## NOT VOTING—1

Pence

□ 1609

Messrs. SIMPSON and FULCHER changed their vote from “yea” to “nay.”

Mr. GOMEZ changed his vote from “nay” to “yea.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PROVIDING ACCOMMODATIONS  
FOR NURSING MOTHERS IN THE  
WORKPLACE

(Ms. BOURDEAUX asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BOURDEAUX. Mr. Speaker, I rise today in support of the PUMP for Nursing Mothers Act, which will be considered by the House later this week.

As a working mother, I strongly support this bipartisan bill to provide reasonable accommodations to nursing mothers in the workplace.

The PUMP for Nursing Mothers Act, among other critical changes, would extend the break time and space protections to workers who are currently excluded from overtime protections, including teachers, transportation workers, and agriculture workers.

I was proud to work as part of a bipartisan group along with the bill's sponsor, Representative CAROLYN B. MALONEY, to offer an amendment which maintains the undue hardship exemption threshold at its current level of 50 employees.

The PUMP for Nursing Mothers Act is supported by a broad coalition of stakeholders, including the National Retail Federation, the U.S. Chamber of

Commerce, the National Education Association, and the American Civil Liberties Union.

Mr. Speaker, I enthusiastically support this bill and urge all Members to do the same when it comes before the House this week.

IRS DATA COLLECTION PROPOSAL  
BAD FOR FAMILIES, BUSINESSES

(Mr. GUEST asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUEST. Mr. Speaker, I rise today to encourage my colleagues to join me in opposition to the proposed IRS reporting plan that would intrude on the bank accounts of Americans and impose new regulations on our already overregulated banking system.

First, it is not apparent that the IRS has any constitutional authority to monitor Americans in this way.

Second, the American public does not support the expansion of IRS bank data collection. Recent polling shows bipartisan opposition, with 67 percent of those polled opposed to the IRS collecting bank deposit and withdrawal information.

Finally, this would add another regulatory burden to our financial institutions after a historic year when banks and credit unions provided lifelines to families, businesses, and communities during the COVID-19 pandemic.

This proposal imposes upon our right to privacy and is bad for families, small businesses, and financial institutions. I hope my colleagues across the aisle will reconsider their support for this unwarranted expansion of government.

BUILD BACK BETTER FOR  
HEALTHCARE

(Mr. KAHELE asked and was given permission to address the House for 1 minute.)

Mr. KAHELE. Mr. Speaker, for far too long, America's broken for-profit healthcare system has left millions of Americans uninsured or underinsured.

While out-of-pocket costs and corporate profits continue to rise, 8 million Americans have turned to a new form of health insurance, online fundraisers like GoFundMe, to pay their medical bills.

My nephew, Sean Day, was one of them. He passed away from cancer earlier this month at just 22 years of age.

Mr. Speaker, we live in the richest country in the world. No one should be priced out of the healthcare that they need or delay seeing a doctor just because they can't afford it. No one should be forced to ask strangers online to crowdfund their medical bills. It is simply not right.

This is why we must pass the Build Back Better Act. The Build Back Better Act will invest in our communities' healthcare, expand medical coverage for our kupuna, and lower prescription drug prices. It will save lives.

During the deadliest pandemic in U.S. history, we must deliver the care that American families deserve. We must leave no one behind.

BIDEN'S BANK SURVEILLANCE  
SCHEME IS POWER GRAB

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, the Biden proposed surveillance scheme is an ill-advised power grab, which is turning trusted local financial institutions into IRS reporting agents infringing upon the privacy of everyday Americans.

The IRS already knows how much you earn. Now they want to know exactly how you spend it. This is a total breach of personal financial privacy with a presumption of guilt that I am not okay with.

How can we expect our citizens to place trust in their government when their government is keeping tabs on their every single transaction?

A lot of people wonder how people come to Congress and become millionaires while they are serving in Congress.

This is just another push by the government to exercise control over our everyday lives. It is also a disincentive for people to save and keep money in banks and credit unions because they don't want to have every single thing tracked. Do we want to have our savings kept in coffee cans or mattresses? That is a pretty bad way to go.

Whether it is \$600 per transaction or up to \$10,000 per year cumulative, it is an invasion of privacy. We don't need another 80,000 IRS agents tracking us when we have a border that is like a sieve and other problems of much greater magnitude than what you or I are saving or spending our personal wealth on.

It is a wrongheaded policy. The Biden administration and this House needs to take back such ideas.

RECOGNIZING DR. RENEE F.  
WASHINGTON GARDNER

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute.)

Mr. ESPAILLAT. Mr. Speaker, I rise today to honor a woman of many firsts, an upstanding member of our community, and someone I am blessed to call a constituent. Her name is Dr. Renee F. Washington Gardner.

She is the longest-serving female pastor of Harlem's Memorial Baptist Church in its entire history, dedicating decades of her life in service to church, her community, and God. This past Sunday marked her 17th year of service.

She is the first woman to also be named a moderator of the United Missionary Baptist Association in the group's 60-year history. Pastor Gardner

is no stranger to shattering glass ceilings and paving the way for the next generation of cleric leaders.

Under her guiding principle of unity, hope, and grace, Memorial Baptist Church has proven vital to the strength and resiliency of Harlem, and we are forever indebted.

With Pastor Gardner at the helm, I trust that this work is only the beginning, and the Memorial Baptist Church will continue their mission of uplifting our community's most vulnerable and ingraining the spirit of strength into the fabric of our neighborhood.

