STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KAINE (for himself and Mr. PORTMAN):

S. 1078. A bill to require the Secretary of Labor to award grants for promoting industry or sector partnerships to encourage industry growth and competitiveness and to improve worker training, retention, and advancement as part of an infrastructure investment; to the Committee on Health, Education, Labor, and Pensions.

Mr. KAINE. Mr. President, The U.S. Infrastructure system is in critical need of an upgrade. In February 2021, the American Society of Civil Engineers (ASCE) graded 11 of 17 infrastructure categories a D+ or worse. Systems across the Nation are in dire need of repair, including our bridges, public transit, roads, and schools.

A recent study by the Center of Education and the Workforce at Georgetown University estimated that a \$1.5 trillion infrastructure investment would create 15 million new jobs. Nearly half of these would require training past the high school level. Even without a significant investment, though, infrastructure industries are already struggling to meet workforce demands. Though the need to invest in infrastructure goes back decades, there's renewed momentum today, especially as more than 10 million people remain unemployed across the country as a result of COVID-19, exacerbating the already historic inequities that have limited women and people of color from accessing these jobs. Investments in infrastructure skills training must serve people of color, women, and other communities who have historically been excluded from good careers in infrastructure.

Industry and sector partnerships are a proven strategy for helping workers prepare for jobs that lead to strong career pathways and helping businesses find skilled workers. Congress requires states and local areas to support the development of these partnerships under the Workforce Innovation and Opportunity Act (WIOA), but no dedicated funding has been provided for these activities.
