SEC. ____ . POINT OF ORDER TO ENSURE UNITED STATES ADEQUATELY FUNDS NATIONAL DEFENSE.

(a) FINDINGS.—The Senate makes the following findings:

(1) Relative to the February 2021 Congressional Budget Office spending baseline, President Joseph R. Biden has proposed more than \$6,000,000,000,000 in nondefense spending outside the annual appropriations process.

(2) President Biden's fiscal year 2022 budget request proposes to increase spending in the nondefense discretionary category by almost 20 percent while cutting the United States defense budget in real terms.

(3) This Act contains more than \$100,000,000,000 of authorizations of appropriations without a single additional dollar authorized to be appropriated for the Department of Defense.

(4) The United States Armed Forces has lost \$400,000,000,000 relative to inflation since 2011.

(5) The People's Liberation Army has experienced real budget growth for more than two decades, including 6.8 percent growth in 2021.

(6) A July 22, 2019, statement by Speaker of the House of Representatives Nancy Pelosi and Senator Chuck Schumer stated that “Democrats have always insisted on parity in increases between defense and non-defense”.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that Congress should adequately fund national defense with a whole-of-government investment plan for strategic competition with the People's Republic of China, including by adhering to the principle of parity between increases for defense and nondefense spending, which would result in significant real growth for the defense budget.

(c) POINT OF ORDER FOR FISCAL YEAR 2022.—It shall not be in order in the Senate to consider—

(1) a concurrent resolution on the budget, or an amendment to, conference report on, amendment between the Houses in relation to, or a motion on a concurrent resolution on the budget, that determines and declares as the appropriate level of new discretionary budget authority for major functional category 050 (National Defense) for fiscal year 2022 an amount that is less than the total amount of the appropriate level of new discretionary budget authority determined and declared for all major functional categories other than major functional category 050 for fiscal year 2022;

(2) a bill or joint resolution reported pursuant to section 310 of the Congressional Budget Act of 1974 (2 U.S.C. 641), or an amendment to, conference report on, amendment between the Houses in relation to, or motion

on such a bill or joint resolution, that appropriates amounts for 1 or more major functional categories other than major functional category 050 for fiscal year 2022 and does not appropriate amounts for major functional category 050 for fiscal year 2022 in an amount that is not less than the amount appropriated under that measure for all major functional categories other than major functional category 050 for fiscal year 2022; or

(3) a bill or joint resolution making appropriations for fiscal year 2022, or an amendment to, conference report on, amendment between the Houses in relation to, or motion on such a bill or joint resolution, that would cause the total amount of appropriations for the revised nonsecurity category for fiscal year 2022 to exceed the total amount of appropriations for the revised security category for fiscal year 2022.

(d) WAIVER AND APPEAL.—Subsection (c) may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under subsection (a).

(e) DEFINITIONS.—In this section, the terms “revised nonsecurity category” and “revised security category” have the meanings given those terms in section 250(c)(4) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900(c)(4)).

SEC. 3314. ENDING CHINA'S EXIT BAN FOR AMERICAN CITIZENS.

(a) SHORT TITLE.—This section may be cited as the “Ending China's Exit Ban for American Citizens Act of 2021”.

(b) FINDINGS.—Congress finds the following:

(1) According to the Integrated Country Strategy for the United States Mission to China, released on August 29, 2018—

(A) “Chinese law enforcement and security services employ extra-judicial means against U.S. citizens without regard to international norms”; and

(B) exit bans “are sometimes used to prevent U.S. citizens who are not themselves suspected of a crime from leaving China as a means to pressure their relatives or associates who are wanted by Chinese law enforcement in the United States”.

(2) The Government of China has imposed exit bans on United States citizens in the context of criminal charges and private commercial disputes.

(3) Imposing exit bans on foreign nationals is authorized by Article 28 of the Exit and Entry Administration Law of the People's Republic of China, which—

(A) lists the circumstances under which “foreigners shall not be allowed to exit China”, including “other circumstances in which exit shall not be allowed in accordance with laws or administrative regulations”; and

(B) assigns responsibility for administering exit/entry matters to the Ministry of Public Security and the Ministry of Foreign Affairs, with public security organs responsible for administering “the stay and residence of foreigners.

(4) Such exit bans against United States citizens may violate Article 35 of the Consular Convention Between the United States of America and the People's Republic of China, done at Washington September 17, 1980, which states that—

(A) if a United States national is “placed under any form of detention”, the Government of China shall notify the United States consulate within 4 days; and

(B) a United States consular officer is entitled to “be informed of the reasons for which said national has been arrested or detained in any manner.”

(5) Such exit bans may also violate Article 36 of the Vienna Convention on Consular Relations, done at Vienna April 24, 1963, and in effect in China as of August 1, 1979, which requires the Government of China to “without delay, inform the consular post of the sending State if, within its consular district, a national of that State. . . is detained in any other manner.”.

(6) Many United States citizens are not aware of a ban on their exit until they attempt to leave China and once they are made aware of the ban, Chinese authorities provide very little information to the United States citizen, or to United States consular officials regarding—

(A) the nature of the ban;

(B) which Chinese government entity is responsible for the ban; and

(C) what procedures must be followed to resolve the dispute related to the ban.

(7) The apparent extra-judicial application of exit bans to United States citizens presents a serious human rights concern that violates due process rights to which United States citizens are entitled under international law.

(C) INELIGIBILITY OF CERTAIN ALIENS FOR VISAS.—If the Secretary of State determines that an official of the Government of China has been substantially involved in the formulation or execution of a policy that prohibits certain United States citizens from leaving China in an attempt to convince a relative of such citizens to submit himself or herself into the custody of the Government of China for prosecution, to compel United States citizens to participate in Chinese government investigations, or to aid the Government of China in resolving civil disputes in favor of Chinese parties—

(1) such official may not be issued a visa to enter the United States or be admitted to the United States; and

(2) any visa or other documentation to enter or to be present in the United States that was previously issued to such official shall be revoked by the Secretary of State, in accordance with section 221(i) of the Immigration and Nationality Act (8 U.S.C. 1201(i)).

(D) TERMINATION OF VISA INELIGIBILITY.—

(1) IN GENERAL.—The Secretary of State may terminate visa ineligibility under subsection (c) with respect to an individual if the Secretary of State determines that—

(A) credible information exists that the individual did not engage in the activity for which visa ineligibility was imposed;

(B) the individual has been prosecuted appropriately for the activity for which visa ineligibility was imposed;

(C) the individual has—

(i) credibly demonstrated a significant change in behavior;

(ii) been subject to an appropriate consequence for the activity for which visa ineligibility was imposed; and

(iii) credibly committed to not engage in an activity described in subsection (c) in the future; or

(D) the termination of visa ineligibility is in the national security interests of the United States.

