Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and withdrawals which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

PRESIDENTIAL MESSAGES

REPORT OF THE VETO OF S.J. RES. 23, PROVIDING FOR CONGRESSIONAL DISAPPROVAL UNDER CHAPTER 8 OF TITLE 5, UNITED STATES CODE, OF A RULE SUBMITTED BY THE ENVIRONMENTAL PROTECTION AGENCY RELATING TO "STANDARDS OF PERFORMANCE FOR GREENHOUSE GAS EMISSIONS FROM NEW, MODIFIED, AND RECONSTRUCTED STATIONARY SOURCES: ELECTRIC UTILITY GENERATING UNITS", RECEIVED DURING ADJOURNMENT OF THE SENATE ON DECEMBER 18, 2015—PM 34

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States which was ordered to be printed in the RECORD, spread in full upon the Journal, and held at the desk:

MEMORANDUM OF DISAPPROVAL

S.J. Res. 23 is a joint resolution providing for congressional disapproval under chapter 8 of title 5 of the United States Code of a rule submitted by the Environmental Protection Agency (EPA) relating to "Standards of Performance for Greenhouse Gas Emissions from New, Modified, and Reconstructed Stationary Sources: Electric Utility Generating Units." This resolution would nullify EPA's carbon pollution standards for new, modified, and reconstructed power plants. Accordingly, I am withholding my approval of this resolution. (The Pocket Veto Case, 279 U.S. 655 (1929)).

Climate change poses a profound threat to our future and future genera-

tions. Atmospheric levels of carbon dioxide, a primary greenhouse gas, are higher than they have been in at least 800,000 years. In 2009, EPA determined that greenhouse gas pollution endangers Americans' health and welfare by causing long-lasting changes in the climate that can have, and are already having, a range of negative effects on human health, the climate, and the environment. We are already seeing the impacts of climate change, and established science confirms that we will experience stronger storms, deeper droughts, longer wildfire seasons, and other intensified impacts as the planet warms. The Pentagon has determined that climate change poses immediate risks to our national security.

Power plants are the largest source of greenhouse gas pollution in our country. Although we have limits on other dangerous pollutants from power plants, the carbon pollution standards and the Clean Power Plan ensure that we will finally have national standards to reduce the amount of carbon pollution that our power plants can emit.

The carbon pollution standards will ensure that, when we make major investments in power generation infrastructure, we also deploy available technologies to make that infrastructure as low-emitting as possible. By blocking these standards from taking effect, S.J. Res. 23 would delay our transition to cleaner electricity generating technologies by enabling continued build-out of outdated, high-polluting infrastructure. Because it would overturn carbon pollution standards that are critical to protecting against climate change and ensuring the health and well-being of our Nation, I cannot support the resolution.

To leave no doubt that the resolution is being vetoed, in addition to withholding my signature, I am returning S.J. Res. 23 to the Secretary of the Senate, along with this Memorandum of Disapproval.

BARACK OBAMA.

JOINT RESOLUTION

Providing for congressional disapproval under chapter 8 of title 5, United States Code, of a rule submitted by the Environmental Protection Agency relating to "Standards of Performance for Greenhouse Gas Emissions from New, Modified, and Reconstructed Stationary Sources: Electric Utility Generating Units".

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress disapproves the rule submitted by the Environmental Protection Agency relating to "Standards of Performance for Greenhouse Gas Emissions from New, Modified, and Reconstructed Stationary Sources: Electric Utility Generating Units" (published

at 80 Fed. Reg. 64510 (October 23, 2015)), and such rule shall have no force or effect.

PAUL D. RYAN,
Speaker of the House of Representatives.
ORRIN HATCH,
President of the Senate pro tempore.

REPORT OF THE VETO OF S.J. RES. 24, PROVIDING FOR CONGRESSIONAL DISAPPROVAL UNDER CHAPTER 8 OF TITLE 5, UNITED STATES CODE, OF THE RULE SUBMITTED BY THE ENVIRONMENTAL PROTECTION AGENCY RELATING TO "CARBON POLLUTION EMISSION GUIDELINES FOR EXISTING STATIONARY SOURCES: ELECTRIC UTILITY GENERATING UNITS", RECEIVED DURING ADJOURNMENT OF THE SENATE ON DECEMBER 18, 2015—PM 35

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States which was ordered to be printed in the RECORD, spread in full upon the Journal, and held at the desk:

MEMORANDUM OF DISAPPROVAL

S.J. Res. 24 is a joint resolution providing for congressional disapproval under chapter 8 of title 5 of the United States Code of a rule submitted by the Environmental Protection Agency (EPA) relating to "Carbon Pollution Emission Guidelines for Existing Stationary Sources: Electric Utility Generating Units." This resolution would nullify the Clean Power Plan, the first national standards to address climate-destabilizing greenhouse gas pollution from existing power plants. Accordingly, I am withholding my approval of this resolution. (The Pocket Veto Case, 279 U.S. 655 (1929)).

Climate change poses a profound threat to our future and future generations. Atmospheric levels of carbon dioxide, a primary greenhouse gas, are higher than they have been in at least 800,000 years. In 2009, EPA determined that greenhouse gas pollution endangers Americans' health and welfare by causing long-lasting changes in the climate that can have, and are already having, a range of negative effects on human health, the climate, and the environment. We are already seeing the impacts of climate change, and established science confirms that we will experience stronger storms, deeper droughts, longer wildfire seasons, and other intensified impacts as the planet warms. The Pentagon has determined that climate change poses immediate risks to our national security.

The Clean Power Plan is a tremendously important step in the fight against global climate change. It is projected to reduce carbon pollution from power plants by 32 percent from 2005 levels by 2030. It builds on progress States and the power sector are already making to move toward cleaner

energy production, and gives States the time and flexibility they need to develop tailored, cost-effective plans to reduce their emissions. By nullifying the Clean Power Plan, S.J. Res. 24 not only threatens ongoing progress toward cleaner energy, but would also eliminate public health and other benefits of up to \$54 billion per year by 2030, including thousands fewer premature deaths from air pollution and thousands fewer childhood asthma attacks each year.

The Clean Power Plan is essential in addressing the largest source of greenhouse gas pollution in our country. It is past time to act to mitigate climate impacts on American communities. Because the resolution would overturn the Clean Power Plan, which is critical to protecting against climate change and ensuring the health and well-being of our Nation, I cannot support it.

To leave no doubt that the resolution is being vetoed, in addition to withholding my signature, I am returning S.J. Res. 24 to the Secretary of the Senate, along with this Memorandum of Disapproval.
