□ 1330

Ms. DELAURO. Madam Chair, I yield myself such time as I may consume.

Over this last year, Congress began to restore our investments after the years of disinvestment that working families, the middle class, and vulnerable people believe was wrong. Spending has favored the biggest corporations and special interests, which got heard first in Washington. But hard-working Americans are still paying high taxes and have not seen a pay increase in years.

The spike in the cost of living, gas prices, and rent are blows to so many. That has guided our priorities, and it has guided these bills.

In the Appropriations Committee, we were determined to put together bills that ensure we offset the rise in prices produced by blocked supply chains, the greed of oil companies, and the Russian invasion of Ukraine.

H.R. 8294, the package of the six 2023 appropriations bills before us, provides the critical funding America needs. Instead of catering to big corporations and the wealthy, we uphold our commitment with this legislation that helps lower the cost of living, creates American jobs, gives working families a better shot, and supports small businesses. As we do so, we tackle our Nation’s and the world’s toughest crises.

We reach some of our most vulnerable Americans by funding the programs that keep roofs over the heads of millions and keep food on the tables of millions more. We strengthen nutrition assistance through WIC, food stamps, and child nutrition programs like school meals. We increase access to affordable housing with rental assistance programs and improve the safety and living conditions of those in public housing. We also expand opportunities for families with support for homeownership programs.

These bills help invigorate rural communities as we expand broadband, strengthen water programs in rural areas, and invest in single-family home loans.

We support Native Americans and honor the Federal Government’s responsibilities to Native families by investing in strong and resilient Tribal communities, including through housing, education, and healthcare programs.

We also transform the ways we meet the needs of our veterans, who deserve and who have earned our support, including the 9.2 million veterans who rely on the VA for their healthcare, by increasing funding for medical programs. For the first time ever, we put VA medical care into its own funding category so that funding for veterans does not have to compete with other critical programs.

Supporting those who protect us also means protecting servicemembers and their families and communities all over our Nation. We invest in our national security and improve our military readiness through robust investments in critical military installations at home and abroad and in the well-being of our servicemembers and their families.

At the same time, we also make our communities safer by supporting victims while fighting crime, violence, and corruption.

This package strengthens our capacity to work for all Americans. We ensure the IRS has the resources to crack down on big corporations and the wealthy who do not pay their fair share and provide better customer service to families navigating the tax system. We protect consumers with more funding for critical consumer protection agencies by strengthening our food safety

infrastructure, including oversight of the baby formula industry.

We do this while bolstering economic development in distressed communities and strengthening our economy and our economic growth by supporting small businesses and entrepreneurs as they pursue the American Dream. We create jobs and put Americans to work rebuilding our infrastructure. We help small businesses grow and thrive, foster the green energy jobs of tomorrow, and support a skilled and growing workforce.

We confront the existential threat of climate change and strengthen our resiliency on various fronts, including by investing in cleaner, safer, and more affordable American energy, advancing climate science, conserving our land and water, expanding environmental enforcement, and embracing stronger environmental justice efforts.

Finally, with inclusion of nearly 2,700 community project funding requests totaling over \$6 billion, we are directly meeting the needs of Americans everywhere in ways that will have a profound and lasting impact.

When taken together, this package meets the moment at a time when so many want to see critical changes in our priorities. It reaches every corner of our Nation to give hardworking Americans, the middle class, and the vulnerable a better shot. I urge my colleagues to support these bills.

I thank the subcommittee staff, led by our clerks, for all of their work: Christina Monroe with the Transportation, and Housing and Urban Development, and Related Agencies Subcommittee; Martha Foley with the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee; Scott McKee with the Energy and Water Development, and Related Agencies Subcommittee; Matt Smith with Financial Services and General Government Subcommittee; Rita Culp with the Interior, Environment, and Related Agencies Subcommittee; and Jenny Neuscheler with the Military Construction, Veterans Affairs, and Related Agencies Subcommittee.

I also thank all the subcommittee chairs and ranking members for their efforts and their dedication to these efforts. Interior, Environment, and Related Agencies Subcommittee Chair PINGREE is not here today, but I specifically thank her for her work. This bill makes transformative investments in our environment, and this is in large part because of her relentless advocacy.

Madam Chair, I urge support for the bill, and I reserve the balance of my time.

Ms. GRANGER. Madam Chair, I yield myself such time as I may consume.

Madam Chair, I rise today in opposition to H.R. 8294, a package of six appropriations bills.

As we sit here today, inflation is 9.1 percent above last year, the highest it has been in more than 40 years. Econo-

mists recommend that American households budget an extra \$5,000 this year to cover rising prices. That is over \$400 a month. Many families simply can't afford this.

Under this administration, prices of everyday goods are skyrocketing. For example, gas prices hit an unprecedented \$5 a gallon; energy services, like electricity and natural gas, are up 19 percent; and groceries have increased over 12 percent, the highest jump since 1979.

Americans are paying more for just about everything. The social spending pushed by Members on the other side of the aisle is a key driver of today's inflation. Simply put, record-high spending by the government means record-high prices for the American people. Unfortunately, the bills before us do not reduce spending or reflect the economic realities we face.

Many of these bills receive double-digit percentage increases, including a 70 percent increase for Financial Services and General Government, an 18 percent increase for Interior-Environment, and a 12.2 percent increase for Transportation-Housing and Urban Development.

At a time when Americans are struggling to pay for gas and groceries, the Federal Government should be reducing spending. We should prioritize core responsibilities, such as our national security, and we must cut extravagant social programs.

In addition to my concerns about funding levels, the policies proposed in these bills do not reflect a bipartisan agreement. In particular, the bills before us today drop longstanding pro-life protections that prevent taxpayer funding for abortions. The bills allow for the closure and transfer of dangerous criminals from Guantanamo Bay to the United States and worsen our Nation's energy crisis.

Just a few months ago, we were able to come to an agreement and enact the fiscal year 2022 appropriations bills. Those bills continued longstanding policies supported in the past by Members of both parties and drop new controversial provisions. I hope we will be able to do the same this year so that those bills can get to the President's desk and be signed into law.

Madam Chair, I urge a "no" vote, and I reserve the balance of my time.

Ms. DELAURO. Madam Chair, I yield 4 minutes to the gentlewoman from Ohio (Ms. KAPTUR), the chairwoman of the Subcommittee on Energy and Water Development, and Related Agencies.

Ms. KAPTUR. Madam Chair, I thank Chair DELAURO very much for her indefatigable leadership of this committee in service to the American people. I also thank Ranking Member GRANGER, as well as the dedicated staff. Special plaudits to Ranking Member SIMPSON, a hardworking, serious Member of Congress who devotes his considerable talents to real challenges facing our Nation.

Our 2023 Energy and Water bill takes a significant step forward to secure American energy independence, rebuild critical infrastructure, foster scientific innovation, and sustain life on our corner of Mother Earth.

We meet at a time when Lake Mead, once the largest water reservoir in the United States, is now at record-low levels due to a punishing Western drought across seven States that is sucking the Colorado River dry. London, England, has experienced its hottest day at 104 degrees, and forest fires are raging now across Europe and in our Nation, as well.

Madam Chair, 6,600 wildland firefighters and support personnel are containing 85 large fires and complexes that have already burned over 3 million acres in 13 of our States. Fourteen new large fires have been reported, seven in Texas, two in Alaska, two in Washington, and one each in Arizona, California, and Idaho.

In addition, Putin's unjust war against Ukraine crystalizes how essential having a comprehensive energy independence strategy is for our Nation, for our economy, and surely for our security.

America has been making great progress since the Department of Energy was established in 1977, but we are not at home plate in energy independence. With this bill, we are rounding second base and running hard toward third on our way to home plate. We are diversifying across many energy sectors that hold promise and are climate-friendly: advanced nuclear, hydrogen, solar, and wind, but also thermal heat recapture, conservation, and so much more.

In traditional sectors since 2010, oil production has doubled, and natural gas production is about 60 percent higher. But, of course, those supplies are finite. We must advance to infinite energy sources for the long haul of our country and world.

Our bill invests over \$56 billion for America's energy and water priorities while supporting good-paying jobs across the country. Key investments include \$48.2 billion for the Department of Energy, \$3.3 billion above enacted. Within the Department of Energy, as our citizens experience water shortages, wildfires, and fiercer weather events, energy efficiency and renewable energy receive record funding of \$4 billion—yes, an \$800 million increase above enacted. We live in unusual times.

That includes a new office of State and community energy programs that receives \$562 million to increase energy affordability at a time of inflation and transform our energy economy by working more cooperatively with State, local, and community-level partners.

ARPA-E receives \$550 million, \$100 million above enacted, to literally invent a new energy future for this country.

The Office of Science receives \$8 billion, \$525 million above enacted, which

is so vital to America's energy innovation and research in the physical sciences.

The new Defense Production Act Domestic Clean Energy Accelerator receives \$100 million to expand domestic manufacturing and help America lead in solar and other clean energy industries that are being hacked every day by, frankly, our political enemies.

We responsibly fund our nuclear deterrent while increasing funding for nonproliferation programs.

The bill provides nearly \$11 billion, \$2.8 billion above the budget request, to rebuild our water infrastructure and respond to the severe Western drought.

The CHAIR. The time of the gentleman has expired.

Ms. DELAURO. Madam Chair, I yield an additional 1 minute to the gentleman from Ohio.

□ 1345

These investments in the Army Corps of Engineers and Bureau of Reclamation are critical to protecting and supplying communities in every district of our Nation.

Our bill increases funding for regional commissions which promote economic development in economically challenged regions and distressed counties across our country. Our bill will strengthen the foundational components that underpin every aspect of decent life in our Nation and represents a strategic investment in America's future, without question.

Madam Chair, I thank the staff who worked tirelessly to put this bill together: Scott McKee, Brian Smith, Will Ostertag, Daniela Todesco, Eric Lipka, John Howes, and Angie Giancarlo.

Ms. GRANGER. Madam Chair, I yield 5 minutes to the gentleman from Idaho (Mr. SIMPSON), the ranking member of Energy and Water Development, and Related Agencies Subcommittee.

Mr. SIMPSON. Madam Chair, I thank the gentleman for yielding time.

Madam Chair, I rise today in opposition to H.R. 8294, the six-bill fiscal year 2023 appropriations package that includes the Energy and Water Development appropriations bill.

Unfortunately, these bills are based on funding levels that passed the House without any Republican support—zero Republican support. Like the President's budget request, the majority's Energy and Water bill overfunds certain nondefense programs and shortchanges our national security needs.

For example, the bill before us is below the budget request for weapons activities and naval reactors—a budget request that many of us considered insufficient to address the current global threats.

We must uphold our Nation's strong nuclear deterrence posture, and to do that, we must adequately fund the activities necessary to maintain a safe, reliable, and effective stockpile. Yet, the bill before us cuts some of these programs below last year, below the budget request, and leaves other items completely out.

On the other hand, the bill increases energy efficiency and renewable energy activities by more than 25 percent over last year's—and that is on top of the tens of billions—I repeat—tens of billions of dollars in the infrastructure bill programs that are in the early stages of implementation.

The bill includes funding for the President's proposal to use the Defense Production Act for nonemergency issues. For instance, even the Department of Energy has indicated that there is no supply shortage of insulation. Yet, the administration is claiming it is such an emergency that it justifies use of the Defense Production Act.

With inflation at the highest levels in 40 years, we need to be more judicious about how much and where we allocate our discretionary appropriations.

While Republicans have concerns with the overall direction of this bill, I would note there are also programs that, if considered individually, House Republicans could support. For example, strong support for the Army Corps of Engineers including specific Community Project Funding and additional programmatic funding that has long been a bipartisan priority.

Of great importance to me, of course, is the Department of Energy's Nuclear Energy program. I appreciate that the bill continues support for:

Work on microreactors, including the MARVEL program.

Work to ensure a supply of high-assay low-enriched uranium, which will be necessary for many of the next generation of reactors.

The Advanced Reactors Demonstration Program; and

The national laboratories infrastructure necessary to enable these other activities to succeed.

I would like to work with my colleagues as we move the bill forward to better support the Advanced Small Modular Reactors demonstration program.

The NuScale SMR is the first ever NRC-approved SMR design, and we need to ensure this demonstration succeeds.

Madam Chair, before I yield back, I would acknowledge Energy and Water Development and Related Agencies Chairwoman KAPTUR's continued commitment to addressing individual Member priorities on both sides of the aisle. I thank the chair for that consideration, and she has been a pleasure to work with across the aisle.

I also thank the staff for their hard work over the past several months, particularly Scott, Brian, Will, Daniela, and Jaime of the majority staff; Angie and Austin of the minority staff; and Sarah in my personal staff.

Finally, I thank Chairwoman DELAURO and Ranking Member GRANGER of the full committee for their leadership and support of the important programs in this bill and doing the appropriations process in regular order.

Ms. DELAURO. Madam Chair, I yield myself such time as I may consume. Before I yield to the gentleman from North Carolina, I would say that Chairman PRICE, this will be the last time he brings an appropriations bill to the floor of the House of Representatives. I think I speak for all of us when I say that his honesty, his integrity, his commitment to the legislative process and making it work for the people, not only in his district but all over the United States, is really pretty extraordinary.

I quote from Shirley Chisholm, the first African-American woman who was elected to the House of Representatives, when she said that public service is the rent you pay for space on this Earth.

DAVID PRICE has paid that rent over and over and over again.

Madam Chair, it gives me great pleasure to yield 6 minutes to the gentleman from North Carolina (Mr. PRICE), the chairman of the Transportation, and Housing, and Urban Development, and Related Agencies Subcommittee.

Mr. PRICE of North Carolina. Madam Chair, I thank the chairwoman for those kind and generous words. And I do rise in strong support of this critical legislation. As chairman of the Transportation, and Housing and Urban Development, and Related Agencies Subcommittee, or T-HUD as we call it, I first thank my partner and ranking member, MARIO DIAZ-BALART, for his cooperative and collaborative relationship this year and for many years prior, including when our roles were reversed.

Madam Chair, the bipartisan work we do in assembling our subcommittee bills reflects an earlier era when the Appropriations Committee presented a united front throughout the process. That era, regrettably, has passed, but the cooperative work remains at the subcommittee level. What we have done has made this a better bill, and hopefully will help us achieve agreement eventually and finalize T-HUD and other bills.

Division A of the bill, the T-HUD section, represents our continued commitment to upgrading our aging transportation infrastructure, addressing our Nation's affordable housing and homelessness crises, bolstering our resiliency in the face of climate change and natural disasters, remedying inequities and disparities in our housing and transportation systems, and prioritizing safety—whether that is eliminating hazards in public housing or improving the certification of aircraft.

Overall, the bill includes \$90.9 billion in discretionary funding; that is an increase of \$9.85 billion over the current year.

The bill also provides \$77.6 billion to fully fund programs that utilize the Highway Trust Fund as part of last year's historic and bipartisan Infrastructure Investment and Jobs Act.

For housing, we continue to ensure housing stability for five million people by fully renewing all Housing Choice Vouchers and meeting the renewal needs of public housing, homeless assistance grants, and several other initiatives. This is coupled with new investments, including more than 140,000 new tenant-based vouchers for low-income families and people experiencing or at risk of homelessness, over 5,600 new affordable housing units for seniors and people with disabilities, and more than 6,700 new vouchers for veterans experiencing homelessness and youth aging out of foster care.

The bill also provides an 8 percent increase for the HOME program, an 11 percent increase for NeighborWorks programs, and a historic 29 percent increase for Choice Neighborhoods, a program that, like housing for the elderly and for people with disabilities, our subcommittee has brought back into production after they were on life support.