(2) NOTIFICATION.—Not later than 15 days before the date on which visa ineligibility is terminated under paragraph (1) with respect to an individual, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate, the Committee on the Judiciary of the Senate, the Committee on Foreign Affairs of the House of Representatives, and the Committee on the Judiciary of the House of Representatives that describes the justification for the termination.

(E) ANNUAL REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, and annually thereafter for the following 5 years, the Secretary of State shall submit a report to the congressional committees listed in subsection (d)(2) that identifies—

(A) to the extent practicable, all of the Chinese officials who were substantially involved in the formulation or execution of a policy that prohibits certain United States citizens from leaving China in an attempt—

(i) to convince a relative of such citizens to submit himself or herself into the custody of the Government of China for prosecution;

(ii) to compel United States citizens to participate in Chinese government investigations; or

(iii) to aid the Government of China in resolving civil disputes in favor of Chinese parties;

(B) the individuals who have had visas denied or revoked pursuant to subsection (c) during the preceding year, including the dates on which such denials or revocations were imposed or terminated, as applicable;

(C) the number of United States citizens who the Government of China has prohibited from leaving China for any of the reasons described in subsection (c); and

(D) for each of the United States citizens referred to in subparagraph (C), the period during which they have been forced to remain in China.

(2) FORM.—The report required under paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(3) EXCLUSION OF PERSONALLY IDENTIFIABLE INFORMATION.—The Secretary of State may not include any personally identifying information of any United States citizen in any of the reports submitted to Congress under paragraph (1).

(4) PRIVACY ACT.—Any information obtained by the Secretary of State to complete the report under this subsection shall be subject to section 552a of title 5, United States Code (commonly known as the “Privacy Act”).

(f) WAIVER FOR NATIONAL INTEREST.—

(1) IN GENERAL.—The Secretary of State may waive the application of subsection (c) in the case of an alien if the Secretary determines that such waiver—

(A) is necessary to permit the United States to comply with the Agreement Regarding the Headquarters of the United Nations, signed at Lake Success June 26, 1947, and entered into force November 21, 1947 (TIAS 1676), or any other applicable international obligation of the United States; or

(B) is in the national interest of the United States.

(2) NOTIFICATION.—Upon granting a waiver under paragraph (1), the Secretary of State shall submit a report to the congressional committees listed in subsection (d)(2) that—

(A) details the evidence and justification for the necessity of such waiver; and

(B) if such waiver is granted pursuant to paragraph (1)(B), explains how such waiver relates to the national interest of the United States.

SA 1550. Mr. MARKEY submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. SCHUMER to the bill S. 1260, to establish a new Directorate for Technology and Innovation in the National Science Foundation, to establish a regional technology hub program, to require a strategy and report on economic security, science, research, innovation, manufacturing, and job creation, to establish a critical supply chain resiliency program, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 3503 and insert the following:

SEC. 503. REPORT ON UNITED STATES EFFORTS TO ENGAGE THE PEOPLE'S REPUBLIC OF CHINA ON NUCLEAR ISSUES AND BALLISTIC MISSILE ISSUES.

(a) FINDINGS.—Congress makes the following findings:

(1) The People's Republic of China has not entered into a treaty or agreement with the United States or any other party that places binding limits on its shorter-range, intermediate-, or strategic-range ballistic missiles, verified by national technical means and by on-site inspections, as the United States and the Russian Federation have done through the Intermediate-Range Nuclear Forces (INF) Treaty, the START I and START II Treaties, and the New START Treaty, each of which took multiple years to successfully negotiate.

(2) The People's Republic of China possesses significantly fewer intercontinental ballistic missiles, submarine launched ballistic missiles, and heavy bombers than the Russian Federation or the United States, and according to the Defense Intelligence Agency, the People's Republic of China's warhead stockpile is in the “the low couple of hundreds”, a fraction of the size of the arsenals of the Russian Federation and the United States.

(3) The People's Republic of China has repeatedly declined invitations by the United States to enter into bilateral negotiations for an arms control treaty or other agreement regarding its nuclear arsenal.

(b) REPORT REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation

with the Secretary of Defense and the Secretary of Energy, shall submit to the appropriate congressional committees a report that sets forth a plan to engage the People's Republic of China on steps that reduce the risk of strategic miscalculation and the threat of a nuclear exchange, which may include any of the following proposals:

(1) A formal invitation to appropriate officials from the People's Republic of China, and to each of the permanent members of the United Nations Security Council, to observe a United States-Russian Federation New START Treaty on-site inspection to demonstrate the security benefits of transparency into strategic nuclear forces.

(2) Negotiations toward a treaty or agreement that prohibits the production of fissile material.

TITLE VI—TRANSNATIONAL REPRESSION ACCOUNTABILITY AND PREVENTION

SECTION 3601. SHORT TITLE.

This title may be cited as the “Transnational Repression Accountability and Prevention Act of 2021” or as the “TRAP Act of 2021”.

SEC. 3602. FINDINGS.

Congress makes the following findings:

(1) The International Criminal Police Organization (INTERPOL) works to prevent and fight crime through enhanced cooperation and innovation on police and security matters, including kleptocracy, counterterrorism, cybercrime, counternarcotics, and transnational organized crime.

(2) United States membership and participation in INTERPOL advances the national security and law enforcement interests of the United States related to combating

kleptocracy, terrorism, cybercrime, narcotics, and transnational organized crime.

(3) Article 2 of INTERPOL’s Constitution states that the organization aims “[to] ensure and promote the widest possible mutual assistance between all criminal police authorities . . . in the spirit of the ‘Universal Declaration of Human Rights’”.

(4) Article 3 of INTERPOL’s Constitution states that “[i]t is strictly forbidden for the Organization to undertake any intervention or activities of a political, military, religious or racial character”.

(5) These principles provide INTERPOL with a foundation based on respect for human rights and avoidance of politically motivated actions by the organization and its members.

(6) Some INTERPOL member countries have used INTERPOL’s databases and processes, including Notice and Diffusion mechanisms and the Stolen and Lost Travel Document Database, for activities of a political or other unlawful character and in violation of international human rights standards, including making requests to INTERPOL for interventions related to purported charges of ordinary law crimes that are fabricated for political or other unlawful motives.

(7) According to the Justice Manual of the United States Department of Justice, “[i]n the United States, national law prohibits the arrest of the subject of a Red Notice issued by another INTERPOL member country, based upon the notice alone” and requires the existence of a valid extradition treaty between the requesting country and the United States, a valid request for provisional arrest of the subject individual, and an arrest warrant issued by a United States District Court based on a complaint filed by the United States Attorney’s Office of the subject jurisdiction.

