience were again highlighted as she managed the customer request tracking system, team assignments, and day to day customer requests for the Web Group. Her duties included managing customer requests for web services using the Customer Tracking System (CTS) and coordinating with external teams to process Secure ID Web Manager requests, establishing Listserv lists, and providing permissions and access to Web Site Statistic services. Again, her detail orientation and quality work ethic assured the security of the House Web infrastructure through oversight and management of the necessary processes involved. Lillian also played a vital role in the preparation of materials and coordination of efforts for the House Services Fair, ensuring the Web Solutions Branch was properly represented during the event.

On behalf of the entire House community, we extend congratulations to Lillian for many years of dedication and outstanding contributions to the United States House of Representatives. We wish Lillian many wonderful years in fulfilling her retirement dreams.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

SPEECH OF

HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

The House in Committee of the Whole House on the State of the Union had under consideration of the bill (H.R. 2047) to authorize appropriation for fiscal year 2010 for military activities of the Department of Defense, to prescribe military personnel strength for fiscal year 2010, and for other purposes:

Mrs. MILLER of Michigan. Mr. Chair, I rise today in strong support of National Defense Authorization Act of 2009.

The Department of Defense directed the Army to restructure its premier modernization program known as Future Combat Systems—FCS program—which includes a network of new sensors, radios, robotic vehicles and a fleet of new combat vehicles.

I personally commend the thousands of dedicated soldiers, department of defense civilians and their defense industry partners who worked on the project.

More than 1,000 of these dedicated men and women that do the engineering work for the FCS program live and work in my district. Some 10,000 employees in 74 Michigan companies worked to provide the Army a new ground combat vehicle fleet.

Many of them will be economically disadvantaged, despite their best efforts, by termination of the combat vehicle project.

Legislation passed by the Armed Services committee recognizes the restructuring of the FCS program and provides guidance on how the Army should proceed.

Providing for the national defense is in the preamble of the Constitution of the United States, it is this body's most solemn duty and responsibility. We must ensure that the men and women we send into harm's way have the very best training and equipment we can provide.

It's imperative that we move rapidly to provide the Army a new ground combat vehicle that protects American soldiers against IEDs, road side bombs and anti-tank munitions. We must not lose the momentum gained during six years of research and development and the multibillion dollar taxpayer investment on this project.

Any new program must consider both Army and Marine Corps needs for manned ground combat vehicles now and in the future. It must build on what we have learned from three separate FCS ground vehicle designs as well as lessons learned from combat operations in Iraq and Afghanistan.

We have the best trained and dedicated Armed Forces in the world. Will we ask them to go to combat with vehicles that are nearly two generations old, designed for a different enemy and more conventional warfare?

Instead, let's build on the work that has already been done; ensure that billions of taxpayer dollars already spent are not wasted by starting from scratch, and provide U.S. Soldiers and Marines vehicles and systems that provide increased situational awareness for the conflicts of the future.

I urge the members to make a new combat vehicle the centerpiece of Army's research and development efforts in a restructured program.

WILLIAMSON COUNTY JOP