I was able to see some of these life-changing investments firsthand in my own State in Winston-Salem, where I toured a Choice Neighborhood with my colleague, KATHY MANNING. And there are more to come.

Importantly, the bill provides, for the first time, a major investment in our Nation's manufactured housing, by providing \$500 million for a new program to preserve and revitalize this essential form of housing that has been too long overlooked. Many of these communities have faced significant infrastructure and resiliency challenges. This bill recognizes the opportunities that will come from direct investments in manufactured housing, a portion of our housing stock that provides for over 20 million people.

On the transportation side, the bill upholds the commitment to respond to transportation needs across all modes: highways, transit, rail, aviation, bike and pedestrian projects, and ports. It invests in the safety and reliability of our passenger and freight rail systems, including a combined \$1.2 billion for the CRISI program and the Federal-State Partnership for Intercity Passenger Rail. That has been and remains a signature emphasis of our subcommittee.

I am particularly proud of this aspect of the bill as we build out the Raleigh to Richmond corridor, the next step in the Southeast Corridor from Washington to Charlotte and eventually Atlanta. These regional corridors represent the future of passenger rail in this country, and they are critical to reducing congestion and lowering greenhouse gas emissions.

The bill also provides robust funding for our transit infrastructure, including \$3 billion for Capital Investment Grants, or New Starts, to create new transit routes nationwide, and \$646 million for Transit Infrastructure Grants to help transit agencies innovate and improve public transit.

Madam Chair, before closing, I, too, thank our staff for their immeasurable

contributions to this bill and for guiding the Members and staff on both sides of the aisle through this process.

Starting with our wonderful chief clerk, Christina Monroe, as well as Josephine Eckert, Winnie Chang, Xavier Arriaga, Samhita Subramanian, and Rachel Keyes, along with Leigh Whitaker on my personal staff, and Doug Disrud on the minority side.

Since this is my last time presenting the T-HUD bill, I also want to mention all of the staff who helped me and my colleagues through the subcommittee process since I took on the ranking member and eventually the chairman's role. That includes three previous clerks: Kate Hallahan, Joe Carlisle, Matt Washington; and it includes Angela Ohm, Sarah Puro, Becky Salay, Jenny Neuscheler, and Gladys Barcena at the subcommittee, as well as Laura Thrift, Kate Roetzer, Sean Maxwell, and Nora Blalock from my own staff. A hearty thanks to all of you.

Mr. Chairman, in closing, this year's T-HUD will make forward-looking investments in our housing and transportation infrastructure while bolstering safety and uplifting vulnerable populations. It will benefit communities across America and lay a strong foundation for economic growth and resiliency.

Mr. Chair, I urge my colleagues to support this legislation.

Ms. GRANGER. Mr. Chairman, I yield 3 minutes to the gentleman from Florida (Mr. DIAZ-BALART), the ranking member of the Transportation, and Housing and Urban Development Subcommittee.

Mr. DIAZ-BALART. Mr. Chairman, I rise in opposition to the bill in its current form but there are some really good things in this legislation, and I will talk about why I can't support it at this time.

But first, I thank my dear friend, Chairman PRICE, for his work on the T-HUD portion of the bill, and, most importantly, as the chairwoman said, for his lifetime of honorable service to this country.

I know that the committee and Congress will miss Mr. PRICE. He has been, frankly, a privilege to work with. Not that we don't have disagreements, but we always work through those disagreements in a respectful, open process.

Evidence of his life and his service can be found in this bill as well as other past T-HUD bills. One example, Mr. Chairman, is the manufactured housing initiative that will, frankly, help revitalize communities across the Nation. Chairman PRICE listened to stakeholders and developed this innovative program with his characteristic deep understanding of policy.

I have said—and I know he doesn't feel it is a negative thing, on the contrary, I say it with great compliment—that he is a total policy wand, Mr. Chairman. And this is one of those areas where you see his policy involvement.

Some of you may not know that the Committee on Appropriations unanimously voted to name this efficiently the Preservation and Reinvestment Initiative for Community Enhancement, PRICE, after Chairman PRICE. And I thank the chairman for including the funding that he did for port infrastructure. I would also mention that he and I, and the entire T-HUD Committee, have always made safety a priority, and this bill continues in that tradition.

The bill modernizes air traffic control systems to make sure that they are the safest in the world, as well as it makes progress in road and rail safety.

We share a priority of supporting American innovation, whether it is automated vehicles to unmanned aircraft to commercial space, this bill makes key investments in those areas as well. And it provides over \$3 billion above last year, just to maintain HUD's current rental assistance programs. And that is something that, obviously, we all support, but I want to mention that those are things that once we do, we have to continue to fund every single year. Obviously, I support renewing this assistance, especially to the elderly, our disabled, and our veterans.

Again, much of the HUD spending in this bill will create new liabilities for future years. For example, the bill expands Section 8—a program that obviously we all know about—by \$1.1 billion.

This new spending would, in essence, require several billion dollars for renewals in future years. So, in essence, it becomes a de facto mandatory requirement which creates many, many issues.

□ 1400

Let me be clear. I cannot support the bill at its current spending level. The bill was written under unrealistic top-line numbers, set by the majority. As a result, this bill has an overall increase of 12 percent above last year, which is, again, not acceptable. Inflation is at a 40-year high.

The Acting CHAIR (Mr. PHILLIPS). The time of the gentleman has expired.

Ms. GRANGER. Mr. Chair, I yield an additional 1 minute to the gentleman from Florida.

Mr. DIAZ-BALART. Mr. Chair, inflation is at a 40-year high. Contrary to what some say, we cannot address inflation by spending more money—by continuing to spend more and more money. Instead, we need an agreement that reduces excessive spending that balances defense and nondefense spending, and, again, removes all of the controversial riders.

Once that happens, Mr. Chair, I am confident that we will be able to reach an agreement that this House and the majority and the minority can live with.

Again, I thank Chairman PRICE for his leadership, his friendship, and openness. He will be missed. I would be remiss if I didn't thank the chairwoman

and the ranking member of the full committee for their leadership.

I am confident that we will eventually be able to have numbers that we can live with and have a bipartisan bill, but until then, I have to oppose the bill.

Ms. DELAURO. Mr. Chair, I yield 4 minutes to the gentleman from Georgia (Mr. BISHOP), the chairman of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee.

Mr. BISHOP of Georgia. Mr. Chair, I rise in support of H.R. 8294. As chairman of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee, I am pleased to highlight the national priorities funded in our division.

The impact of the agriculture division is far-reaching and it touches the lives of every single American. We all eat the food, rely on the medicine and the medical devices, and wear products made from fibers, such as cotton, that are made possible by this bill.

Our fiscal year 2023 allocation is \$27.2 billion, which is \$2 billion over the fiscal year 2022 bill. The bill provides \$4.2 billion for Rural Development initiatives, including more than \$560 million for broadband expansion to provide economic development opportunities and improved education and healthcare services. The bill continues important funding for the Community Facilities Program that supports everything from libraries and fire stations to childcare centers and nursing homes.

Our bill fully funds the SNAP, WIC, and Child Nutrition programs. It continues to enhance fruit and vegetable benefits for women and children and provides additional protections for SNAP recipients. We have record-high funding for the Food for Peace program, \$1.8 billion, and \$265 million for the McGovern-Dole program, critically needed in light of the global food crisis that has worsened following the Russian invasion of Ukraine.

The bill provides \$3.8 billion for agriculture research, which helps the United States produce the most abundant and affordable food in the world, and provides \$3.1 billion in farm and conservation programs, which includes funding to address the impacts of climate change.

The Food and Drug Administration is funded at \$3.6 billion in discretionary funding. There are important increases to help combat the opioid crisis, support unannounced inspections of foreign drug manufacturing facilities, and ensure the safety of infant formula.

Finally, the bill provides funding for 134 Community Project Funding requests for members, totaling over \$191 million.

Mr. Chair, I urge my colleagues to support this bill. I thank the ranking member, Dr. HARRIS, and his staff for helping produce this bill. I thank my personal staff and the subcommittee staff for their extraordinary work on the bill. Of course, I thank Chair-

woman DELAURO and Ranking Member GRANGER, as well as the majority and minority staffs of the full committee.

Ms. GRANGER. Mr. Chair, I yield 6 minutes to the gentleman from Ohio (Mr. JOYCE), the ranking member of the Interior, Environment, and Related Agencies Subcommittee.

Mr. JOYCE of Ohio. Mr. Chair, I rise today in opposition to H.R. 8294.

Before I get into the details of the Interior-Environment section of the bill, I thank Chairwoman DELAURO and Ranking Member GRANGER for their leadership on the Appropriations Committee.

I also extend my sincere thanks to CHELLIE PINGREE, the chair of the Interior, Environment, and Related Agencies Subcommittee. Chair PINGREE has been a fair leader, and I appreciate the work she has done on the many bipartisan priorities in the Interior bill, and to her staff for their tireless efforts.

The Interior bill provides funding for many important and critical programs that help conserve and protect our Nation's most critical natural, cultural, and environmental resources. More than that, it makes investments that matter to communities, businesses, and industries across the country.

The bill provides strong support for our National Parks, helps fight catastrophic wildfires, addresses our aging infrastructure, and fully funds the Payment in Lieu of Taxes, or PILT program.

I am grateful for my home district in Ohio that the bill provides increased funding for the Great Lakes Restoration Initiative. The GLRI funding is critical in our work to restore and protect the lakes for future generations.

Finally, I am pleased the bill advances longstanding efforts to increase the Federal commitment to honor our treaties and trust responsibilities with the American Indians and Alaskan Natives by providing a \$12.6 billion investment in Indian Country; and a new provision that will help ensure sovereignty of Tribal laws.

Unfortunately, while I am supportive of many of the bipartisan components of the bill, I am unable to support it today given serious spending and policy concerns.

First and foremost, the bill fails to recognize the situation the country is now in and reverse this administration's assault on conventional energy production.

It eliminates longstanding, bipartisan provisions and adds new, controversial policy riders that would weaken U.S. energy and mineral security by limiting domestic development of these and other natural resources.

Given the rising energy costs and unprecedented prices we are seeing at the gas pump, it is now more important than ever that we continue to support our all-of-the-above energy strategy.

New provisions would prevent and disincentivize domestic production, only making us more dependent on our adversaries. Simply put, these provi-

sions undermine the American energy sector and fail to put American industries and the American people first.

Similar riders were dropped from the final conference agreement last year, and the same must be done again before this bill can be signed into law.

We must also address the spending in this bill before we can reach a final agreement. With a top-line increase of nearly \$7 billion in double-digit increases across many of the agencies, the spending is simply irresponsible in the absence of a broader, fiscally responsible Federal budget.

With record-high inflation under this administration, now is the time to limit spending. The Federal Government must make the tough choices to live within its means and work to rein in Federal spending to protect families from inflationary pressures and future generations from crippling debt.

It is the combination of these funding and policy reasons that I cannot support the bill at this time.

I look forward to supporting amendments to improve H.R. 8294, including one to remove a harmful rider on trophy permits, and my amendment to add limits on the burdensome SEC climate rule.

The SEC, which has no mandate to regulate carbon emissions, wants public companies to disclose new climate-related information, including greenhouse gas emissions. These requirements have already lessened investor enthusiasm for domestic drilling and oil protection.

At the same time, my friends on the other side of the aisle ask our energy producers to expand capacity—which, of course, requires investment.

Make no mistake, this rule will impact businesses of all kinds—small and large, public and private, energy and non-energy.

Under this rule, many public companies will be required to disclose not only their greenhouse gas emissions, but also the emissions of businesses upstream and downstream in their value chain.

Congress created the SEC to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation—not to set climate policy.

Unfortunately, the agency has lost its focus. I look forward to the debate on these key issues across all our appropriations bills and am committed to working with Chair PINGREE and our colleagues as the fiscal year 2023 process moves forward to craft legislation that can receive bipartisan support.

Until then, I strongly urge my colleagues to vote “no” on this package.

Ms. DELAURO. Mr. Chair, I yield 1 minute to the gentlewoman from California (Ms. PELOSI), the distinguished Speaker of the House of Representatives.

Ms. PELOSI. Mr. Chair, I thank the gentlewoman for yielding. I thank her for her unsurpassed leadership as chair of the Appropriations Committee, for

reflecting the values of our country, based on her leadership in terms of listening to the American people and meeting their kitchen-table needs, and, again, advancing us into the future.

We said about many of these initiatives: When we pass this, we will be making history. Not only that, we will be making progress, thanks to the leadership of Chairwoman ROSA DELAURO, chair of the committee. It is a source of great joy to me because I served on the committee with her, saw her leadership then and now as chair.

Let me just describe—people say: What is a minibus?

A minibus is a minibus. It is not an omnibus. Sometimes we would have a bill that contained all of the appropriations bills. Omni, all. Omnibus. This is a minibus, which contains six of the bills—six very important pieces of legislation—and hopefully we will move soon to pass the others.

With these bills, our Democratic majority advances many of our Nation's cherished principles and priorities, including job creation, expanding opportunity, and protecting health and well-being.

Let us salute the masterful Chairwoman ROSA DELAURO, a maestro of the appropriations process, who is a constant source of inspiration, leadership, and strategic thinking for all of us.

I also thank our cardinals for their hard work in carefully crafting each of these six very important bills contained in this minibus. You are called a cardinal if you rise to be a chair of one of the subcommittees of Appropriations. It is a great honor.

Mr. Chair, I do want to acknowledge the work of Chairman SANFORD BISHOP. We just heard from him about food, agriculture, rural development, et cetera.

Chairwoman MARCY KAPTUR, Energy and Water Development.

Chairman MIKE QUIGLEY, Financial Services and General Government.

Chairwoman CHELLIE PINGREE, Interior-Environment.

Chairwoman DEBBIE WASSERMAN SCHULTZ, Military Construction and Veterans Affairs.

Chairman DAVID PRICE, Transportation, and Housing and Urban Development. Mr. PRICE will be leaving us at the end of this term, but his legacy will be with our country for a long time to come.

Mr. Chair, I thank our colleague on the other side of the aisle for acknowledging Mr. PRICE's work, and naming a portion of the Transportation, and Housing and Urban Development bill in his name. Mr. DIAZ-BALART, I thank you for that beautiful recognition of Chairman PRICE. He certainly is revered on our side of the aisle, and we appreciate the bipartisan recognition of his leadership.

Mr. Chair, the House's Appropriations minibus will have an immediate impact on people's lives because it puts working families first.

This package defends health and well-being: improving the safety and

security of our Nation's food supply. A vote for this bill is a vote for the safety of our Nation's food supply. A vote against it is a vote against the safety of our Nation's food supply.

The bill supports the WIC program—Women, Infants, and Children—food stamps, and other initiatives that keep our families fed.

This package strengthens economic security with strong investments to expand access to safe, affordable housing—thank you, Mr. PRICE—support small business growth, and protect the interests of American consumers.

In doing so, these bills advance President Biden's commitment to putting justice and equity front and center, moving to close economic disparities weighing heaviest on communities of color and low-income families.

At the same time, this package will further power Democrats' mission to rebuild our Nation while reinvigorating the middle class.

Our bipartisan infrastructure law that was bipartisan and passed last year was a monumental step forward. Now, this legislation builds on that bipartisan progress: creating good-paying American jobs, rehabilitating our crumbling infrastructure; securing critical funding for roads, bridges, ports and rail, transit and aviation, and more; and improving the strength and resilience of our water systems.

This is a health issue in addition to a commerce issue. These investments lay a crucial economic foundation, better equipping our Nation to compete and win in the 21st century economy.

This package is also about protecting and preserving our planet—a responsibility we owe our children and grandchildren and future generations.

