

to increase volunteerism, as social entrepreneurs try new approaches, technology increases access and expands service, and corporate volunteers provide pro bono skills to nonprofit organizations;

Whereas the Serve America Act increases volunteer opportunities for people of all ages in the United States, with a focus on disadvantaged youth, seniors, and veterans;

Whereas the Serve America Act promotes social innovation by supporting and expanding proven programs and builds the capacity of individuals, nonprofit organizations, and communities to volunteer; and

Whereas the Serve America Act leverages service to assist in meeting challenges in the areas of education, health, clean energy, veterans assistance, and economic opportunity; Now, therefore, be it

Resolved, That the Senate—

(1) recognizes that service is of significant value to the United States; and

(2) commemorates the first anniversary of the Serve America Act (Public Law 111-13; 123 Stat. 1460) (also known as the “Edward M. Kennedy Serve America Act”); and

(3) encourages every person in the United States to continue to answer the call to serve.

SENATE RESOLUTION 496—DESIGNATING APRIL 23, 2010, AS “NATIONAL ADOPT A LIBRARY DAY”

Mr. WEBB (for himself, Mr. WARNER, Mr. COCHRAN, and Ms. SNOWE) submitted the following resolution; which was considered and agreed to:

S. RES. 496

Whereas libraries are an essential part of the communities and the national system of education in the United States;

Whereas the people of the United States benefit significantly from libraries that serve as an open place for people of all ages and backgrounds to make use of books and other resources that offer pathways to learning, self-discovery, and the pursuit of knowledge;

Whereas the libraries of the United States depend on the generous donations and support of individuals and groups to ensure that people who are unable to purchase books still have access to a wide variety of resources;

Whereas certain nonprofit organizations facilitate the donation of books to schools and libraries across the United States—

(1) to extend the joys of reading to millions of people of the United States; and

(2) to prevent used books from being thrown away;

Whereas, as of the date of agreement to this resolution, the libraries of the United States have provided valuable resources to individuals affected by the economic crisis by encouraging continued education and job training; and

Whereas several States that recognize the importance of libraries and reading have adopted resolutions commemorating April 23 as “Adopt A Library Day”: Now, therefore, be it

Resolved, That the Senate—

(1) designates April 23, 2010, as “National Adopt A Library Day”;

(2) honors the organizations that facilitate donations to schools and libraries;

(3) urges all people of the United States who own unused books to donate the unused books to local libraries;

(4) strongly supports children and families who take advantage of the resources provided by schools and libraries; and

(5) encourages the people of the United States to observe the day with appropriate ceremonies and activities.

SENATE RESOLUTION 497—DESIGNATING THE THIRD WEEK OF APRIL 2010 AS “NATIONAL SHAKEN BABY SYNDROME AWARENESS WEEK”

Mr. DODD (for himself, Mr. ALEXANDER, Mr. JOHNSON, Mr. LIEBERMAN, and Mr. BAYH) submitted the following resolution; which was considered and agreed to:

S. RES. 497

Whereas the month of April has been designated “National Child Abuse Prevention Month” as an annual tradition initiated in 1979 by President Jimmy Carter;

Whereas the National Child Abuse and Neglect Data System reports that 772,000 children were victims of abuse and neglect in the United States in 2008, causing unspeakable pain and suffering for our most vulnerable citizens;

Whereas approximately 95,000 of those children were younger than 1 year old;

Whereas more than 4 children die each day in the United States as a result of abuse or neglect;

Whereas children younger than 1 year old accounted for over 40 percent of all child abuse and neglect fatalities in 2008, and children younger than 4 years old accounted for nearly 80 percent of all child abuse and neglect fatalities in 2008;

Whereas abusive head trauma, including the trauma known as Shaken Baby Syndrome, is recognized as the leading cause of death among physically abused children;

Whereas Shaken Baby Syndrome can result in loss of vision, brain damage, paralysis, seizures, or death;

Whereas medical professionals believe that thousands of additional cases of Shaken Baby Syndrome and other forms of abusive head trauma are being misdiagnosed or left undetected;

Whereas Shaken Baby Syndrome often results in permanent and irreparable brain damage or death of the infant and may result in extraordinary costs for medical care during the first few years of the life of the child;

Whereas the most effective solution for preventing Shaken Baby Syndrome is to prevent the abuse, and it is clear that the minimal costs of education and prevention programs may avert enormous medical and disability costs and immeasurable amounts of grief for many families;

Whereas prevention programs have demonstrated that educating new parents about the danger of shaking young children and how to protect their children from injury can significantly reduce the number of cases of Shaken Baby Syndrome;

Whereas education programs raise awareness and provide critically important information about Shaken Baby Syndrome to parents, caregivers, childcare providers, child protection employees, law enforcement personnel, health care professionals, and legal representatives;

Whereas National Shaken Baby Syndrome Awareness Week and efforts to prevent child abuse, including Shaken Baby Syndrome, are supported by groups across the United States, including groups formed by parents and relatives of children who have been injured or killed by shaking, whose mission is to educate the general public and professionals about Shaken Baby Syndrome and to increase support for victims and their families within the health care and criminal justice systems;

