

And there is no way teaching our young people that is going to lead to anything other than resentment and a great deal of unhappiness. I think it is obvious that America does not have the racist problems that other countries have. And I beg people to read about countries like India, countries like Somalia, where minor ethnic differences result in deaths, huge amounts of discrimination.

Here in the United States, in recent years, Asians, and before that, many other different so-called minority groups outdid financially—finances aren't everything—but financially exceeded the native-born.

We can see that America is not a racist country because I talked about, a second ago, people from all around the world are trying to get in here, and almost nobody ever wants to leave. So when it really comes to saying it is bad, no one wants to leave, but the whole rest of the world tries to come here, be it from Africa, be it from Latin America, be it from the Indian subcontinent, be it from Southeast Asia.

So many wonderful people come here. My district has a lot of Hmong who are tremendously successful, despite coming from a very different background, loving America, taking full advantage of the opportunities that are there.

However, if we let this pernicious ideology get in our schools and get in our businesses, it will be a success for the left-wing groups that have always wanted to destroy the special country that is America.

And I encourage parents and grandparents and employees to report or publicize when they are forced to put up with this stuff in the schools or in the businesses.

There is something for our wonderful American listeners to deal with over the next 3 weeks.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities towards the vice president.