#### RECOGNIZING ALBERT EDWARD PELHAM

(Ms. SHERRILL asked and was given permission to address the House for 1 minute.)

Ms. SHERRILL. Mr. Speaker, I rise to recognize Albert Edward Pelham, a beloved community leader and student advocate from my town, Montclair, New Jersey.

Al was known for bringing people together. His work aided and inspired generations of Montclairians, and he leaves behind a beautiful legacy.

Al was raised in Montclair and graduated from Montclair High School. He served our country in the U.S. Army before returning to New Jersey and graduating from Bloomfield College.

From his leadership in the Montclair NAACP, the Montclair Neighborhood Development Corporation, Statewide Parent Advocacy Network, Montclair African-American Heritage Foundation, and more, he dedicated himself to making his community a better and fairer place.

One of Al's many achievements was the creation of Project Oasis, which offers year-round educational and recreational opportunities for students. When the COVID-19 pandemic began, Al adapted the program and organized a remote learning space so that all students had access to a computer to attend their virtual classes.

He also created a program for students who were suspended to provide them with academic training and counseling as an alternative to staying at home.

Al worked to ensure that all students, regardless of their background, had opportunities to excel.

Al fought tirelessly for racial justice and inclusivity, guiding both the Montclair NAACP and the Montclair African-American Heritage Foundation through especially difficult times in our country. In 2019, he was recognized for these efforts with the Essex County Dr. Martin Luther King Jr. Leadership Award.

Al's dedication to his community was matched by his deep commitment to his family. Al took any opportunity he could to be with his wife, Audrey; his children, Dwayne and Rhonda; his grandchildren, Charles and Cameron; his sisters; and extended family.

On August 19, 2021, Al passed away after a battle with cancer. His selfless

commitment to making Montclair a better place will not soon be forgotten. I was honored to have known Al and to have called him my friend. The counsel he gave me and so many others over the years will continue to impact us and the entire Montclair community for generations to come.

#### WE CANNOT ALLOW AN INDIVIDUAL TO UNDERMINE DEMOCRACY

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Mr. Speaker, I rise today to be able to further defend and add to my statement regarding H. Res. 730 recommending that the House of Representatives find Stephen K. Bannon in contempt of Congress.

It is well known that even from his own words and published reports, these are the words that Mr. Bannon told his listeners:

"All hell is going to break loose tomorrow."

"It is not going to happen like you think it is going to happen. Okay. It is going to be quite extraordinarily different. All I can say is, strap in. . . . You have made this happen, and tomorrow, it is game day. So strap in. Let's get ready."

"So many people through my life said, man, if I was in the Revolution, I would be with Washington at Trenton. Well, this is your time in history."

There is no constitutional provision that would deny the January 6th Select Committee the right to receive information from Mr. Bannon after he has been subpoenaed for information regarding the insurrection, the riot, the attack on January 6.

The idea of executive privilege is exerted by the existing President, limited on a President of the United States no longer in office. In fact, Mr. Bannon has been gone from the White House since 2017. He has no legitimate basis.

Based on three equal branches of government, we cannot allow an individual to undermine democracy. This is a democratic republic, and I expect that the referral to the United States Department of Justice will be handled.

#### INVESTMENTS TO BUILD BACK BETTER

The SPEAKER pro tempore (Mr. BOWMAN). Under the Speaker's announced policy of January 4, 2021, the gentlewoman from New Mexico (Ms. LEGER FERNANDEZ) is recognized for 60 minutes as the designee of the majority leader.

#### GENERAL LEAVE

Ms. LEGER FERNANDEZ. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New Mexico?

There was no objection.

Ms. LEGER FERNANDEZ. Mr. Speaker, we are here today to talk about the importance of this historic moment indeed, this historic moment of where we will be investing—investing in our children, investing in our planet, investing in our future. We are talking about the Build Back Better agenda.

I want to begin by talking about my district, which is made up of beautifully diverse rural communities. My district is the size of Pennsylvania, but my communities in this district are rich in culture and rich in love. You know what? They have also been historically left behind with little investments made to improve their lives and to allow them to thrive.

New Mexican values are rooted in caring for each other. We know that we invest in what we care about. We know we invest in what we believe in. Well, we must invest in addressing the climate crisis because, in my district, we know that *agua es vida*, water is life. Our farmers and ranchers are depending on us to act and preserve their water resources.

Communities along our rivers, along our acequias, need us to pass a Build Back Better plan that tackles the crisis head-on so that we can preserve the water flowing from our mountains and cascading along our streams for decades to come—to feed our ranchers, to feed our farmers, and to quench our thirst.

In these same communities, people often come back home to care for their loved ones, their parents and grandparents. I have heard their stories. We asked them: Why did you come back? It is because there was nobody else available to care for my grandmother. There was nobody else to care for my tia. And we know that that care is a full-time job on its own.

What does it take to go to work in rural America? It is more than just roads and bridges. It is comprehensive paid family and medical care. It is investments in long-term care and affordable childcare.

□ 1630

In my State, 53 percent of people live in a childcare desert. Seventy-one percent of rural families live in areas without enough licensed childcare providers. We can change that.

The Build Back Better plan must invest in our rural communities. We are talking about empowering rural regions, including our Tribal nations, with the resources to grow their economies, expanding access to affordable healthcare, lowering prescription drug prices, and making housing affordable. We can do this for our communities now. We can make this happen. We made progress with the American Rescue Plan, but we cannot stop there. We must build back better.

It is not good enough to go back to where we were, because we know that where we were wasn't good enough. So