SEC. 3603. STATEMENT OF POLICY.

(A) Support INTERPOL’s reforms enhancing the screening process for Notices, Diffusions, and other INTERPOL communications to ensure they comply with INTERPOL’s Constitution and Rules on the Processing of Data (RPD).

(B) Support and strengthen INTERPOL’s coordination with the Commission for Control of INTERPOL’s Files (CCF) in cases in which INTERPOL or the CCF has determined that a member country issued a Notice, Diffusion, or other INTERPOL communication against an individual in violation of articles 2 or 3 of the INTERPOL Constitution, or the RPD, to prohibit such member country from seeking the publication or issuance of any subsequent Notices, Diffusions, or other INTERPOL communication against the same individual based on the same set of claims or facts.

(C) Support candidates for positions within INTERPOL’s structures, including the Presidency, Executive Committee, General Secretariat, and CCF who have demonstrated experience relating to and respect for the rule of law.

(D) Seek to require INTERPOL in its annual report to provide a detailed account of the following information, disaggregated by member country or entity:

(i) The number of Notice requests, disaggregated by color, that it received.

(ii) The number of Notice requests, disaggregated by color, that it rejected.

(i) The number of admissible requests for correction or deletion of data received by the CCF regarding issued Notices, Diffusions, and other INTERPOL communications.

(ii) The category of violation alleged in each such complaint.

(4) According to a study and model by the USITC published in March 2021, nearly 11 percent of total United States seafood imports and more than 13 percent of United States imports caught at sea in 2019 were derived from illegal, unreported, or unregulated fishing.

(5) As recognized by the FAO, traceability of fish and fishery products is critical for verifying the integrity of a supply chain and ensures the quality and safety of the fishery products of the supply chain, the legality of such products, and that such products originate from fisheries that are sustainably managed.

(6) Effective implementation of the Agreement on Port State Measures to Prevent, Deter, and Eliminate Illegal, Unreported, and Unregulated Fishing set forth by the Food and Agriculture Organization of the United Nations, done at Rome, Italy November 22, 2009, and entered into force June 5, 2016, including the provisions of the agreement relating to cooperation, will be enhanced by ensuring effective traceability of seafood imported into the United States.

SEC. 73006. SENSE OF CONGRESS ON LEADERSHIP AT WORLD TRADE ORGANIZATION.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States had led the formation, as well as reform, of rules governing the multilateral trading system since World War II.

(2) The United States is a founding member of the World Trade Organization (in this section referred to as the “WTO”) and a key architect of the organization.

(3) The United States secured important commitments in the WTO to facilitate trade in goods and services, to prevent the application of non-scientific restrictions on United States agriculture, and to protect United States intellectual property.

(4) The United States uses the rules of the WTO to benefit workers, farmers, fishers, and businesses in the United States by facilitating access to the 90 percent of the world’s consumers who live outside the borders of the United States.

(5) The fundamental purpose of the WTO is to create space for members to negotiate with each other, and the WTO reserves to those members exclusively the right to nego-

tiate and adopt rules that reduce and eliminate trade barriers and discriminatory treatment.

(6) The prompt settlement of disputes in which a member of the WTO considers that its rights are being impaired by the actions of another member is essential to the functioning of the WTO and the maintenance of a proper balance between the rights and obligations of members.

(7) The WTO’s dispute settlement function, including in particular the Appellate Body, has increasingly failed to enforce the rules of the WTO in a timely manner, and has usurped the negotiating prerogative of members by creating new obligations and rights that are inconsistent with or not included in the rules negotiated by members.

(8) The creation of those obligations and rights undermines—

(A) the WTO’s negotiating function by discouraging members from making concessions; and

(B) the WTO’s dispute settlement function by encouraging overuse of the process and undermining its legitimacy, including by preventing free market economies from responding to globally trade distortive practices by nonmarket economies.

(9) The WTO does not have sufficient rules to discipline the distortive economic policies of nonmarket economies, such as policies relating to excess capacity and forced technology transfer, the special treatment those economies afford to state-owned enterprises, and their massive and opaque industrial subsidies.

(10) There is long-standing bipartisan support in Congress to reform the WTO to address those failings.

(11) The current presidential administration, as well as prior administrations, raised concerns about the failings described in this subsection and have made reform of the WTO a top priority of United States trade policy.

(12) The United States urges WTO members to work constructively with the United States to assess the reasons why the existing WTO rules have proven inadequate in order to create an atmosphere within the WTO that is conducive to the development of new rules less subject to jurisprudential drift.

(13) The guiding principle for reform of the WTO, and the lens through which WTO members should consider specific reform proposals, is the restoration of the WTO’s capability and capacity for negotiation among members.

(14) The United States has achieved its trade policy objectives through active leadership at the WTO, and an absence of that leadership would be filled by nonmarket economies that are hostile to a host of United States interests.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) while the United States finds value and usefulness in the WTO, in order to fulfill the needs of the United States and other free and open economies in the 21st century, significant reforms are needed;

(2) the United States must therefore continue to demonstrate leadership to achieve reforms that restore the effectiveness of the WTO’s—

(A) negotiating function;

(B) dispute settlement function so that it transparently, efficiently, and fully enforces outcomes negotiated by members rather than usurping their primacy by creating new rights or obligations; and

(C) rules for special and differential treatment to ensure those rules promote advancement for truly developing countries, rather than becoming tools for globally competitive countries, like the People’s Republic of China, to engage in protectionism and market distortions;

(3) the efforts to reform the negotiating function of the WTO should revitalize the negotiating function by providing confidence to members that the WTO operates according to the rules as negotiated and adopted by members;

(4) a revitalized negotiating function must include new rules that reflect the 21st century economy, further combat anticompetitive and protectionist barriers, and ensure disputes are efficiently resolved;

(5) the United States Trade Representative should continue to lead efforts to work with WTO members to pursue reforms at the WTO that—

(A) ensure the dispute settlement mechanism faithfully applies the rules adopted by members, including by undertaking measures to ensure the WTO's Appellate Body does not create new rights and obligations;

(B) improve public confidence in dispute settlement by promoting greater transparency and efficiency in the conduct of proceedings;

(C) redress the consistent failure by certain members to satisfy their notification obligations under various WTO agreements, including through measures that strengthen accountability;

(D) ensure rules for special and differential treatment are appropriately reserved for countries whose state of development and global competitiveness actually warrants such flexibility;

(E) create new rules and structures that can serve the interests of the United States while promoting peace, prosperity, good governance, transparency, effective operation of legal regimes, the rule of law, and free enterprise; and

(F) expand upon the trilateral negotiations currently underway with Japan and the European Union; and

(6) the United States Trade Representative should explore and assess specific reform proposals, including—

(A) pursuing plurilateral agreements that further the interests of the United States while limiting the benefits accruing to countries that are not parties to those agreements;

(B) efforts to ensure that incorrect interpretations by the Appellate Body, including with respect to the Agreement on Safeguards, the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994, and the Agreement on Subsidies and Countervailing Measures, are corrected, and not to be deemed precedential;

(C) new rules and norms to address practices of nonmarket economies, such as practices relating to state-owned enterprises, which certain countries often utilize for objectives that cause severe trade distortions; and

(D) better implementation of existing rules, such as the prohibition in paragraph 4 of Article XIV of the General Agreement on Tariffs and Trade on currency manipulation, to ensure that those rules are effective to preserve the rights of free market economies.