The investments in this legislation, Mr. Chair, are another strong step toward independent, affordable, clean energy jobs for the future: whether spurring innovation in new, sustainable technologies; strengthening community resilience to mitigate climate disaster; or conserving our cherished public lands.

Anyone who watches the news these days sees the impact on the climate crisis on our planet.

□ 1415

Throughout Europe, there are record heat waves. In our own country, we have had scores of our hottest record days, scores of them in our own country. The climate crisis is a real one. There is a short fuse on it. We must act. We cannot ignore the signs or the governance and the protections that go with it.

Preserving clean air and clean water for our children is a public health issue. The air they breathe and the water they drink is an immediate health issue. It is an economic necessity, creating good-paying jobs in the industries of the future while staving off catastrophic costs of inaction.

A matter of national security is preventing violent conflicts over resources

and habitat. You have droughts; you have rising sea levels; you have encroachment of deserts; and you have change in the thermal management of the planet, Mr. Chair. All of this contributes to competition for habitats and resources, and our National Security Advisors tell us that that can be a cause of conflict, in addition to the toll it takes on people.

For many of us, it is a moral issue if you believe as I do that this is God's creation and that we have a moral responsibility to be good stewards of it. That is one purpose. But if you don't share that view, you do understand that we have a moral responsibility to our children to pass on the planet in a responsible way for future generations. This is one of the Democratic majority's top priorities, and we will never stop fighting for the climate action that we need.

Finally, and importantly—one of my favorite subjects—this package honors our Nation's sacred duty to our veterans, their families, and their caregivers. A vote for this bill is a vote for our veterans, their families, and their caregivers with robust support for veterans' healthcare, which covers more than 7 million patients, with more resources to build essential VA infrastructure, and with increased funding to address mental health, substance abuse disorder, the scourge of veteran homelessness, and much more.

As we do so, we honor the truth when the military says that, on the battlefield, we leave no soldier behind, and when they come home, we leave no veteran behind.

Mr. Chair, Democrats believe that governance is a powerful force for good when we invest in what we value most as a nation—protection of our people, their health, their safety, the planet, the air they breathe, the water they drink, and security for our country. Today, our Democratic majority advances appropriations legislation that furthers that mission with funding that will meet the needs of American families in every corner of our country, and we take an important step to advance President Biden's inspiring vision of building a better America for all with liberty and equity for all.

Mr. Chair, I urge a strong bipartisan vote for this minibus package. I salute our cardinals for their great leadership, and I again pay homage to the chair of the committee, Madam Chair ROSA DELAURO, for her extraordinary leadership.

Ms. GRANGER. Mr. Chair, I yield 4 minutes to the gentleman from Maryland (Mr. HARRIS), who is the acting ranking member of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies.

Mr. HARRIS. Mr. Chair, I thank Ranking Member GRANGER for yielding.

Mr. Chair, I rise in opposition to H.R. 8294, which includes the FY23 Agriculture, Rural Development, Food and

Drug Administration, and Related Agencies appropriations bill.

First, I thank Chair DELAURO and Ranking Member GRANGER for their leadership in moving these bills through the appropriations process. I also thank the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee chairman, Mr. BISHOP, for his leadership in crafting a bill that funds a number of programs with broad bipartisan support, such as rural broadband programs, critical ag research programs, and protections to ensure we have safe food, drugs, and medical devices.

While there are many things to like about this bill, the total discretionary spending level of \$27.2 billion, or an 8 percent increase over the previous year's funding, does not acknowledge the economic reality that our Nation faces.

A stunning 88 percent of Americans believe our country is on the wrong track, according to a recent poll by the Monmouth University Polling Institute. That is what Americans are talking about around their kitchen tables.

Just last week, inflation jumped again to a 40-year high of 9.1 percent. We can't keep ignoring this situation. Americans have figured out that more government spending only ends in higher prices for the American people and adds to the inflation problem created by this Congress and the Biden administration's reckless and immoral spending included in this minibus.

In this vein, this division of the minibus provides unsustainable funding increases across the board, most notably for the Food and Drug Administration, which would receive an overwhelming and unnecessary 10 percent increase. A lot of American families wish they were getting a 10 percent increase in their paychecks. Based on how the FDA has handled the infant formula crisis, it is clear that strong leadership is needed at the FDA, not this unnecessary increase in funding.

The bill also includes increased benefits for the WIC program, a great program, but those increased benefits were intended to be a temporary, one-time increase included in the American Rescue Plan. I understand the importance of making sure WIC participants have access to fruits and vegetables. However, this bill is taking a temporary increase in response to COVID and including it in the regular, ongoing program as if to make these increased benefits permanent without regard to the inflationary pressures of out-of-control government spending that is already squeezing taxpayers.

I am also extremely concerned about providing the administration with unlimited spending authority for the Supplemental Nutrition Assistance Program, or SNAP, at the end of the next fiscal year. The administration claims this authority is needed for an unexpected increase in SNAP participation, but the President continues to tout

record-low unemployment rates, which should translate into a decrease in SNAP participation. Furthermore, the program has a reserve fund totaling up to \$9 billion already to address unexpected participation increases should they unexpectedly occur, so providing USDA with a blank check is just simply irresponsible.

In times like these, as stewards of taxpayer dollars, Congress must make tough decisions in the greater interest of the American people. While I support a number of programs in the bill, I cannot support the bill at this unsustainable spending level.

This bill touches the lives of every American, and I hope we can find common ground to support America's farmers, ranchers, and rural communities. As this process moves forward, I am committed to working with Chairman BISHOP, Chair DELAURO, Ranking Member GRANGER, and the rest of our colleagues to resolve these differences.

Mr. Chair, I urge my colleagues to oppose this bill.

Ms. DELAURO. Mr. Chair, I yield 4 minutes to the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ), who is the chair of the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies.

Ms. WASSERMAN SCHULTZ. Mr. Chair, I thank the gentlewoman for yielding.

Mr. Chair, I rise in strong support of H.R. 8294, the appropriations minibus for fiscal year 2023.

I really want to start out my remarks, Mr. Chair, by saying what a joy it is to work with my counterpart, Judge Carter, as our ranking member. He and I really worked hand in glove. We are personal friends, and we worked very closely together, along with the ranking member, Ms. GRANGER, and Ms. DELAURO. In a very divisive process, it is really nice to have met and befriended someone like Judge Carter. I wish him the best.

By now, we all know President Biden's wise words: "Don't tell me what you value. Show me your budget, and I will tell you what you value."

This minibus truly reflects our values, the values of promoting progress and opportunity, and protecting those who most need it. That is why I take tremendous pride in this bill as the Military Construction, Veterans Affairs, and Related Agencies Subcommittee chair. It is a statement of principled values, especially with its strong support for veterans, servicemembers, and their families.

We steer \$15.1 billion to critical military infrastructure, such as new barracks and child development centers, and focus on ensuring that family housing is clear of mold, lead, and contaminants. We invest in climate and energy resilience projects and devote \$200 million to PFAS contamination cleanup at closed installations.

We provide more to NATO security and support the infrastructure necessary for wartime, peace, and deter-

rence operations by bolstering requirements to confront Russian aggression and protect our European allies.

This bill improves the quality of life on military installations and honors servicemembers and their families once they leave these facilities by ensuring veterans receive the care and support they earned. We do it by providing the Department of Veterans Affairs with \$135 billion to boost medical research and fully fund medical care. We make major investments in women's health, mental health, suicide prevention, and homelessness programs, and we tackle the disability claims backlog.

The bill also tackles two issues close to my and many Members' hearts. It includes a prohibition on the painful scientific testing on dogs and cats, and it also makes permanent VA's authority to offer a full range of fertility treatment. That means expanding eligibility to include partners in addition to spouses, removing discrimination against same-sex couples, and allowing the use of donated sperm and eggs in IVF.

Outside of MILCON-VA, the Energy and Water bill appropriates a record \$407 million for Everglades restoration. The river of grass is the lifeblood of south Florida, and the chance to make this level of historic progress is hugely significant toward our restoration efforts.

I am proud that this bill makes it a priority to reduce the number of injuries and deaths associated with pools and spas. We will save lives by increasing funding by pool safety grants to \$2.5 million. Drowning poses a significant public health risk to our Nation's children, remaining the number one cause of unintentional death for children younger than 5 years old in this country.

Additionally, the Interior bill reflects the importance of protecting our coastlines from greedy oil companies by prohibiting the Department of the Interior from conducting offshore oil and gas leasing activities along Florida's coasts.

It also funds valuable community projects, and in my district, that means critical infrastructure, clean transit, and improved water quality in Hollywood, Southwest Ranches, and Sunrise.

Finally, our values are reflected by how Congress confronts the dramatic rise in highway fatalities. New data shows we lost ground in our fight to end drunk driving, the leading cause of highway deaths. But this bill directs the DOT to take immediate steps to save lives by requiring the National Highway Traffic Safety Administration to issue a rule requiring all new passenger vehicles to be equipped with advanced alcohol monitoring technology. This technology will save an estimated 9,400 lives a year. For reference, airbags save 3,000 lives annually. According to Mothers Against Drunk Driving, this may be the most significant motor vehicle safety rulemaking ever undertaken in terms of the lives it can save.

We have a chance to enhance, improve, and save millions of lives by passing this minibus, and I respectfully urge my colleagues to support these cherished American values.

Lastly, Mr. Chair, I thank my incredible staff for all the work that they did to bring this remarkable piece of legislation to the floor.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Virginia (Mr. CLINE), who is a member of the Appropriations Committee.

Mr. CLINE. Mr. Chair, it is with sadness that I come to the floor to speak against this measure.

We had opportunities in the Appropriations Committee to work across the aisle to address the concerns of the minority and to fund the priorities of this country and its people. Unfortunately, with a 40-year high in inflation, CPI rising to 9.1 percent in June, \$30 trillion in debt, and the CBO recently predicting \$1.6 trillion in deficits over the next decade, business as usual can no longer be contemplated.

We must take action to secure the financial stability of this country for the future, for our children, for their children, and for future generations. We have to return to fiscal sanity through these appropriations bills to rein in inflation and rescue this economy.

Transportation-Housing and Urban Development has an increase of more than 12 percent; Agriculture an increase of 8 percent; Financial Services and General Government an increase of 17 percent over FY22; Interior, 18 percent increase; MILCON, more than 10 percent above 2022.

All of these bills contain important priorities, but they also contain excessive amounts of waste and liberal priorities that are not in keeping with the priorities of the American people, so I urge their defeat.

Mr. Chair, I thank the gentlewoman from Texas for her hard work in trying to get our priorities considered.

I look forward to continuing to work to ensure that fiscal responsibility is the watchword of the day and that the American people have their tax dollars looked after by the Appropriations Committee.

□ 1430

Ms. DELAURO. Mr. Chairman, I yield 4 minutes to the gentleman from Illinois (Mr. QUIGLEY), the chairman of the Financial Services and General Government Subcommittee.

Mr. QUIGLEY. Mr. Chair, as the chairman of the Financial Services and General Government Subcommittee, I rise today in strong support of the FY23 Financial Services and General Government Appropriations bill.

First, I thank the staff on both sides for their efforts in drafting this bill and preparing it to come to the House floor.

I also want to thank my colleague, the ranking member, Mr. WOMACK, for his hard work and collaboration on this bill. He has been thoughtful in his

input and, frankly, a pleasure to work with.

The FSGG bill includes \$29.8 billion in funding, an increase of \$4.3 billion over last year.

For Treasury, the bill includes \$15.6 billion, \$1.3 billion above last year. Within that level, there is \$336 million for CDFIs, an increase of \$41 million. The IRS gets \$13.6 billion, an increase of \$1 billion over the 2022 level.

For ONDCP, \$462 million, including \$300 million for the High Intensity Drug Trafficking Areas program and \$110 million for the Drug-Free Communities Program.

For the Judiciary, \$3.6 billion, within this amount, \$128 million is targeted for judiciary security, cybersecurity, and information technology modernization. For the Supreme Court, \$143 million, \$30 million above last year, included in this increase is funding to provide for enhanced security services.

For the Consumer Product Safety Commission, \$166.3 million, \$27.3 million above last year, including \$2.5 million for Pool Safety Grants.

For Election Security Grants, \$400 million, an increase of \$325 million above last year. These grants will help State and local governments protect our democracy through fair and secure elections.

For the GSA, \$1.1 billion over last year, including \$500 million for a new FBI headquarters. Also included, \$100 million for both the Electric Vehicle Fund and the Technology Modernization Fund.

For SBA, \$1.1 billion, \$77 million above last year. This fund includes \$326 million for the Entrepreneurial Development Programs.

We have solid increases for the Federal Communications Commission, Securities and Exchange Commission, OPM, the Archives, and the Federal Trade Commission.

The bill is silent on the civilian pay increase, allowing the proposed 4.6 percent increase to take effect.

We removed harmful riders to the bill, including the Hyde restrictions, three “dark money” riders, and the D.C. cannabis rider.

We include language making Dreamers eligible for Federal employment.

And finally, I am proud this bill was able to include 98 percent of Members’ Community Project Funding requests, including from Democrats and Republicans. This funding will go directly to important projects in Members’ districts connected with the SBA, GSA, and the National Archives.

I urge all Members to support the bill.

Ms. GRANGER. Mr. Chairman, as I said before, the bills before us do not reflect the economic realities we face. At a time of record-high inflation, the Federal Government should be reducing not increasing spending. The priorities included in these bills are simply out of touch with what the American people need.

I urge my colleagues to vote “no,” and I yield back the balance of my time.

Ms. DELAURO. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, first, let me just say, I thank the ranking member (Ms. GRANGER) for her commitment and her dedication to the Appropriations Committee and the process, a place where she has spent a number of years in the various subcommittees, and it is an honor to work with her in this effort.

I applaud the funding bills that help the middle class, working families, and small businesses, in what are desperate times. And that is what these bills do is to provide that kind of assistance to these families. I am proud to support these bills.

I listened to my colleagues about inflation, what they failed to mention, which has been really demonstrated, is that we are looking at oil companies who have consolidated; and what they are doing is buying back their stock, instead of lowering the price of gas.

They now have 26 million acres of Federal land in which they could deal with extraction, and they have the permits, but they refuse to do it. They are in the business of buying back their stock, thereby increasing inflation by keeping gas prices high.

We have the same situation in the meat industry with meat, poultry, and pork, which is continuing to raise the price because of the consolidation.

I would just mention one other thing. In the recommendations to vote “no” on this package, it just is interesting to look at what my colleagues view as not wanting to do; that is, to provide an increase for the Internal Revenue Service. Why is that money provided to the IRS? It is really to look at those corporations who are not paying their fair share of taxes.

So they are not much interested in seeing them pay their fair share of taxes, or the wealthiest of individuals who don’t pay their fair share of taxes.

They also do not want to provide money for women, infants, and children for food. They don’t want to provide money for food security, for people who are on the food stamp program.

They don’t want to do anything for domestic manufacturing on clean energy, which could lower the cost of energy. So, there is a bit of disingenuousness on what we are doing with the cost.

I am proud to support these bills. I urge my colleagues to support the six-bill appropriations package, and I yield back the balance of my time.

Ms. PINGREE. Mr. Chair, I rise to support the Fiscal Year 2023 Interior, Environment, and Related Agencies appropriations bill.

I thank Ranking Member JOYCE for his collaboration and partnership through this process, and I am grateful for the leadership of Chairwoman DELAURO, and Ranking Member GRANGER.

