

of the House Republican Conference, telling them to make the repeal of job-destroying regulations the key point in the Republican jobs agenda. Evidence supporting Mr. CANTOR's contention that deregulation would increase unemployment is very weak. As one can see, the number of layoffs nationwide caused by government regulation is minuscule and shows no evidence of getting worse during the Obama administration."

The CHAIR. The time of the gentleman has expired.

Mr. WHITFIELD. May I ask how much time remains, Mr. Chairman?

The CHAIR. The gentleman from Kentucky has 4 minutes remaining, and the gentleman from Massachusetts has 1¼ minutes remaining.

Mr. WHITFIELD. I yield 2 minutes to the distinguished gentleman from Wisconsin (Mr. DUFFY).

Mr. DUFFY. I appreciate the gentleman from Kentucky for yielding.

I come from central and northern Wisconsin where we have a large forest products industry. We make a lot of paper in Wisconsin. And if you look at these rules, they are going to have a significant impact on Wisconsin paper, real jobs that support our families. Domtar Industries, 1,400 jobs; Flambeau River Paper, 300 jobs; New Page, 3,200 jobs; Wausau Paper, 1,600 jobs.

So we look at these regulations that are going to increase the standard on our boilers. And if you increase those standards, causing our companies to spend millions of more dollars to meet those standards, what's going to happen? You are going to ship Wisconsin paper to China and Brazil. And what happens there? They don't have the same standards that we have. And, in the end, what's going to happen is we're going to outsource Wisconsin jobs and our paper is going to be made with reduced standards.

I think in the end, those who care about our environment, who care about standards to make sure we have clean water and clean air, if you look over to China, they don't have those same standards. But, in the end, we breathe the same air and drink the same water.

So let's make sure we have efficient standards that can keep American industry and Wisconsin paper in business and doesn't shift these jobs overseas.

Mr. MARKEY. I yield myself such time as I may consume.

The Republicans have yet to bring a job creation bill out here on the House floor in the 10 months they have controlled the Congress.

Instead, what they're doing is responding to industries who do not want to make the air cleaner, who do not want to make the water safer for the children of our country to drink and to breathe. And, instead, they make the case that making the environment cleaner kills jobs when we know that all evidence says it creates more jobs, because it spurs innovation in new technologies that create jobs that make our economy stronger. Instead,

they argue that what the country needs is more mercury, more arsenic, more cadmium, more asthmas, more mercury poisoning, more carcinogens that harm the health of our country.

So not only do they not help the health of our economy by bringing out a jobs bill, instead they bring out bills that hurt the health of the American people where they live and their families. That's what their agenda has been all about since the day they took over in January, and that's the agenda that we are voting on here today.

Vote "no" on this Republican health-killing bill.

I yield back the balance of my time.

Mr. WHITFIELD. In closing, I would urge every Member of this body to support H.R. 2250. We believe that it is genuinely a balanced approach. EPA even was trying to convince the court that their rule was a good rule, the old rule.

To just give you a very concrete example of this, of the practical impacts of what's going on here, EPA went to the court last December when it asked for time to fix the Boiler MACT rules, which the court denied it, and pointed out that the investments required by industry are irreversible.

An example of that, representatives of Notre Dame University came to our hearing. And in order to comply with the Boiler MACT rules issued in 2004, which were invalidated by the court, the University of Notre Dame spent \$20 million, and now they're not in compliance with the new rule, so they're going to have to come forth with additional millions of dollars.

So that's happening not only at the University of Notre Dame, that's happening at just about every university around the country, hospitals around the country, small businesses around the country, small utilities around the country. So if we don't take some action, there are going to be a lot less, many fewer jobs in the economy than there are today, because testimony after testimony after testimony has indicated that entities cannot meet these new rules, are going to have to close down and lose jobs.

So one way that we can help the administration create jobs is to prevent the loss of jobs. If this administration would assert more common sense in their rules, we could remove some of the uncertainty to help us create more jobs in America.

I would urge every Member to support 2250. It's a balanced approach. It protects health, protects industry, and provides a more commonsense approach to this significant problem.

With that, I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Mr. WHITFIELD. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. GRIFFITH of Virginia) having assumed

the chair, Mr. DENHAM, Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 2250) to provide additional time for the Administrator of the Environmental Protection Agency to issue achievable standards for industrial, commercial, and institutional boilers, process heaters, and incinerators, and for other purposes, had come to no resolution thereon.

CEMENT SECTOR REGULATORY RELIEF ACT OF 2011

The SPEAKER pro tempore. Pursuant to House Resolution 419 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 2681.

