

Washington Democrats' Big Government spending and war on American energy.

Proving just how out of touch President Biden is, he shrugged off talk of a recession and said Americans are just facing an economic transition.

This administration has spent more time trying to convince Americans we are not in a recession than actually working on the problem.

Americans are hurting right now, and as the price of gas and groceries continues to rise, Washington Democrats are preparing legislation in Congress that will raise taxes on farmers, businesses, and working families.

The Democrat elite don't live in the real world, and they continue to put the priorities of their radical agenda over working American families—the same people they profess to help.

Our economy is shrinking, and Big Government spending is growing.

Americans cannot afford Washington Democrats' far-left agenda.

#### LEGISLATIVE HIGHLIGHTS

(Ms. DEAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DEAN. Madam Speaker, as the summer session comes to a close, and I return home to meet with folks from Cheltenham to Collegeville, Pottstown to Boyertown, and everywhere in between, I am reflecting on what work we have accomplished, work like my fire detectors bill that will prevent tragedies, like the horrific fire we saw in Philadelphia that claimed 12 lives, protecting people in public housing; or my SECURE Notarization Act that will make it easier and faster to notarize documents for families and military personnel abroad.

Democrats are putting people over politics. We passed major protections for abortion, contraception, gay marriage, bills to prevent price gouging and fight inflation, and the CHIPS and Science Act to revitalize American manufacturing.

Next is our reconciliation bill that will deliver the largest investment in American history to tackle climate change, healthcare, drug pricing, and so much more.

Recognizing the humanity of our work, we are putting people over power. We are putting people over politics.

#### NATIONAL INTERN DAY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to recognize National Intern Day. Today is a day dedicated to recognizing and celebrating the future leaders of the world: interns.

National Intern Day has served as an opportunity for thousands of employers

to commemorate and thank their hard-working interns.

I will take this time to recognize and thank our three current interns who join me this summer: Adiya, Ben, and Sam. All three have been instrumental in helping serve both the people of Pennsylvania's 15th Congressional District and the House Agriculture Committee.

From conducting research to drafting speeches and statements, to guiding tours and responding to constituents, Adiya, Ben, and Sam were fantastic additions to my D.C. office.

Madam Speaker, our interns today are truly the leaders of tomorrow, and they deserve recognition for their outstanding work.

Thank you to our interns, again, for joining us this summer.

#### HONORING ZAHRA ABBAS

(Ms. TLAIB asked and was given permission to address the House for 1 minute.)

Ms. TLAIB. Madam Speaker, Michigan lost an incredible human being yesterday.

Zahra Abbas was brilliant, compassionate, and full of love for community.

Zahra lived with epilepsy, which she learned to control with the use of cannabis. This inspired her mission to educate and advocate for the access of healthcare and the use of alternative approaches.

Zahra founded and became the chair of the Cannabis Caucus of the Michigan Democratic Party. She was also a DNC delegate.

Zahra spoke passionately about issues that she believed in at rallies and community meetings and meetings with other political leaders across Michigan and the Nation. She gained so much incredible respect from our community.

My team and I are devastated and heartbroken. We extend our deepest condolences to the Abbas family. Allah Yerhama.

#### RECOGNIZING GENE ANGLIN

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Madam Speaker, I rise today to recognize the life of an incredible public servant, a veteran, and a great American: Gene Anglin.

Born in 1924 in Wadley, Georgia, Gene was a Georgia native, who served his community and was a defender of freedom.

At the onset of World War II, Gene felt the call to action but was denied entry to the U.S. Army due to color blindness.

Gene went to work for Bell Aircraft Corporation building B-29 Superfortress bombers.

In 1944, Gene successfully enlisted and joined the U.S. Army in the heavy

weapons company of the 100th Infantry Division.

Gene deployed to the European theater where his division experienced 185 days of uninterrupted combat as they journeyed through France and into Germany.

Gene was awarded the Bronze Star Medal Combat Infantryman Badge and Presidential Unit Citation for heroism in battle.

After the war, Gene attended the Georgia Institute of Technology and earned a bachelor's degree in mechanical engineering.

Gene spent 22 years at Robert and Company Association, among other firms. He then retired to St. Simons Island in the First Congressional District where he worked as a golf course starter at Sea Island Golf Club and was an active member of St. Simons Presbyterian Church and the Rotary Club of St. Simons.

Truly an example of America's Greatest Generation, Gene will be dearly missed.

#### CONGRATULATING RON WILES ON HIS RETIREMENT

(Mr. KILDEE asked and was given permission to address the House for 1 minute.)

Mr. KILDEE. Madam Speaker, today I rise to honor Grand Blanc Township chief of police Ron Wiles as he retires after 26 years of service on the police force.

In his quarter century serving Grand Blanc Township, Chief Wiles has been an incredible champion for community policing, bringing law enforcement and the community together keeping mid-Michigan residents safe from crime.

Chief Wiles is an important member of the Genesee County Advocates and Leaders for Police and Community Trust, or ALPACT, a forum where community leaders and law enforcement come together to develop public safety solutions for crime.

Chief Wiles is also well-recognized as a figure across Michigan law enforcement. Recently, he completed an outstanding term as president of the Michigan Association of Chiefs of Police.

Chief Wiles has also served on the Governor's Traffic Safety Advisory Commission; and in March, Chief Wiles was appointed by Governor Whitmer to serve on the Michigan Commission on Law Enforcement Standards where he will continue working to better the law enforcement profession and keep Michiganians safe.

I personally thank Chief Wiles for his service to our community, for our work together on behalf of mid-Michigan. Grand Blanc Township has been blessed by his presence, and I congratulate him on his retirement.