The fiscal year 2023 Interior, Environment and Related Agencies bill provides a total of \$44.8 billion dollars. This is an increase of

\$6.8 billion dollars over last year's enacted level, which is an 18 percent increase. Last year, we made unprecedented investments to fight the climate crisis, return science as the foundation for decision-making, dedicate the highest level of federal funding to the arts and humanities ever, and continue our commitment to tribal nations.

This bill continues to build on those successes. Through the investments made in this bill, our country will be better positioned to confront the climate crisis. Just last month, we witnessed Yellowstone, America's first national park, experience devastating flooding that triggered mudslides, resulting in its emergency closure and leaving damage that will take years to rebuild. Only weeks later, a destructive wildfire threatened to destroy the giant sequoias of Yosemite National Park. These tragedies underscored how vulnerable our ecosystems and species are to the impacts of climate change.

That is why the investments in this bill, such as the 15 percent increase for the land management agencies, will be meaningful for climate adaptation and resiliency efforts on our public lands. The bill also invests in renewable energy, both on and offshore, to provide opportunities for growth in this sector—creating good paying American jobs. And we make historic investments for science and environmental protection, providing the funding necessary to build a strong EPA.

In addition to these critical investments to protect our natural resources, the bill also includes strong funding for cultural resources by fostering the Arts and Humanities. The bill provides \$414 million for both the National Endowment for the Arts and the National Endowment for the Humanities. These funds benefit all of our districts and are a positive tool for economic development, education, and community building.

And finally, this bill supports Native American families by investing in a strong and resilient Indian Country, including through education and health care programs.

This is a strong bill. Through its investments, the Interior bill takes a whole-of-government approach to securing a safe and habitable world for future generations. I urge my colleagues to support.

The Acting CHAIR. All time for general debate has now expired.

Pursuant to the rule, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 117-55 is adopted and the bill, as amended, is considered read.

The Secretary shall provide a copy of the Notice of Default to the tenants, the local government, any mortgagees, and any contract administrator. If the owner’s appeal results in a UPCS score of 60 or above, the Secretary may withdraw the Notice of Default.

(1) be subject to remedies for noncompliance; or

(2) bear responsibility for absorbing such cost of duplicative benefits and returning an amount equal to any duplicative benefits paid to the grantee’s funds available for use under such heading, unless the Secretary, upon the request of a grantee issues a public determination by publication in the Federal Register that it is not in the best interest of the Federal Government to pursue such remedies.

(1) the contract, grant, or cooperative agreement is funded for the full period of performance as anticipated at the time of award; or

(2) the contract, grant, or cooperative agreement includes a clause conditioning the Federal Government’s obligation on the availability of future year budget authority and the Secretary notifies the Committees on Appropriations of both Houses of Congress at least 3 days in advance.

(d) Except as provided in subsections (e), (f), and (g), the amounts made available by this title shall be expended as authorized by law for the programs, projects, and activities specified in the “Bill” column in the “Department of Energy” table included under the heading “Title III—Department of Energy” in the report accompanying this Act.

Ms. DELAURO. Mr. Chair, I move to strike the last word.

The Acting CHAIR. The gentlewoman from Connecticut is recognized for 5 minutes.

Ms. DELAURO. Mr. Chair, I yield to the gentlewoman from California (Ms. LEE), the chairwoman of the State, Foreign Operations, and Related Programs Subcommittee.

Ms. LEE of California. First of all, I thank our chair for the time. I rise in

support of H.R. 8294, which provides funding for numerous critical Federal programs for Fiscal Year 2023.

And let me just take a moment to thank our chairwoman, ROSA DELAURO, for leading this appropriations process; what a job. But it was amazing, very inclusive, very democratic, and I thank her for including so much for not only Democrats in the bill, but also for our Republican colleagues.

I also thank Leader HOYER, our Speaker, and Whip CLYBURN for working to get this bill to the floor.

Not least, I thank Chairs BISHOP, KAPTUR, PINGREE, PRICE, QUIGLEY, and WASSERMAN SCHULTZ for their leadership in crafting each of these individual bills included in this package.

I tell you, systemic racism—and you know I am going to talk about that, Mr. Chair—it is really at the heart of every crisis that we face today. This bill responds with critical investments to fight poverty, hunger, homelessness, housing insecurity, the climate crisis, and also includes so many provisions for equity and for justice.

I represent a district in the Bay Area that has some of the biggest challenges with transportation and housing affordability in the country. This bill fully funds President Biden's plan to fight for fair housing. And it includes important investments in housing and transportation equity, to help reverse decades of systemic racism.

The climate crisis threatens the health, safety, air quality, and livelihoods of neighborhoods, especially poor and low-income neighborhoods which primarily are communities of color.

This bill would advance energy independence, lower energy costs, invest in renewable energy and scientific innovation, and address fundamental environmental injustices.

Finally, as the co-chair of the Congressional Cannabis Caucus, I am pleased that this bill furthers the effort to stop unfairly targeting people and businesses in States and localities where voters have chosen to make cannabis legal.

I urge my colleagues to vote for H.R. 8294. I once again thank our chairwoman for such a great job.

Ms. DELAURO. Mr. Chair, I yield back the balance of my time.

Ms. GRANGER. Mr. Chair, I move to strike the last word.

The Acting CHAIR. The gentlewoman from Texas is recognized for 5 minutes.

Ms. GRANGER. Mr. Chair, I yield to the gentleman from Arkansas (Mr. WOMACK), the ranking member of the Financial Services and General Government Subcommittee.

Mr. WOMACK. Mr. Chair, I thank the ranking member for the time. I would have been here a little bit earlier, but previous commitments kept me from speaking during general debate.

I rise in opposition to this package of appropriations bills. I am the ranking member of the Financial Services and General Government Subcommittee, and I have a great deal of respect for

my chairman, MIKE QUIGLEY. We work well together. I appreciate the hard work that Mike and his team put in in trying to get a bill that we can come to agreement on.

However, the bill we are debating is packed with unjustifiable spending that ignores the government's unsustainable fiscal trajectory and the historic level of inflation burdening all Americans, and we should be fixing that, not making it worse.

As the pandemic wanes and inflation soars, I was hoping that we could begin reducing spending. Instead, the Financial Services division of this bill increases discretionary spending by over 17 percent.

Many programs in the bill get double-digit percentage increases; some get triple-digit percentage increases. For example, the bill provides:

An increase of 433 percent for election grants;

A 20 percent for the White House;

A 30 percent for the Federal Trade Commission;

A \$1 billion increase for the IRS; and

A \$1.6 billion increase for GSA.

These increases are unconscionable when considering the U.S.' historically high debt, now in excess of \$30 trillion, and inflation over 9 percent. The combination of debt and inflation places a heavy burden on future generations of Americans. We should be fixing that.

There are also several controversial policy changes included in the FSGG division, such as allowing D.C. tax dollars to fund abortions, and removing the prohibitions on Federal employee health benefits funding for abortions. These policy changes are no-goes. They make this bill and minibus, as a whole, dead in the water. They will have to be fixed if we are going to come to some agreement.

We need to continue the longstanding legacy riders and drop the poison pills. And we need a top-line spending agreement that reduces nondefense spending and funds national security at an appropriate level.

But maybe the larger question about this bill has more to do with how we came up with these top-line numbers. We allowed the four corners of leadership to dictate these top-line numbers. They didn't come out after a budget process. And we have a Budget Committee over here whose purpose is, in part, to do that very thing.

□ 1445

But that didn't happen. So we kick out numbers that we won't agree to, wasn't through a budget process where we can define our priorities, the emerging needs of our country, and come to some agreement through a legitimate budget process, but that is not what happened here.

So it is long since time that we stop this process of doing deeming resolutions or burying top-line numbers in rule bills and get back to the process that is laid out for us, and that is to do a budget resolution, House and Senate,

to get to some kind of an agreement, and then establish an appropriate appropriation process where we can do these bills individually.

There are 12. We are going to do six today, and then we are going to do six later, but we ought to be doing them individually, and we ought to give the Members of Congress an opportunity—because it is our Article I responsibility. We need to be giving the Members of Congress the ability to have input on these bills and not just let the four corners of leadership decide what we are going to do or what we are not going to do.

So while I oppose this package in its current form, I do look forward to working with my friend MIKE QUIGLEY on a bipartisan compromise, at least on the FSGG side, and then perhaps we can do that for the 12 bills completely and then get about the business of funding the government, which is part of our fundamental responsibility.

Mr. Chair, I appreciate the Madam Ranking Member yielding time.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentleman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chair, I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Oklahoma (Mr. HERN).

Mr. HERN. Mr. Chair, I rise today with a deep concern over the rampant spending that has come out of this Chamber over the last 2 years.

While our constituents suffer from 40-year high inflation, this Chamber has done nothing to help them. Instead, my colleagues across the aisle have doubled down on their reckless spending and continue to make each bill bigger than the last. The spending has got to stop.

We know that the American Rescue Plan was the catalyst for inflation problems. We know that Biden's agenda has worsened those inflationary pressures. And yet, today—today—we are looking at even more exorbitant spending.

We have been here before. Me and my colleagues remember the 1970s and the 1980s when inflation was even worse than it is today.

Inflation isn't new. We know how to reverse it. We have to stop the spending. That is what my amendments do, cut our spending.

I urge every Member of this Chamber to support my amendments, which will cut wasteful spending from government programs.

The status quo is not serving our constituents. For 20 years, we have operated without the appropriate appropriations process in this country. For the last 4 years, since I have been in Congress, I've never seen a budget that has been provided and worked out, as my colleague just mentioned prior to me.

The spending has continued to rise unchallenged. When will it end? To maintain what we have done for the last 20 years is a disservice to the people counting on us.

When I am home in Oklahoma, the only thing my constituents ask me is: How are you going to stop inflation?

I know it is the same for all of my colleagues. Here is how we can answer them: Cut the spending.

Mr. Chair, I urge adoption of my amendments from both sides of the aisle.

Ms. DELAURO. Mr. Chair, I yield myself such time as I may consume.

While I have offered this en bloc amendment for the purposes of legislative efficiency, I strongly oppose it. This en bloc amendment makes severe and harmful cuts to the minibus.

The draconian cuts are indiscriminate, they are harmful, and they seek to overturn long overdue investments. I urge all Members to oppose this en bloc amendment.

Mr. Chair, I yield 3 minutes to the gentleman from Illinois (Mr. QUIGLEY), the chair of the Subcommittee on Financial Service and General Government.

Mr. QUIGLEY. Mr. Chair, I rise in opposition to the legislation included in this amendment. These amendments would impose 5 and 22 percent cuts across the board.

These cuts are, frankly, a clumsy way to randomly hack away at funding with no thought or consideration to their impact.

The amendment would slash funding for the Small Business Administration by more than \$200 million, severely undercutting much-needed support for small businesses and entrepreneurs.

The reduction to the IRS amendment would reduce staffing across the entire agency, resulting in lower customer service, reduced enforcement efforts, increasing the tax gap, and placing U.S. taxpayers at increased risk of identification theft.

A 22 percent cut to the District of Columbia public safety funding would result in layoffs and reduced service for the D.C. courts, the D.C. Public Defender's Office, and the Court Services and Offender Supervision Agency. The ability to monitor defendants pending trial and returning citizens would be severely hampered.

A cut of this magnitude would also cripple many small but important agencies. It would prevent the Federal Trade Commission from investigating privacy and cybersecurity issues or pursuing cases to block anticompetitive mergers.

It would harm the Consumer Product Safety Commission's ability to monitor and block dangerous products.

Additionally, this amendment would cripple the Office of Personnel Management's distribution of monthly annuity payments, as well as undermine other critical agencies that support millions of Federal workers across the country.

I, therefore, urge my colleagues to vote "no" on this ill-conceived and irresponsible amendment.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Georgia (Mr. ALLEN).

Mr. ALLEN. Mr. Chair, I rise today in strong support of my amendments on this en bloc package.

Let's review our Nation's fiscal trajectory here. Our Nation is over \$30 trillion in debt. American families are dealing with record inflation, in large part due to unprecedented Federal spending.

What does the other side want to do? Spend more money, which will make inflation worse.

This time last year, the President told us inflation was temporary when the rate was just over 5 percent. Fast forward 12 months, and inflation in this country has skyrocketed to 9 percent. This bill spends almost 14 percent over last year's spending levels.

If adopted, my three amendments would reduce spending by a modest 5 percent in Transportation, Housing and Urban Development, Financial Services and General Government, and Department of the Interior, environment divisions of this spending package.

This amendment should be an easy one for everyone to support. Look at the American people. Don't you think they have cut their expenses much more than 5 percent because of inflation? Are we going to respond to them like this? Yet, Democrats oppose those cuts.

Every time I am in the district, I hear about the cost of food, the price of gas, and how the other side's failed fiscal policies are harming American families.

Milk is up 16 percent. Butter is up 21 percent. Eggs are up 33 percent. The American people are not happy, and it is showing up in the President's approval ratings.

Instead of continuing down this reckless path, let's change course. Americans shouldn't have to watch their hard-earned money continue to be devalued due to radical Democratic policies. If we are serious about stopping inflation, Congress must rein in wasteful spending and enact policies that will enable us to reclaim our energy independence.

I urge all Members to vote in favor of my amendments in this en bloc package.

Ms. DELAURO. Mr. Chair, I yield 4 minutes to the gentleman from North Carolina (Mr. PRICE), the chairman of the Subcommittee on Transportation, Housing and Urban Development, and Related Agencies.

Mr. PRICE of North Carolina. Mr. Chair, I urge my colleagues to sit up and take notice of this. This is quite an amendment—quite a radical amendment.

It indiscriminately would cut a total of 36 percent from programs in Transportation and Housing without any regard for the merits of the programs, just indiscriminate whacking away.

This is only in the T-HUD section of the bill, and I will limit myself to that. I can't imagine that Members would dream of supporting this amendment.

Investments in our transportation and housing infrastructure will stall. Jobs will be lost. Some of our most vulnerable people, including veterans, children, will be harmed.

This amendment will result in a reduction—I want to stress—in the very programs Republicans profess to support. Let me give you some good examples.

The FAA's Contract Tower Program that enjoyed strong bipartisan support, critical to air safety—whacked away.

NeighborWorks, which supports local solutions to expand affordable housing, increased housing counseling assistance, and strengthens economic development. We increase NeighborWorks under bipartisan urging—slashed.

Community Project Funding. Republicans and Democrats alike have requested these appropriations to address transportation and housing challenges in their local communities. Believe me: If we don't do it, no one will. Those would be drastically cut.

Port infrastructure, another Republican emphasis—cut.

The amendment would even cut the small amount of defense spending included in the T-HUD section of the bill: That would be directed to critical maritime security programs.

Here is what else this amendment would mean the eviction of tens of thousands of low-income households, half of which are elderly or disabled, a growing backlog of roof, elevator, and other critical health and safety repairs to public housing; thousands of homeless veterans, survivors of domestic violence, youth out on the street; and a halt in the production of affordable housing, which already is in short supply.

Roads, bridges, aviation, transit, rail, and port systems across rural and urban communities—having their repair and upkeep halted or slowed, becoming less safe.

The bill before us helps us make progress in rebuilding and restoring our infrastructure. This amendment would take us backward.

It is strange, isn't it, that deficits only seem to matter when it comes to helping people keep a safe roof over their heads and creating a more resilient infrastructure that can withstand the next tornado or earthquake or flood, something every one of our districts benefits from.

This isn't just a run-of-the-mill amendment. I suggest that Members look carefully at what is in it and what it would do and what kind of totally justified criticism they will be subject to if this amendment even comes close to passing. I urge its defeat.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 3 minutes to the gentleman from Georgia (Mr. BISHOP), the chairman of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies.