TITLE —NATIONAL FAB LAB NETWORK

SEC. 1. SHORT TITLE.

This title may be cited as the “National Fab Lab Network Act of 2021”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Scientific discoveries and technical innovations are critical to the economic and national security of the United States.

(2) Maintaining the leadership of the United States in science, technology, engineering, and mathematics will require a diverse population with the skills, interest, and access to tools required to advance these fields.

(3) Just as earlier digital revolutions in communications and computation provided individuals with the internet and personal computers, a digital revolution in fabrication will allow anyone to make almost anything, anywhere.

(4) These creations include elements of a typical household basket of goods (furnishings, apparel, food production equipment, shelter, transportation, education and communication, recreation, and other goods and services), personal technology, means for personal expression, the production of digital fabrication machinery, community design, and manufacturing capability.

(5) The Center for Bits and Atoms of the Massachusetts Institute of Technology (CBA) has contributed significantly to the advancement of these goals through its work in creating and advancing digital fabrication facilities, or “fab labs” in the United States and abroad.

(6) Such digital fabrication facilities may include MakerSpaces, Hackerspaces, and other creative spaces that use digital fabrication as a platform for education, innovation, entrepreneurship, personal expression, public access, and social impact.

At the end of division F, add the following:

**TITLE IV—LIMITATIONS ON
MODIFICATIONS TO TRADE AGREEMENTS
SEC. 6401. FINDINGS.**

Congress finds the following:

(1) Section 8 of article I of the United States Constitution provides Congress with authority over international trade. Congress has used that authority to approve a number of trade agreements, including the WTO Agreement.

(2) Section 8 of article I of the United States Constitution provides Congress with authority to provide intellectual property protections in order to “promote the progress of science and useful arts”. People in the United States rely on those protections to support jobs and continue the highly successful leadership of the United States with respect to innovation.

(3) The United States may not withdraw or otherwise alter the rights and obligations for the United States arising from a congressionally approved trade agreement without the consent of Congress.

(4) The United States is a global leader in containing and ending the COVID-19 pandemic.

(5) Innovators in the United States successfully and rapidly brought to fruition vaccines that provide highly effective protection against COVID-19. At facilities across the United States, thousands of United States workers are working around the clock to manufacture COVID-19 vaccines, contributing to the rapid, global scale up of manufacturing that is expected to reach at least 10,000,000,000 doses by the end of 2021.

(6) The United States is a founding member of the World Trade Organization. The United States has secured and supported critical commitments in the WTO for protection of intellectual property of United States persons and globally, including under the Trade-Related Aspects of Intellectual Property Rights Agreement or the TRIPS Agreement.

(7) In implementing the Uruguay Round, Congress established under section 315 of the Uruguay Round Agreements Act (19 U.S.C. 3581) that it is the objective of the United States to “accelerate the implementation” of the TRIPS Agreement and to “seek enact-

ment and effective implementation by foreign countries of laws to protect and enforce intellectual property rights that supplement and strengthen the standards” of the TRIPS Agreement.

(8) Longstanding intellectual property protections are critical to efforts by the United States and the biopharmaceutical industry to develop and manufacture vaccines for both people in the United States and around the world.

(9) The United States is committed to providing global access to COVID-19 vaccines.

(10) In order to accelerate production and distribution of COVID-19 vaccines, biopharmaceutical manufacturers in the United States are collaborating at a scale that previously was unimaginable, including by entering into hundreds of voluntary manufacturing, production, and other partnerships around the world.

(11) Manufacturing each of the COVID-19 vaccines involves highly specialized and unique infrastructure and equipment, as well as highly trained and experienced personnel. Manufacturing and distributing safe and effective COVID-19 vaccines on a global scale is incredibly challenging. Many experts on vaccine production and distribution are warning that waiving intellectual property protections will undermine the global response to the COVID-19 pandemic and compromise vaccine safety, including by disrupting the distribution of scarce raw materials for vaccines that existing vaccine makers with proven track records for delivering high-quality, safe, and effective vaccines need to continue their own production.

(12) The United States Trade Representative announced without any consultation with Congress that the United States will support a waiver of intellectual property protections under the TRIPS Agreement for COVID-19 vaccines. That decision is not consistent with the intellectual property negotiating objectives of the United States set forth in section 315 of the Uruguay Round Agreements Act (19 U.S.C. 3581).

(13) That waiver announcement created confusion, and raised concerns that a successful effort to suspend protections will weaken already strained supply chains and foster the proliferation of ineffective and potentially dangerous vaccines.

(14) The Trade Representative has not explained how a waiver of the TRIPS Agreement will expand vaccine production and access, particularly considering that the major impediments to vaccination efforts include the following:

(A) The difficulty in meeting the technical specifications of production and appropriately ensuring that finished vaccines are high-quality, safe, and effective.

(B) The scarcity of raw materials for the vaccines.

(C) Last-mile distribution and cold-chain storage.

(D) Trade barriers to the free flow of inputs and finished products.

(15) The Government of the People's Republic of China and the Government of the Russian Federation are engaged in large scale industrial espionage and technology theft of intellectual property of United States persons. The Department of Justice has issued indictments in connection with attempts sponsored by the Government of the People's Republic of China to steal United States vaccine research with respect to COVID-19.

(16) The Government of the People's Republic of China and the Government of the Russian Federation are using their vaccines as part of diplomatic efforts that may be contrary to the national security interests of the United States. Vaccines for COVID-19 manufactured by persons in the People's Re-

public of China and the Russian Federation appear to be less efficacious than those manufactured by producers in the United States. The Academy of Military Science, the scientific arm of the military of the People's Republic of China, is sponsoring the principal effort by the People's Republic of China to develop its own mRNA vaccine.