#### CONGRATULATING THE WARWICK WARRIORS

(Mr. SMUCKER asked and was given permission to address the House for 1 minute.)

Mr. SMUCKER. Madam Speaker, I rise today to congratulate the young men of Warwick School District's baseball team.

The Warwick Warriors baseball beat Liberty High to close out a successful 23-2 season by winning the district's first PIAA 6A State Championship.

The game, held last month, was impacted by a prolonged weather delay, but the warriors held firm to the early lead to capture the championship.

Throughout their dominating season, the Warriors also clinched the District Three title, as well.

Madam Speaker, it is no surprise that the community is very proud of these students for their achievement on the baseball diamond. It was great to see the local law enforcement and volunteer firefighters join with the community by participating in a parade to honor their achievement.

Congratulations to the members and coaches of the Warwick Warrior State championship baseball team. The whole community is wishing them continued success. May they carry the lessons they learned playing as part of a successful team toward their future goals.

□ 0915

#### BRING THE CHIPS INDUSTRY HOME

(Ms. MANNING asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. MANNING. Madam Speaker, the CHIPS and Science Act is critical legislation to ramp up American production of semiconductor chips.

Our economy relies on these chips, which are key components in everything from cell phones to cars to advancing national security measures.

By increasing production here in America, we will onshore a critical capability, reduce dependence on foreign manufacturers, and lower costs for hardworking families.

The United States invented the semiconductor chip. We used to make 40 percent of the world's chips. Now, we make 12 percent, leaving key industries vulnerable to foreign interference. It is high time we counter the threat posed by countries like China and Russia and bring this industry home.

The CHIPS and Science Act does just that, and this investment helps North Carolina chip manufacturers, including Qorvo and IQE, major employers in my home district, to ramp up production and create good-paying jobs.

Madam Speaker, I proudly cast my vote to send the CHIPS Act to the President's desk. I am ready to see this legislation work for North Carolinians and for the country.

#### REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H. RES. 1300, WAIVING A REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS REPORTED BY THE COMMITTEE ON RULES

Mr. MCGOVERN, from the Committee on Rules, submitted a privileged report (Rept. No. 117-447) on the resolution (H. Res. 1300), which was referred to the House Calendar and ordered to be printed.

#### WAIVING A REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS REPORTED BY THE COMMITTEE ON RULES

Mr. MCGOVERN. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 1300 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

##### H. RES. 1300

*Resolved*, That the requirement of clause 6(a) of rule XIII for a two-thirds vote to consider a report from the Committee on Rules on the same day it is presented to the House is waived with respect to any resolution reported through the legislative day of July 29, 2022.

SEC. 2. (a) Section 7 of House Resolution 1289 shall have no force or effect.

(b) Clause 7(a)(1) of rule XV shall not apply through the legislative day of Friday, September 16, 2022.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 1 hour.

Mr. MCGOVERN. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Pennsylvania (Mr. RESCENTIALER), my good friend, pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

##### GENERAL LEAVE

Mr. MCGOVERN. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. MCGOVERN. Madam Speaker, the Committee on Rules met and reported a rule, House Resolution 1300, waiving clause 6(a) of rule XIII requiring a two-thirds vote to consider a rule on the same day it is reported from the Committee on Rules against any resolution reported through the legislative day of July 29, 2022.

The rule also allows certain legislation to qualify for the Consensus Calendar before the end of Congress.

Madam Speaker, we are here on a same-day rule, which I hope will give us the opportunity to address a critical and urgent issue: gun violence in America.

We are here because gun violence is destroying communities, tearing apart families, and making our streets less safe. This majority is going to try to do every single thing we possibly can to stop it. I don't know whether we will succeed, but we are going to try.

Democrats actually passed the Safer Communities Act, the first piece of major gun safety legislation in decades, and we sent it to President Biden's desk. We are taking action. We are getting things done, and we are trying to save lives.

Contrast that with what Republicans did to address gun violence and crime the last time they were in charge, which is absolutely nothing. Their answer to gun violence is more guns, and if that is not enough, even more guns. For God's sake, America already has more guns than people. How many guns do we need until everybody is safe?

I get it. My Republican friends are going to complain about the process. They are going to complain about same-day authority, even though they used it themselves, but let's not go there because we want to have a productive debate here.

The reality is this: This is the last day before the district work period, and this is urgent work.

Now, let me tell you, as chairman of the House Committee on Rules, I want to do whatever I can to get us to vote on and pass an assault weapons ban because I am sick and tired of the mass shootings and the terror and the fear. I am sick and tired of shattered families having to grieve.

Enough is enough. I am going to do everything I can to get this bill passed, and I am not going to apologize for that. This rule preserves that option. If it means that we stay here a little bit longer today, so be it. We need to act with urgency.

Let me just say, for the record, the assault weapons bill that we may possibly consider today went through regular order. The Committee on the Judiciary had a hearing; it was marked up. If we decide to bring it to the floor today, which I hope we will, the Committee on Rules will meet, and we will debate this, and we will vote on this. But let me just say to everybody: We have an obligation to act with urgency. We have a responsibility to address this crisis.

Madam Speaker, I reserve the balance of my time.

Mr. RESCENTIALER. Madam Speaker, I thank my good friend and the distinguished chairman of the Committee on Rules for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Madam Speaker, I just want to, for the record, say there is nothing before us in the rule that has anything to do with any kind of assault weapons ban or policing. This is simply a rule that would waive the 24-hour requirement.

Look, to be candid, the Democrats have now opened the door for Republicans to use this in the future to push