□ 1030

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 2681) to provide additional time for the Administrator of the Environmental Protection Agency to issue achievable standards for cement manufacturing facilities, and for other purposes, with Mr. DENHAM (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. When the Committee of the Whole rose on Wednesday, October 5, 2011, a request for a recorded vote on amendment No. 3 printed in the CONGRESSIONAL RECORD by the gentlewoman from Maryland (Ms. EDWARDS) had been postponed.

Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments printed in the CONGRESSIONAL RECORD on which further proceedings were postponed, in the following order:

Amendment No. 23 by Mr. COHEN of Tennessee.

Amendment No. 5 by Mr. KEATING of Massachusetts.

Amendment No. 3 by Ms. EDWARDS of Maryland.

The Chair will reduce to 2 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT NO. 23 OFFERED BY MR. COHEN

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Tennessee (Mr. COHEN) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 172, noes 248,

answered “present” 1, not voting 12, as follows:

[Roll No. 760]

□ 1106

So the amendment was rejected.
 The result of the vote was announced
 as above recorded.

The Acting CHAIR. The question is on the committee amendment in the nature of a substitute.

The amendment was agreed to.

The Acting CHAIR. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. SIMPSON) having assumed the chair, Mr. DENHAM, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 2681) to provide additional time for the Administrator of the Environmental Protection Agency to issue achievable standards for cement manufacturing facilities, and for other purposes, and, pursuant to House Resolution 419, reported the bill back to the House with an amendment adopted in the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

The question is on the committee amendment in the nature of a substitute.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mrs. CAPPS. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentlewoman opposed to the bill?

Mrs. CAPPS. Yes, I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mrs. Capps moves to recommit the bill H.R. 2681 to the Committee on Energy and Commerce with instructions to report the same to the House forthwith with the following amendment:

At the end of the bill, add the following sections:

SEC. 6. PROTECTION OF INFANTS, CHILDREN, AND PREGNANT WOMEN FROM TOXIC AND CANCER-CAUSING AIR POLLUTANTS.

Notwithstanding any other provision of this Act, the Administrator shall not delay actions pursuant to the rule identified in section 2(b)(1) of this Act to reduce air pollution from cement kilns, as defined pursuant to this Act, where such cement kilns are within 5 miles of any school, any day care center, any playground, or any hospital with a maternity ward or neo-natal unit.

SEC. 7. NOTIFICATION TO COMMUNITIES.

With respect to each requirement for a major source facility to implement an air pollution control or emissions reduction that is eliminated by this Act, such facility shall provide notice of such elimination to affected communities not later than 90 days after the date of enactment of this Act.

The SPEAKER pro tempore. The gentlewoman from California is recognized for 5 minutes.

Mrs. CAPPS. Mr. Speaker, there are times when we come to this floor and engage in heated debate, and we've heard some heated debate on this bill. But my final amendment offers us the opportunity to come together and do something extraordinarily important, and that is to protect our children and grandchildren from mercury and other toxic air pollutants.

I want to be clear. The passage of this amendment will not prevent the passage of the underlying bill. If it's adopted, my amendment will be incorporated into the bill and the bill will be immediately voted upon.

Now, I make no apologies for opposing the bill, but regardless of how one feels about this bill, or even EPA's cement standards, my amendment should be something that we can all agree upon, and that's because it only does two simple things: First, it says we should have safer air standards on giant cement plants if they're located near schools or hospitals with a maternity ward or neonatal unit. That's because these large factories are the third largest source of mercury pollution in the United States.

□ 1110

We all know that mercury is extremely dangerous to young children,

to nursing mothers, and to women of childbearing age. Mercury exposure affects a developing child's ability to walk, to talk, to read, to write, to learn. That's why I think none of us should want to see this in our districts: A giant cement plant in Midlothian, Texas, spewing mercury and other pollutants in the air right next to J.A. Vitovsky Elementary School.

But I don't want to just pick on Texas. In California, a giant cement plant in Tehachapi sends far more mercury into the air than any other plant in the State, and it's less than 3,000 feet—3,000 feet—from Monroe High School. That's less than half the distance between where we are today here in the Capitol and the Washington Monument.

Mr. Speaker, nothing is more important to us than our children and our grandchildren. Having spent 20 years as a school nurse, I really don't need any reminders of this, but just 6 months ago my family was blessed again with the birth of a new baby boy. So every time debates about mercury pollution come up, my thoughts immediately go to him and the tens of millions of other children in this country. I know how small and fragile little Oscar is, and I want to make sure that I'm doing everything I can to protect him, to make sure the air he breathes and the water he drinks is as safe as it can possibly be. I'm no different from the millions of mothers and fathers, grandmothers and grandfathers, aunts and uncles across this country and right in this Chamber. We all want the best for our kids, so we must reduce the risks of this pollution to them, especially in places that should be safe, like a school.