(17) At a hearing before the Committee on Finance of the Senate on May 12, 2021, the Trade Representative would not commit either—

(A) to ensure that any waiver of the TRIPS Agreement would exclude the People's Republic of China and the Russian Federation; or

(B) to ensure that Congress has advance access to the negotiating proposals of the United States for any such waiver.

(18) The innovative biopharmaceutical companies in the United States contribute more than \$1,100,000,000,000 annually to the United States economy, and employ more than 500,000 workers making 1.4 times the average earnings in the United States, including 153,000 workers who do not have a college degree.

(19) Waiving intellectual property protections, particularly of the mRNA technology platform in which the Defense Advanced Research Project Agency invested not less than \$250,000,000, raises serious economic and national security concerns.

SEC. 6402. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States should continue to act as a global leader to help contain and end the COVID-19 pandemic at home and abroad;

(2) innovators in the United States are already heroes for their breakthrough work in developing and producing COVID-19 vaccines.

(3) it should be a priority of the global community, with the assistance of the United States, to efficiently and quickly manufacture and distribute COVID-19 vaccines around the world, and in particular to those countries that are most vulnerable;

(4) current impediments to further vaccination efforts are due to—

(A) the technically difficult manufacturing requirements for vaccines;

(B) the need to appropriately ensure that vaccines are high-quality, safe, and effective;

(C) raw material constraints; and

(D) difficulties in distribution;

(5) intellectual property protections for COVID-19 vaccines have not impeded vaccination efforts for COVID-19;

(6) intellectual property protections in fact help ensure the safe and efficient manufacturing of COVID-19 vaccines;

(7) waiving intellectual property protections could lead to the production of substandard, ineffective, and potentially unsafe COVID-19 vaccines;

(8) the Trade Representative must consult with Congress before taking a position on the current TRIPS Agreement waiver proposal before the WTO and any further proposals to waive or weaken intellectual property obligations under the TRIPS Agreement;

(9) Congress and the people of the United States are entitled to comprehensive expert analysis regarding the implications of a waiver to the TRIPS Agreement for jobs, economic growth, public health, and national security in the United States; and

(10) the United States must oppose any waiver to intellectual property obligations under the TRIPS Agreement for the response to the COVID-19 pandemic until those implications are fully analyzed.

SEC. 3133. FINDINGS ON CHINESE INFORMATION WARFARE AND MALIGN INFLUENCE OPERATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) In the report to Congress required under section 1261(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), the President laid out a broad range of malign activities conducted by the Government of the People’s Republic of China and its agents and entities, including—

(A) propaganda and disinformation, in which “Beijing communicates its narrative through state-run television, print, radio, and online organizations whose presence is proliferating in the United States and around the world”;

(B) malign political influence operations, particularly “front organizations and agents which target businesses, universities, think tanks, scholars, journalists, and local state and Federal officials in the United States and around the world, attempting to influence discourse”;

(C) malign financial influence operations, characterized as the “misappropriation of technology and intellectual property, failure to appropriately disclose relationships with foreign government sponsored entities, breaches of contract and confidentiality, and manipulation of processes for fair and merit-based allocation of Federal research and development funding”.

(2) Chinese information warfare and malign influence operations are ongoing. In January 2019, then-Director of National Intelligence, Dan Coats, stated, “China will continue to use legal, political, and economic levers—such as the lure of Chinese markets—to shape the information environment. It is also capable of using cyber attacks against systems in the United States to censor or suppress viewpoints it deems politically sensitive.”.

(3) In February 2020, then-Director of the Federal Bureau of Investigation, Christopher Wray, testified to the Committee on the Judiciary of the House of Representatives that the People’s Republic of China has “very active [malign] foreign influence efforts in this country,” with the goal of “trying to shift

our policy and our public opinion to be more pro-China on a variety of issues”.

(4) The PRC’s information warfare and malign influence operations continue to adopt new tactics and evolve in sophistication. In May 2020, then-Special Envoy and Coordinator of the Global Engagement Center (GEC), Lea Gabrielle, stated that there was a convergence of Russian and Chinese narratives surrounding COVID-19 and that the GEC had “uncovered a new network of inauthentic Twitter accounts” that it assessed was “created with the intent to amplify Chinese propaganda and disinformation”. In June 2020, Google reported that Chinese hackers attempted to access email accounts of the campaign staff of a presidential candidate.

(5) Chinese information warfare and malign influence operations are a threat to the national security, democracy, and economic systems of the United States and its allies and partners. In October 2018, Vice President Michael R. Pence warned that “Beijing is employing a whole-of-government approach, using political, economic, and military tools, as well as propaganda, to advance its influence and benefit its interests in the United States.”.

(6) In February 2018, then-Director of the Federal Bureau of Investigation, Christopher Wray, testified to the Select Committee on Intelligence of the Senate that the People’s Republic of China is taking advantage of and exploiting the open research and development environments of United States institutions of higher education to utilize “professors, scientists and students” as “nontraditional collectors” of information.

(b) PRESIDENTIAL DUTIES.—The President shall—

(1) protect our democratic institutions and processes from malign influence from the People’s Republic of China and other foreign adversaries; and

(2) consistent with the policy specified in paragraph (1), direct the heads of the appropriate Federal departments and agencies to implement Acts of Congress to counter and deter PRC and other foreign information warfare and malign influence operations without delay, including—

(A) section 1043 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), which authorizes a coordinator position within the National Security Council for countering malign foreign influence operations and campaigns;

(B) section 228 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92), which authorizes additional research of foreign malign influence operations on social media platforms;

(C) section 847 of such Act, which requires the Secretary of Defense to modify contracting regulations regarding vetting for foreign ownership, control and influence in order to mitigate risks from malign foreign influence;

(D) section 1239 of such Act, which requires an update of the comprehensive strategy to counter the threat of malign influence to include the People’s Republic of China;

(E) section 5323 of such Act, which authorizes the Director of National Intelligence to facilitate the establishment of Social Media Data and Threat Analysis Center to detect and study information warfare and malign influence operations across social media platforms; and

(F) section 119C of the National Security Act of 1947 (50 U.S.C. 3059), which authorizes the establishment of a Foreign Malign Influence Response Center inside the Office of the Director of National Intelligence.

SEC. 3134. AUTHORIZATION OF APPROPRIATIONS FOR THE FULBRIGHT-HAYS PROGRAM.

There are authorized to be appropriated, for the 5-year period beginning on October 1, 2021, \$105,500,000, to promote education, training, research, and foreign language skills through the Fulbright-Hays Program, in accordance with section 102(b) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)).

SEC. 3135. SENSE OF CONGRESS CONDEMNING ANTI-ASIAN RACISM AND DISCRIMINATION.

