#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTION

By Mrs. FEINSTEIN (for herself and Mrs. BLACKBURN):

S. 752. A bill to amend the Internal Revenue Code of 1986 to provide for an election to expense certain qualified sound recording costs otherwise chargeable to capital account; to the Committee on Finance.

Mrs. FEINSTEIN. Mr. President, I rise to speak in support of the "Help Independent Tracks Succeed (HITS) Act," which Senator BLACKBURN and I introduced today. Representatives LINDA SANCHEZ (D-CA) and RON ESTES (R-KS) have introduced companion legislation in the House of Representatives.

Since the start of the COVID-19 pandemic, I have consistently heard from independent musicians and producers in California who have lost a large percentage of their incomes due to concerts, festivals, and other events being cancelled.

With many live performance stages and venues across the Nation closed for months as a result of the pandemic, independent musicians and music makers such as technicians and creators have suffered significant loss of income.

According to a survey by the Copyright Alliance, 88 percent of creators have lost income due to the coronavirus pandemic, which is more than double the national average. Approximately half of survey respondents had lost 90 percent or more of their income.

Our bill would provide some relief to music creators by allowing independent musicians, technicians, and music producers to deduct the cost of producing new musical recordings, putting them on a level playing field with other arts productions.

The U.S. Tax Code allows film, television, and theater productions to fully deduct production expenses in the year they are incurred.

However, recording artists are not given the same treatment, and are forced instead to amortize their production expenses over a number of years.

The HITS Act would allow qualified sound recording producers to deduct 100% of recording production expenses—up to \$150,000—in the year they are incurred, rather than in later years.

Because this change would simply accelerate a tax deduction that already exists, the bill's expected cost would be minimal.

In addition, because the deduction would be capped at \$150,000 per production, our legislation would benefit smaller, independent musicians and music producers rather than large companies.

The coronavirus pandemic has had a dramatic impact on music creators around the Nation. Our bill would help create parity between musical creators and other creative producers, stimulate the economy, and get music makers back to work.

I hope my colleagues will join me in support of this bill. Thank you, Mr. President, and I yield the floor.

By Mr. THUNE (for himself, Ms. STABENOW, Mr. PORTMAN, Ms. BALDWIN, Mrs. CAPITO, and Mr. CARDIN):