The second part of my simple amendment gives all communities the right to know what pollution is coming from these giant cement factories. Without the sight of ominous clouds billowing from nearby plants, it's easy to assume that we're all relatively safe, but you don't need to live right next door to a giant cement plant to suffer the effects of mercury pollution. I learned this firsthand when I received test results showing that I have an unsafe level of mercury in my body. And I'm not alone—both in the levels of mercury in my system and by the fact that I didn't know about it until I got tested this past summer. Who in this Chamber thinks they have a dangerous level of mercury in their system? Probably no one. But who here has actually been tested to know for sure? Probably very few of us.

So, my final amendment just calls for a little transparency. It makes sure that giant cement plants can't hide the truth about the pollution they're dumping into our air each year. It just gives American citizens a right to know what's in their air. That's all.

Mr. Speaker, I respectfully ask that my colleagues consider these two simple propositions: Why should our kids go to schools where mercury is spewing

from smokestacks just down the street? And why should any of our constituents be kept in the dark about the pollutants that they're being exposed to? They shouldn't. And we shouldn't stand idly by and let it happen.

So today we have the opportunity to speak with one voice. We can vote to protect our children and our grandchildren from mercury and other toxic air pollutants. It's up to us. I urge all of us to support this final amendment to the bill.

I yield back the balance of my time. Mr. WHITFIELD. Mr. Speaker, I claim the time in opposition to the motion.

The SPEAKER pro tempore. The gentleman from Kentucky is recognized for 5 minutes.

Mr. WHITFIELD. At this time I would like to yield to my colleague from California.

Mr. LEWIS of California. I appreciate my colleague yielding, and I'm rising only because of the comments of the gentlelady who just spoke.

Nobody in this Chamber has spent more time working on air quality than this Member. I was the author of a major bill in California that changed the scene there in terms of polluting the air. During that discussion, we said, we can control 97 percent of emissions from smokestacks in a relatively short time if we will, but the real problem's going to be Detroit. If we really want to change that, we've got to change Detroit.

The gentlelady's amendment would follow a logical line. We would indeed insist on having an amendment instead that would close down all of Detroit. The problem of mercury is a totally different question than the way this gentlelady presented it. We found problems in the air and found that there was no problem that we thought was there in the first place.

Instead of using this for politics, let's try to really solve the air quality problems and let our industry move forward and get our economy to work again.

Mr. WHITFIELD. I thank the gentleman.

Our legislation, H.R. 2681, provides a balanced approach to a significant problem. These new regulations put out by EPA relating to cement company regulations are unbalanced. We've had testimony after testimony from representatives of the industry that 20 percent of the U.S. cement manufacturing industry will probably close down within 2 years if these regulations remain in effect.

Our legislation is very simple. It simply says to EPA, go back and within 15 months come back with a new regulation, more balanced, and give the industry 5 years to comply. If the administrator wants to give them more, he or she may do so. But this is about protecting jobs as well as about protecting health. As you know, our economy is struggling right now. The testimony shows quite clearly that if we allow these regulations to remain in effect, we're going to lose a lot more jobs.

The good news is that once EPA goes back and revisits this issue, they most certainly are going to consider health benefits. They're going to do an analysis about health benefits.

I might also say we've heard a lot about mercury. EPA has made it very clear that in the regulation that we're trying to postpone that they do not even consider the dollar benefit from the reduction in mercury emissions. So from their perspective, the benefits from mercury emissions were insignificant. All of the benefits come from particulate matter reductions.

I would urge every Member of this body to vote "no" on this motion to recommit and "yes" on our legislation, H.R. 2681, if we want to save jobs in America and if we want a more balanced approach to environmental regulation.

I yield back the balance of my time. The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mrs. CAPPS. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 176, noes 247, not voting 10, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1138

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mrs. CAPPS. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 262, noes 161, not voting 10, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
 The SPEAKER pro tempore (during the vote). Two minutes remain in this vote.

□ 1146

Mr. BACA changed his vote from “aye” to “no.”

So the bill was passed.
 The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:
 Mr. COBLE. Mr. Speaker, on rollcall No. 764 I was unavoidably detained. Had I been present, I would have voted “aye.”