(a) FINDINGS.—Congress makes the following findings:

(1) Since the onset of the COVID-19 pandemic, crimes and discrimination against Asians and those of Asian descent have risen dramatically worldwide. In May 2020, United Nations Secretary-General Antonio Guterres said “the pandemic continues to unleash a tsunami of hate and xenophobia, scapegoating and scare-mongering” and urged governments to “act now to strengthen the immunity of our societies against the virus of hate”.

(2) Asian American and Pacific Island (AAPI) workers make up a large portion of the essential workers on the frontlines of the COVID-19 pandemic, making up 8.5 percent of all essential healthcare workers in the United States. AAPI workers also make up a large share—between 6 percent and 12 percent based on sector—of the biomedical field.

(3) The United States Census notes that Americans of Asian descent alone made up nearly 5.9 percent of the United States population in 2019, and that Asian Americans are the fastest-growing racial group in the United States, projected to represent 14 percent of the United States population by 2065.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the reprehensible attacks on people of Asian descent and concerning increase in anti-Asian sentiment and racism in the United States and around the world have no place in a peaceful, civilized, and tolerant world;

(2) the United States is a diverse nation with a proud tradition of immigration, and the strength and vibrancy of the United States is enhanced by the diverse ethnic backgrounds and tolerance of its citizens, including Asian Americans and Pacific Islanders;

(3) the United States Government should encourage other foreign governments to use the official and scientific names for the COVID-19 pandemic, as recommended by the World Health Organization and the Centers for Disease Control and Prevention; and

(4) the United States Government and other governments around the world must actively oppose racism and intolerance, and use all available and appropriate tools to combat the spread of anti-Asian racism and discrimination.

SEC. 3136. SUPPORTING INDEPENDENT MEDIA AND COUNTERING DISINFORMATION.

(a) FINDINGS.—Congress makes the following findings:

(1) The PRC is increasing its spending on public diplomacy including influence campaigns, advertising, and investments into state-sponsored media publications outside of the PRC. These include, for example, more than \$10,000,000,000 in foreign direct investment in communications infrastructure, platforms, and properties, as well as bringing journalists to the PRC for training programs.

(2) The PRC, through the Voice of China, the United Front Work Department (UFWD), and UFWD’s many affiliates and proxies, has obtained unfettered access to radio, tele-

vision, and digital dissemination platforms in numerous languages targeted at citizens in other regions where the PRC has an interest in promoting public sentiment in support of the Chinese Communist Party and expanding the reach of its misleading narratives and propaganda.

(3) Even in Western democracies, the PRC spends extensively on influence operations, such as a \$500,000,000 advertising campaign to attract cable viewers in Australia and a more than \$20,000,000 campaign to influence United States public opinion via the China Daily newspaper supplement.

(4) Radio Free Asia (referred to in this subsection as “RFA”), a private nonprofit multimedia news corporation, which broadcasts in 9 East Asian languages including Mandarin, Uyghur, Cantonese, and Tibetan, has succeeded in its mission to reach audiences in China and in the Central Asia region despite the Chinese Government’s—

(A) efforts to practice “media sovereignty,” which restricts access to the free press within China; and

(B) campaign to spread disinformation to countries abroad.

(5) In 2019, RFA’s Uyghur Service alerted the world to the human rights abuses of Uyghur and other ethnic minorities in China’s Xinjiang Uyghur Autonomous Region.

(6) Gulchehra Hoja, a Uyghur journalist for RFA, received the International Women’s Media Foundation’s Courage in Journalism Award and a 2019 Magnitsky Human Rights Award for her coverage of Xinjiang, while the Chinese Government detained and harassed Ms. Hoja’s China-based family and the families of 7 other RFA journalists in retaliation for their role in exposing abuses.

(7) In 2019 and 2020, RFA provided widely disseminated print and digital coverage of the decline in freedom in Hong Kong and the student-led protests of the extradition law.

(1) the Committee on Foreign Relations and the Committee on Appropriations of the Senate; and

(2) the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives.

SEC. 3202. UNITED STATES COMMITMENT AND SUPPORT FOR ALLIES AND PARTNERS IN THE INDO-PACIFIC.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States treaty alliances in the Indo-Pacific provide a unique strategic advantage to the United States and are among the Nation's most precious assets, enabling the United States to advance its vital national interests, defend its territory, expand its economy through international trade and commerce, establish enduring cooperation among like-minded countries, prevent the domination of the Indo-Pacific and its surrounding maritime and air lanes by a hostile power or powers, and deter potential aggressors;

(2) the Governments of the United States, Japan, the Republic of Korea, Australia, the Philippines, and Thailand are critical allies in advancing a free and open order in the Indo-Pacific region and tackling challenges with unity of purpose, and have collaborated to advance specific efforts of shared interest in areas such as defense and security, economic prosperity, infrastructure connectivity, and fundamental freedoms;

(3) the United States greatly values other partnerships in the Indo-Pacific region, including with India, Singapore, Indonesia, Taiwan, New Zealand, and Vietnam as well as regional architecture such as the Quad, the Association of Southeast Asian Nations (ASEAN), and the Asia-Pacific Economic Community (APEC), which are essential to further shared interests;

(4) the security environment in the Indo-Pacific demands consistent United States and allied commitment to strengthening and advancing our alliances so that they are postured to meet these challenges, and will require sustained political will, concrete partnerships, economic, commercial, and technological cooperation, consistent and tangible commitments, high-level and extensive consultations on matters of mutual interest, mutual and shared cooperation in the acquisition of key capabilities important to allied defenses, and unified mutual support in the face of political, economic, or military coercion;

(5) fissures in the United States alliance relationships and partnerships benefit United States adversaries and weaken collective ability to advance shared interests;

(6) the United States must work with allies to prioritize human rights throughout the Indo-Pacific region;

(7) as the report released in August 2020 by the Expert Group of the International Military Council on Climate and Security (IMCCS), titled “Climate and Security in the Indo-Asia Pacific” noted, the Indo-Pacific region is one of the regions most vulnerable to climate impacts and as former Deputy Under Secretary of Defense for Installations and Environment Sherri Goodman, Secretary General of IMCCS, noted, climate shocks act as a threat multiplier in the Indo-Pacific region, increasing humanitarian response costs and impacting security throughout the region as sea levels rise, fishing patterns shift, food insecurity rises, and storms grow stronger and more frequent;

(8) the United States should continue to engage on and deepen cooperation with allies and partners of the United States in the Indo-Pacific region, as laid out in the Asia Reassurance Initiative Act (Public Law 115-409), in the areas of—

(A) forecasting environmental challenges;

(B) assisting with transnational cooperation on sustainable uses of forest and water resources with the goal of preserving biodiversity and access to safe drinking water;

(C) fisheries and marine resource conservation; and

(A) to facilitate regional early recovery, risk reduction, and resilience to weather-related impacts on strategic interests of the United States and partners and allies of the United States in the region; and

(B) to address humanitarian and food security impacts of weather-related changes in the region.

