BUILDING A BETTER AMERICA

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio, Madam Speaker, 1 year ago this Friday, amid the darkest days of the pandemic, President Biden signed the American Rescue Plan into law. It got shots in arms and money in pockets. It helped families keep roofs over their heads and food on their tables. It helped schools reopen safely and kept small businesses afloat.

The American Rescue Plan laid the foundation for last year's unprecedented growth. More than 7 million jobs were created, the economy grew at the fastest rate in four decades and a record 5.4 million small businesses were started.

We still have work to do to lower costs for families, but we are stronger this year than we were last year thanks to the American Rescue Plan, and we will be stronger next year than we are this year thanks to the bipartisan infrastructure law.

Equitable growth, more jobs, better infrastructure, that is what I call building a better America.

BIDEN'S ENERGY CRISIS

(Mr. PALAZZO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALAZZO. Madam Speaker, I rise today to address President Biden's attack on American energy independence.

From day one, the Biden administration has opposed domestic energy production in the Gulf of Mexico and onshore. The drastic reduction in domestic energy production has made the U.S. even more reliant on foreign energy.

Since President Biden took office, the U.S. has imported around 228 million barrels of oil from Russia alone. That adds up to \$17.5 billion in 2021 to help fuel Putin's war on Ukraine and jeopardize our national security.

Instead of increasing the amount of domestic energy production to help ease the high fuel price, the President is now looking to Venezuela and Iran to help supply the U.S. with even more foreign oil and gas. We cannot allow the United States to cut funding from one tyrant to hand it out to another.

The United States has the world's largest oil and gas reserves. We can produce energy resources more cleanly and efficiently than anywhere else in the world, and we should produce them.

As a former offshore oil worker, and now a Member of Congress, an energy-independent United States is one of my top priorities in Congress. Our country must cut back its reliance on foreign oil. American oil, natural gas, or clean coal, the method is flexible, but the reason is not. We must increase our domestic production of energy. Our national security depends on it.

hope the fond memories we all have of Wayne are a source of strength for them. He truly was a treasure.

RESTORING AMERICAN ENERGY
DOMINANCE

(Mr. ROSENDALE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSENDALE. Madam Speaker, I am deeply concerned with the Biden administration's efforts to look to other foreign adversaries for oil amid the current conflict in Eastern Europe.

Last week, Secretary Buttigieg said the option to import oil from Iran is on the table. Over the weekend, the Biden administration sent a delegation to Venezuela to discuss resuming relations with dictator Maduro and is weighing options to import Venezuelan oil.

Not once has the Biden administration considered the solution that is staring us right in the face: revitalizing domestic energy production.

The U.S. is blessed with the world's largest oil and gas reserves, and we are fully capable of producing these resources more cleanly and efficiently than anywhere else in the world.

Before we turn to socialist nations or countries that openly chant "death to America" in the streets, we must harness the potential in our own backyard.

American energy means lower prices for consumers at home and greater energy security for us and our allies.

The Biden administration needs to end their war on domestic energy production immediately and restore our Nation's energy dominance.

FREEDOM FOR ALL

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Madam Speaker, I rise to support H. Con. Res. 70, Condemning Threats of Violence Against Historically Black Colleges and Universities.

What an appalling, atrocious act to attack these historic colleges founded in the midst of the 19th century in the aftermath of slavery.

On January 5, 2022, at least eight HBCUs received bomb threats; on January 31, 2022, at least six; and then on February 1, 2022, 18. We must not only denounce it; we must protect these young people and ensure their protection.

I also rise in support of H. Res. 881, Condemning the Heinous Terrorist Attack on Congregation Beth Israel in Colleyville, Texas.

We must denounce and reject forcefully and continuously the scapegoating and targeting of Jews in the United States and, as well, terrorism that subjects them to this kind of action.

REMEMBERING WAYNE PERKEY

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Madam Speaker, I rise today to honor the life and legacy of Wayne Perkey, a Louisville broadcasting legend, a man of immense compassion and charity, and my friend. He passed away this weekend after a hard-fought battle with COVID-19.

A Tennessee native, Wayne landed at Louisville's WHAS as a young deejay in 1969, and he would ultimately grace our city's airwaves for more than 30 years, hosting the radio station's daily morning show and emceeding WHAS11 TV's annual Crusade for Children charity event.

Wayne's skills as a broadcaster were only surpassed by the kindness he showed to his colleagues and fellow Louisvillians, his dedication to helping others, and his deep love for his family.

Wayne's passing is a loss for our city and Commonwealth, for all who remember starting their morning with that familiar cheerful voice, and for me personally. I am keeping the entire Perkey family in my thoughts and
