

HONORING JACOB TANENBAUM

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 22, 2009

Mr. ENGEL. Madam Speaker, I rise today to honor Mr. Jacob Tanenbaum, an outstanding constituent and educator from the 17th Congressional District of New York, for his exemplary efforts in bringing real scientific research to the classroom.

Jacob Tanenbaum, an elementary school teacher at the South Orangetown schools in Rockland County, New York, was chosen by the National Oceanic and Atmospheric Administration's (NOAA) Teacher at Sea Program to participate in a two-week research cruise in the North Atlantic this past fall to study Atlantic fisheries while aboard NOAA Ship Henry B. Bigelow.

Embarking from Newport, Rhode Island, Mr. Tanenbaum's research cruise followed a track off the United States' northeastern coast. Mr. Tanenbaum not only researched fisheries, but also wrote a daily blog, took photographs, interviewed scientists, and engaged in dialogue with his students, fellow teachers, and the general public. Mr. Tanenbaum became an integral part of the research team and ship's crew and established relationships that will give him and his colleagues access to scientific resources for many years to come. With his at-sea experience, Mr. Tanenbaum has been able to enrich his curriculum and excite his students about science.

In one of his logs, Mr. Tanenbaum wrote, "Through NOAA's Teacher at Sea Program, students are not just learning about exciting research projects at sea, they are witnesses to them, and on some level, participants in them. The Teacher at Sea program is about something far more important than test scores and text books. It is about inspiration and excitement. Inspiring learning and creating excitement about learning are not just simple hoped-for extras in an educational setting—they are the most essential parts of a culture of learning."

I congratulate, Mr. Tanenbaum on his spirit of adventure in the name of education, his willingness to try new things, and his ability to bring this experience back into the classroom. NOAA's Teacher at Sea program has afforded Mr. Tanenbaum an unparalleled opportunity to provide his students with hands-on scientific education, grounded in his unique experience. The lessons he learned on the Bigelow will stay with Mr. Tanenbaum for the rest of his teaching career, acting as a source from which he will always be able to draw inspiration and creativity.

TRIBUTE TO THE 150TH ANNIVERSARY OF THE TEMECULA POST OFFICE

HON. DARRELL E. ISSA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 22, 2009

Mr. ISSA. Madam Speaker, today marks the one hundred and fiftieth anniversary of the Temecula Post Office. In 1859, at its establishment, it became only one of seven post offices in California south of the Tehachapi Mountains.

John Butterfield, an experienced stagecoach company owner was awarded a contract to deliver mail between St. Louis, Missouri and San Francisco, California. There was a time consideration in the contract requiring that each trip be completed in 25 days. On September 16, 1858, Mr. Butterfield began the first east to west journey and it was completed in 23 days and 23 hours.

Six months after the passage of the first Butterfield Stage through Temecula, U.S. President James Buchanan appointed Louis A. Rouen as the first Temecula Postmaster on April 22, 1859. Rouen served at the Magee store, near what is now Margarita Road and the Temecula Parkway. This was the first of the fourteen post office sites that have been used in the collection and distribution of Temecula's mail; the post office location changed frequently during the ensuing decades. It was located in several places including private residences, the Wolf Store, the Machado Stores, the train station, the Palomar and the Temecula Hotels, Hall's Café, Security Pacific Bank and the two sites operating today.

During its journey to and from Temecula, mail may have been in ships, planes, 18 wheelers, golf carts and many other conveyances including the last mule train delivery used in the United States. Mail Service in Temecula has been a significant part of the community for a century and a half. It is sometimes little appreciated except by those who serve. Following September 11, 2001 the Postal Service ran a series of reminders in magazines, papers and on television that summarize what they do for the citizens of Temecula and our Nation.

"We are mothers and fathers. And sons and daughters who every day go about our lives with duty, honor and pride. And neither snow, nor rain, nor heat, nor gloom of night, nor winds of change, nor a nation challenged, will stay us from our appointed rounds. Ever."

Still standing today, the Temecula Post Office is a monument to the faithful and dedicated work of the men and women who have served the community for 150 years.

CONGRATULATING SARAH BAIRD— 2009 ARIZONA TEACHER OF THE YEAR

HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 22, 2009

Mr. MITCHELL. Madam Speaker, I rise today to congratulate Sarah Baird on being honored as the 2009 Arizona Teacher of the Year. Sarah is a math teacher at Kyrene de las Lomas and Kyrene del Milenio elementary schools in Phoenix, Arizona where she teaches in nearly 60 classrooms at the two schools, with kids ranging from kindergarten through fifth grade.

Sarah started down her chosen path when she drove to Northern Arizona University and became the first person in her family to attend college. She graduated in 2½ years with a bachelor's degree in elementary education and later went on to receive a master's degree in early child education, also from NAU.

For Sarah, teaching is all about helping students find the same potential that a teacher once helped her find in herself, and she works tirelessly to ensure that her students have the opportunity to fulfill their full potential. Besides instructing math, Sarah also educates her fellow teachers in ways to make their lessons more easily understood by students.

The Arizona Teacher of the Year program is a statewide program that spotlights the many contributions of Arizona's teachers. The program annually recognizes exceptionally skilled and dedicated teachers in pre-kindergarten through 12th grade public schools. Those who are honored, like Sarah, play an active and useful role in their communities as well as their schools. They also show an exceptional ability to help their students achieve. I know she will represent our state well in the National Teacher of the Year Program.

Madam Speaker, please join me in congratulating Sarah Baird on being honored as the 2009 Arizona Teacher of the Year. Her incredible dedication to her students and her community should be an inspiration to us all.

IN HONOR OF THE DELAWARE AUTISM PROGRAM

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 22, 2009

Mr. CASTLE. Madam Speaker, it is with great pleasure that I rise today to pay tribute to the Delaware Autism Program as it celebrates its 30th anniversary in the State of Delaware. The Delaware Autism Program currently serves approximately 700 students

statewide in six approved centers and operates at more than 30 community-based sites with the support of more than 400 staff members.

Designed in 1978 through the collaboration of state legislators and parents of children with autism, the Delaware Autism Program (DAP) offers valuable services to both students and families. DAP seeks, in its core components, to provide access to respite for parents of children with autism, residential support through the public school system, and community and vocational training and support. Along with the dedication to providing students with the best educational services in the nation, these have established DAP as a significant and invaluable resource for Delaware's Autism community.

Since its inception, DAP has been a leader in autism education. The development of the Picture Exchange Communication System (PECS), an educational tool now recognized worldwide for its initiation component of communication, was pioneered at DAP in 1985. The Brennen School in Newark, along with other DAP sites, has proven itself a leader in the implementation of evidence-based best practices in education for students with autism, including Applied Behavior Analysis (ABA) interventions. Over the past 30 years, DAP has continued to grow and expand; in the past decade alone, the number of school districts hosting the program and the number of students and staff have doubled. With a continuum of educational settings ranging from separate schools, to community-based preschools, to inclusive settings in general education classrooms, the Delaware Autism Program has done and continues to do our great state of Delaware an immeasurable service.

On this 30th Anniversary, I would like to recognize the unequalled devotion of the Delaware Autism Program staff and the ongoing support of their parent community and host districts. Since 1978, DAP staff have given their time, their energy, and their hearts in the support and education of students and their families. I commend the Delaware Autism Program for its tireless dedication and I look forward to its continued success in serving this special group of students and their families.