Mr. BISHOP of Georgia. Mr. Chair, I rise in opposition to the en bloc. Mr. HERN's amendment in this en bloc would cut discretionary programs in the agriculture bill by 22 percent. Mr. NORMAN's would cut them by 5 percent. Either level will have devastating and counterproductive consequences across numerous programs.

This would mean cutting rural development initiatives. The 22 percent cut

would reduce much-needed investments in rural broadband, electricity, water and waste systems, and housing at a time when we really, really want to lift our rural communities.

It would mean cutting our investments in farm and conservation programs, agriculture research, Food for Peace grants, and the McGovern-Dole program.

□ 1500

The Food and Drug Administration budget would be cut by over \$800 million under Mr. HERN's proposal, lessening our ability to address the opioid crisis, medical supply chain issues, infant formula, and food safety.

I ask my colleagues to join me in opposition to these amendments.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Oklahoma (Mr. HERN).

Mr. HERN. Mr. Chair, I appreciate the comments from my colleagues across the aisle. What the American people have just heard is the only way forward is to spend even more.

Remember, the Obama administration's own Treasury Secretary said the spending is what caused the inflation that you are experiencing that is running rampant across America. The spending is crushing the future of our American kids and our grandkids and future generations, with over \$30 trillion in debt. The same inflation that the Feds right now are raising interest rates, they are going to drive up our mandatory spending on the interest on our debt.

The answer is not to continue spending ourselves into bankruptcy. There has been no offer from my colleagues across the aisle where there is any way to quit spending the amount of money we are seeing today.

Moody's just said that the American people have \$5 trillion more in their bank accounts today than they had just a little over a year ago, money that was sent to them by the Federal Government that we borrow from places like China.

Friends, we have got to be more fiscally responsible. I spent the last 2 years—5½ months last year, 5½ months this year—as the budget chairman for the Republican Study Committee, actually working on the budget, actually seeing where our spending goes.

We cannot keep having double-digit increases in our spending and expect to be ever responsible to the American people for the future of this country.

Ms. DELAURO. Mr. Chair, if my colleagues on the other side were so interested in really reducing inflation, I would hope that they would be supportive of the child tax credit, which none of them have supported, which, in fact, the majority of the people using the child tax credit are dealing with food, with clothing, with school supplies, with rent, but all of these expenses have gone up, and the money has run out.

They can't find their way clear to support a child tax credit, and that

lack of action from the Congress to renew the child tax credit is trouble, it is big trouble for these families, especially as the costs of life continue to swell due to inflation.

Let's look at the cost of inflation and why we have inflation and take a look at what the oil companies are doing with price gouging. What we ought to do is to do a windfall profits tax on people who are making money hand over fist and refuse to lower the price of gasoline at the pump because they are buying back stock to take care of themselves and their stakeholders.

That is a portion of what is causing inflation and the rise in the cost of living. If you were genuine about that, you would look at these matters as well as just talking about inflation and not looking at the root causes of it today.

Mr. Chair, I yield back the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 1 minute to the gentleman from California (Mr. MCCARTHY), the Republican leader.

Mr. MCCARTHY. Mr. Chairman, I rise today in support of my amendment, which is in part of the en bloc package of amendments No. 7 that is designed to help protect our giant sequoias, which are native to my home State of California, from catastrophic wildfires.

Giant sequoias only grow one place in the world, in California. They live to 2,000, 3,000 years. Historically, they only die when they tumble over after living through so many thousands of years.

But right now, as I stand here, there are currently 1,500 firefighters on the ground working to contain the Washburn fire in Yosemite National Park. The fire is threatening more than 500 giant sequoias, including the world's largest and oldest, the Grizzly Giant.

On record prior, the only time in history that we had giant sequoias dying from fire was in 1297; but in the last 2 years, we have lost 20 percent of all the giant sequoias from fire. Think about that. In just 2 years, we have now lost 20 percent. As we speak and talk right now, 1,500 firefighters are trying to defend 500 giant sequoias, even the oldest one on record.

I led a bipartisan congressional delegation to see the giant sequoias impacted by fires in my district earlier this year. The devastation was shocking. These losses are a clarion call for not only the National Park Service and the U.S. Forest Service to act to remove hazardous fuel buildup so we can reduce the risk of high-intensity fires in these groves, but for Congress to make the critical management reforms and provide the resources necessary to protect these iconic trees.

It is interesting when we were there together in a bipartisan group to study it, there were people from other countries just to come see these majestic beauties. When you talk to the Forest

Service that led us throughout, you would look at their badges. I don't know if anyone has ever taken the time, but these trees are so iconic, they are on the badge of our U.S. Forest Service.

But, again, in the last 2 years, 20 percent of them have been wiped out by fire. If we do nothing, they can all be taken away.

In a Congress as divided as ours today, these giant sequoias have actually united a bipartisan group of lawmakers who are committed to protecting these natural wonders. I have been proud to introduce the Save Our Sequoias Act with fellow California Congressman SCOTT PETERS as well as Natural Resources Ranking Member BRUCE WESTERMAN, Congressman PANNETTA, Congressman MCCLINTOCK, Congressman COSTA, Congressman VALADAO, and Congressman GARAMENDI. They have all taken the time to study what is before us right now.

The SOS Act will help save giant sequoias because it was declared an emergency so we can immediately reduce the risk of catastrophic fires in the giant sequoia groves by removing the hazardous fuel buildup, remove the barriers that prevent the Forest Service and local experts from taking action in advance to save these resources, provide funding for the comprehensive reforestation study.

We are able to come together on this bill because we all have deep understandings that our giant sequoias are in a crisis. That knowledge also brought us together to offer this amendment today. This amendment would prioritize \$5 million in the National Park Service and \$5 million in the U.S. Forest Service to support efforts to reduce the risk of catastrophic fires killing giant sequoias in the Sierrita Nevada, including environmentally responsible prescribed burns and mechanical thinning, among other things. But this would only be for the groves.

It would also help prioritize funds for the development of a strategy by the Secretaries of the Interior and Agriculture to better protect the giant sequoia groves from catastrophic fires, a requirement included in the fiscal year 2023 Interior Appropriations Committee report.

We are racing against the clock. Fires are burning right now in the Sierrita National Forest, threatening these trees. Some of them are more than 2,000 years old. We cannot be the generation that allows these massive and ancient natural wonders to perish on our watch.

I urge my colleagues to support this amendment and vote for the en bloc package No. 7. I thank the chairman, and I thank our ranking member for yielding the time.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc offered by

the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. HERN. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentle-

woman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chair, I yield myself 45 seconds. The en bloc amendment includes a number of proposals offered by my Democratic and Republican colleagues. I urge my colleagues to support the important proposals contained in this amendment, and I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 1 minute to the gentleman from Utah (Mr. MOORE).

Mr. MOORE of Utah. Mr. Chair, I rise today in support of amendment No. 81, which would provide funding for the Modernization Access to Our Public Land Act, otherwise known as the MAPLand Act, which was enacted last April.

I was proud to work with a strong, bipartisan coalition of Members in the House and the Senate to get this bill signed into law, and I appreciate Congresswoman DINGELL for working with me on this amendment before us today.

Making public land information more detailed and accessible in the digital age is one of the many reasons why this bill has enjoyed such broad support as it soared through the legislative process.

Adoption of this amendment today will provide the funding needed to modernize and improve the quality of this data so that Americans can more easily recreate on our Federal lands, which will also improve our ability to fund important conservation programs that enhance and protect habitats across this Nation.

This amendment is about helping families spend more time together outside, about improving the way our government works, and about fostering and sharing the joy of the great outdoors.

Mr. Chair, I urge my colleagues to support amendment No. 81.

Ms. DELAURO. Mr. Chair, I yield 3 minutes to the gentlewoman from Washington (Ms. SCHRIER).

Ms. SCHRIER. Mr. Chair, I am so glad that my amendment to fund the Research Facilities Act was included in this government spending package. We need to address our deferred research maintenance backlog and increase investments in next-generation agriculture research.

This research is critical, as farmers in my district face daunting challenges. For example, the ability for researchers to conduct experiments on plants under various environmental stresses is critical for understanding how crops respond to new climate conditions. Modern facilities can also help researchers screen new crop varieties and understand the impacts of a changing climate on things like nutrient density and susceptibility to pestilence.

Many farmers in Washington State rely on the tremendous research done

at institutions like Washington State University. Ensuring that they have modern facilities, cutting-edge facilities, will make it easier for them to attract and keep world-class researchers.

These investments will reposition the United States for leadership, long-term success, and competitiveness around the world, and make sure we are leading in agricultural research and food research.

Ms. GRANGER. Mr. Chair, I yield 3 minutes to the gentleman from Minnesota (Mr. STAUBER).

Mr. STAUBER. Mr. Chair, I rise today in support of my amendment I introduced, which increases the Circuit Rider program. The modest increase of \$418,000, offset entirely, means cleaner water for rural America.

□ 1515

Circuit riders travel from facility to facility across our small towns, lending expertise and technical assistance because each individual locality does not have the money to pay for their own. Many treatment facilities in rural America have a dozen or less employees, and these circuit riders save money for local budgets and taxpayers.

According to the National Rural Water Association, this minor increase allows for about 90 more circuit riders. That is 90 more experts traveling across rural America and rural Minnesota, lending their invaluable knowledge to our rural water treatment facilities.

In an industry losing expertise to retirement or other jobs, this funding can also be used to keep these mission-critical positions competitive.

Finally, this amendment brings funding for the Circuit Rider Program in line with a request I led along with 50 other bipartisan Members of Congress.

Let's allow rural America to have clean, sanitary water, free up local budgets, and ensure our rural operators get the technical assistance they so desperately need.

Mr. Chair, I urge adoption of my amendment.

Ms. DELAURO. Mr. Chair, I yield 3 minutes to the gentleman from Georgia (Mr. BISHOP), the chair of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee.

Mr. BISHOP of Georgia. Mr. Chair, I rise in support of this bipartisan en bloc. These amendments addressing the Agriculture division of the package were made in order by the rule, and they have been agreed to by both sides.

This was a truly collaborative process between both sides of the aisle, and I believe this bipartisan effort will definitely improve the bill.

I thank the sponsors for their efforts and highlight a few of the issues that are covered by these amendments: encouraging innovation in USDA research programs, protecting victims of trafficking, and increasing funding for the farm-to-school program and the Circuit Rider Program.

Mr. Chair, I support the amendment and urge its adoption. It improves the bill.

Ms. GRANGER. Mr. Chair, I reserve the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 3 minutes to the gentleman from Louisiana (Mr. CARTER).

Mr. CARTER of Louisiana. Mr. Chair, I thank Chairwoman DELAURO very much for the opportunity to speak.

Last year, Hurricane Ida swept through my State, leaving in its wake a shocking, terrible path of destruction. This body saw the devastation of this storm and saw fit to make an immediate downpayment so that the recovery could begin in Louisiana as we assessed the incredible damage.

Implied in that downpayment was a commitment to come back and do more when Louisiana determined its actual need. My State, and many people here, are asking this body to keep its commitment.

Disaster knows no boundary. It can and will hit all of our districts unexpectedly. I promise to be with you when it does. Today, I need this body to stand with me and pass additional hurricane relief funding so that the people of Louisiana can fully recover.

Mr. Chair, I urge the passage of en bloc No. 2.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. DELAURO. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. TIFFANY. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chair, I yield myself 45 seconds.

The amendments en bloc includes a number of proposals offered by my Democratic colleagues. It reflects our shared values of investing in the American people to create good-paying jobs, grow opportunity, and provide a lifeline to the vulnerable.

Mr. Chair, I urge my colleagues to support the important proposals contained in this en bloc, and I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I reserve the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 3 minutes to the gentleman from Georgia (Mr. BISHOP), the chairman of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee.

Mr. BISHOP of Georgia. Mr. Chair, I thank the gentlewoman for yielding.

These amendments en bloc address the Agriculture division of this package that were made in order by the rule. I believe they will improve the bill also.

In particular, the amendments will increase the funding for the school breakfast expansion program and further advance the needs of Puerto Rico and the other territories, all of which participate in the Micro-Grants for

Food Security Program. Representative VELÁZQUEZ' amendment draws attention to Puerto Rico's nutrition needs, where about 1.5 million residents receive nutrition assistance.

The amendments highlight other important issues, such as rural energy efficiency and the need to build our infant formula manufacturing base in this country.

Mr. Chair, I support the amendment, and I urge its adoption.

Ms. GRANGER. Mr. Chair, I yield myself such time as I may consume.

I rise in opposition to the en bloc package of amendments. These 46 amendments do nothing to reduce inflation, fix the supply chain, lower gas prices, or bolster our national security. Instead, these amendments continue the majority's trend of inflationary spending increases, including a proposal to increase mandatory spending by another \$1 billion, just one example of excess spending.

The Energy Efficiency and Renewable Energy Office receives an enormous 25 percent increase in this bill, and this en bloc package would increase it even more.

My colleagues on the other side of the aisle must understand Americans will not stand for bloated bureaucracy and runaway spending.

Mr. Chair, I urge Members to vote "no" on this en bloc package, and I yield back the balance of my time.

Ms. DELAURO. Mr. Chair, I yield back the balance of my time.

Miss GONZÁLEZ-COLÓN. Mr. Chair, I rise in support of amendment No. 66 included in En Bloc 3 and sponsored by Congresswoman NYDIA VELÁZQUEZ of New York. I am a cosponsor of this amendment, which supports an increase of \$1 billion for the Nutrition Assistance Program in Puerto Rico for Fiscal Year 2023.

Unlike the 50 states, the U.S., Virgin Islands, and Guam, Puerto Rico does not participate in the Supplemental Nutrition Assistance Program, known as SNAP. Instead, we have the NAP block grant, which provides capped funding and serves over 1.4 million of my constituents on the Island.

Due to limited funds, NAP does not automatically adjust to increases in demand. These are most common in the aftermath of natural disasters, like we saw after the hurricanes in 2017, and most recently the COVID-19 pandemic. Because of this, we have had to turn to Congress on multiple occasions to advocate for additional emergency NAP funds, included in various disaster supplementals.

The most recent allotment, provided due to COVID-19, was expended last month, meaning Island residents who rely on this program have already noticed a significant reduction in their monthly benefits as we continue managing the challenges related to the pandemic and the rising costs of food. Additional funds are needed since, for many, NAP is the main program that secures their access to a healthy diet.

Mr. Speaker, the true remedy to this issue is a transition to SNAP. Currently, NAP beneficiaries in PR receive far less in monthly benefits than their counterparts in SNAP, and don't have access to programs like D-SNAP.

which is a vehicle to get expedited disaster assistance without depending on supplemental legislation. As such, I have introduced H.R. 5220, the Puerto Rico Nutrition Assistance Fairness Act, which transitions Puerto Rico from NAP to SNAP, and I continue working with stakeholders to gather additional input on this issue moving forward.

Still, there is an immediate need at hand. As such, I support this and every effort that seeks to secure additional funds for NAP and underscores the need to transition to SNAP.

I urge my colleagues to vote in favor.

Mr. LEVIN of Michigan. Mr. Chair, I rise today in support of my amendment to H.R. 8294, the fiscal year 2023 Transportation, Housing and Urban Development, Agriculture, Rural Development, Energy and Water Development, Financial Services and General Government, Interior, Environment, Military Construction, and Veterans Affairs Appropriations Act, to ensure that Congress is adequately funding Tenant Participation Activities. I thank Chairs ROSA DELAURO AND DAVID PRICE for supporting this amendment.