Stated against:
 Ms. MCCOLLUM. Mr. Speaker, on rollcall vote 764, I incorrectly voted in favor of passage of H.R. 2681, the Cement Sector Regulatory Relief Act. I am strongly opposed to this destructive bill and strongly support the Environmental Protection Agency’s mandate to uphold our nation’s Clean Air Act laws.

NOTICE OF INTENTION TO OFFER RESOLUTION RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. JACKSON of Illinois. Mr. Speaker, pursuant to clause 2 of rule IX, I rise to give notice of my intention to raise a question of the privileges of the House.

The form of the resolution is as follows:

Whereas on October 2, 2011, the Washington Post reported a story called “Rick Perry And A Word Set On Stone”;

Whereas upon reading that story the vast majority of people in the United States were morally outraged;

Whereas most of the facts in this resolution come from that Washington Post story;

Whereas Governor Rick Perry has described a childhood in Haskell County in Paint Creek, Texas, as centered on Boy Scouts, school, and church;

Whereas Texas Governor Rick Perry is from West Texas and was originally a Southern Democrat—often known as Dixiecrats—who switched parties in the late 1980s to become a Republican and is currently a leading Republican presidential candidate;

Whereas ranchers who once grazed cattle on the 1,070-acre parcel in Throckmorton County on the Clear Fork of the Brazos River—near where Governor Perry was raised in Paint Creek, Texas—it has since become a hunting ground that was called by the name “Niggerhead” well before Governor Perry and his father, Ray, began hunting there in the early 1980s even though there is no definitive account of when the rock first appeared on the property;

Whereas the use of the term “Niggerhead” to describe a hunting retreat is morally offensive;

Whereas Ronnie Brooks, a local resident who guided a few turkey shoots for Governor Perry between 1985 and 1990, said he holds Governor Perry “in the highest esteem” but said this of the rock at the camp: “It kind of offended me, truthfully”;

Whereas Haskell County Judge David Davis, sitting in his courtroom and looking

at a window there, said the word was “like those are vertical blinds. It’s just what it was called. There was no significance other than a hunting deal”—in other words, the judge was morally vacuous;

Whereas the name of this particular parcel did not change for years and for many remained the same after it became associated with Rick Perry, first as a private citizen, then as a State official, and finally as Texas Governor;

Whereas some local residents still call it by the morally repugnant name “Niggerhead”;

Whereas as recently as this summer, the slab-like rock—lying flat, portions of the name still faintly visible beneath a coat of white paint—remained by the gated entrance to the camp;

Whereas asked last week about the name, Governor Perry said the word on the rock is an offensive name that has no place in the modern world—implying that it may have been okay and had an appropriate place in that community when he was growing up;

Whereas Mae Lou Yeldell has lived in Haskell County, Texas, for 70 years and recalls the racism she faced in the 1950s and 1960s in West Texas, when being called an offensive name—like Whites greeting Blacks with “Morning nigger”—was “like a broken record”;

Whereas Throckmorton County, where the hunting camp is located near Haskell County, was for years considered a virtual no-go zone for African-Americans because of old stories told by locals about the lynching of an African-American man there;

Whereas Haskell County began observing Martin Luther King Jr. Day just two years ago according to a county commissioner in Haskell County;

Whereas Governor Perry grew up in a segregated era whose history has defined and complicated the careers of many Southern politicians;

Whereas Governor Perry has spoken often about how his upbringing in this sparsely populated farming community influenced his conservatism;

Whereas Governor Perry says he mentioned the offensive word on the rock to his parents shortly after they had signed a lease and he had visited the property, and they rather immediately painted over the word during the next July 4 holiday, but seven people interviewed by the Washington Post said they still saw the word on the rock at various points during the years that the Perry family was associated with the property through his father, partners, or his signature on a lease;

Whereas another local resident who visited the property with Governor Perry and the legislators he brought there to go hunting recalled seeing the rock with the name clearly visible;

Whereas how, when, or whether Governor Perry dealt with it when he was using the property isn’t clear and adds a dimension to the emerging biography of Governor Perry who quickly moved into the top tier of Republican presidential candidates when he entered the race in August; and

Whereas Herman Cain is the only Republican presidential candidate to criticize Governor Rick Perry for being “insensitive” when the word was not immediately condemned, but we would remind Herman Cain that the word is not only “insensitive”, but is also “offensive”: Now, therefore, be it

Resolved, That the House of Representatives—

(1) calls on Governor Rick Perry to apologize for not immediately doing away with the rock that contained the word “Niggerhead” at the entrance of a ranch he
