

BENEFICIAL OWNERSHIP BILL

(Mrs. CAROLYN B. MALONEY of New York asked and was given permission to address the House for 1 minute.)

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, this Sunday “60 Minutes” highlighted an explosive undercover investigation by Global Witness, which showed just how easy it is for criminals and corrupt officials to use anonymous shell companies to bring dirty money into the United States.

The reason it is so easy is because States don’t require the disclosure of the true beneficial ownership of shell companies. This is unacceptable, and it has to stop. As Global Witness stated, “anonymous shell companies are like getaway cars for crooks.”

That is why I am reintroducing a law, along with my good friend and colleague, Representative PETER KING, which would require that the person creating the corporation say who the beneficial owner is and, also, to explain who really owns the company.

If States do not require and get this information, then, as a backstop, the United States Treasury will have this information before an account can be opened.

This is a commonsense, bipartisan attack on what is a major national security and law enforcement issue.

I urge my colleagues to join us in passing this important legislation.

THE IMPORTANCE OF AGRICULTURE

(Mrs. ROBY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. ROBY. Mr. Speaker, I rise to draw attention to the important role that agriculture plays in this country.

I am honored to serve in a district in which agriculture represents the largest employer and is responsible for \$11 billion in economic impact.

It is why, during my time on the House Agriculture Committee, I was proud to help craft a new farm bill that delivers modern, more conservative policy for our farmers.

That is why now, as a member of the Appropriations Committee, I have remained diligent in making sure that the promises we made in the farm bill are kept.

We faced a challenge last year in the crop insurance program when it was gutted in the budget. This is the system that we promised our farmers to help transition away from direct payments.

Cutting it was unfair. I was proud to help restore that program funding before the end of the year, but it demonstrated something of a disconnect.

Mr. Speaker, not everyone in Congress represents a district with such a large agricultural footprint. What I try to explain to my colleagues is that, when you mess around with the crop

insurance program, you aren’t just affecting farmers who put seed in the ground.

You are affecting the ones who sell the seed, who build the equipment to cultivate and harvest the crop, and those who help process the goods for their final products.

That farming dollar turns over many times, and there is an entire agriculture supply chain that is affected by the farm policies we set in Congress.

My farmers know I have their back and I always will as long as I am in Congress.

GO RED FOR WOMEN CAMPAIGN

(Ms. GRAHAM asked and was given permission to address the House for 1 minute.)

Ms. GRAHAM. Mr. Speaker, today I rise in support of the American Heart Association’s Go Red for Women campaign.

Heart disease and stroke cause one in three deaths among women each year, killing approximately one woman every 80 seconds. The troubling numbers are more than a statistic. They are a fact of life that cause unnecessary pain and suffering to families across our country.

I say unnecessary pain and suffering because we have the power to change it. We can save lives. As much as 80 percent of heart disease and stroke-related deaths can be prevented with education and action.

That is why I am standing to raise awareness and encourage my fellow members and constituents across north Florida to Go Red by participating in National Wear Red Day on Friday.

Wear something red, like this jacket, to show your support for women fighting heart disease and strokes. Together, we can save lives.

ZIKA RESPONSE AND SAFETY ACT

(Mr. STEWART asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEWART. Mr. Speaker, yesterday the World Health Organization declared the Zika virus outbreak a global public health emergency.

The virus is particularly dangerous to pregnant women as it has been linked to serious physical and neurological defects in their unborn children. As the father of six children, I understand how frightening this could be.

Experts fear the virus will spread more widely to the United States, especially with the Olympic Games in Brazil on the horizon. That is why I have introduced the Zika Response and Safety Act, to ensure that key agencies have the resources necessary to combat this growing threat.

In 2014, Congress allocated more than \$2 billion to fight Ebola. Much of that money is still unspent. I would like to make some of that funding available to be used to combat the Zika virus.

This virus is a global health threat that requires our immediate attention. I urge my colleagues to support the Zika Response and Safety Act so that we can provide the necessary resources to understand and to prevent the harmful effects from Zika.

WE NEED TO PROPERLY MANAGE WATER

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, I rise to bring attention to the failure of California State agencies and Federal agencies to properly manage California’s water system as a result of the El Nino storms that we have been receiving.

El Nino years, like this one, are California’s hope of digging out of the historical drought conditions that we are facing. There is very high likelihood that most of the State will experience flood conditions, while communities in the San Joaquin Valley that I represent will receive a zero water allocation.

This year we have already missed an opportunity to move significant amounts of water to regions of California that need it most in the San Joaquin Valley.

As a result of the State and Federal agencies’ inability to operate in the most flexible range allowable, over 160,000 acre-feet of water has been lost this week alone and over half a million acre-feet has been lost this year. Meanwhile, an estimated total of 2 million acre-feet of water has gone out to the ocean.

State and Federal agencies are failing to take advantage of the water in the system today, and that is unacceptable. It is a disservice to all Californians. It is simply immoral.

HONORING AMBASSADOR GARY DOER

(Mr. HUIZENGA of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUIZENGA of Michigan. Mr. Speaker, I rise today to honor the Honorable Gary Doer, the outgoing Canadian Ambassador to the United States.

Canada is one of our Nation’s longest and greatest allies. Our bilateral trade with Canada was nearly \$734 billion last year alone, and it supports over 9 million jobs. In fact, my home State of Michigan sells more goods to Canada than our next 12 largest trading partners combined.

Over the last 7 years, Ambassador Doer has built a long list of accomplishments, including improved U.S.-Canadian regulatory cooperation, advocating for the Congressional Gold Medal for the Devil’s Brigade, and the

repeal of burdensome country of origin labeling requirements.

Mr. Speaker, I am grateful for Ambassador Doer's personal friendship to me and his relentless service to Canada and his friendship with the United States. I wish him well in his future endeavors.