The right of tenants to organize is a fundamental part of successful federal housing programs. The tenant participation process, built into all of HUD's major housing programs, can ensure that tenants play an integral role in the management process and promote services benefitting all residents. For example, through the public notice and comment process, tenants can prevent changes to the property that will destabilize residents' lives or diminish their rights. Funding resident participation and organizing activities is also an intentional and active way to value the lived experience of assisted families. Their empowerment is essential as we work towards a more just housing system.

At present, these activities are not adequately funded. The allotment that Public Housing Authorities can provide tenant participation activities through a formula—\$25 per occupied unit—has not changed since 2001. As a former union organizer, I understand what a difference even a small amount of funds can make for getting people activated and motivated to join an organizing effort. My amendment seeks to ensure that the PHA allotment is increased to \$40 per occupied unit, per year, adjusted for inflation so that HUD residents have the financial support they need to participate in organizing activities that will improve the lives of residents and their surrounding communities.

I urge my colleagues to support this important amendment.

Mr. LEVIN of Michigan. Mr. Chair, I rise today in support of my amendment to ensure that funding is prioritized for the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) discretionary grant program in H.R. 8294, the fiscal year 2023 Transportation, Housing and Urban Development, Agriculture, Rural Development, Energy and Water Development, Financial Services and General Government, Interior, Environment, Military Construction, and Veterans Affairs Appropriations Act. It is critical that RAISE grants include equipping our highways with electric vehicle charging equipment, as well as powering public buses and rail with electricity. I thank Chairs ROSA DELAURO AND DAVID PRICE for their support for my amendment.

Today, continued investments in outdated technology that contributes to our planet's disastrous overheating are not sustainable. Instead, we should be investing in projects that will decarbonize and electrify our public transportation sector and help the country achieve net-zero carbon emissions. We must also commit to funding projects that further the goal of equity and uplift our most vulnerable populations, as the effects of climate change have a disproportionate impact on communities of color.

Our planet and the future of younger Americans and future generations depend on our ability to act on climate change now, and take every opportunity to transition away from fossil fuel dependence. Madam Speaker, this is one of those critical opportunities. This is our opportunity to ensure that our infrastructure is sustainable and equitable; to make a strategic investment both in our nation's infrastructure and our environment; to invest in future generations, not just for our grandchildren but for their children and beyond. I urge my colleagues to support this amendment.

Mr. DANNY K. DAVIS of Illinois. Mr. Chair, I rise in support of En Bloc 3 that includes my Rules amendment number 110 to increase funding for diversity in the aviation field.

Being an aircraft pilot is an in-demand, high-paying profession, with the median annual wage for a commercial pilot being over \$99,000. Unfortunately, the aviation industry is impressively homogenous. According to the Bureau of Labor and Statistics, 93 percent of aviation pilots and engineers in 2021 were White with only 6.1 percent being Hispanic/Latino, 3.9 percent being Black, and 1.5 percent being Asian. Approximately 95 percent of aviation pilots and engineers are men.

Prior to the pandemic, the pilot pipeline was untenably low. We have heard repeatedly this summer about how the recent travel problems occur in part due to a pilot shortage. The high cost of pilot training is a key barrier to entering the profession, especially for people of color. Pilot training can cost between \$80,000 to \$100,000.

My amendment gives Congress an opportunity to help individuals enter aviation careers while increasing the diversity of the field. My amendment increases and decreases the Research, Engineering, and Development program by \$10 million to highlight the need to double funding for the Aviation Workforce Development Grants. The Aviation Workforce Development Grants program invests in training and diversification of aircraft pilots and aviation maintenance workers. The aircraft pilot program and the aviation maintenance program each is currently authorized at \$5 million. My amendment highlights how doubling funding for these grants would help address the immediate need to increase the aviation workforce with a focus on individuals currently underrepresented in the profession.

Further, my amendment focuses on how the Aviation Workforce program could include more students of color by expanding partnerships with Historically Black Colleges and Universities, Tribal Colleges and Universities, and the five Minority Serving Institutions, including: Asian American Native American Pacific Islander-Serving Institutions; Alaska Native and

Native Hawaiian Serving Institutions; Hispanic Serving Institutions; Native American-Serving Non-Tribal Institutions; and Predominantly Black Institutions. These institutions have expertise in educating and graduating low income students of color. Collaborating with these institutions is an effective way to target grants to students from racial/ethnic backgrounds with financial need.

In closing, I urge my colleagues to support my amendment to bring attention to the need to increase funding for aviation workforce training and diversity.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Ms. GRANGER. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

AMENDMENTS EN BLOC NO. 4 OFFERED BY MS. DELAURO OF CONNECTICUT

Ms. DELAURO. Mr. Chair, pursuant to House Resolution 1232, I offer amendments en bloc.

The Acting CHAIR. The Clerk will designate the amendments en bloc.

Amendments en bloc No. 4 consisting of amendments Nos. 13 and 179, printed in part A of House Report 117-420, offered by Ms. DELAURO of Connecticut:

AMENDMENT NO. 13 OFFERED BY MR. GOOD OF VIRGINIA

Page 241, after line 8, insert the following:
SEC. _____. None of the funds made available by this Act may be used to implement, administer, or enforce the prevailing wage requirements in subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the "Davis-Bacon Act").

AMENDMENT NO. 179 OFFERED BY MR. GOOD OF VIRGINIA

Page 241, after line 8, insert the following:
SEC. _____. None of the funds made available by this Act may be used to implement, administer, or enforce the prevailing wage requirements in subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the "Davis-Bacon Act").

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chair, I yield myself such time as I may consume.

I oppose these amendments en bloc. Davis-Bacon is a pretty simple concept and a fair one. What does the Davis-Bacon Act do? It protects the government as well as workers in carrying out the policy of paying a decent wage on government contracts.

The Davis-Bacon Act requires that workers on federally funded construction projects be paid no less than the wages paid in the community for similar work. It requires that every contract for construction to which the

Federal Government is a party, in excess of \$2,000, contain a provision defining the minimum wages paid to various classes of laborers and mechanics.

The House has taken numerous votes on this issue, and on every vote this body has voted to maintain Davis-Bacon requirements. We should not be attacking working-class people, men and women who work every single day for a decent paycheck, and their wages haven't been increased with the cost of inflation. We should defeat the amendment before us today, and we should move on to more important matters.

Mr. Chair, I urge all Members to vote "no," and I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 10 minutes to the gentleman from California (Mr. VALADAO), a member of the Appropriations Committee.

Mr. VALADAO. Mr. Chair, I request support from my colleagues on a very simple amendment.

This amendment would prohibit the Department of Energy from sending America's Strategic Petroleum Reserve to China. Supporting this language is common sense, especially since we need to focus on increasing energy production and not supporting our adversaries while Americans are still suffering from outrageously high fuel prices here at home.

These reserves are meant to be used for emergencies only. They are not meant to be used when our leadership has failed us by unnecessarily restricting domestic energy production.

What is even more concerning is that under the Biden administration, our Strategic Petroleum Reserve supplies have been severely diminished. It does not make sense that we are using our already depleted energy supplies to help China build up their own strategic reserves.

It is irresponsible and dangerous for the United States to provide our foreign adversary with fuel that we desperately need to keep here in the United States in case of an emergency. It seems the Biden administration is helping to support China's national security at the expense of our own.

It has been suggested that selling resources from the Strategic Petroleum Reserve will help reduce fuel prices here at home. That is simply not true.

What we should be doing instead is supporting our energy producers here in the United States. We have abundant resources here that can and should be used. We are deliberately holding our country back by overregulating and stifling our domestic energy producers. The very last thing we should be doing is sending our precious resources from the Strategic Petroleum Reserve to China. I urge all of my colleagues to support the United States national security by supporting this amendment.

Mr. Chair, I include in the RECORD the text of this amendment.

At the end of division C (before the short title), insert the following:

SEC. _____. None of the funds made available by this Act may be used to draw down and sell petroleum products from the Strategic Petroleum Reserve to any entity that does not certify to the Secretary of Energy that—

(1) it is not under the ownership, control, or influence of the Chinese Communist Party; and

(2) such petroleum products will not be exported to the People's Republic of China.

Mr. VALADAO. Mr. Chair, thank you for allowing me this time to talk about the importance of the three amendments I submitted to this bill that, unfortunately, we won't be voting on today.

The severe drought throughout the American West has been negatively impacting my constituents and local community for years.

In the Central Valley, our farmers have had to turn to pumping groundwater to protect their high-value crops. Towns have been forced to pump more and more groundwater to meet their communities' needs. As a result, these communities have experienced land subsidence at the expense of critical water infrastructure.

In the worst cases, farmers are forced to fallow their fields and dry out valuable orchards due to access to little or no water.

My constituents are farmers who feed the world, and with record-high food prices, the inability for our domestic farmers to grow food is going to impact the entire country. The situation is dire and only getting worse.

We can't produce more water, but we can work with the water we already have and apply commonsense solutions to make this water available to our agricultural communities.

My first amendment would have addressed water storage capacity issues by extending the storage provision of subtitle J of the WIIN Act. It would have also created a program to assist in funding the repairs to damaged canal facilities.

Unless these canals are completely restored, the issue of subsidence and resulting unnecessary water loss will continue and conditions will worsen.

□ 1530

My second amendment would codify the 2019 biological opinions that were independently peer-reviewed and informed by the most accurate and best-available science.

Unfortunately, the Biden administration's Bureau of Reclamation has ignored science and reinitiated consultation with the BiOps with no explanation. Codifying the 2019 BiOps would put an end to senseless litigation and provide operational certainty for Valley farmers.

My third amendment was one focused on transparency and would direct the Bureau of Reclamation to provide the Committee on Appropriations with a justification on their decision to reinitiate consultation of 2019 biological opinions. We need to stop playing politics with a resource that the Central Valley is so reliant on.

It is extremely disappointing that the majority rejected each one of these amendments that would bring more water to the communities throughout the Central Valley who are doing everything they possibly can to survive these conditions and provide food for our Nation.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentleman from New Jersey (Mr. NORCROSS).

Mr. NORCROSS. Mr. Chairman, I appreciate the gentlewoman for yielding.

Here we are once again having a discussion about Davis-Bacon prevailing wages. Dozens of studies over decades have shown prevailing wages increase productivity, raise wages, helps local contractors, promote high-quality apprenticeship programs. The very thing that we talk about doing here for our districts.

Prevailing wage laws increase productivity by attracting higher-quality general contractors and subcontractors to bid on public works; it levels the playing field. As a result, public projects cut down on change orders and finish projects with greater efficiency.

In fact, in 2015, West Virginia repealed its State prevailing wage law, arguing it would allow the State to build five schools instead of four. But after a study, the repeal showed that there were no cost savings from repeal of the law—but massive decreases in wages, out-of-town contractors and apprenticeships.

Not only that, prevailing wage laws are also good for business. They are good for contractor associations. They are good for people.

I find it absolutely unbelievable that we come down and have these discussions each and every time saying: I am fighting to lower wages in my district. This is what my people want, they want to be paid less. Not a word on what the contractor/owners can make. But the workers, the ones who build things, we are fighting to lower those wages.

This is insane. I would call it dumb, but I want to be kinder. We are in a great institution. Let's just call it wrong, hateful, misappropriated.

But the fact of the matter is, we are here to raise the level of quality and, certainly, of helping those who need it most, the ones who build America.

Mr. Chair, I urge my colleagues to defeat this amendment.

Ms. GRANGER. Mr. Chairman, I yield 3 minutes to the gentleman from Virginia (Mr. GOOD).

Mr. GOOD of Virginia. Mr. Chairman, I rise in support of two amendments that would prohibit Federal funding for Davis-Bacon under Division A and Division F of this minibus.

Passed into law in 1931, Davis-Bacon was a conglomeration of many Jim Crow-era policies intended to inflate the wages of government contractors and eliminate competition for labor in favor of White union workers.

Nearly every day on this House floor, we hear from Democrats about how

anyone who disagrees with them must obviously be a racist. That is their default response to virtually all opposition to their disastrous policies.

Climate—racist. Healthcare—racist. COVID—racist. Infrastructure—racist. Police—racist. School choice—racist. Border security—racist. Voting Republican—obviously, racist. Being a patriot in the military—racist. Election integrity—super racist.

In fact, the President of the United States called proponents of voter ID worse than Jim Crow. They were “Jim Eagle.”

But will any Democrat join me today in this effort to oppose Davis-Bacon, a hateful, legal artifact from the Jim Crow era?

Beyond its history, the Davis-Bacon Act artificially drives up the cost of Federally funded construction projects by requiring the payment of the prevailing wage, an arbitrary wage determined by the Department of Labor, rather than the wage determined by the marketplace. That is never good, and certainly not in the interest of the taxpayer—you know, the ones who pay the bills.

In fact, Davis-Bacon drives up Federal construction costs by about 10 percent every year and costs taxpayers about \$11 billion a year. I know, I know. We waste trillions around here, and we don't care about billions. We don't take that seriously. But why should American taxpayers subsidize unions when only 14 percent of construction workers are unionized.

Billions of Federal dollars are being funneled towards just one-tenth of the entire construction workforce in our country. By inflating wages far above the market rate, we are not helping American workers, we are robbing taxpayers of \$11 billion a year. Nonunion workers are paying more in taxes to subsidize higher union wages for Davis-Bacon workers.

With the Biden price hike driving inflation to a 40-percent high at 9 percent, we should all be thinking about ways to save taxpayer money and make government more efficient. The Biden price hike has the impact of making every American work one month for free this year. That is how much less purchasing power they have.

My legislation to repeal the Davis-Bacon Act has the support of Americans for Prosperity, Citizens Against Government Waste, FreedomWorks, Heritage Action for America, and National Right to Work.

Mr. Chairman, I urge all my colleagues to support my commonsense amendments to prohibit funding for Davis-Bacon and save taxpayers \$11 billion per year.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentleman from North Carolina (Mr. PRICE), the chairman of the Transportation, Housing and Urban Development, and Related Agencies for appropriations.

Mr. PRICE of North Carolina. Mr. Chair, I strongly oppose this amend-

ment. It seeks to waive longstanding prevailing wage requirements that are contained in the Davis-Bacon Act.

This act ensures that workers are paid decent wages while preventing contractors from undercutting competitors by offering wages or setting wages below prevailing levels.

Davis-Bacon helps protect workers. It helps protect the government. Davis-Bacon applies government-wide, but it does particularly apply to the T-HUD sections of the bill. Hence, I strongly oppose it.

I often noted immodestly over these last years when everybody was talking infrastructure—and “Infrastructure Week” almost became a punch line—that while everybody else was talking about it, we were doing it. We were doing it on the T-HUD Appropriations Subcommittee and in the Congress, year after year, plugging away at our infrastructure needs.

And that is what we have done. We have actually made investments in the annual T-HUD bill, and these investments are practically synonymous with construction. That is what they are about. Construction. Construction workers.

There are countless transportation formula and competitive grant programs, as well as affordable housing programs in the bill that follow Davis-Bacon requirements—have done so happily and productively over many years—and they would suddenly face new standards.

Davis-Bacon has helped construction workers in all trades all throughout the Nation since 1931, and there is no need to abandon it now—although Republicans have been trying to abandon it for a good number of those years.

Instead of actively trying to reduce wages, we should be working to lift up workers and increase wages. The Congress has rejected similar amendments in the past because there is a strong bipartisan support in this body for fair labor standards for construction contracts.

So it is my hope that we stop disrespecting working people. Stop disrespecting working people. Stand up for working people. Defeat this amendment before us today.

Mr. Chair, I urge all Members to oppose the en bloc amendment.

Ms. GRANGER. Mr. Chairman, I reserve the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentlewoman from Virginia (Ms. SPANBERGER).