(b) STATEMENT OF POLICY.—It shall be the policy of the United States—

(1) to deepen diplomatic, economic, and security cooperation between and among the United States, Japan, the Republic of Korea, Australia, the Philippines, and Thailand, including through diplomatic engagement, regional development, energy security and development, scientific and health partnerships, educational and cultural exchanges, missile defense, intelligence-sharing, space,

cyber, and other diplomatic and defense-related initiatives;

(2) to uphold our multilateral and bilateral treaty obligations, including—

(A) defending Japan, including all areas under the administration of Japan, under article V of the Treaty of Mutual Cooperation and Security Between the United States of America and Japan;

This subtitle may be cited as the “Taiwan Invasion Prevention Act”.

PART I—AUTHORIZATION FOR USE OF UNITED STATES ARMED FORCES

SEC. 3151. FINDINGS; SENSE OF CONGRESS.

(2) Section 2(b) of the Taiwan Relations Act (Public Law 96-8; 22 U.S.C. 3301(b)) states that it is the policy of the United States—

(A) “to preserve and promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people on Taiwan, as well as the people on the China mainland and all other peoples of the Western Pacific area”;

(B) “to declare that peace and stability in the area are in the political, security, and economic interests of the United States, and are matters of international concern”;

(C) “to make clear that the United States decision to establish diplomatic relations with the People’s Republic of China rests upon the expectation that the future of Taiwan will be determined by peaceful means”;

(D) “to consider any effort to determine the future of Taiwan by other than peaceful means, including by boycotts or embargoes, a threat to the peace and security of the Western Pacific area and of grave concern to the United States”;

(E) “to provide Taiwan with arms of a defensive character”;

(F) “to maintain the capacity of the United States to resist any resort to force or

other forms of coercion that would jeopardize the security, or the social or economic system, of the people on Taiwan”.

(3) Since the election of President Tsai Ing-wen as President of Taiwan in 2016, the Government of the People’s Republic of China has intensified its efforts to pressure Taiwan through diplomatic isolation and military provocations.

(4) The rapid modernization of the People’s Liberation Army and recent military maneuvers in and around the Taiwan Strait illustrate a clear threat to Taiwan’s security.

(3) the People’s Republic of China has in recent years increased the use of its military forces to harass and provoke Taiwan with the threat of overwhelming force; and

(4) it is the policy of the United States to consider any effort to determine the future of Taiwan by anything other than peaceful means, including by boycotts or embargoes, a threat to the peace and security of the Western Pacific area, and of grave concern to the United States.

SEC. 3152. AUTHORIZATION FOR USE OF UNITED STATES ARMED FORCES.

(a) IN GENERAL.—The President is authorized to use the Armed Forces of the United States and take such other measures as the President determines to be necessary and appropriate in order to secure and protect Taiwan against—

(2) the taking of territory under the effective jurisdiction of Taiwan by the military forces of the People’s Republic of China; or

(2) APPLICABILITY OF OTHER REQUIREMENTS.—Nothing in this subtitle may be construed to supersede any requirement of the War Powers Resolution (50 U.S.C. 1541 et seq.).

(c) SENSE OF CONGRESS.—It is the sense of Congress that, at the earliest possible date after the date of the enactment of this Act, the President should release a public declaration that it is the policy of the United States to secure and protect Taiwan against any action of the People’s Republic of China described in paragraph (1), (2), or (3) of subsection (a).

TITLE ____—REVITALIZING MULTILATERAL EXPORT CONTROL DIPLOMACY FOR CRITICAL TECHNOLOGIES ACT

SEC. ____01. SHORT TITLE.

This title may be cited as the “Revitalizing Multilateral Export Control Diplomacy for Critical Technologies Act”.

SEC. ____02. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) United States arms embargoed countries are implementing malign and aggressive industrial policies using non-market means and engaging in predatory investment to gain control of critical technologies in

order to achieve market dominance and control supply chains.

(2) These countries integrate their industrial policies into initiatives that break down the barriers and distinctions between the commercial sector and the military to ensure that critical technologies support the development of their military.

(3) These countries seek to obtain critical technologies from the United States and covered United States allies and partners.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the fast-paced nature of technological innovation and the systemic diversion of technological innovation and know-how by United States arms embargoed countries for the benefit of developing and enhancing their militaries, challenges the effectiveness of existing multilateral fora established specifically to prevent such export control risks, such as the Wassenaar Arrangement; and

(2) the ability of United States arms embargoed countries to access critical technologies that affect the national security of the United States should spur the United States to work with covered United States allies and partners to develop unified export control policies to eliminate or substantially reduce the global availability of critical technologies to United States arms embargoed countries.

SEC. ____03. STRATEGY TO CONTROL THE AVAILABILITY OF CRITICAL TECHNOLOGIES.

(a) STATEMENT OF POLICY.—It is the policy of the United States to—

(1) work with covered United States allies and partners to develop unified export control policies to eliminate or substantially reduce the global availability of critical technologies to United States arms embargoed countries, including by—

(A) leading regular and rapid bilateral and plurilateral negotiations with respect to specific critical technologies with different groupings of such allies and partners;

(B) using policy instruments, including tax, investment, licensing, lending, and trade, to provide incentives to such allies and partners; and

(C) using, if necessary, existing authorities, including trade remedies, the United States Munitions List, the Entity List, economic sanctions, and other authorities available under the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.);

(2) ensure critical technologies do not advance the economic strategies, industrial policy goals, or military capabilities of United States arms embargoed countries;

(3) carry out joint research and development projects with covered United States allies and partners, with adequate safeguards for the protection and promotion of any resulting intellectual property, to—

(A) advance a broad range of scientific and technical disciplines, including with respect to critical technologies that may be affected by the implementation of the strategy required by subsection (b); and

(B) develop alternative markets to compensate for lost sales opportunities; and

(4) enhance the sharing of information with covered United States allies and partners that have entered into a multilateral export control agreement with the United States described in section ____04(d).

(b) STRATEGY.—

(1) IN GENERAL.—The President, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of State, the Director of National Intelligence, the Secretary of the Treasury, and the Secretary of Energy, shall develop a strategy to work with covered United States allies and partners to develop unified export control

policies to eliminate or substantially reduce the global availability of critical technologies to United States arms embargoed countries.

