## APPOINTMENT OF INDIVIDUAL TO NATIONAL SECURITY COMMISSION ON EMERGING BIOTECHNOLOGY

The SPEAKER pro tempore. The Chair announces the Speaker's appointment, pursuant to section 1091(b)(1)(E) of the National Defense Authorization Act for Fiscal Year 2022 (Public Law 117-81), and the order of the House of January 4, 2021, of the following individual on the part of the House to the National Security Commission on Emerging Biotechnology:

Mr. Eric Emerson Schmidt, Los Angeles, California

## RISING CRIME

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, 234,088 illegal immigrants crossed the southern border last month. That is a record-breaking number that I take no pleasure in saying aloud. This surpassed the previous record of 221,303 set just in March.

In President Biden's first 15 months in office, Federal law enforcement officials have stopped more than 2.75 million people attempting to cross into the U.S. illegally. To put things in perspective, that is more than the entire population of the Nashville, Tennessee, metropolitan area.

Despite continuously breaking these records, the President has shown absolutely no serious desire to stem the flow of illegal immigration, as evidenced by his rescission of title 42 and his stopping of construction on the border wall.

Madam Speaker, President Biden must do better.

## BENEFITS OF VITAMIN D FOR COVID-19

(Mr. GROTHMAN asked and was given permission to address the House for 1 minute.)

Mr. GROTHMAN. Madam Speaker, the good news is the COVID pandemic is kind of under control. Nevertheless, we still have about 250 people a day who die of COVID and over 1 million people have died in this country.

I think one of the failures of the public health establishment and the medical establishment is the failure to educate the public about the benefits of vitamin D. Researchers found that if you have inadequate vitamin D levels, defined as under 200 nanograms per milliliter, you are 11 times as likely to die of the disease.

Can you imagine how many lives would have been saved if we tested for vitamin D and everybody had adequate vitamin D in their blood?

The public health establishment failed us by not educating the public enough on vitamin D, and it is time we stepped it up, even though it looks like we are near the end of the pandemic. And the medical establishment ought to always test for vitamin D with people who are at risk for this disease, particularly people with darker skin, and particularly people who are a little heavy. It is very important to test for vitamin D.

I know the medical establishment feels that they might not get reimbursed quite enough from the insurance companies, but I will tell you, people in the medical establishment, and I am talking about the administrators, in particular, who are making these judgments, ought to put profit aside for a second and make sure that we get these tests on people, because if they come under 20 nanograms, they are greatly at risk for dying.

## ADJOURNMENT

The SPEAKER pro tempore (Ms. PRESSLEY). Pursuant to section 11(b) of House Resolution 188, the House stands adjourned until 9 a.m. tomorrow.

Thereupon (at 10 o'clock and 59 minutes p.m.), under its previous order, the House adjourned until tomorrow, Thursday, May 19, 2022, at 9 a.m.

## EXECUTIVE COMMUNICATIONS, ETC.
