

Whereas, Asian carp continue to migrate upstream and are now within a day's swim of Lake Michigan. In the last year, juvenile Asian carp have moved 66 miles closer to Lake Michigan, leaving them only 76 miles from the Great Lakes. While electrical barriers currently stand in their way, new research indicates that those barriers may not be effective at stopping small fish; and

Whereas, The impacts of Asian carp to the ecosystems and economies of the Great Lakes states and local communities will be catastrophic. Invasive species established in the Great Lakes already cost the region more than \$100 million per year. Asian carp could add dramatically to this cost if they move through the Chicago area into the Great Lakes. These carp are voracious filter feeders and could out-compete the native fish of the Great Lakes, threatening a \$7 billion sport and commercial fishery. History has demonstrated that, once established, aquatic invasive species like Asian carp are nearly impossible to eradicate; and

Whereas, The Chicago Area Waterway System Advisory Committee was formed in May 2014 with the goal of reaching consensus on a set of recommendations for elected and appointed local, state, and federal officials and the public on short- and long-term measures to prevent Asian carp and other aquatic invasive species from moving between the Great Lakes and Mississippi River basins through the Chicago Area Waterway System; and

Whereas, The diverse, 32-member advisory committee reached consensus in a letter to the President of the United States on a specific system of control points to prevent the two-way interbasin transfer of aquatic invasive species. It also reached consensus on supporting immediate actions at the Brandon Road Lock and Dam in Joliet, Illinois, to prevent the risk of Asian carp from migrating upstream while the system of control points is evaluated as a long-term solution for all aquatic invasive species; and

Whereas, The best long-term solution will prevent Asian carp from entering the Great Lakes while preserving as much as possible the current uses of the Chicago area waterways. Options that would change shipping on these waterways should only be pursued after all other options have been exhausted; and

Whereas, The costs of preventing Asian carp from entering the Great Lakes are substantially lower than the costs to the ecosystems and economies of the Great Lakes states if Asian carp were to become established: now, therefore, be it

Resolved by the Senate, That we support the Chicago Area Waterway System Advisory Committee recommendations to implement immediate control technologies at Brandon Road Lock and Dam in Joliet, Illinois, and to further investigate the specific system of control points for long-term movement of aquatic invasive species into and out of the Great Lakes; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, President of the United States Senate, the Speaker of the United States House of Representatives, the members of the Michigan congressional delegation, and the Commanding General and Chief of Engineers of the United States Army Corps of Engineers.

POM-154. A resolution adopted by the House of Representatives of the State of Michigan memorializing the United States Congress to take actions necessary to help families enduring mental health crisis; to the Committee on Health, Education, Labor, and Pensions.

HOUSE RESOLUTION NO. 169

Whereas, According to the Centers for Disease Control and Prevention, mental illness is defined as "health conditions that are characterized by alterations in thinking, mood, or behavior (or some combination thereof) associated with distress and/or impaired function." The National Institute of Mental Health states, "while mental disorders are common in the United States, the burden of illness is particularly concentrated among those who experience disability due to serious mental illness (SMI)"; and

Whereas, Laws, regulations, and misinterpretations frequently shut out families attempting to get effective and appropriate treatment for their loved ones in a mental health crisis. In a given year, approximately ten million Americans endure serious mental illness, such as schizophrenia, major depression, or bipolar disorder. Approximately four million Americans battle with serious mental illness do not receive treatment in a given year; and

Whereas, Families struggling with mental illness must also grapple with the likelihood that their loved one will end up in jail or prison where there is virtually no mental health treatment. There are ten times more individuals with serious mental illness in jails and prisons than in state psychiatric hospitals. Moreover, federal laws and billing policies restrict the ability of persons on Medicaid to receive high-quality inpatient and outpatient mental health treatment; and

Whereas, Current spending needs to be more focused on the most effective services and most severe mental illnesses. Passage of federal legislation like the Helping Families in Mental Health Crisis Act of 2015 (H.R. 2646), sponsored by United States Congressman Tim Murphy of Pennsylvania, would be a positive first step. The bill would create a new Assistant Secretary for Mental Health and Substance Use Disorders to coordinate funding between agencies, collect increased data on treatment outcomes, and drive evidence-based care: Now, therefore, be it

Resolved, by the House of Representatives, That we memorialize the Congress of the United States to take actions necessary to help families enduring mental health crisis; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-155. A joint memorial adopted by the Legislature of the State of Idaho urging the United States Congress to restructure the United States Postal Service in a way that would reopen shuttered mail processing plants throughout the nation and provide acceptable delivery times; to the Committee on Homeland Security and Governmental Affairs.

SENATE JOINT MEMORIAL NO. 105

Whereas, the mail processing function of the post office in Pocatello, Idaho, was closed on or about April 19, 2015; and

Whereas, Brian Sperry, the regional spokesman for the United States Postal Service (USPS) stated that the impacts would be that stamped "First-Class Mail" would take between two and three days to reach its destination; and

Whereas, mail delivery in eastern Idaho is now significantly delayed, with delays ranging from a few days up to a few weeks; and

Whereas, USPS has already closed or suspended services in many locations nationwide, including in Twin Falls, Idaho, and is considering closing more; and

Whereas, USPS can provide better delivery times while still cutting substantive costs by

restructuring its pre-funding for retirement benefits: Now, therefore, be it

Resolved, By the members of the Second Regular Session of the Sixty-third Idaho Legislature, the Senate and the House of Representatives concurring therein, that Congress should pass legislation that would direct USPS to restructure their budget priorities, rethink their administrative model, make appropriate budget cuts if necessary, focus on customer service and acceptable delivery times, and reopen shuttered mail processing plants throughout the United States; and be it further

Resolved, That the Secretary of the Senate be, and she is hereby authorized and directed to forward a copy of this Memorial to the President of the Senate and the Speaker of the House of Representatives of this Congress, and the congressional delegation representing the State of Idaho in the Congress of the United States.
