

House, to this country, and to your district and Washington State. Congratulations.

The SPEAKER pro tempore (Mrs. EMERSON). Without objection, 5-minute voting will continue.

There was no objection.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. NUGENT. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 239, noes 186, not voting 6, as follows:

[Roll No. 465]

The SPEAKER pro tempore. Pursuant to House Resolution 316 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 2021.

□ 1445

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 2021) to amend the Clean Air Act regarding air pollution from Outer Continental Shelf activity, with Mrs. EMERSON in the chair.

The Clerk read the title of the bill. The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Kentucky (Mr. WHITFIELD) and the gentleman from California (Mr. WAXMAN) each will control 30 minutes.

The Chair recognizes the gentleman from Kentucky.

Mr. WHITFIELD. Madam Chair, as we prepare to take up an important piece of legislation today, H.R. 2021, I would like to yield such time as he may consume to the chairman of the Energy and Commerce Committee, the gentleman from Michigan (Mr. UPTON).

Mr. UPTON. I want to thank the gentleman from Colorado, CORY GARDNER, the sponsor of this legislation; and the gentleman from Kentucky, ED WHITFIELD, the chairman of the Energy and Power Subcommittee, for moving this legislation along.

Madam Chair, the purpose of this bill is real simple. It is to streamline the permit process to allow us more domestic production of oil and gas. In this country, we consume about 19 million barrels a day of oil and we produce about 7 million, and the exploration on the Outer Continental Shelf has been delayed for years because of a broken bureaucracy. The regional EPA, they are going to approve exploration air permits, only to have them challenged again by EPA's Environmental Appeals Board. It has been a never-ending circuit of approvals, appeals and re-applications, and it has stalled exploration for nearly 5 years.

So what does that mean? It means that these resources, which perhaps contain as much as 28 billion—yes, that's billion—barrels of oil and 122 trillion cubic feet of natural gas, have been stalled.

We know that if production is allowed here, safe production, we could produce perhaps as much as 1 million barrels a day from these sites, and it would add about 54,000 American jobs. Yet 5 years after the original lease sales, not a single test well has been drilled, not a single barrel of domestic oil has been brought to market to reduce our reliance on Middle East oil, and not a single job has been created to develop the resources because the bureaucracy is standing in the way of exploration.

Mr. WAXMAN. Madam Chair, I yield myself 5 minutes.

I rise in opposition to this legislation. The legislation is not about creating jobs. It is not about lowering gasoline prices. It is a giveaway to the oil industry that will increase pollution along our coasts.

This legislation's supporters have promoted it as a narrow bill designed to address specific problems that Shell has faced in obtaining a clean air permit for exploratory drilling off the coast of Alaska.

□ 1450

This legislation will have wide-ranging impacts beyond the Arctic Ocean. The States of California and Delaware have grave concerns about the impact of this bill on their ability to protect public health and welfare from air pollution. In fact, this bill could affect every State on the Atlantic and Pacific Coasts.

I agree that the provisions of the Clean Air Act that apply to the Outer Continental Shelf will have some ambiguities that could use clarification, but this legislation takes the wrong approach. Each of the so-called clarifications in this bill would have the effect of allowing more pollution and providing less public health protection for the nearby communities and limiting participation of affected stakeholders in the permitting process.

The Republicans say that it shouldn't take 5 years to get a permit, and I agree with them. But the truth is it has not taken 5 years for Shell to get a permit. Shell has pulled permit applications and modified its proposed operations on numerous occasions. Each time, EPA has had to adjust its assessment of the potential impacts on air quality and public health. This is what EPA is supposed to do. No one should want EPA to take a one-size-fits-all approach to permitting these major sources of pollution.

There are many flaws in the legislation. It allows huge increases in air pollution from oil and gas drilling activities by moving the point of measurement from the drill ship to the shore. It threatens the ability of California and other States to regulate the emissions of support vessels. And it sets an arbitrary deadline of 6 months for final agency action on every offshore exploratory drilling permit, no matter the size or complexity of the proposed operations. The EPA Assistant Administrator for Air and Radiation testified before the Energy and Commerce Committee that 6 months is too short to allow for adequate technical analysis, public participation,

So (two-thirds not being in the affirmative) the motion was rejected.

The result of the vote was announced as above recorded.

□ 1444

GENERAL LEAVE

Mr. WHITFIELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and insert extraneous material on H.R. 2021.

The SPEAKER pro tempore (Mr. GARDNER). Is there objection to the request of the gentleman from Kentucky?

There was no objection.