Ms. SPANBERGER. Mr. Chairman, I rise today in support of my amendment to protect seniors and crack down on drug companies obscuring the side effects of their prescription drugs in their television ads.

The United States is one of only two countries that allow direct-to-consumer pharmaceutical advertising, and there are serious consumer safety concerns about these ads. These ads use distracting imagery, such as butterflies, happy puppies, cheesy music, and

beautiful sunrises to distract consumers from a drug's dangerous side effects.

Congress instructed the FDA to crack down on these deceptive techniques more than a decade ago. However, the FDA has misused that statutory deadline by more than a decade.

My amendment simply instructs the agency to finalize the rulemaking as soon as possible. Medical decisions should always be made between a patient and their doctor, not between a patient and their TV screen.

Mr. Chair, I urge my colleagues to support my commonsense consumer protection amendment.

Ms. GRANGER. Mr. Chairman, I yield back the balance of my time.

Ms. DELAURO. Mr. Chairman, in closing, I just remind my colleagues, this body has rejected this amendment on a bipartisan basis time and time again.

Speaking about inflation, we know that wages have not kept up with inflation, and working people are struggling, living paycheck to paycheck. Why are we dealing with an amendment that would try to curtail wages and prevailing wages for workers every day who go on a job and put forth all of their efforts to be able to get a decent wage to take care of their children, to be able to deal with inflation?

It speaks loudly of my colleagues who refuse to believe that we need to have wages increase to help people fight inflation.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Ms. GRANGER. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chairman, I reserve the balance of my time.

Ms. GRANGER. Mr. Chairman, I yield 3 minutes to the gentleman from Wisconsin (Mr. GROTHMAN).

Mr. GROTHMAN. Mr. Chair, I have seven amendments in the en bloc, and I will talk on two issues, in general, that cover, I think, all of the amendments.

The first thing is an overall concern of spending. It is a lot easier to break an economy than to fix an economy. And the American Rescue Plan and the very high-spending infrastructure bill—between them, spending over \$3 trillion—I think is the primary reason for the huge inflation we are having to deal with today.

Look at these underlying bills—the T-HUD bill, up 12 percent; financial services—in general government up 17 percent—these programs have to be held at an even or slight decrease level for years to make up for the damage that was done with those two big bills.

I am not going to say there wasn't damage done before that. I think a little bit of the COVID bills that were originally signed by the prior President were not exactly the most frugal things either, but everybody knew at the time this was a problem. And my amendments are along the lines of not destroying programs, not taking out programs altogether, but going back to the amount that was spent last year, or the amount that was spent in President Obama's final year.

I sometimes use President Obama's final year to show that I am not being reckless here, but what I am saying is, there ought to be a little bit of restraint in the Committee on Appropriations and a little bit of restraint of the new bills coming out.

A couple of my amendments also address this obsession with hiring bureaucrats to enforce diversity. America is supposed to be a country in which we view ourselves as individuals. There are people who, I think, want to destroy America, and try to set one group against the other group.

When I look in my district, I know a lot of people who are Hmong. I recently got to know a lot of people from India. I know people from Russia. They have

had no problem succeeding in America. And they all tell me the same thing: The easiest place in the world to succeed is America.

But there are people who try to divide us and set up programs in which you say, I am not going to succeed because of who I am. I want to succeed as a group of people determined by where my ancestors were born three or five or ten generations ago.

□ 1545

Not only are these programs, first of all, a waste of money. We have to have some people administer the programs, we have nowhere near enough people to work in American business as it is.

Secondly, they are designed to train people that what goes on in Washington is a fight or a contest between ethnic groups—that is a cancerous way to think. The fact that so many immigrants come here without even being able to speak English and succeed, wildly show it as a lie. I am trying to reduce funding or get rid of funding all together for some of these programs.

Ms. DELAURO. Mr. Chair, I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Georgia (Mr. CLYDE).

Mr. CLYDE. Mr. Chair, I rise in support of my amendment in en bloc No. 5.

My amendment prohibits funds made available by this act to be used to promulgate, implement, administer, or enforce President Biden's radical abortion executive order number 14076.

In this executive order, the Biden administration chose to focus its attention on protecting the abortion industry at the expense of women and their unborn children. This is totally unacceptable.

This executive order is also ruled by executive fiat, and my amendment rightfully defunds it. The executive order is also a great example of disinformation. The Biden administration tried to create the Disinformation Governance Board, and it didn't do so well. Now we have it in an executive order—disinformation.

Let me be very clear. Miscarriage management and the treatment of ectopic pregnancies are not abortions. The Biden administration's executive order simply creates fear and confusion by spreading this misinformation.

Finally, nothing in the Constitution grants the Federal Government the authority to expand access to abortion. This is a State's rights issue and must be resolved at the State level.

Mr. Chair, I urge all my colleagues to support this amendment to defund this Biden executive order promoting abortion.

Ms. DELAURO. Mr. Chair, I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Virginia (Mr. GOOD).

Mr. GOOD of Virginia. Mr. Chair, I offered two amendments to this appropriations package that would save a total of \$86 million in taxpayer dollars.

One amendment strikes funding to buy electric vehicles for the Federal fleet, and the other removes woke Federal funding to make public housing “climate resilient”—whatever the heck that is.

The American people cannot afford Biden’s climate agenda. They also don’t want it, as I am confident they will demonstrate 112 days from today.

Americans are suffering from 9 percent inflation, the highest in 40 years. Call it the Biden price hike, if you will, with an average national gas price of nearly \$5 per gallon.

Yet, this Democratic majority wants to make the American people pay for unelected bureaucrats to drive around in expensive electric vehicles and make them fund climate welfare programs.

Washington is pumping \$91 billion in funding toward a ridiculous transportation and housing bill. This is an increase of 12 percent year over year.

Voting for an absurd spending increase is simply a vote for more inflation and economic pain for all Americans.

Mr. Chair, I urge my colleagues to support my amendment, vote to eliminate wasteful spending, and oppose the underlying bill.

Ms. DELAURO. Mr. Chair, I reserve the balance of my time.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. DELAURO. Mr. Chair, I yield myself such time as I may consume in closing.

Mr. Chair, while I have offered this en bloc amendment for legislative efficiency, I strongly oppose it.

The en bloc amendment makes severe, harmful changes to the bills that are under consideration. Included in the en bloc amendments there is a limitation on the Environmental Protection Agency to be able to hire new employees and detrimental efforts to the environment; it limits access to voting; and, in particular, infringes on a woman’s access to healthcare. These amendments do not move our country forward, they really are harmful to all Americans.

Mr. Chair, I urge all Members to oppose this amendment, and I yield back the balance of my time.

The Acting CHAIR (Mr. KRISHNAMOORTHY). The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the yeas appeared to have it.

Ms. GRANGER. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut.

Ms. DELAURO. Mr. Chair, I yield myself 45 seconds. The en bloc includes a number of proposals offered by my Democratic colleagues. It reflects our shared values of investing in the American people to create good-paying jobs, to grow opportunity, and provide a lifeline to the vulnerable.

Mr. Chair, I urge my colleagues to support the important proposals contained in this amendment, and I reserve the balance of my time.

Ms. GRANGER. Mr. Chairman, I yield 10 minutes to the gentleman from Tennessee (Mr. ROSE).

Mr. ROSE. Mr. Chair, I would urge my colleagues to support my amendment, amendment No. 133 of division D, a part of an bloc No. 5.

This amendment would prohibit the SEC from implementing provisions of its proposal entitled Enhancement and Standardization of Climate-Related Disclosures for Investors that mandate disclosure of Scope 3 emissions.

Scope 3 emissions include emissions from activities in an organization's supply chain. Public companies have no ownership—and little to no control—of these emissions.

Recently, I led a bipartisan letter with 118 Members of Congress expressing concern about the proposed rule's impact on farmers.

Mr. Chair, I include in the RECORD the letter.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, May 25, 2022.

Hon. GARY GENSLER,
Chair, Securities and Exchange Commission,
Washington, DC.

DEAR CHAIR GENSLER: We write to express significant concerns with the impact the Securities and Exchange Commission's (SEC) proposed rule on “Enhanced and Standardization of Climate-Related Disclosures for Investors” will have on the agricultural community.

It is our strong belief that this proposed rule, if promulgated, would be a significant and unworkable regulatory burden, and a considerable departure from the SEC's mission to protect investors, facilitate capital formation, and foster fair, orderly, and efficient markets. It is not within the purview of the SEC to regulate farmers and ranchers, which is what this rule would do by requiring public companies to disclose their Scope 3 greenhouse gas (GHG) emissions. To do business with public companies, small farms would be required to disclose a significant amount of climate-related information. But unlike large corporations, small farms do not have full-scale compliance departments. Imposing these additional reporting requirements could disqualify small, family-owned farms from doing business with companies which could lead to more consolidation in the agriculture industry.

Farmers are already regulated by agencies at the local, state, and federal levels. There are currently multiple programs at the federal level to help farmers implement conservation practices. Bureaucrats in Washington, D.C.—specifically unelected SEC staff—who have no jurisdiction over environmental policy and who have never stepped foot on a farm should not have such influence over how farmers take care of their land.

We also have concerns about the specific information from each farm that would have to be reported under this proposal. The time and energy put into complying with this new regulation will divert American farmers away from their primary goal of producing our nation's food, fuel, and fiber. As this rule is written, it is also unclear how farmers will be protected from privacy concerns as they, unlike corporations, live at their places of business where they would now have to disclose significant amounts of information. In *American Farm Bureau Federation v. EPA*, the 8th U.S. Circuit Court for Appeals affirmed that public disclosure of farmers' personal information would constitute a “substantial” and “clearly unwarranted invasion of personal privacy.” Similarly, the SEC should consider how the disclosure of Scope 3 GHG emissions could have privacy implications for farmers and scrap this rule entirely to ensure their private property information would not end up on any public disclosures.

Finally, we are concerned that the comment period, although recently extended until June, is inadequate given the magnitude of this proposed rule, which totals 510 pages and has 1,068 technical footnotes. The Commission's use of abbreviated comment periods for complex rules like this as well as the lack of consistency across rulemaking is troubling, as it will result in less, much-needed input from the public on these important issues.

We appreciate your attention to our concerns and request a response no later than June 24, 2022.

Sincerely,

Mr. ROSE. Mr. Chair, the proposal would drive capital away from smaller suppliers that may not have the resources to measure their greenhouse gas emissions. SEC Chair Gensler points to significant investor demand for requiring this type of information, but the demand is coming from large asset managers and climate activists, not retail investors.

Mr. Chair, I urge my colleagues to support my amendment.

Ms. DELAURO. Mr. Chair, I yield 1 minute to the gentleman from Maryland (Mr. HOYER), the majority leader.

Mr. HOYER. Mr. Chair, this is a bill that has to pass if we are going to keep the government operating. The chair of this committee has worked very hard to get that done, and she has been successful, as chair, of moving most of our bills through this House.

The Senate has not yet moved any of its bills, as it did not last year. This is an important, critical part of our process to fund government and keep it operating and invest in the priorities of the American people. That is what we are doing today in these appropriation bills.

Mr. Chair, I thank Chairwoman ROSA DELAURO and members of the staff of the Appropriations Committee for their hard work on this package.

Once again, our majority is passing appropriation bills in a timely manner. Sadly, as I said, the Senate has yet to bring any appropriation bills to the Senate floor.

Today's package funds about a quarter of the total expected discretionary funding for next year. It reflects the budget request from the Biden administration, and in some cases funds programs at levels we have determined should be increased.

It also includes Community Project Funding for investments in our communities that will help improve public

safety, encourage economic growth, and fight poverty.

Bringing back Community Project Funding was an essential tool in helping to restore Congress' power of the purse. I add that it was done in a bipartisan way, and it was done—thanks to the chair—in a very transparent way. We wanted to make sure that more funding decisions are being made by the Members who know their districts best.

There is much to celebrate in this package, which is why I rise in support of this package. Many important and worthwhile investments in the American people, in our communities, in economic opportunity, and in so many areas—I am not going to go into all of them, they will be discussed.

I do want to highlight just a few of the important victories in this bill, particularly for the constituents and communities I represent in Maryland's Fifth District.

First, Mr. Chairman, this bill moves us a major step closer to realizing a new, badly needed, consolidated FBI Headquarters, a critical national security project that many of us have worked on for more than a decade.

In fact, I started working on this in 2009 when the director of the FBI said: This building is very out of date, does not accommodate the work that we need to do, and we must have a new building—and requested that there be a campus-like setting where all of the FBI could be consolidated from the almost 20 different locations that they were located in in the city.

This legislation will ensure that we can build a fully consolidated FBI Headquarters that meets the needs of the Bureau with a substantial payment of \$500 million toward that project. It limits the GSA to committing any of those funds only to one of the two sites in Maryland and one in Virginia. The GSA just recently adjudged all three of those sites to be eligible sites.

This project, first requested, as I said, by the FBI in 2009, is now ready for final site selection. This building, which had been delayed at a cost of giving the Bureau the tools and facilities necessary to fulfill its missions, can now be advanced in the timeframe I have understood from the administration, which is before the end of the fiscal year.

□ 1600

In May of last year, the four Senators from Maryland and Virginia wrote to President Biden and urged his administration to move forward expeditiously. That was some 15 months ago. It is long past expeditiously, and I look forward to seeing this project realized.

Mr. Chair, I thank the chair and the chair of the subcommittee, Mr. QUIGLEY, for his help on this effort. It is an important one for our country.

Furthermore, this package would provide civilian Federal employees with a 4.6% cost-of-living adjustment—at parity with the raise

being provided to military personnel—and makes DREAMERS eligible to serve as Federal employees.

It increases the V.A. Health Care System's budget by nearly \$22 billion over last year, which will help provide high-quality care to 7.3 million veterans in our country.

And it provides the Army Corps of Engineers with \$3.5 million to further oyster recovery in the Chesapeake Bay.

In addition to these priorities for Maryland's Fifth District, there are other critical investments for which I have advocated for a long time.

These include \$400 million in Election Security Grants through the Election Assistance Commission, which was created under my Help America Vote Act Legislation in 2002.

It also funds a program I've championed to encourage college students to become non-partisan poll workers in their communities.

I was also glad to see the inclusion of \$100 million for the Technology Modernization Fund, which was launched under bipartisan legislation I led with Leader McCarthy.

This will help agencies upgrade technology systems so that they can serve Americans more efficiently and securely.

Additionally, this package makes a strong investment in combatting hunger by providing W.I.C. funds to serve more than 6 million people and \$28.6 billion toward child-nutrition programs.

It will also ensure that S.N.A.P. does not run out of money in 2023 and can continue helping those with the lowest incomes put food on the table.

Mr. Chair, this is a very solid and robust funding package, and it is—as I said—a first step in our effort to continue funding government and delivering the priorities of the American people on time.

I urge the Senate to match our pace in the appropriations process so that we can continue governing responsibly 'for the people.'

Ms. GRANGER. Mr. Chair, I yield myself such time as I may consume.

Mr. Chair, I rise in strong opposition to this en bloc package of amendments. These 29 amendments include excess funding and policies that expand the scope and reach of the Federal Government. They do this while also limiting our country's energy options and allowing funding for President Biden's executive order on abortion.

Again, Mr. Chair, I urge a "no" vote on this en bloc package, and I reserve the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentleman from Illinois (Mr. QUIGLEY), who is the chairman of the Financial Services and General Government Subcommittee.

Mr. QUIGLEY. Mr. Chair, last month, as the Appropriations Committee considered the FSGG funding bill, the Supreme Court took the unprecedented step of stripping American women of a constitutional right to decide their own reproductive destiny. Extremist Justices, inventing flimsy arguments against a right that Americans have enjoyed for nearly 50 years, opened the door for radical legislators to ban abortion.