Whereas 20 States have enacted legislation related to preventing and increasing awareness of Shaken Baby Syndrome;

Whereas the Senate has designated the third week of April as “National Shaken Baby Syndrome Awareness Week” each year since 2005; and

Whereas the Senate strongly supports efforts to protect children from abuse and neglect: Now, therefore, be it

Resolved, That the Senate—

(1) designates the third week of April 2010 as “National Shaken Baby Syndrome Awareness Week”;

(2) commends hospitals, childcare councils, schools, community groups, and other organizations that are—

(A) working to increase awareness of the danger of shaking young children;

(B) educating parents and caregivers on how they can help protect children from injuries caused by abusive shaking; and

(C) helping families cope effectively with the challenges of child-rearing and other stresses in their lives; and

(3) encourages the people of the United States—

(A) to remember the victims of Shaken Baby Syndrome; and

(B) to participate in educational programs to help prevent Shaken Baby Syndrome.

SENATE RESOLUTION 498—DESIGNATING APRIL 2010 AS “NATIONAL CHILD ABUSE PREVENTION MONTH”

Ms. COLLINS (for herself and Mr. DODD) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 498

Whereas, in 2008, approximately 772,000 children were determined to be victims of abuse or neglect;

Whereas, in 2008, an estimated 1,740 children died as a result of abuse or neglect;

Whereas, in 2008, an estimated 80 percent of the children who died due to abuse or neglect were under the age of 4;

Whereas, in 2008, of the children under the age of 4 who died due to abuse or neglect, the majority were under the age of 1;

Whereas abused or neglected children have a higher risk in adulthood for developing health problems, including alcoholism, depression, drug abuse, eating disorders, obesity, suicide, and certain chronic diseases;

Whereas a National Institute of Justice study indicated that abused or neglected children—

(1) are 11-times more likely to be arrested for criminal behavior as juveniles; and

(2) are 2.7-times more likely to be arrested for violent and criminal behavior as adults;

Whereas an estimated 1/3 of abused or neglected children grow up to abuse or neglect their own children;

Whereas providing community-based services to families impacted by child abuse or neglect may be far less costly than—

(1) the emotional and physical damage inflicted on children who have been abused or neglected;

(2) providing to abused or neglected children services, including child protective, law enforcement, court, foster care, or health care services; or

(3) providing treatment to adults recovering from child abuse; and

Whereas child abuse or neglect has long-term economic and societal costs: Now, therefore, be it

Resolved, That the Senate—

(1) designates April 2010 as “National Child Abuse Prevention Month”;

(2) recognizes and applauds the national and community organizations that work to

promote awareness about child abuse or neglect, including by identifying risk factors and developing prevention strategies;

(3) supports the proclamation issued by President Obama declaring April 2010 as “National Child Abuse Prevention Month”; and

(4) should—

(A) increase public awareness of prevention programs relating to child abuse or neglect; and

(B) continue to work with the States to reduce the incidence of child abuse or neglect in the United States.

Ms. COLLINS. Mr. President, it is with a heavy heart that I rise today to submit a resolution recognizing Child Abuse Prevention Month. I am honored to be joined by a longtime advocate of children, Senator DODD, in turning a spotlight on the issue of child abuse and neglect in this country. Senator DODD and I share a common belief that children should be valued and nurtured by both their families and the larger family of humankind.

The effort to address child abuse transcends ideological and partisan lines. This is not a Democratic or Republican issue—this is an American issue—one that we can’t wish away, but that we must face head on and work to eradicate.

Abuse of children occurs in all segments of our society, in rural, suburban, and urban areas and among all racial, ethnic, and income groups. According to the 2008 Child Maltreatment Study compiled by the U.S. Department of Health and Human Services, during 2008, an estimated 772,000 children were determined to be victims of abuse or neglect, and an estimated 1,740 children died as a result.

My home State of Maine is mourning the death of 15-month old Damien Lynn, who was allegedly murdered by his mother’s boyfriend. Autopsy reports show that little Damien had broken bones and ribs, head and abdominal injuries, and a human bite mark on his right arm. It is in Damien’s memory, and that of the thousands of children who are abused and neglected each year, that I come to the floor today.

The time has come for Americans to unite in an all-out effort to eradicate child abuse. Child Abuse Prevention Month is an opportunity for communities across the country to keep children safe, provide the support families need to stay together, and raise children and youth to be happy, secure, and stable adults.

To paraphrase Mahatma Gandhi, “You can judge a society by how they treat their weakest members.” This resolution is sad commentary that we have to do more to protect those who are in the dawn of life, the most vulnerable among us, our children.