As chair of the U.S.-Canada Interparliamentary Group, I look forward to working with Canada's incoming Ambassador, David MacNaughton, to further build on our Nation's great partnership.

NATIONAL CATHOLIC SCHOOLS WEEK

(Mr. LIPINSKI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LIPINSKI. Mr. Speaker, this is National Catholic Schools Week. I want to recognize the outstanding contributions that Catholic schools make to our Nation.

As a proud graduate of St. Symphorosa Grammar School and St. Ignatius College Prep, and as a strong supporter of Catholic education, I have introduced H. Res. 592 to honor Catholic Schools Week.

Since 1974, this week has celebrated the important role that Catholic education plays in America, especially the dedication of Catholic schools to academic excellence and service. This year's theme—Communities of Faith, Knowledge, and Service—highlights the values that are central to a Catholic education.

Earlier this week I visited St. Joseph's School in Lockport, which has the distinction of receiving three national awards in the past 6 years, including awards for Pastor Father Greg and Principal Lynne Scheffler. Later this week I look forward to visiting Bridgeport Catholic Academy and St. Barnabas School, both in Chicago.

I applaud the work of these and other Catholic schools across the country and all they contribute to our great Nation.

HONORING COACH GLENN ROBINSON

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, I rise today in honor of Coach Glenn Robinson of Franklin and Marshall College in Lancaster.

For 45 years, since he was only 25 years old, Coach Robinson has been leading the F&M Diplomats to victory. Coach Robinson is the winningest coach in the history of Division III basketball. He is now only the third college basketball coach ever to win 900 games, behind only legendary Bobby Knight of Indiana and Philadelphia's Bob Magee.

Four times he has broken his own school record for best record in the sea-

son, 12 times he has been named Region Coach of the Year by the National Association of Basketball Coaches, 12 times he has been Conference Coach of the Year, he has once been Division Coach of the Year, and he has won 93 postseason victories, 42 NCAA tournament victories, including 16 trips to the Sweet 16, 10 trips to the Elite 8, five trips to the Final 4, and one national championship appearance.

True leadership is servant leadership, the kind that finds people's strengths. Coach Robinson is an exemplary leader, and the proof of that is that he brings out the best in his players, 25 of whom have gone all-American.

Coach Robinson is one of the greatest coaches in college history, and Lancaster will always be rightly proud of him.

WE MUST FIX OUR BROKEN IMMIGRATION SYSTEM

(Mr. POLIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POLIS. Mr. Speaker, with one item, the American people speak with a single voice. They want Congress to tackle our broken immigration system, secure our borders, and restore the rule of law. Yet here we are, more than halfway through the 114th Congress, and not a single immigration bill that fixes the problem has even been brought to the floor or committee or passed.

We hear Presidential candidates on both sides of the aisle tapping into the enormous public sentiment that says stop what you are doing and fix our broken immigration system. There are 11 million people or more in our country illegally. The rule of law has been made a mockery of, families are being torn apart by ICE and DHS at great cost to taxpayers. Let's fix our immigration system.

Comprehensive immigration reform will save over \$200 billion, create hundreds of thousands of jobs for Americans, secure our borders, and restore the rule of law.

What is not to like? Let's come together around finally fixing the problem rather than simply complaining about it.

HONORING DAVID LAWSON, ROCHESTER VOLUNTEER FIREFIGHTER

(Mrs. WALORSKI asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. WALORSKI. Mr. Speaker, I rise today to recognize and pay tribute to a brave individual in my district. Rochester volunteer firefighter David Lawson was returning home from an early-morning medical call last month when he hit a deer. While the accident only caused minor damage to his vehicle, it delayed his trip home. While he

was driving, he saw smoke coming out of the vents of a nearby property.

He called 911. He headed to the house and began banging on the front door to wake up the residents. He woke up the adults. The adults grabbed the four kids, and they got out safely. We later found out the fire started in the attic, which is why it did not set off smoke detectors.

David Lawson's courage and resolve to protect the residents of northern Indiana is truly remarkable. On behalf of the people of Indiana's Second Congressional District, I want to personally thank David and every brave man and woman who represent Indiana's finest first responder community for their collective service and commitment to protecting all of our loved ones.

REMEMBERING THE LEGACY OF SACRIFICE AND SERVICE OF DAVID MAURITSON AND PHIL DRYDEN

(Mr. BYRNE asked and was given permission to address the House for 1 minute.)

Mr. BYRNE. Mr. Speaker, I rise today to remember two remarkable individuals who tragically died Monday evening in a plane crash in Mobile County, Alabama.

Major David Mauritson of Fairhope and Lieutenant Phil Dryden of Gulf Shores were members of the Civil Air Patrol, and they were returning from a compassion flight to Baton Rouge where they helped transport a fellow citizen for medical care when their plane went down.

David Mauritson had been a member of the Civil Air Patrol since 1991 and worked for years as a cardiologist and a lawyer. He had been flying all his life and was committed to helping others through charity medical flights.

Phil Dryden served our country in Vietnam as a combat medic. He had just joined the Civil Air Patrol last year and served as the Mobile squadron's assistant operations officer.

Mr. Speaker, one day our time on this Earth will draw to a close. When that day comes, we will be remembered not for what we had, we will be remembered for what we did.

David Mauritson and Phil Dryden left this world helping others. The legacy of service and sacrifice is how they will always be remembered.

On behalf of Alabama's First Congressional District, I offer my deepest condolences to their families. These great Americans will be sorely missed.

IRAN NUCLEAR DEAL

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, as part of the Iran nuclear deal, the Iranian regime will receive up to \$150 billion in sanctions relief. Secretary of State John Kerry has admitted that some of