(2) INDUSTRY CONSULTATION.—

(A) IN GENERAL.—The President shall—

(i) inform and solicit input in writing from representatives of relevant United States industries in developing the strategy required by paragraph (1); and

(ii) submit to the appropriate congressional committees input received pursuant to clause (i).

(3) MATTERS TO BE INCLUDED.—The strategy required by this subsection shall include the following:

(A) An identification of critical technologies that are priorities for—

(i) the national security and the defense industrial base of the United States; and

(ii) the economic strategies, industrial policies, and military development of United States arms embargoed countries.

(B) An identification of United States export control policies for critical technologies identified under subparagraph (A).

(C) An identification of covered United States allies and partners and their share of the global market with respect to critical technologies identified under subparagraph (A).

(D) A description of ongoing and future efforts to work with covered United States allies and partners to develop unified export control policies in accordance with the United States policy described in subsection (a).

(E) An assessment of the effectiveness and methods of past efforts by United States arms embargoed countries to circumvent export control policies relating to critical technologies identified under subparagraph (A).

(F) The establishment of a working group, to include appropriate representatives from the Department of Commerce, the Department of Defense, the Department of State, the Office of the Director of National Intelligence, the Department of the Treasury, the Department of Energy, and other relevant Federal agencies, to implement the strategy.

(c) REPORT.—

(1) IN GENERAL.—Not later than 120 days after the date of the enactment of this Act, and annually thereafter for 4 years, the President shall submit to the appropriate congressional committees a report in writing that contains—

SA 1632. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. SCHUMER to the bill S. 1260, to establish a new Directorate for Technology and Innovation in the National Science Foundation, to establish a regional technology hub program, to require a strategy and report on economic security, science, research, innovation, manufacturing, and job creation, to establish a critical supply chain resiliency program, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title II of division C, add the following:

SEC. 3236. SUFFICIENT RESOURCES FOR THE UNITED STATES MILITARY.

(a) **FINDINGS.**—Congress finds the following:

(1) The United States faces numerous national security threats from around the world, including from the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, the Democratic Republic of Korea, and international terrorist and crime networks aided by United States enemies, such as the Republic of Cuba and the Bolivarian Republic of Venezuela.

(2) The United States is engaged in a new Cold War with the People's Republic of China, which is—

(A) building up its military to defeat the United States;

(B) stealing United States intellectual property and jobs;

(C) harassing neighboring Asian countries and United States allies and partners;

(D) committing genocide against the Uyghurs; and

(E) denying basic rights to the people of Hong Kong.

(3) The People's Republic of China is focused on world domination through oppression and communist rule.

(4) According to prominent research institutions, including the Center for Strategic and International Studies and the Stockholm International Peace Research Institute, the Chinese Communist Party has increased its defense spending more than 700 percent during the last decade, with an additional 6.8 percent increase anticipated in this fiscal year.

(5) Security and foreign policy experts widely acknowledge that—

(A) the People's Republic of China is not forthcoming or transparent with information related to military spending; and

(B) China's military spending may be considerably higher than its reported figures.

(6) The National Defense Strategy Commission, in its report, *Providing for the Common Defense: The Assessment and Recommendation of the States*, recommended that “Congress increase the base defense budget at an average rate of three to five percent above inflation through the Future Years Defense Program and perhaps beyond”.

(7) When considering the inflation crisis he has created, President Biden's proposed defense budget would represent a cut to spending, despite—

(A) new and mounting threats to United States national security and to our allies; and

(B) the need for sufficient military support to deter our enemies and maintain the most lethal fighting force in the world.

(8) President Biden's proposed budget request includes \$715,000,000,000 for the Department of Defense, which is well below the funding needed to keep pace with inflation, while the President's nondefense discretionary spending request is \$769,400,000,000, which represents an increase of 15.9 percent compared to the current fiscal year.

(9) In the Department of Defense's fiscal year 2021 Future Years Defense Program, the projected request for the Department of Defense in fiscal year 2022 was targeted at \$722,000,000,000, which is \$7,000,000,000 higher than President Biden's actual defense budget request for fiscal year 2022.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) President Biden's defense budget—

(A) does not provide adequate resources to deter or defeat United States enemies;

(B) does not even keep up with inflation; and

(C) does not restore our military readiness that was diminished by budget cuts and the sequester under President Barack Obama, which arbitrarily reduced defense spending across the board;

(2) the lack of sufficient funding will require the Department of Defense to choose between—

(A) providing for United States servicemembers' compensation and benefits;

(B) providing for United States forces' modernization and readiness needs; and

(C) any other priorities that the Biden Administration chooses to pursue;

(3) President Biden's decision to reduce defense spending—

(A) harms the United States's long-term strategic competition against the People's Republic of China and other adversaries; and

(B) weakens our standing on the global stage; and

(4) the Biden Administration should work with Congress to ensure that the United States military has all the necessary resources to build and sustain the overwhelming military might that the United States expects and deserves.

SA 1633. Ms. WARREN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. SCHUMER to the bill S. 1260, to establish a new Directorate for Technology and Innovation in the National Science Foundation, to establish a regional technology hub program, to require a strategy and report on economic security, science, research, innovation, manufacturing, and job creation, to establish a critical supply chain resiliency program, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title III of division E, add the following:

(C) the effect of foreign investment in technologies or other products for sequencing or storage of DNA, including genome and exome analysis, in the United States, including the effect of such investment on the capacity to sequence or store DNA in the United States.

(2) The number of reviews and investigations conducted by the Committee, in each of the 10 fiscal years preceding the year in which the study is conducted, with respect to covered transactions (as defined in section 721(a) of the Defense Production Act of 1950 (50 U.S.C. 4565(a)))—

(A) in the pharmaceutical industry of the United States; or

(B) relating to the sequencing or storage of DNA in the United States.

(3) A short description of each such review or investigation, including whether the transaction was approved or prohibited.

(c) **AUTHORITY.**—The Federal Trade Commission shall have authority under section 6 of the Federal Trade Commission Act (15 U.S.C. 46) to conduct the studies required to prepare the report required by subsection (a).

(d) **PUBLICATION.**—The Federal Trade Commission shall publish an unclassified summary of the report required by subsection (a) on a publicly available internet website of the Commission.

(1) the Committee on Banking, Housing, and Urban Affairs, the Committee on Health, Education, Labor, and Pensions, the Committee on Armed Services, the Committee on Foreign Relations, the Committee on Commerce, Science, and Transportation, and the Committee on Appropriations of the Senate; and

(2) INITIATION OF ENFORCEMENT ACTION.—If the Trade Representative determines pursuant to an investigation under paragraph (1) that there is sufficient evidence to initiate an enforcement action under a trade agreement, the Trade Representative shall automatically initiate that enforcement action.