SENATE RESOLUTION 499—SUPPORTING THE GOALS AND IDEALS OF WORLD MALARIA DAY, AND REAFFIRMING UNITED STATES LEADERSHIP AND SUPPORT FOR EFFORTS TO COMBAT MALARIA AS A CRITICAL COMPONENT OF THE PRESIDENT’S GLOBAL HEALTH INITIATIVE

Mr. FEINGOLD (for himself, Mr. WICKER, Mr. BROWN of Ohio, Mr. SPECTER, Mr. LUGAR, Mr. DURBIN, Mr. CARDIN, Mr. SANDERS, Mrs. GILLIBRAND, Mr. JOHNSON, and Mr. INHOFE) submitted the following resolution; which was considered and agreed to:

S. RES. 499

Whereas April 25th of each year is recognized internationally as World Malaria Day;

Whereas malaria is a leading cause of death and disease in many developing countries, despite being completely preventable and treatable;

Whereas, according to the World Health Organization, 35 countries, the majority of them in sub-Saharan Africa, account for 98 percent of global malaria deaths;

Whereas young children and pregnant women are particularly vulnerable and disproportionately affected by malaria;

Whereas malaria greatly affects child health, with estimates that children under the age of 5 account for 85 percent of malaria deaths each year;

Whereas malaria poses great risks to maternal health, causing complications during delivery, anemia, and low birth weights, with estimates that malaria infection causes 400,000 cases of severe maternal anemia and from 75,000 to 200,000 infant deaths annually in sub-Saharan Africa;

Whereas heightened national, regional, and international efforts to prevent and treat malaria over recent years have made measurable progress and have helped save hundreds of thousands of lives;

Whereas the World Health Organization’s World Malaria Report 2009 reports that “[i]n countries that have achieved high coverage of their populations with bed nets and treatment programmes, recorded cases and deaths due to malaria have fallen by 50%”;

Whereas the World Health Organization’s World Malaria Report 2009 further states that “[t]here is evidence from Sao Tome and Principe, Zanzibar and Zambia that large decreases in malaria cases and deaths have been mirrored by steep declines in all-cause deaths among children less than 5 years of age”;

Whereas continued national, regional, and international investment is critical to continue to reduce malaria deaths and to prevent backsliding in those areas where progress has been made;

Whereas the United States Government has played a major leadership role in the recent progress made toward reducing the global burden of malaria, particularly through the President’s Malaria Initiative and the United States contribution to the Global Fund to Fight AIDS, Tuberculosis, and Malaria;

Whereas President Barack Obama said on World Malaria Day in 2009, “It is time to redouble our efforts to rid the world of a disease that does not have to take lives. Together, we have made great strides in addressing this preventable and treatable disease... Together, we can build on this progress against malaria, and address a broad range of global health threats by investing in health systems, and continuing our work with partners to deliver highly ef-

fective prevention and treatment measures.”;

Whereas, under the new Global Health Initiative (GHI) launched by President Obama, the United States Government is pursuing a comprehensive, whole-of-government approach to global health, focused on helping partner countries to achieve major improvements in overall health outcomes through transformational advances in access to, and the quality of, healthcare services in resource-poor settings; and

Whereas recognizing the burden of malaria on many partner countries, GHI has set the target for 2015 of reducing the burden of malaria by 50 percent for 450,000,000 people, representing 70 percent of the at-risk population in Africa: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of World Malaria Day, including the achievable target of ending malaria deaths by 2015;

(2) calls upon the people of the United States to observe World Malaria Day with appropriate programs, ceremonies, and activities to raise awareness and support to save the lives of those affected by malaria;

(3) recognizes the importance of reducing malaria prevalence and deaths to improve overall child and maternal health, especially in sub-Saharan Africa;

(4) commends the recent progress made toward reducing global malaria deaths and prevalence, particularly through the efforts of the President’s Malaria Initiative and the Global Fund to Fight AIDS, Tuberculosis, and Malaria;

(5) welcomes ongoing public-private partnerships to research and develop more effective and affordable tools for malaria diagnosis, treatment, and vaccination;

(6) reaffirms the goals and commitments to combat malaria in the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008 (Public Law 110-293);

(7) supports continued leadership and investment by the United States in bilateral and multilateral efforts to combat malaria as a critical part of the President’s Global Health Initiative; and

(8) encourages other members of the international community to sustain and scale up their support and financial contributions for efforts worldwide to combat malaria.

AMENDMENTS SUBMITTED AND PROPOSED

SA 3729. Mr. COBURN proposed an amendment to the concurrent resolution H. Con. Res. 255, commemorating the 40th anniversary of Earth Day and honoring the founder of Earth Day, the late Senator Gaylord Nelson of Wisconsin.

TEXT OF AMENDMENTS

SA 3729. Mr. COBURN proposed an amendment to the concurrent resolution H. Con. Res. 255, commemorating the 40th anniversary of Earth Day and honoring the founder of Earth Day, the late Senator Gaylord Nelson of Wisconsin; as follows:

Strike the preamble and insert the following:

Whereas Gaylord Nelson, former United States Senator from Wisconsin, is recognized as one of the leading environmentalists of the 20th Century who helped launch an international era of environmental awareness and activism;