This is a crisis, and a crisis means all hands are on deck. With my friends,

Representatives LEE, DEGETTE, and FRANKEL, I am offering an amendment to ensure that the FSGG bill is in the fight. This amendment prohibits any Federal funds from my bill from being used in contravention to President Biden's executive order on protecting access to reproductive healthcare.

This is not just about the executive order itself. It is about the policies and recommendations that will result from it. The interagency policymaking effort to address barriers to abortion access must include FSGG jurisdiction, and Federal agencies must all work to swiftly and fully implement solutions to these barriers.

In addition, FSGG has jurisdiction over the District of Columbia. Anti-abortion extremists go so far as to try to tell D.C. taxpayers that they cannot make their own decisions about whether to support access to reproductive care. I am here to say that D.C. citizens shouldn't be bullied by extremists pushing an ideological agenda. The Federal Government's place must only be to improve access to care in D.C., never to tell the citizens of our Nation's Capital that members of a body to which they are not even permitted to send a voting representative say that they can't look after their own reproductive destinies.

President Biden called for a whole-of-government effort to safeguard abortion access. As the branch of government charged with the purse strings of the United States, it is our duty to join that effort.

Mr. Chair, I urge my colleagues to support this amendment.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentleman from Massachusetts (Mr. AUCHINCLOSS).

Mr. AUCHINCLOSS. Mr. Chair, I rise today in support of the en bloc package, which includes my amendment to increase funding for the Department of Veterans Affairs' electronic records system.

One of the most insistent casework requests I receive is from veterans who are unable to receive care due to the Department's records request backlog. I have raised with the Department individual cases, and I have also been working with local veterans service organizations to advocate on behalf of their members. Yet, it still takes anywhere from 6 to 8 months to get anything back from the archives. That is not acceptable.

Digitizing veterans' records will expedite their requests and improve their experience.

I know first-hand what veterans experience while on Active Duty. It is our responsibility to ensure that they have access to the high-quality care and services promised to them when they swore an oath to protect and serve our country.

Mr. Chair, I urge support for my amendment.

Ms. DELAURO. Mr. Chair, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Chair, I thank the gentlewoman for her leadership, and the ranking member, as well.

Let me say that America is going to get not a payday but an investment.

Unlike how my colleagues like to characterize the hard work of the appropriators and our chairwoman, this is about good-paying jobs, \$90 billion in transportation.

This is about tackling hunger and agriculture, some \$27 million.

This is about helping Houston with its horrible and yearly confrontation with flooding.

Yes, this is about the issues of Energy. As well, with Financial Services, this is about helping our consumers. Of course, in Interior, I want to say that this is about helping the work that I am doing on the Emancipation Trail.

I am delighted that I also rise to support all the en blocs. I have amendments in all of them. Particularly, I want to emphasize the work that is being done through my amendments on oversight over the General Land Office that has tackled Houston, Harris County, and the region after Hurricane Harvey like they are at odds. Our Federal money, \$4 billion, was supposed to go to Harris County and Houston. Houston ultimately got zero amount at a certain stage, and they only gave Harris County \$800,000 when we are suffering with loss of housing and with major flooding.

My amendment will talk about major oversight over the GLO and their treatment of local jurisdictions. This plays across America when States get money, and they don't believe that it should go to the local communities.

Let me also indicate I am glad that my human trafficking victims bill is in. That provides for SNAP resources and to clarify that if you are educating a human trafficking victim that is not documented, you can clarify for them without looking like you are recruiting or selling SNAP to let them know that they are eligible for it, which is extremely important.

Also, I-45, the President of the United States issued an equity policy that whenever you do major infrastructure projects, you should look at how it impacts historic neighborhoods and how it impacts the minority neighborhoods and urban neighborhoods. I-45, a major Federal project, has not even perceived that to be important. My amendment indicates that that should be the case.

The Acting CHAIR. The time of the gentlewoman has expired.

Ms. DELAURO. Mr. Chair, I yield the gentlewoman from Texas an additional 1 minute.

Ms. JACKSON LEE. Mr. Chair, I thank the gentlewoman for her graciousness.

That is an ongoing issue that we have in our community, where the communities are not taken into consideration when the houses are leveled and when the flooding is increased by an infrastructure project that we now have a

title VI proceeding under that is funded by Federal dollars.

Let me also express my appreciation for amendments dealing with the Federal Railroad Administration. Everyone that knows it has trains. We know that it provides part of the supply chain. But in our communities, there are the crossings, there are the sounds, and there are the horns. All we want to do is work harmoniously in the oversight over the Federal Railroad Administration to deal with safety and operations in our communities. That is particularly important.

I also want to express appreciation for the work my amendments will do and that they have been accepted dealing with the issue of historic preservation, which will include places like Freedmen's Town, Independence Heights, and, of course, the historic Third Ward where Emancipation Park is.

Again, the underlying bill is a bill that will invest in America. I support this legislation and the good work of the Appropriations Committee.

Mr. Chair, I ask everyone to support that and the amendments included in the en bloc.

Mr. Chair, I rise to speak in a strong support of H.R. 8294, the Transportation, Housing and Urban Development, Agriculture, Rural Development, Energy and Water Development, Financial Services and General Government, Interior, Environment, Military Construction, and Veterans Affairs Appropriations Act.

H.R. 8294 makes key investments in rebuilding our nation's infrastructure, expanding research innovation, combating climate change, and honoring the sacrifice and commitment of our nation's veterans.

The diligent work that produced this comprehensive legislation will make a very positive impact on so many sectors and activities throughout American society.

Mr. Chair, I also want to voice my strong support for En Bloc Amendments No. 2, 3, 6, and 7, which incorporates Jackson Lee Amendments.

I thank the Rules Committee and Chairman MCGOVERN for making these amendments in order and the Appropriations Committee and Chairwoman DELAURO for including it in this En Bloc Amendment.

The Jackson Lee amendments are in the following Divisions of the bill:

Division A—Transportation, Housing and Urban Development
Division B—Agriculture
Division E—Interior and the Environment

EN BLOC #2

Jackson Lee Amendment #46 supports the work of the National Institute of Food and Agriculture (NIFA) by making a \$2,000,000 increase in funding to that office for the purpose of supporting agriculture research programs particularly at 1890s Institutions, which are land grant colleges at 28 Historically Black Colleges and Universities (HBCUs), as well as Hispanic-serving institutions, and other educational institutions that benefit underrepresented communities.

This amendment promotes NIFA's work with agricultural experiment stations, cooperative forestry, and other innovations to improve our nation's food production through agricultural

research, economic analysis, extension, and higher education.

The NIFA was created at the time of the industrial revolution to ensure that the nation would have a sufficient number of working farms to provide a reliable supply of domestically produced food.

One of ways NIFA achieves its mission is by providing research grants to education institutions, which include 1890s institutions created by the Morrill Act of 1890.

Today, land-grant colleges and universities can be found in 18 states, the District of Columbia and the U.S. Virgin Islands. The list includes:

Alabama A&M University
 Alcorn State University
 Delaware State University
 Florida A&M University
 Fort Valley State University
 Kentucky State University
 Langston University
 Lincoln University
 North Carolina A&T State University
 Prairie View A&M University in Texas
 South Carolina State University
 Southern University System
 Tennessee State University
 Tuskegee University
 University of Arkansas Pine Bluff
 University of Maryland Eastern Shore
 University of the District of Columbia*
 University of the Virgin Islands
 Virginia State University
 West Virginia State University
 HBCUs annually enroll 40% of all African American students in 4-year colleges and universities. HBCUs are prominent among research institutions in fields such as:

- animal sciences
- sustainable agriculture and agriculture economics
- toxicology and waste management
- conservation and environmental management
- business and industrial development
- biomedical science

In particular, Jackson Lee Amendment #68 is necessary to make clear that providing victims of trafficking access to information about their eligibility to receive SNAP benefits does not constitute the type of SNAP recruitment activities or “advertising” of the SNAP program prohibited by the bill and by Section 4018 of the Agriculture Act of 2014 (Public Law No: 113–079).

Trafficking in humans, and especially domestic child trafficking, has no place in a civilized society. Those who engage in this illicit trade should be prosecuted to the fullest extent of the law. This House made that clear again in 2021 when it passed H.R. 3530, the Justice for Victims of Trafficking Act, which contained my Sense of the Congress amendment added during the Judiciary Committee markup.

That means we need to ensure that state and local law enforcement agencies have the tools, resources, and training necessary to identify, apprehend, and prosecute criminals who ruthless traffic in children and young persons.

And one of the most effective resources in bringing criminals to justice is the cooperation and assistance of their victims.

Perpetrators of crime know that they are more likely to evade detection and punishment when their victims refuse to assist or cooper-

ate with law enforcement. That is why they make it a point to instill fear in their victims—for their own safety or that of family and loved ones.

EN BLOC #3

Jackson Lee Amendment #19 increases and decreases HUD’s Office of Inspector General account by \$1,000,000 with the intent to support the OIG’s oversight of the Texas General Land Office to track the accounting of Emergency Supplemental Disaster Appropriations for Hurricane Harvey Mitigation and Recovery that Congress approved for the 2017 disaster.

Agricultural research programs at HCBUs assist people living in densely populated areas to learn ways to eliminate food deserts, increase public education about farming, bolster appreciation for our nation’s farmers, and provide new avenues to careers for those graduating with degrees in agriculture who seek to enter cutting-edge agricultural research.

This amendment promotes NIFA’s work with agricultural experiment stations, cooperative forestry, and other innovations to improve our nation’s food production through agricultural research, economic analysis, extension, and higher education.

The funds provided by the Jackson Lee amendment would support research and education for helping urban and suburban communities maximize their green space by turning it into productive farming resources to support access to affordable foods.

Jackson Lee Amendment #47 provides a straightforward, important contribution to the bill for a goal shared by every Member of this body: ending the scourge of human trafficking. This amendment provides that:

None of the funds made available by this Act for “DOMESTIC FOOD PROGRAMS—Food & Nutrition Service—Supplemental Nutrition Assistance Program” may be used in contravention of section 107(b) of Division A of the Victims of Trafficking and Violence Protection Act of 2000 (22 U.S.C. 7105(b)).

The effect of this amendment will be to make clear that nothing in this bill restricts the authority of the Secretary of Agriculture or any federal agency head from providing assistance and benefits to victims of trafficking under current law as authorized by 22 U.S.C. §7105(b) of the Victims of Trafficking and Violence Protection Act of 2000 (114 Stat. 1464, Pub. Law 106–386).

Jackson Lee Amendment #20 provides an increase of \$1,000,000 in assistance to address challenges faced by historically disadvantaged communities and areas impacted by persistent poverty not included in decision making when major highway construction threatens their homes, businesses, and culturally significant structures.

Jackson Lee Amendment #21 increases and decreases by \$1,000,000 the Community Development Fund and the Community Development Block Grant program to address the fairness in the use of Community Development Block Grant Disaster funding to repair or replace single family homes damaged during Hurricane Harvey to ensure that multi-generational homes can house families at documented pre-disaster capacity.

Jackson Lee Amendment #22 increases and decreases by \$1,000,000 the Federal Rail Administration Safety and Operation’s account to

emphasize the need to provide dedicated funding to address community engagement on safety issues related to railroad crossings in urban areas.

Jackson Lee Amendment #23 prohibits the Department of Transportation from using funds for Section 106 Transportation construction projects in urban areas that have not been determined to meet the statutory and fiduciary obligations of the National Historic Preservation Act (54 USC 306108).

EN BLOC #6

Jackson Lee Amendment #57 increases and decreases funding for Environmental Programs and Management by \$5 million to highlight the need to support culturally competent federal, state, and local public health and environmental protection efforts to address cancer clusters impacting overburdened communities in the gulf coast region.

EN BLOC #7

Jackson Lee Amendment #56 increases and decreases funds for the Historic Preservation Fund by \$3,000,000 with the intent of enhancing activities for the preservation, restoration, and maintenance of nationally significant sites, artifacts, and structures through competitive grants at the local, state, and federal levels focusing on projects involving HBCUs, sites and stories linked to the Civil Rights movement, landmarks associated with communities that are historically underrepresented, and sites related to the histories of Indigenous peoples.

The Historic Preservation Fund is vital in working to preserve nationally significant sites, structures, and artifacts. We want the environment to be safe, but we want the historic environment to be preserved for those who are a valuable part of the historical story of America.

It is crucial to the Freedmen’s Town community in Houston, but it is also crucial to the Tulsa story in Oklahoma, the story of Chicago, Savannah, New York, and many other States where we have systematically ignored the historic preservation of our Nation. Who will tell our children the story? I am fighting in Houston. Others are fighting elsewhere. This amendment is to create the historical record, the legislative record that we are committed to.

I urge all Members to vote in support of En Bloc #2, 3, 6, and 7, and the Jackson Lee Amendments.

Ms. DELAURO. Mr. Chair, I yield back the balance of my time.

Mr. CARSON. Mr. Chair, I rise today in support of my amendment, co-authored with Congresswoman OMAR, in support of financial literacy education. The amendment increases and decreases the Treasury Salaries and Expenses account by \$500,000. This is to encourage Treasury to work with the Consumer Financial Protection Bureau to study the best models for financial literacy programming and assist schools, nonprofits, and localities in developing their own financial literacy programs for young people and families.

If the pandemic has shown us anything it is that our financial well-being is important in times of crisis. Therefore, I believe it is important to promote and establish financial literacy skills for students across our nation to establish habits that will last a lifetime. Studies have shown that 88 percent of Americans believe finance education should be taught in schools and 92 percent of K–12 teachers believe that financial education should be taught in school, but only 12 percent of teachers actually teach

the subject. Yet as of this year only 22.7 percent of U.S. high school students are guaranteed to receive a personal finance education.

According to the Government Accountability Office, giving Americans the information they need to make effective financial decisions can be key to their well-being and to the country's economic health. The global financial crisis, when many borrowers failed to fully understand the risks associated with certain financial products and currently, the economic hardships presented by the sudden disruptions caused by the spread of COVID-19, underscore the need to improve individuals' financial literacy and empower all Americans to make informed financial decisions. This is especially true for young people as they are earning their first paychecks, securing student aid, and establishing their financial independence.

I believe America should be leading the world with the best-educated students who will drive our economic innovation and success.

I urge my colleagues to vote in favor of this amendment.

Mr. LEVIN of Michigan. Mr. Chair, I rise today to urge support for my amendment to H.R. 8294, the fiscal year 2023 Transportation, Housing and Urban Development, Agriculture, Rural Development, Energy and Water Development, Financial Services and General Government, Interior, Environment, Military Construction, and Veterans Affairs Appropriations Act, to require funds for the Election Assistance Commission to be used to pay for the wages of election poll workers. I thank Chairs ROSA DELAURO and MIKE QUIGLEY for their support of this amendment.

We are at a crossroads in our nation. Efforts to undermine our democracy and perpetuate the Big Lie have made the workplace incredibly challenging for election workers. Despite these challenges, election workers continue to ensure that Americans can vote safely and securely. That is why we must ensure they are adequately paid for their contributions. Our system of democratic participation cannot function without them.

Last month, I introduced H.R. 8015, the Enhanced Pay for Election Workers Act alongside 40 colleagues. The bill creates a new grant program to provide states with funding to increase election worker wages. This amendment builds off that proposal to highlight the need for federal election funds to help pay election poll workers adequately. Election workers are chronically underpaid, and increased wages will help improve recruitment and morale. In turn, this will help all of us by ensuring the smooth administration of elections, which safeguards our democracy. I urge a yes vote on this amendment.
